Stinton & Son

Claremont Nurseries, Geelong - Australia
(Sole Proprietor, Fredk. W. Stinton, F.R.H.S., Eng.)

Terms of Business

We Sell only under the following Terms and Conditions of Sale:—

1. The greatest care is taken by us to supply all Seeds, Bulbs, Plants and Roots of the best quality and true to name; but, owing to conditions over which we have no control it is impossible to guarantee this, and condition is made on every purchase of Seed, Bulbs, Plants or Roots, that, **NOTWITHSTANDING ANY STATUTE OR RULE TO THE CONTRARY, WE SHALL NOT BE RESPONSIBLE FOR RESULTS**, and give no Warranty, expressed or implied, as to the nature, description, kind, quality or productiveness of such Seeds, Bulbs, Plants or Roots. If you do not accept the Seeds, Bulbs, Plants or Roots as having been sold to you under these terms, kindly return same to us at once, Carriage Paid.
2. **PRICES** are quoted nett subject to all goods being unsold on receipt of order.
3. **PACKING** and packing material will be charged at cost price, but no charge will be made for the packing of postal packets and parcels. If so requested, trees, shrubs and plants quoted as in pots will be removed from pots and balled to reduce freight charges.
4. **DELIVERY** of all goods F.O.R. or F.O.B. Geelong. Please state if you desire your order despatched by any particular means of transport; otherwise we will despatch by cheapest means to your advantage. All goods sent by rail or water are at customer's risk; but, if necessary, and unless otherwise instructed, Insurance is effected against Marine Loss, and current rate of premium charged.
Please note that all goods sent by POST are entirely at the Consignee's risk.
5. **FREIGHT AND POSTAGE.** We pay postage on all retail orders for Flower and Vegetable seed (excepting Peas and Beans). Postage or freight on all other goods is payable by Purchaser.
6. **ACCOUNTS.** To **APPROVED** customers, our terms are **NETT** cash within thirty (30) days of date of Invoice. First orders are to be accompanied by satisfactory business references, cash or cheque. We appreciate payment of amounts under one pound (£1) by Postal Note or Money Order.

Anemone "Scarlet Emperor" growing at our Moolap Bulb Grounds (to the right, Ranunculi).

To Our Customers

(ALL PREVIOUS LISTS AND PRICES ARE HEREBY CANCELLED.)

IN presenting to our patrons and friends our Catalogue of Bulbs, Seeds and Plants, we advise that we have departed from our custom of issuing seasonal price lists, and, in response to numerous requests, have decided, until further notice, to incorporate all our principal lines in an ANNUAL. We wish also to take this opportunity to express our appreciation of your continued patronage, and of the many letters received expressing complete satisfaction with our products and service. Our patrons are assured of best results by using only "Claremont" bulbs, plants and seed, for we are GENUINE PRACTICAL NURSEYMEN. We are at all times pleased to conduct our friends through our Nurseries, covering approximately FORTY ACRES, where all varieties of plants and trees may be seen in various stages of growth.

"CLAREMONT" stands for the highest grade products, and excellent service, and has become a household word among Garden Lovers. When purchasing your requirements, look for our registered Trade Mark—

WHAT'S IN A NAME?

Each year many thousands of bulbs which are not of our production are undoubtedly sold over our name and we wish to advise our clients that our bulbs are not distributed other than in our printed bags and sealed with our registered trade mark.

STINTON & SON,
Claremont Nurseries,
Geelong, Vic.

Special Notice

It has come to our knowledge that bulbs and seed are being offered to the public as being our products which are not of our growing. For your protection, we pack **ONLY** in our printed packets, sealed with our registered trademark.

To ENSURE OBTAINING BEST RESULTS purchase only "CLAREMONT"
Products packed as above.

[To unknown enquirers we make a charge of 2/-
for this catalogue. This sum will be refunded
in cash or in special bulbs on receipt of first
order to the value of 5/-]

Order Early

Clients are advised to ORDER EARLY and we are pleased to book Orders for future delivery without PREPAYMENT. Mention is made throughout this catalogue of months certain plants, etc., are ready for delivery. Many clients leave ordering until time for delivery and consequently find that the whole of our stock has been booked previously. This applies particularly to DELPHINIUMS, PERENNIAL LUPINS, and TUBEROUS BEGONIAS, etc.

Kniphofias add a bright note of color
to the Flower Garden.

MODERN BEARDED FLAG IRIS

Stinton's "Claremont" Grown

THE Bearded Irises are a charming group of garden plants and most of them, being perfectly hardy and vigorous, and free flowering, are easily grown in almost any good garden soil. A somewhat well-drained, shaded position will suit the plants better than a very sunny one, as the blooms will then last much longer.

For massed effect of spring flowers we strongly recommend the planting of these Irises in conjunction with Lupins. We list the newest and most desirable varieties, and add to our stocks each year.

Effective Planting of Modern Bearded Flag Iris near Steps.

Abbreviations—S. Standards or Upright Petals. F. Falls or Drooping Petals.

- | | | | |
|---|----------|--|----------|

IRISES

Stinton's "Claremont" Grown

FOR elegance of form and exquisite variety of color combinations, the Iris family is in a class by itself. They are the nearest rivals to the Orchids in this regard. On the other hand, they are the easiest possible subjects to grow, and succeed in any ordinary garden soil with a minimum of care. They are perfectly hardy.

SPANISH IRIS (Bulbous).

GIPSY QUEEN—Dark bronze	5/- doz.
HERCULES—Bronze, shaded purplish-violet	5/- doz.
LOUISE—Standards, porcelain blue; falls, bright yellow; striking flower	2/6 doz.
MR. WALTER T. WARE—One of the best yellows. Beautiful flower	3/- doz.
SOPHIE JAFFEE—Primrose yellow, orange blotch; extra large flower	2/6 doz.
THUNDERBOLT (Goldcup)—Dark bronze, golden blotch, large flower	5/- doz.
WHITE EXCELSIOR—A fine, elegant flower; pure white, good substance to petals, very large	5/- doz.
SPANISH IRIS MIXED—In a splendid mixture	1/6 doz.

DUTCH IRIS (Bulbous).

A new and valuable race of Irises resembling the Spanish varieties in form, but the flowers are much larger and the habit of growth is taller. They bloom a few days before the Spanish Iris.

HART NIBBRIG—Brilliant clear blue, excellent for cutting.	3/6 doz.
HUCHTENBURG—Falls, orange-yellow; standards, palest blue passing to white; elegant flower	3/6 doz.
IMPERATOR—A new Hybrid Iris resembling the Spanish type, although of different origin. "Imperator" differs in that it has larger flowers of greater substance and blooms very early. The flower standards are lavender purple; falls, large and broad, azure blue with a brilliant blotch, strong grower; height 27 inches	2/6 doz.
REMBRANDT—Wide dark blue standards; falls, rich deep blue with orange blotch. Vigorous grower, extra	3/6 doz.
YELLOW QUEEN—Bright golden yellow; orange blotch on falls	2/6 doz.
DUTCH MIXED	2/- doz.

DUTCH IRIS, "WEDGWOOD."

With its clear soft blue, large and well-formed flowers borne on long stems, we consider this to be the most outstanding of all Iris varieties.

It is the earliest of all to bloom, the flowers usually making an appearance in August when flowers are so scarce.

Large Bulbs, 5/- Per Dozen; 40/- Per Hundred.

MISCELLANEOUS BULBOUS IRIS.

IRIS PAVONIA (Peacock Iris)—White with three distinct blue eyes	2/6 doz.
IRIS TUBEROSA (The Snake's Head Iris)—Pale green and black; very distinct	5/- doz.
IRIS TINGITANA—A beautiful bulbous Iris native of Tangiers. Falls, light blue with deeper veins and a yellow keel spreading into a broad patch behind	2/6 doz.

REGELIO CYCLUS, ONCOCYCLUS AND CUSHION TYPES.

The "Oncocyclus" or "Cushion" Irises as they are called, are remarkable for their large and showy flowers, the outer segments of which are diffusely hairy down the claw and the lower part of the blade or "fall." They are usually the largest, most charming and most beautifully colored of all the Irises, and the great beauty and variety of form of their flowers is an ample recompense for the care in growing them.

BELLORIO—Clear lavender standards. Falls, smoky grey veined brown. Good free-flowering sort, and flowers borne on long, clean stems	3/- each
CARMELO—Deep sky blue. Falls prettily marked at base with deeper color. Strong growing and free flowering	3/6 each
CONGRES—Standards clear violet. Falls, deep reddish violet veined yellow and white at base. Large flower	2/6 each
FIDES—Rich plum purple with most beautiful markings.	2/6 each
HESPERIA—Wine colored standards. Falls, creamy white veined with brown and red, and blotched at base with velvety maroon	2/6 each
HOOGIANA—A lovely Iris which is very hardy and free-flowering. Color an exquisite shade of soft sky blue. An outstanding variety which should be in every collection	2/6 each
LADY LILFORD—Dark blue standards. Falls, deep black violet veined white at base	2/6 each
MORERA—Lavender blue veined with deep brown-violet markings. A strong grower and very pretty flower	2/6 each
PERSEPHONE—Violet-blue standards. Falls fading to white at base and evenly lined with deep purple	2/6 each
SHUSHAN—Deep violet standards. Falls deep black crimson shading to deep golden yellow at base	3/6 each
SUSIANA (Mourning Iris)—A remarkably handsome and singular cushion Iris, native of the Levant and Asia Minor. The large flowers have a dark silver-grey appearance, produced by numerous veins and dots of blackish-brown or purple with a flush of purple or lilac on a creamy-white ground. The falls have a broad cushion of brownish black hairs near the base. It is considered to be one of the best Irises in cultivation	3/6 each
WM. MOHR—A magnificent flower which opens broadly like a Japanese Iris. Color, exquisite rich mauve veined with deep violet	5/- each
ZWANENBURG—A free-flowering early variety, opening its flowers in August and September. Color, silver splashed greenish old gold. Quite a rich Oriental coloring. Very fine for cutting	1/- each

MISCELLANEOUS IRIS.

DELAVAYI—Dark purple blue	1/- each
FULVA—Quite distinct, reddish copper color	1/- each
LONGIPETALA—Cream and lilac purple, narrow grass-like foliage	1/- each
PUMILA or CRIMEAN—These low-growing Iris are very suitable for the rock garden, the tufts of flowers giving a continuous show of flowers all through the Spring. Obtainable in the following colors: blue, purple, white, yellow, etc. 6d. ea.; 5/- doz.	
TECTORUM (Japanese Roof Iris)—A variety said to be grown on the roofs of Japanese farm houses. Deep blue with white comb	1/- each
TENAX (Californian Iris)—Slender grassy foliage; flowers vary from deep claret to pale lavender	1/- each

TULIPS

Stinton's "Claremont" Grown

FOR beauty of form and brilliance of color, Tulips are unequalled. For bedding they are amongst the most popular and effective of all hardy bulbous plants. The most gorgeous effects can be produced by harmonious massing of contrasting colors, and as cut flowers they are also invaluable.

Darwin Tulips growing in our Bulb Grounds at Moolap, Victoria.

"Claremont" Special Offer No. 1 TULIPS, RAINBOW MIXTURE.

This Rainbow Mixture is highly recommended for planting in beds and borders, and is made from the best large flowered varieties. In composing this mixture, the utmost care has been taken to ensure that all the shades and colors are represented and that they flower at the same time. A group of this Rainbow Mixture, with its great variety of coloring and form, gives a delightful effect.

PRICE 3/6 Per Dozen; 25/- Per Hundred.

"Claremont" Special Offer No. 2 DARWIN TULIPS.

(Our Selection)

4 each of 6 Distinct Varieties of these Beautiful Tulips,
for 9/-

8 each of 6 Distinct Varieties of these Beautiful Tulips,
for 17/6

We would remind purchasers that, in making these selections, care will be taken to make sure a representative collection is supplied.

TULIPS

Stinton's "Claremont" Grown

Darwin Tulips.

These Tulips flower in the latter part of September and early October and, with their striking colors and long sturdy stems, they make a great effect when planted in borders or small groups.

BARTIGON—Rich carmine red.

CLARA BUTT—Delicate soft rose, of perfect form and great substance.

INGLESCOMBE YELLOW—A handsome bold yellow; first quality.

KATE GREENAWAY—Delicate flesh pink shaded pale lavender.

LA TULIPE NOIRE (The Black Tulip)—Velvety maroon-black, a magnificent flower.

MATCHLESS—Bright rose-pink, fine large flowers.

PHILLIPE de COMMINES—Fine form, dark plum with darker sheen.

PRIDE OF HAARLEM—Bright rose, an enormous flower of great beauty.

THE SULTAN—Almost a black Tulip, strong grower.

NAMED VARIETIES 6d. each, 5/- per dozen.

MIXED VARIETIES 4d. each, 3/6 per dozen.

Old Dutch Breeder Tulips.

These long stemmed, large-flowered Tulips are all self-colored and are like the Darwin Tulips in form and shade. They differ especially in their beautiful colors, which vary from finest carmine-pink, terra-cotta and violet-blue, to the most glowing orange-bronze colorings.

APRICOT—Dull bronzy buff shaded ruddy apricot, with olive base.

BRONZE QUEEN—Soft buff tinged golden bronze; sturdy habit.

LOUIS XIV—Dark purple flushed bronze, with broad margin of golden brown. Very large globular flowers.

LUCIFER—Bright terra-cotta orange. Enormous flowers.

PANORAMA—Deep orange-red; large flower.

PRINCE OF ORANGE—Orange-scarlet edged lighter red, large striking flower.

REMBRANDT—Chestnut red and bronze, fine large flower.

YELLOW PERFECTION—Light bronzy yellow edged golden yellow, large flower of remarkable beauty. A lovely Tulip.

9d. EACH, 7/6 PER DOZEN.

Early Single Flowering Tulips.

GRENADIER—Bright red.

PICOTEE (Maiden's Blush)—White with pink margin.

6d. EACH, 5/- PER DOZEN.

RADIATA—Vivid scarlet flowers produced on long stems 12-18 inches long 9d. each; 7/6 doz.

HYACINTHS

Stinton's "Claremont" Grown

THE HYACINTH is the most accommodating of all bulbs and deservedly becomes more popular each year. Our Hyacinths should not be confounded with the low-priced, small size bulbs often sold. All the bulbs we offer are of large, full flowering size and will produce enormous spikes of large and well formed flowers.

RANUNCULUS

Ranunculus "Claremont" Super Hybrids, No. 9

SPLENDID NEW GIANT DOUBLE FLOWERING STRAIN.

Comparative tests which we have conducted during the past few years have shown the "Claremont" Hybrids to be very definitely THE FINEST STRAIN EVER INTRODUCED. No other plant in commerce can produce such a riot of color as this "Claremont" Hybrid. This remarkable Ranunculus is INDISPENSABLE FOR EXHIBITION. It is undoubtedly the largest flowered variety in cultivation, huge flowers four to five inches across being produced in such profusion that the plants are literally hidden. The color range, which is the most varied we have yet offered, embraces pure white, pinks and yellows in all shades, brilliant scarlets, vivid apricots, and a full range of all shades incidental to these colors.

Notwithstanding immense size, the flowers are in no way coarse and the general quality is superb. Exceptionally heavy crops of flowers are obtained and for either exhibition purposes or garden decoration THE STRAIN STANDS WITHOUT A PEER.

SEED:

PER PACKET 2/6

BULBS:

PER TWELVE 2/6, PER TWENTY-FOUR 4/9, PER FIFTY 9/-, PER HUNDRED 17/6

BULBS: Price each to apply to all assorted dozen lots. ANEMONE and RANUNCULUS orders not accepted for less than 12 bulbs of any one variety.

RANUNCULUS

Stinton's

"Claremont"

"SUNSET"

Aptly named because of its beautiful shadings. Few indoor color schemes are designed without the inclusion of the rich autumn tonings.

Ranunculus "Sunset" is admirably suited for this purpose; the rich colorings range from terra-cotta, brick-red, apricot, down to soft fawns of a distinct autumn tone. This strain will last far longer in bloom than other varieties as it is not so easily affected by the adverse weather conditions. Robust in growth, producing large flowers borne on long stems make it a decided acquisition for decorative purposes.

We have every confidence in recommending this strain to you for any purpose whatsoever. As a garden display Ranunculus "Sunset" ranks among the first.

Stinton's "Claremont"

Ranunculus

"BONNIE LASSIE"

Pink flowers are always in large demand, and we have now a strain which is admirably suited for this requirement. It is a strain comprising mostly rose-pink shades, going on to light pinks. For indoor decoration it is superb, the flowers will last for a considerable time.

When planting Ranunculus "Bonnie Lassie" we would recommend the selection of a bed protected from the worst of the hot winds in summer, as the flowers are more readily finished by any adverse weather conditions. This strain is a distinct selection of all the most wanted pink shadings and is undoubtedly one of the finest for indoor decoration.

Stinton's "Claremont" Ranunculus

"GOLDEN GLORY"

Bright yellow flowers always strike a distinct note in any decorative scheme. Ranunculus "Golden Glory" is a strain comprised of mostly bright yellow shades with an intermingling of flaked varieties. The demand for this attractive strain has increased rapidly since its introduction several years ago. This popularity is due to the vigorous habit of growth and large size of the blooms, which are fully exhibition size. Plant this strain for a brilliant garden display.

STINTON'S "CLAREMONT" RANUNCULUS

SUPER HYBRIDS, No. 5.

(Award of Merit, Nurserymen and Seedsmen's Association of Victoria.)

Ranunculus Tango Mixture

For many years this mixture of Ranunculus has been one of our most popular strains. For garden display it is unexcelled, as all poor colors have been removed. The flowers of this bright, showy mixture make a very brilliant effect in the garden.

PER TWENTY-FOUR 2/-
PER FIFTY 3/6
PER HUNDRED 6/6

The Committee of Inspection, which recommended the granting of this Certificate of Merit, stated: "We consider the new strain of Ranunculus, known as the 'Claremont' Super-hybrids, to be the best we have yet seen for constitution of plant, harmony of color, form and size. All inferior quality and poor coloring have been carefully eliminated."

The "Claremont" Ranunculus Super-hybrids No. 5 are the best obtainable in the World. No other strains have been introduced that are equal in quality to these magnificent hybrids. The mixture of color embraces all shades of cream, yellow, orange, tango, scarlet, crimson, and the beautiful flaked varieties are also prominent.

The robustness of constitution and long flowering qualities place this strain in the highest possible position and it is recognised as the leading strain of Ranunculus.

Many other strains of Ranunculus on the market to-day have had the "Claremont" Ranunculus Super-hybrids introduced into them. This can be seen and is proved beyond all doubt as a large percentage of the blooms are distinct No. 5 type.

Ranunculus "Claremont" Garden Strain

A very floriferous strain, comprising all the bright colors from which the lighter shades have been eliminated. The plants flower over a long period. An excellent strain for cutting purposes and we recommend it to the home gardener.

PER TWENTY-FOUR 1/9
PER FIFTY 3/-
PER HUNDRED 5/-

Whilst all plants are "rogued" in the young seed beds, there are always a few which fail to flower in the first year, and are, therefore, beyond our control. This is a very small percentage, however, and we feel sure that no unsatisfactory results will be obtained.

FREESIAS

Stinton's "Claremont" Grown

THE FREESIA has during the last few years undergone a complete transformation. It is now possible to obtain flowers of twice the size of *Refracta Alba*, and the color range is immense and can hardly be equalled in any other flower. The fragrance for which the Freesias have been so much prized in the past is fully retained in the new colored varieties and the plants become more popular each year. The "Claremont" Freesias are now recognised as the finest strains obtaining and a special process of ripening enables us to offer bulbs which will yield excellent flowering results.

APOTHEOSE—An attractive shade of rosy heliotrope with white throat; free blooming and a strong grower. A first rate variety 4/6 doz.

CARMENCITA—Carmine-pink petals, orange inside tube. 3/- doz.

CARRIE BUDAU—Magenta and white 3/- doz.

CHARLES PIKE—Light lavender-blue of superb coloring. Early; one of the finest introductions 3/- doz.

CORREO—Red, tapering to yellow at base 5/- doz.

DAFFODIL—Good pure yellow 3/- doz.

DOROTHY SCHEEPERS—Rosy pink, good size; strong grower 3/6 doz.

ELDERS GIANT WHITE—Pure white; large flower 3/- doz.

EVELEEN STINTON—An extra large flower of vivid saffron orange color. One of our finest varieties 3/6 doz.

GENERAL PERSHING—Lavender and pink in a beautiful color combination. The two shades are delicately suffused giving a delightful effect 5/- doz.

GOLDEN TREASURE—Bright yellow 3/- doz.

MARIE LOUISE FISCHER—Good lavender with a yellow spot, generally confined to one petal 2/- doz.

MELBA—It is always a pleasure to be able to offer a new pink flower as this shade has become so popular. Light self pink. Distinctive 5/- doz.

MENDOTA—New giant yellow, vigorous growth. Long stems, excellent for cutting 3/6 doz.

MRS. MARC. PETERS—Attractive deep rose salmon with lower petals blotched orange and yellow. Early bloomer 5/- doz.

MRS. ROBERT CRAIG—Yet another of the attractive blue varieties of first class merit. Strong grower 3/6 doz.

OLIVETTE—Glowing carmine red self. Flowers carried on long stems. A superb variety; robust in growth 5/- doz.

PINK PEARL—Beautiful rose pink shade of exquisite form 3/- doz.

PURITY—Pure white 1/- doz.

SPLENDENS—Pale lavender 2/- doz.

STINTON'S SUNRISE—This large-flowering Freesia is undoubtedly one of the finest varieties introduced.

The ground color is a brilliant yellow shade, suffused orange, with a distinct tinge of salmon pink on the lower petal. The coloring is most striking, standing out well amongst other flowers.

A free-flowering and robust growing variety.

2/6 DOZEN; 15/- HUNDRED.

WHITE CHIEF—Large pure white, elegant appearance. Well suited for all purposes 5/- doz.

WISTARIA—Rich violet blue, centre white 5/- doz.

YELLOW CHARM—A giant golden yellow 5/- doz.

REFRACTA ALBA—Justly famed for its delicious scent and its accommodating nature. We offer at a low rate for planting in quantity.

6d. PER DOZEN; 3/6 PER HUNDRED.

Special low price in one thousand and ten thousand parcels for naturalising purposes.

ANEMONES

Stinton's "Claremont" Strains

Anemone, St. Brigid, "Claremont"

"AMETHYST BEAUTY"

We have, after much careful reselection, secured another beautiful St. Brigid Anemone which we feel sure will win the unanimous approval of our clients.

Anemone "AMETHYST BEAUTY" introduces a valuable addition to our already world famous collection of "Claremont" Anemones.

The color is a distinct shade of rich lavender rose. The exquisite blooms are full and of perfect form, being held erect above the foliage on strong clean stems.

We feel that an Anemone of this shade will fill a long felt want. Brilliant for garden display and an excellent flower for indoor use. A perfect night shade.

Anemone, St. Brigid, "Claremont" Super-Hybrids

Mixed Colors.

These Anemones are among the most useful and popular flowers we have to-day. The "Claremont" strain contains only the very best quality flowers. In form, they resemble the St. Brigid Anemone, but the flowers are much larger and the whole constitution of the plant has been so improved that it is far above the original type. The colors are brighter and the strain combines the glorious colors of the St. Brigid Anemone with the robust constitution and long flowering qualities of the Coronaria type.

Every shade of the family is included in this wonderful strain, ranging from pure white through rose pink, mauve, blue, down to a vivid scarlet and on to a deep maroon. "Claremont" Anemones are famous for their productiveness and long lasting qualities. They are excellent for massing in beds or borders. They last well when cut; the flowers are borne on long stiff stems making them ideal for indoor decoration. The "Claremont" St. Brigid Super-hybrid Anemones are supplied to all parts of the World. The strain is improved from year to year, and only the best quality flowers are allowed to remain.

Stinton's "Claremont" Anemones are the best obtainable. Plant the best and be satisfied with your results.

ANEMONES

Stinton's "Claremont" Strains

ANEMONES are gaining increased popularity each year. This is caused by the fact that they flower longer and more freely than many other garden plants. The brilliant show of color given by them in the Spring repays the gardener for his attention. The plants flower over a long period, giving a profusion of first-class cut blooms. The best cost no more to grow than the cheaper kinds and the prices of the best are very reasonable.

STINTON'S "CLAREMONT" ANEMONES may be seen the World over. They are excellent for bedding purposes and unsurpassed for indoor decoration.

ANEMONE

"CLAREMONT BLUE BONNET"

We take both pride and pleasure in contributing "CLAREMONT BLUE BONNET" to the Horticultural World, firstly on account of the true magnificence of the blooms, and secondly, on being able to fulfil the long standing demand for a BRILLIANT BLUE ANEMONE.

In all respects "CLAREMONT BLUE BONNET" is the equal of, and a fitting companion to, our celebrated "CLAREMONT SCARLET EMPEROR." The flowers are of the GIANT SINGLE type, often up to 6½ inches in diameter, and are borne on stout stiff stems up to two feet high. COLOR BRILLIANT BLUE.

ANEMONE CORONARIA, "ROSE OF CLAREMONT"

This striking new Anemone of Coronaria type is a notable addition to the already popular pair Anemone "Scarlet Emperor" and Anemone "Blue Bonnet."

ANEMONE CORONARIA "ROSE OF CLAREMONT" makes an immediate appeal to the lover of the beautiful. The flowers are a delightful shade of lavender rose, the blooms when first open being slightly suffused with a deep tone on edges of petals.

A first class variety for cut flower use, the color is an excellent night shade; long stems hold the large flowers erect above the foliage. Robust in habit, it is a variety which will last in flower for a considerable period.

DAFFODILS (Narcissus)

Stinton's "Claremont" Grown

THERE are no Bulbous Plants which have more points of merit than the Narcissus. The wonderful new creations which have from time to time awakened an interest and enthusiasm among the lovers of flowers have placed these bulbs in the front rank of popularity, and they merit all the praise which can be bestowed upon them. Perfectly hardy, growing and doing well in almost any position, sun or shade, moist or dry, all conditions seem to suit them, and every vacant corner in the garden, amongst the grass, under the trees, etc., could not be used to better advantage than filling with Narcissus. They are equally valuable for growing in pots or bowls for winter flowering. But it is outdoors that Narcissus do best, and once planted need no further attention, the clumps multiplying and giving larger and finer results each year; and, from an original planting of a few hundred bulbs, in two or three years may be cut thousands of flowers without missing them.

The Daffodils offered hereunder include the noted collection of the late Mr. Leonard Buckland of Camperdown, of whose bulbs we acquired the whole of the latest creations.

"Claremont" Special Offer No. 6

Red
Cup Daffodils

(As illustrated)

These most exquisite flowers compel immediate attention on account of the brilliant orange red cups. The mixture we offer contains all the best and largest-flowered varieties, the colored illustration conveying an inadequate idea of this very choice assortment.

Poet's Daffodil

(Pheasant's Eye)

We have the true Poet's Daffodil, broad petals of the purest alabaster white surrounding a vividly scarlet, short cup. Each flower is held daintily poised on a slender stem, with a pretty upward tilt. The stock of bulbs offered is of exceptional quality. Fine for naturalising.

2/6 Per Dozen.

17/6 Per Hundred.

"Claremont" Red Cup Daffodils.

(Natural Color Photograph.)

ABO (Incomparabilis)—Red and yellow incomparabilis of distinct coloring 3/6 each

ALBATROSS (Barrii)—Perianth white; cup pale citron-yellow, nicely frilled and edged orange-red 1/6 doz.

ARGENT (Semi-double)—Refined semi-double; segments white and pale yellow, giving the flower a striking silvery appearance 1/6 doz.

BALLARAT (Incomparabilis)—A large self yellow incomparabilis of great substance and refinement; a really good show flower 2/6 each

BARR'S BRILLIANCY—A very showy and early variety, being one of the first of the red-cups to open; very large flowers, perianth deep golden-yellow, large expanded crown edged deep scarlet 9d. each

DAFFODILS (Narcissus)

Stinton's "Claremont" Grown

BENNETTS POE (Triandus Hybrids)—Delicate pale sulphur-yellow; perianth of good substance; beautifully-shaped trumpet; strong constitution and excellent for exhibition. 9d. each, 7/6 doz.

BERNARDINO (Incomparabilis)—Very beautiful flower with large, broad, creamy perianth and a very large pale cup, prettily fluted and heavily suffused deep apricot-orange, free and vigorous 1/6 doz.

BLACKWELL (Incomparabilis)—Sulphur-yellow perianth, almond shaped segments, orange-red half-way down cup. 2/6 doz.

BUTTERCUP (Jonquilla hybrid)—A lovely Jonquil Hybrid, flower of very distinct, handsome form, long stem; color a rich buttercup yellow, almost a self; broad stiff perianth same length as trumpet, which is straight and of great substance. 2/6 doz.

CAMPERNELLE (Tazetta)—Large flowers, three or four on stem, rich golden-yellow 1/6 doz.

EARLY ROMAN (Tazetta)—White perianth; double white and golden centre 1/- doz.

EMPEROR (Trumpet)—Perianth deep primrose; trumpet rich full yellow; excellent for flower beds or borders and for naturalising; an excellent cut flower 3d. each, 2/6 doz.

EMPIRE (Leedsii)—Large bold flower of great substance; perianth white; cup tinged with lemon when opening, but fades to white when fully expanded 1/6 doz.

FLEETWING (Incomparabilis)—Fine creamy-white perianth; overlapping and pointed segments; bright yellow cup; very strong 1/6 doz.

FLITTER (Bicolor)—Very large cup. Red. Great flower for decorative purposes 2/6 each

FRANK MILES (Incomparabilis)—Large handsome flower, soft clear yellow, with gracefully twisted perianth; excellent for cutting 1/6 doz.

GERTRUDE NETHERCOTE (Jonquilla Hybrid)—Fine up-standing habit, strong grower; buttercup yellow; lasts well 3/- doz.

GLORIA MUNDI (Incomparabilis)—Handsome bold flower; flat, clear lemon-yellow perianth with over-lapping segments; large cup of rich orange-scarlet; excellent for exhibition. 5/- doz.

GOLDEN CITY (Trumpet)—Uniform rich golden-yellow; broad firm perianth, well-proportioned trumpet; good for show or garden purposes 2/6 each

HELIOS (Incomparabilis)—A fine flower with large orange cup 6d. each, 5/- doz.

HORACE—Having a snowy white rounded perianth, and large eye almost entirely blood-scarlet, very beautiful 1/6 doz.

INGLESCOMBE PHOENIX (Double)—Large, full double flowers of beautiful primrose yellow; opens well and is of good substance 3/6 doz.

JAUNE a'MERVEILLE (Tazetta-Poetaz)—Soft lemon perianth, evenly balanced and perfectly round in shape; beautiful pale yellow eye with slight orange rim at times; best and largest in this section 9d. each, 7/6 doz.

JAUNE SUPREME (Tazetta-Poetaz)—Extra large yellow, very fine 3/6 doz.

KING ALFRED (Trumpet)—A remarkably handsome Daffodil which we strongly recommend, flowers of great size and substance, and withal a very refined appearance; color, a uniform intense golden-yellow; trumpet large, with deeply-frilled open mouth, sweetly scented, a very vigorous and free bloomer. 1/- each, 10/- doz.

LAURA—An early-flowering variety, a much improved Tazetta-Poetaz-Ornatus 3/6 doz.

LEMON STAR (Incomparabilis)—Large pale-cream perianth; almond-shaped segments; large creamy-white open cup, with rays of lemon running down and distinct lemon rim 1/6 doz.

LORD KITCHENER (Leedsii)—A giant Leedsii; a flower of great size; broad, white, flat perianth; crown very large, pale primrose, elegantly crimped brim; a good grower and strong constitution 1/6 doz.

LUCIFER IMPROVED (Incomparabilis)—Long, creamy-white star-shaped perianth; beautiful long straight orange cup, very bright and telling 1/6 doz.

MACEBEARER (Incomparabilis)—A good flower with orange edge to cup 2/6 doz.

MAXIMUS (Trumpet)—Very beautiful and graceful flower of uniform deep, rich golden yellow; perianth twisted, one of the richest colored yellow trumpet Daffodils, must be planted about 9 inches deep 3/6 doz.

MICHAEL (Trumpet)—One of the most beautiful giant yellow Trumpet Daffodils; perianth soft yellow, broad, slightly campanulate and of great substance; trumpet full, of soft yellow, solid texture 1/- each

MILITANT (Incomparabilis)—Large yellow with splendid perianth and open red cup; the best red and yellow. 7/6 each

MRS. W. MILES (Incomparabilis)—Large lemon-yellow perianth; pointed segments; open deep-yellow cup 2/6 doz.

ORANGE GLORY (Cyclamineus)—A striking variety with a yellow reflexing perianth and a trumpet of deep orange. 1/6 each

ORANGE PHOENIX (Double)—Large white with centre segments of rich orange 2/6 doz.

ORNATUS (Poeticus)—Perianth pure white; broad and well-formed cup margined with scarlet, early 2/6 doz.

PETER BARR (Trumpet)—White perianth and big white trumpet, extra 1/- each, 10/- doz.

"Claremont" Special Offer No. 8

Trumpet
Daffodils

Mixed.

In this mixture we have brought together a splendid assemblance of all the best and largest-flowered types of the trumpet Daffodil. Fine, bold flowers of giant size but refined form, ranging in color from the richest golden yellow selfs down to pale lemon bicolor varieties.

Per Dozen 6/-
Per Hundred 45/-

DAFFODIL BICOLOR TRUMPETS MIXED.

This mixture is comprised of bicolor varieties of the finest quality and contains many varieties of much higher quality than the price would indicate.

6/- per dozen, 45/- per hundred.

DAFFODIL YELLOW TRUMPETS MIXED.

Like the above, but is comprised of self yellow trumpets only.

6/- per dozen, 45/- per hundred.

MIXED DAFFODILS.

Self yellows and bicolors; a fine selection for cutting purposes.

Great value at 2/6 per dozen, 20/- per hundred.

DAFFODILS (Narcissus)

Stinton's "Claremont" Grown

POINTER (Trumpet)—Good large yellow trumpet, with large flat white perianth 2/6 each

PRIMROSE PHOENIX (Double)—Lovely primrose-yellow, double variety 3/- doz.

PRINCE OF POETS (Poeticus)—A beautiful flower of wonderful colorings, pure white perianth, with deep red margin to cup 6d. each, 5/- doz.

PRINCEPS (Trumpet) — Perianth sulphur-white; trumpet yellow 9d. doz.

PUZZLE (Incomparabilis)—Yellow perianth; open orange cup, distinct, very good 7/6 each

RED HEEL (Incomparabilis)—Very brilliant red and yellow incomparabilis 20/- each

ROBESPIERRE (Incomparabilis)—Ivory perianth and deep crimson cup; a beautiful flower 7/6 doz.

RUBELITE (Tazetta and Poetaz)—Pale ivory appearance, perfect form, bright orange eye, early flowering and one of the largest of the type 9d. each, 7/6 doz.

SCARLET GEM (Tazetta and Poetaz)—Primrose-yellow perianth, brilliant orange-scarlet cup, carries four or five flowers to a stem; very fine 6d. each, 5/- doz.

SEAGULL (Barrii)—Large flat white perianth; overlapping segments, pale yellow cup edged picotee, very attractive 1/6 doz.

SOLIEL d'OR (Tazetta)—Rich yellow perianth; golden cup. 1/6 doz.

SOUTHERN GEM (Leedsii)—White perianth, overlapping and pointed segments; pale lemon cup prettily frilled, good exhibition flower 1/6 doz.

STARLIGHT (Tazetta and Poetaz)—A most attractive flower, creamy-white with conspicuous red cup 1/6 doz.

SUNRISE (Barrii)—Creamy-white perianth with flakes or dashes of yellow down segments; rich orange spreading cup; pretty and effective 1/- each

TAMERLANE (Incomparabilis) — Lemon perianth; long-pointed and overlapping segments; large yellow open cup. 5/- doz.

THE LITTLE GENTLEMAN (Cyclamineus)—Very refined variety 1/- each, 10/- doz.

TOTUS ALBUS (Tazetta)—Paper white 6d. doz.

VICTORIA (Trumpet)—Creamy-white perianth; flat overlapping segments; trumpet rich pale yellow; sweetly scented and very floriferous 3/6 doz.

WHITE LADY (Leedsii)—A charming flower of medium size but perfect form; broad white perianth and dainty, pale yellow crinkled cup; delicately scented 1/- doz.

WONDERLAND (Incomparabilis)—White perianth; overlapping segments; flat open yellow cup, prettily frilled. 1/- each, 10/- doz.

YELLOW ASTER (Incomparabilis)—Large yellow incomparabilis 1/6 each, 15/- doz.

Angels Tears

NARCISSUS TRIANDUS HYBRIDS.

This charming Narcissus bears drooping flowers of pure glistening white, up to nine in a cluster, and is remarkable for the petals being sharply bent backward as in the Cyclamen.

3/6 PER DOZEN.
25/- PER HUNDRED.

"Claremont" Special Offer No. 9

Narcissus "Buttercup"

We are making a special offer of this lovely Narcissus "Buttercup," as illustrated herewith. The bowl of "Buttercup" was grown at our Nurseries and we used the "Claremont" Bulb Fibre in place of soil.

As this variety lends itself admirably to culture in bowls, we are offering:—

12 Bulbs, with sufficient "Claremont" bulb fibre, for 3/-

Narcissus "Buttercup"
(grown in "Claremont" Bulb Fibre.)

Lachenalia Aurea

Grown in "Claremont" Bulb Fibre at our Nurseries.

"CLAREMONT" SPECIAL OFFER No. 10

It will be seen from the illustration above that this charming flower is admirably suited for fibre culture.

12 Bulbs of Lachenalia Aurea, with sufficient "Claremont" bulb fibre, for . . . 4/-

"CLAREMONT" SPECIAL OFFER No. 11

Freesia "Sunrise"

This striking flower should be more widely known. We offer as a specialty:—

12 Bulbs of Freesia "Sunrise," with sufficient "Claremont" bulb fibre, for . . . 3/-

Bulb Growing in Bowls of Fibre

THE growing of Flowering Bulbs in bowls of fibre for indoor decoration is both fascinating and interesting. No particular care is required for the successful flowering of the bulbs if attention is paid to our method of culture.

The old idea of planting the bulbs in bowls of fibre and plunging them into beds of charcoal, or keeping them entirely dark for several weeks, is obsolete and not at all suited to our Australian climatic conditions.

We have found the best method of successful culture is to plant the bulbs in the fibre, keeping the crown of the bulb just near the surface of the fibre, and place them in an open frame where they will receive a full measure of light and air. The bulbs grown in this way will come into growth quite naturally, and without the risk of becoming the prey of insect pests as was often the case when grown by the old method.

After a heavy rain the excess of water should be drained out by tipping the bowls on their sides, this water will only cause rot or fermentation at the base of the bulbs if allowed to remain.

When planting such bulbs as Narcissus, Hyacinths, etc., it is wise to use either one variety per bowl or select varieties which will flower at the same period.

We recommend the use of our "Claremont" Bulb Fibre. No drainage is necessary when using this preparation.

Our "Claremont" Bulb Fibre has been proved to be the best obtainable for the culture of Bulbs in Bowls.

Price, half gallon bag, 9d. per bag.

"CLAREMONT" SPECIAL OFFER No. 12

Crocus

The thought of a bowl of bright yellow Crocus takes our mind back into the shadows of an old world of charm and peace. Bring these pleasant thoughts to yourself and accept our offer of:—

Muscari Conicum ("Heavenly Blue") naturalised in the shrubbery.

STINTON'S "CLAREMONT" BULBS for NATURALISING

AN interesting and attractive addition to the garden is a corner devoted to the naturalising of bulbs. Many people dislike having to lift and replant bulbs each year.

A shrubbery, or even a garden bed, planted with several varieties of bulbs yields a quantity of cut flowers and requires little or no attention, except for an occasional weeding if a garden bed is used.

When the bulbs are not in growth annuals may be sown in the bed if desired.

The following bulbs listed below are excellent for this purpose; the descriptions of them will be found elsewhere in this catalogue.

BULBS FOR NATURALISING

In Woodlands, Shrubberies,
Orchards, Grass, etc.

Specially Low Prices for Large Quantities.
Per 1,000

ANEMONE—Giant Single Poppy-flowered, Mixed	20/-

BULBS

Stinton's "Claremont"

ANOMATHECA CRUENTA.

Dwarf growing, bulbous plants, much like the Freesia in habit; blood-red in color. They require a warm, well-drained position and are good bedding plants. 1/- Doz.

BABIANA.

Beautiful plants growing about one foot in height, they produce flowers of many colors—blue, rose and crimson, some are delicately perfumed.

In fine mixture 1/6 per dozen.

GALTONIAS.

Galtonia candicans or Hyacinthus candicans (Summer Hyacinth) is among the choicest of the summer-flowering bulbs. It produces stout, erect, glaucous scapes shooting up for four feet or more from the centre of the foliage in summer, and bearing at the top a raceme of twenty or more large, sweet-scented, drooping, pure white flowers like white bells. They should be planted in warm sunny borders or beds.

9d. each; 7/6 per dozen.

IXIA (African Corn Lily).

The Ixias are so beautiful and rich in tints that no lover of flowers should be without them. They are equally adapted for pots or the open ground, exceedingly free-flowering, and invaluable for cutting if planted out.

CRATEROIDES—Brilliant scarlet, very fine	1/6 doz.
DUCHESS OF EDENBROUG—White, red striped	1/6 doz.
EMPEROR OF CHINA—Rich yellow, centre black	1/6 doz.
HOGARTH—Cream, carmine outside; tall, large flowers	1/6 doz.
HYPATIA—White flushed lilac	1/6 doz.
ROSALIND—Beautiful carmine-rose	1/6 doz.
SMILING MARY—Beautiful cherry red	2/- doz.
VIRIDIFLORA—Green and black	5/- doz.
VULCAN—Crimson red and orange	5/- doz.
WILLIAM THE CONQUEROR—Large white purple eye	1/6 doz.
MIXED—A fine mixture of all brilliant colors	9d. doz., 5/- 100

LACHENALIA.

AUREA—One of the largest flowered of the genus; flower spikes from 9 to 12 inches long of a very brilliant orange yellow 3/6 doz.

QUADRICOLOR—This variety is very hardy and free flowering. The earliest of all flowering bulbs, usually commencing to flower at the end of May and continuing right through until August. Flowers of this variety are colored red, yellow, green and purple in combination 2/6 doz.

MORPHIXIA LONGIFLORA.

This beautiful Ixia-like plant requires well-drained land on a nice sunny border. It bears long spikes of flowers, up to three feet high, of a light salmon-pink color 1/- doz., 7/6 100

SPARAXIS.

African Harlequin Flower; a gorgeous and striking flower of compact growth, it reaches a height of about nine inches. Culture same as for Ixia. Mixed colors 1/6 doz.

TRITONIA.

Another of these lovely bulbous plants indigenous to the Cape. The variety we offer—Crocata, Prince of Orange—produces long racemes of large orange-scarlet flowers. Height 15 inches. Culture same as for Ixia 1/- doz., 7/6 100

WATSONIA (Bugle Lily).

Genus of beautiful South African plants having fibrous coated corms, sword-shaped leaves, and tall spikes of tubular, bell-shaped flowers.

ADELAIDE—A fine orange shade; dwarf habit.	5/- doz.
BALLARAT—Pale blush pink; free flowering	5/- doz.
BRISBANE—Clear flesh pink	5/- doz.
CAMBERWELL—Salmon with vieux-rose throat; large flowers, three inches across, placed close to stem.	5/- doz.
"CLAREMONT" PINK BEAUTY—Clear rose pink shading to pearly pink; well formed flowers on long spikes	5/- doz.
CLEMENTINA—Rosy lavender; exceptionally free flowering	5/- doz.
GEISHA—Salmon pink; large flowering	5/- doz.
HOBART—Large white, frilled petals	5/- doz.
MAUVE QUEEN—Large bell shaped flowers, clear rosy mauve	5/- doz.
MELBOURNE—Beautiful salmon-pink	5/- doz.
PERTH—Of dwarf habit; flowers magenta	5/- doz.
PINK PEARL—A splendid pink shade, tall	5/- doz.
RUBRA—Distinct ruby pink	5/- doz.
SYDNEY—Rose-pink shade; large	5/- doz.
MIXED VARIETIES	2/6 doz.

CROCUS.

Very pretty spring-flowering bulbs, and extremely useful for borders or for massing under deciduous trees; likes a cool spot.

BLUE 2/6 Per Doz.	WHITE 2/6 Per Doz.
PURPLE 2/6 Per Doz.	YELLOW 2/6 Per Doz.

GRAPE HYACINTHS (Muscari).

AZUREUM—Bears lovely little spikes of Cambridge-blue bell-shaped flowers 1/- dozen; 7/6 hundred

BOTRYOIDES—This differs from the above in color only. The flowers are of a darker blue; a very effective color. Equally good for naturalising. 1/- dozen; 7/6 hundred

CONICUM, "HEAVENLY BLUE"—A gem of the first water. Unquestionably one of the finest blue hardy flowers. The upper third of the stem is clustered thickly with gentian-blue wax-like bells, like tiny grapes.

9d. & 1/- Dozen; 5/- & 7/6 Hundred.

MEXICAN PEACOCK TIGER IRIS.

(Tigridia Pavonia.)

AUREA—Good yellow.
CANARIENSIS—Light yellow spotted scarlet.
CONCHIFLORA—Very bright yellow.
GRANDIFLORA ALBA—Fine white spotted ruby.
LILACEA—Rosy carmine flecked white.
LUTEA IMMACULATA—Purest yellow shade.
PAVONIA SPECIOSA—Fiery red shaded orange.
PURPUREA—Purple; fine color.
ROSEA—Clear pink.

9d. each; 7/6 dozen.

SCILLA CAMPANULATA.

(Wood Hyacinths.)

For planting under trees, in the border, and in beds. A splendid subject for bowls and for pots indoors.

BLUE 1/6 Per Dozen; 10/- Per Hundred
ROSE 2/6 Per Dozen; 15/- Per Hundred
WHITE 1/6 Per Dozen; 10/- Per Hundred
MIXED 1/- Per Dozen; 7/6 Per Hundred

SNOWFLAKES.

LEUCOJUM ASTIVUM is the Spring Snowflake, with pure white, green-tipped, sweet-scented flowers appearing in August, on stems 9 to 12 inches high.

1/- Per Dozen; 7/6 Per Hundred.

LILIUMS

Stinton's "Claremont"

Rich and varied in color, stately and handsome in habit, profuse in variety and with fragrantly scented flowers, Liliiums are worthy of a place in every garden. They are specially well adapted for growing in a shrubbery or mixed in with other plants. The bulbs are available from April to July, and flower from November to February, according to variety.

AURATUM (Golden-rayed Lily of Japan)—Tall fragrant flowers, ivory white with a golden band on each petal, spotted brown, not quite hardy 2/6 and 3/6 each

AURATUM PLATYPHYLLUM—A more robust and hardier form than the above, with broad glossy foliage and larger flowers 2/6 and 3/6 each

CANDIDUM (Madonna Lily)—Has a strong, upright stem, and grows 3 to 4 feet high. Most beautiful, large, sweet perfumed, pure white flowers. Do not plant in too rich soil, and leave undisturbed until well established . . 1/- each; 10/- per doz.

DAURICUM var **VENUSTUM**—The flowers of this variety are clear bright apricot spotted deep chocolate brown. The name "Venustum" (lovely, charming or agreeable, qualities of Venus the Goddess of Love) refer to its beauty 1/6 each; 15/- per doz.

HENRYII—This, the so-called "Orange Speciosum," is a fine Martagon from the mountains of Central China. It grows 5 to 8 feet high and bears in February and March from four to twenty (it has been known to bear seventy) large nodding orange-colored blooms, with dark spots and with a green line along each petal. It is one of the most accommodating as well as of the finest lilies, doing well in almost any soil
1/- each; 10/- per doz.

LANCIFOLIUM or **SPECIOSUM VARIETIES**—One of the most popular Japanese varieties in cultivation. Very hardy and free flowering, adaptable to situation but will do best if given a little shade. The best sorts are—

KRAETZERI (pure white)

MELPOMENE (deep crimson with white edge)

MAGNIFICUM (rich deep pink and white)

RUBRUM (white, spotted and shaded with crimson)

1/- each; 10/- per doz.

PARDALINUM (Leopard or Panther Lily)—A splendid variety for massing and grouping in moist ground amongst shrubs. Is extremely hardy and well suited to an open sunny position. The flowers are crimson orange, beautifully spotted with dark purple at base 1/6 each; 15/- per doz.

PHILIPPINENSE—A graceful lily from Formosa; trumpet shaped flowers, delicately perfumed, of exquisite shape, pure white within and generally suffused outside with wine-purple 1/6 each; 15/- per doz.

Lilium Elegans Grandiflorum.

ELEGANS GRANDIFLORUM—A splendid large flowering species for planting in semi-shaded protected positions. Color a mixture of yellow and orange . . . 1/- each; 10/- per doz.

ELEGANS INCOMPARABLE—Color rich crimson; more dwarf in habit than the above variety but equally as hardy and does well under ordinarily good garden conditions

1/- each; 10/- per doz.

TENUIFOLIUM.

This charming and rare member of the Lilium family is unlike most others in color, size and appearance. We believe it will become one of the most sought after Liliiums for either culture in pots, planting in the Rock Garden, or growing in the Herbaceous border, for it is quite at home in semi-shaded spots in the garden.

The wiry stems, with their numerous light grassy leaves, give an air of delicacy and refinement to this dainty little "Martagon" Lily from north-east Asia. They bear up to twenty fragrant blooms of bright scarlet, like sealing wax. The plant is a choice one, rarely growing more than 1½ feet high and admirably suited for the rock garden. No heavy loam but light sandy soil, a semi-shaded spot among dwarf plants is what this gem requires.

1/6 EACH; 15/- DOZEN.

Lilium "Regale" in Herbaceous Border.

REGALE—A magnificent variety with large trumpet shaped white flowers, slightly tinged with pink on the outside of the petals and with yellow centre. Very sweetly perfumed

1/- each; 10/- per doz.

TIGRINUM FLORA PLENA (The Double-flowered Tiger Lily)—Bears beautiful double orange flowers with distinct black spots. Plants grow from 2 to 4 feet high. It is quite hardy and thrives under similar conditions to Splendens Gigantea

1/- each; 10/- per doz.

TIGRINUM SPLENDENS GIGANTEA (Tiger Lily)—One of the hardest of all lilies and consequently the most suitable variety for the home garden. Large brilliant orange-scarlet flowers with distinct black spots produced on stems 5 to 6 feet high. Grows easily in light garden soil, a semi-shaded aspect being preferable 1/- each; 10/- per doz.

LUPINUS POLYPHYLLUS

Stinton's "Claremont" Perennial Lupins

NO perennial border is complete without the inclusion of Perennial Lupins. These plants are tall and lend a graceful dignity to the artistic effect of any garden. The tall flower spikes rise from the soft, tufty, green foliage and reach about four feet in height. All Lupins do well in a moderately rich soil and an occasional application of lime is very beneficial to them. The crowns should be planted from the middle of the Autumn to about the end of August.

Lupins, "Claremont" Imperial Hybrids.

SPECIAL OFFER OF MODERN BEARDED IRIS

(Unnamed Varieties)

We have in stock this season quite a number of unnamed varieties of Bearded Iris and it is our intention to offer these at a specially reduced rate.

The collections will include some beautiful types in all shades. We thoroughly recommend these for border planting, shrubbery or woodland purposes.

12 STRONG HEALTHY PLANTS . . FOR 7/6.

AFTERGLOW—Deep ruby violet and magenta, very deep rich color.

AUTUMN DAYS—Pale salmon-orange changing to rose with yellow markings.

BOY BLUE—Deep cornflower blue.

CORAL ISLE—Clear shell pink.

GOLD CREST—Yellow with deep yellow wings.

GOLDEN SPIRE—Golden yellow, sweetly scented.

HIGHLANDER—Extra bright red with long spikes.

KINGDOM—Lovely combination of buff with yellow and a very distinct orange flag.

MAYFAIR—Splendid rose pink.

SUNKIST—Golden yellow with orange terracotta.

SWEET LAVENDER—Lavender tinted rose, very pretty.

CLAREMONT IMPERIAL HYBRIDS (Finest Mixed)—This strain, without a doubt, is the finest yet offered and will prove to be a decided acquisition to any garden. Tall growing and elegant in appearance, the plants show off their massive heads of flower to perfection. The extensive color range embraces red, purple, pink, buff, yellow, lavender, white and various shades incidental to these colors, together with some very fine two-toned effects. Robust in growth and sweetly perfumed.

PLANTS

We send out our Lupinus Polyphyllus roots in the months of April and May. It is advisable to order early, as we always have a large demand for our "Claremont" strains of Lupinus Polyphyllus.

GOOD STRONG CROWNS:

SEPARATE NAMED VARIETIES

1/6 each; 15/- dozen.

IMPERIAL HYBRIDS MIXED

9d. each; 7/6 dozen.

SEED

AVAILABLE IN MIXTURE ONLY

2/6 Per Packet.

DELPHINIUMS

Stinton's "Claremont" Grown

Delphiniums are easy to cultivate, being very hardy and flourishing equally as well in the herbaceous border, mixed with other plants, as they do when grown in a bed to themselves.

An application of lime to the soil is essential before planting time. Mulch the plants with stable manure when they advance into growth. Old decayed foliage should be removed from the plants so as to make room for new growth.

.....

Stinton's Famous "Claremont" Hybrid Delphiniums

"Claremont" Delphiniums come to you acknowledging no peer. The clear cut, massive, individual flowers are borne erect on long solid spikes often exceeding 3-feet length of massed flower heads. The color range is exceptionally fine, embracing all the best of Delphinium shades ranging from delicate sky blue, rosy mauve, lustrous satin pink, corn-flower blue, through dual tones and brilliant blues to rich rosy purple and dark navy blue. Either for general garden decoration or exhibition purposes the "Claremont" strain cannot be excelled.

Delphinium "Claremont" Hybrids.

Mixed Colors.

We wish to draw the attention of our clients to the fact that seedlings of the above strain of exhibition Pansies will be available from MARCH onwards. Our seedlings are all raised in the open seed beds and carry a strong system of fibrous roots.

Plants . . . 2/6 per dozen; 15/- per 100.

NOVELTIES..

And Recent Introductions

BULBS

New Anemone

"Blue Admiral"

This new variety of St. Brigid Anemone carries the essential perfections of

LENGTH AND STRENGTH OF STEM
SIZE OF FLOWER
AND BRIGHTNESS OF COLOR

In "Blue Admiral" we have produced the ideal Anemone for growing for market.

The stems are long and of exceptional substance—a point which market growers will appreciate as invaluable.

THE FLOWERS ARE ALMOST TWICE
THE SIZE OF THE AVERAGE
STRAIN OF ST. BRIGID.

The blue color is strong and bright and the free-flowering propensities and robust nature of the plant makes it especially valuable for planting either in rows or in massed formation in the garden.

Per 100	20/-

SEED

ANTIRRHINUM. Nanum Grandiflorum.

"Welcome"—The best of all crimson varieties. No purple or magenta whatsoever can be detected in the large, finely formed flowers. They are true, deep brilliant crimson.

1/- Per Packet.

ASTER. Super Giant.

"El Monte"—Super Giant "El Monte" the only really large flowered crimson Aster. Deep glowing crimson, composed of abundant quantities of daintily interlaced plume-like petals, the flowers are extremely large and fluffy, borne on heavy non-lateral, basal branched stems. It is very early blooming, coming in before the California Giant varieties, and remaining in flower over a long period. Although not wilt resistant, we highly recommend "El Monte" to you.

1/- Per Packet.

BELLIS.

Monstrosa crimson—So far there has been no real dark red Bellis in the Monstrosa type. With this introduction we are pleased to offer a Bellis of the true Monstrosa type, of which the color is equal to that of the old variety "Etna."

1/- Per Packet.

CHRYSANTHEMUM.

segetum Fl. Pl. Yellowstone—The first double Chrysanthemum segetum. Like the singles, it has excellent qualities for cutting as well as for general garden use. The blooms, measuring well up to 4 inches across, have a wonderful substance and are borne on strong stems, up to 15 inches long. During a long flowering season a great profusion of

flowers is successively produced. The color is intense sulphur-yellow, a very effective shade both in daylight and in artificial light. The blooms will keep fresh in water for 10 days which makes this new flower most valuable for cutting, and at the same time it is so easily grown that it is sure to be soon very popular with the gardening public.

1/6 Per Packet.

CORNFLOWER.

"Jubilee Gem"—"Jubilee Gem" is a dwarf variety of Cornflower, making a compact plant literally covered with flowers. It has foliage distinct from all other Cornflowers, forming a tufted mass of bright green, contrasting well with the dark but vivid double blue flowers. The plant is about 12 inches in height. Easy to grow it is "Everyone's" flower and is adaptable for almost any purpose to which a plant may be put. As an edging plant, a border plant, or for ground work in formal beds of Roses, etc., it will be found admirable; it is a fine cut flower, and, above all, it may be sown outside in the autumn for spring flowering, or in the spring for summer flowering, and at intervals if a continuous supply of plants is wanted.

1/- Per Packet.

DAHLIA.

Coltness Carmine and Coltness Crimson—Two additions to the series of Coltness Dahlia, in separate colors, already so popular with garden amateurs. Although a little variation is almost unavoidable in Dahlias, these new selections may be expected to come nicely true, and both are very attractive shades.

1/- Per Packet.

GODETIA.

"Kelvedon Glory"—The color is deep glowing salmon orange, of an intensity and vividness that can be found in no other Annual. The blooms are of beautiful symmetry and fine texture. Contrary to the usual characteristics of plants bearing flowers of such an exceptional coloring, their constitution is strong and robust and their freedom of flowering unusual. We recommend "Kelvedon Glory" with every confidence and are certain that it will find a good demand from the amateur, followed by hearty commendation after it has been flowered.

1/- Per Packet.

MARIGOLD.

"Dixie Sunshine"—From the land of Dixie to the gardens of the world comes this most modern, most charming and unique Marigold. Sensationally new and fascinating, the large ball-shaped flowers are ingeniously composed of dozens of tiny five-petalled florets, 100% fully double, and but faintly scented with the characteristic Marigold odor, "Dixie Sunshine" is a ray of dazzling pure beauty. Whether in the garden, on tall, bushy plants, literally smothered with blooms, or when arranged for home decoration, the strong stemmed flowers are a constant joy. "Dixie Sunshine" will take the garden world by storm.

1/- Per Packet.

Gigantea Sunset Giants—A prominent horticulturist has said that a flower to be desirable in the home garden must have one or more of three outstanding characteristics: it must be very showy, or fragrant, or of exceptional size. Marigold Sunset Giants has the happy combination of all three of these characteristics. Not only are the flowers the largest ever known in the Marigold group, averaging 5 inches and some flowers attaining a size of 7½ inches, but they are produced in such profusion that a plant of Sunset Giants is one of the showiest spots in the garden. But most remarkable,

instead of the usual Marigold odor these flowers have a definitely sweet fragrance, a fact which will undoubtedly place them among the outstanding novelties of the 1937 season. The flowers are loosely formed, very full centred, with broad, heavy petals gracefully overlapping to make a flower of great depth and even larger than Dahlia Flowered Zinnias. Sunset Giants is a mixture ranging from deep orange through golden orange, deep golden yellow, light yellow, lemon yellow, and a delightful new shade of primrose. The strain comes from 60 to 65 per cent. double.

1/6 Per Packet.

"Yellow Supreme"—Heralded as a companion to the popular Guinea Gold, "Yellow Supreme" does in many respects resemble it. Like Guinea Gold, it is very free flowering, compact and somewhat pyramidal in habit, 2 to 2½ feet tall, bearing loosely ruffled, carnation flowered blossoms. The color is a light lemon yellow, and the flowers are somewhat larger than Guinea Gold. The characteristic Marigold odor is almost entirely lacking, adding greatly to its usefulness for cutting and garden use.

1/- Per Packet.

Golden Globe.

DWARF DOUBLE NASTURTIUMS.

"Golden Globe"—Of all the novelties of latter years, the double Nasturtium "Golden Globe" quickly became the most popular and the common property of both professional and amateur gardeners. Since the climbing plants of Nasturtium "Golden Gleam" are not suitable for all purposes, especially not in restricted spaces, Nasturtium "Golden Globe" should be very welcome. It has the same habits as its famous predecessors, but forms round shapely bushes covered with

masses of bright sweet-smelling, golden-yellow double blooms. In our opinion it is the best double variety and a remarkable improvement on "Golden Gleam."

1/- Per Packet.

PETUNIA (All-Double Strains).

A new race of Petunias producing 100 per cent. of double flowers; it should be noted that the advance over existent strains is not only that of duplicature but of form. Seldom have we seen such perfect flowers as are produced by the "All-Double" Petunias.

Triumphant, All-Double Fringed Mixed—The original All-Double Petunia much improved for variety of color.

5/- Per Packet.

Triumphant, All-Double Fringed Rose Pink—A specially fine selection, of good habit, well suited to pot work.

5/- Per Packet.

Triumphant, All-Double Fringed White, Veined Blue—A most outstanding Petunia, white ground veined, beautiful deep violet blue.

5/- Per Packet.

Superb Mixed—All-Double Mammoth Paeony Flowered Mixed—A large flowered strain of immense size with petals attractively and loosely formed. A great variety of color.

5/- Per Packet.

SPRING FLOWERING SWEET PEA.

"Orange Flame"—The deepest orange colored Sweet Pea grown. Plants are vigorous and free flowering. Entirely distinct in color and specially beautiful under artificial light. "Orange Flame" is sure to be admired for its unusual charming beauty.

1/- Per Packet.

WINTER FLOWERING SWEET PEA.

"Burpees Orange"—Clear orange; bright and brilliant. This outstanding new color in winter flowering Sweet Peas is destined to become very popular. The flowers are well proportioned, and freely borne on long substantial stems. A Sweet Pea that is decidedly different.

1/- Per Packet.

VISCARIA.

"Blue Pearl"—Aptly named, this new Viscaria is so pure and delicate in color that it calls to mind immediately that particular refinement which makes the pearl so attractive. The plant is free-flowering and has the advantage of being more tidy and erect in habit than the average Viscaria. The color, pure lavender blue, is outstanding and differs from the other blue Viscarias to a degree which makes it absolutely distinct; the lack of "eye" which is a common character of most sorts, adds considerably to its distinction. Viscarias are becoming extremely popular, and some of the outstanding bedding effects we have seen this year have resulted from broadcast sowings which make a very attractive effect en masse.

1/- Per Packet.

Novelty Vegetable Seeds . . .

BEET.

Detroit Select Globe—This Beet is the most uniform stock we have seen in shape, foliage and color of flesh. The shape is globular—the top exceedingly fine—the flesh is a deep red throughout, and quite free from "rings," the texture being fine grained and the flesh crisp and sweet.

6d. Per Packet.

CABBAGE.

Jeffries "Cotswold Queen"—The plant is of close, compact habit, the hearts of uniform cone shape, and the flavour is excellent. No other Cabbage, of its type, turns in as rapidly as does this variety, and for this reason alone it is indispensable both to the private and market gardener. It is equally good sown either in spring or autumn, and for general use and exhibition stands in a class by itself.

6d. Per Packet.

CARROT.

Red Cored Early Market—The roots are refined in appearance, with small collars, are evenly stumped and have very small tap roots. The exterior is smooth and free from large eyes, while the color is decidedly deeper than the ordinary varieties. The core is small and nearly the same color as the flesh. This new strain of Carrot should become very popular for either market gardeners or private growers.

6d. Per Packet.

LETTUCE.

Trocadero Improved—A main crop variety, producing good solid hearts of a delicate and attractive shade of silvery green entirely without red tinge. The hearts are of good marketable size, very uniform and compact, there being very few waste outer leaves.

6d. Per Packet.

General List

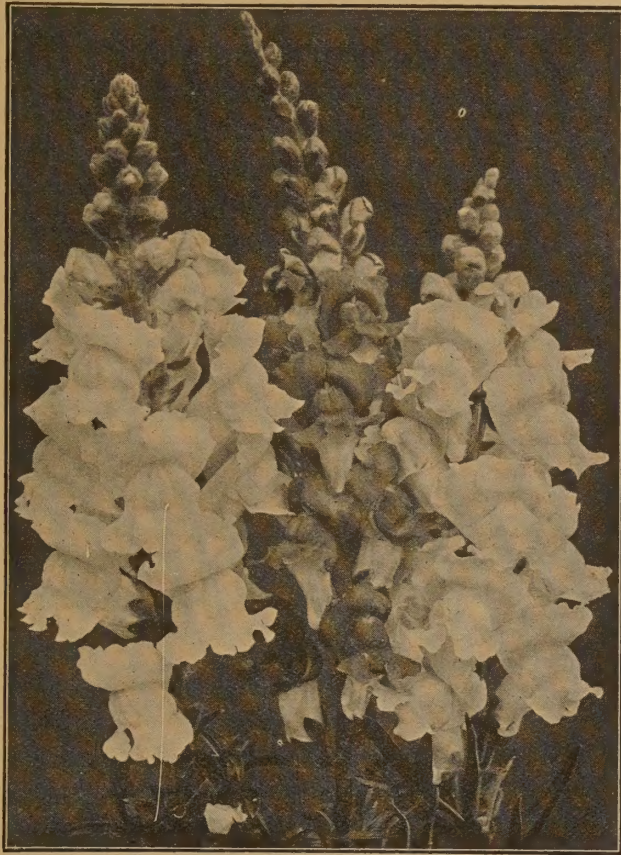

... of ...

RARE AND SELECTED FLOWER SEEDS

Of the Choicest Strains

Including all the most
Desirable Varieties

In the following list we offer an unusually large and judiciously selected collection of the most desirable varieties in general favour. With respect to the growing qualities and other merits of the different kinds, we have every confidence. Under proper treatment and favourable circumstances they cannot fail to give the purchaser entire satisfaction. A few hints on the sowing and management of seeds will be found on page 46.

Antirrhinums.

ACONITUM.

(Monk's Hood or Wolf's-bane.)

A hardy perennial valuable for planting among shrubs, or in shady places and producing handsome spikes of flowers 3 or 4 feet tall.

Napellus: Produces spikes of dark blue flowers.

Napellus Roseus: Rosy mauve flowers.

Wilsonii: A paler blue than Napellus.

Packets 6d.

ACROCLINUM.

Everlasting flowers. Pretty daisy-like flowers, useful for bouquets either fresh or when dried.

Packets 3d. and 6d. $\frac{1}{4}$ oz., $\frac{1}{6}$ oz.

ADONIS.

Aestivatis (Flos Adonis): Pretty annual growing about 1 foot in height and producing freely its showy crimson flowers with dark centre. Packets 6d.

AGATHEA.

(The Blue Marguerite.)

Coelestis: A pretty compact growing bush suitable for borders; height 15 to 18 inches. Bears masses of blue daisy-like flowers with bright yellow eye. Packets 6d., $\frac{1}{4}$ oz., 1/-, $\frac{1}{2}$ oz., $\frac{1}{6}$.

Aster "Stinton's" Wilt Resisting.

Ageratums in tall and dwarf varieties are excellent bedding plants.

Fluffy Ageratums Ideal for Borders

AGERATUM.

(Floss Flower.)

Very attractive and popular annual border or bedding plants, 9 to 12 inches in height. The plush-like flowers appear in dense clusters entirely covering the bush.

Blue Bedder: Clear blue, bushy and free-flowering. Pkts. 3d., $\frac{1}{4}$ oz. 1/-.

Blue Cap (New): The lowest growing of all the Ageratums. Very compact and a profuse bloomer. Pkts. 1/-.

Blue Perfection: A very fine bedding sort, compact and large flowered. Color deep amethyst blue. Pkts. 3d., $\frac{1}{4}$ oz. 1/-.

Little Dorrit: Very dwarf bushes not over 6 inches high, densely covered with bright blue flowers. Pkts. 3d., $\frac{1}{4}$ oz. 1/-.

Mauve Beauty: A dwarf and compact variety with light lavender-mauve colored flowers. Pkts. 3d., $\frac{1}{4}$ oz. 1/-.

Mexicanum: This variety grows 2 feet tall and is suitable for planting as a perennial background. Pkts. 3d., $\frac{1}{4}$ oz. 1/-.

Swanley Blue: Dwarf compact variety producing masses of bright powder blue flowers. Pkts. 3d., $\frac{1}{4}$ oz. 1/-.

STINTON'S GIANT BRANCHING WILT-RESISTANT ASTERS

One of the largest types of Aster in existence. The immense flowers resemble massive Chrysanthemums, and are borne on long stiff stems. The seed offered is saved from selected plants only, and each variety is a leader in its class.

WILT-RESISTANT ASTERS.

The most pretentious Aster improvement of recent years is the development of wilt-resistant strains. Although not novelties in the true sense of the word, we consider these wilt-resistant Asters among the noteworthy introductions of our experience in Horticulture.

The Aster wilt disease is caused by a parasitic fungus *Fusarium conglutinans* var. *callistephi*, which is carried on the seed, on cultivating implements and in the soil. The fungus persists indefinitely, and attacks any Asters which may be planted there at any time thereafter. Only through the use of resistant stocks is it possible successfully to grow Asters more than one year on the same soil. All the seed, as offered by us, is raised from **Genuine Certified Wilt-Resistant** stock, and can be relied upon to give every satisfaction.

Wilt Resistant "Amethyst": Handsome large flowers borne on long clean stems. In color, this variety is a deep azure blue. Has extreme lasting qualities, both in the border and as a cut flower. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Apple Blossom": One of the most beautiful of the giant branching Asters. The large well-filled flowers are of a distinct clear shade known as shell pink. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Avalanche": Very early pure white Aster; elegantly frilled flowers of the Ostrich plume type which are of perfect form and extreme lasting quality. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Blue Eagle": We present "Blue Eagle," one of the contributions to the code for better flowers. The color is a bright navy blue, distinct from any other dark blue or purple Aster now offered, of the giant-branching "Comet" class, with large Comet-type flowers, fully double, on branching plants, suitable for cutting or garden use. The strain is very robust. Pkts., 1/-; $\frac{1}{4}$ oz., 2/9; oz., 9/-.

Wilt Resistant "Crimson King": Magnificent Aster of surpassing beauty, large massive flowers of bright crimson color. For brilliancy of color this variety is incomparable. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Electra": Superb salmon pink flowers; a novel shade of color which is unusually effective under artificial light. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Golden Sheaf": We take pleasure in introducing "Golden Sheaf," the deepest yellow Aster yet offered, and the only one that is wilt-resistant. The flowers are fully double, with an attractive crest-like centre, of good substance and fine depth of petal. It has all the characteristics of the Aurora type of Aster. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 10/-.

Wilt Resistant "Peach Blossom": A fine Aster of the Mammoth Comet type, but producing even larger flowers, rich rose in color, borne on stout stems 15 to 20 inches in length. Extremely valuable for either the garden or for large vase decoration in the home. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Peerless Pink": Large flowers of a delightful shade of rose pink. The plants are of robust type and the flowers are produced freely. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Purple Prince": The darkest Aster in cultivation; the flowers are of perfect form, and are borne on long clean stems. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Salmon Queen": Immense flowers with long curved petals radiating from the centre. The clear salmon pink flowers are borne on long stems and are excellent for cutting purposes. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant "Sensation": Brilliant scarlet flowers of fine size and form. On account of its vivid color is destined to become one of the most popular garden varieties. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt Resistant, Finest Mixed: A well-balanced mixture of good bright and delicate colors. The flowers are large and full and of the Giant Comet type with broad graceful petals, borne on long strong stems. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Super Giant "El Monte": The color is a strong crimson and the flowers, which are composed of abundant quantities of daintily interlaced plant-like petals, are extremely large and fluffy, a super-giant form of the Ostrich Feather type. Each plant produces six to eight flowers, borne on a heavy, non-lateral basal branched stem. Blooms approximately three weeks earlier than "Los Angeles." **Not a wilt-resistant variety.** Pkts., 1/-; $\frac{1}{4}$ oz., 4/3; oz., 14/-.

Super Giant "Los Angeles": This is the largest and most fully double Aster known. The flowers are from six inches across, fully petalled and artistically graceful in the feathery effect of the interlacing Ostrich feather type petals. The color is a lovely soft shell pink, blending to a creamy pink in the centre. The plants reach a height of 2 $\frac{1}{2}$ to 3 feet, with six to eight long, non-lateral stems per plant. For those who want the finest Aster yet developed, we heartily recommend "Los Angeles." **This is not a wilt-resistant variety.** Pkts., 1/-; $\frac{1}{4}$ oz., 2/9; oz., 9/-.

ASTER SINGLE CHINENSIS TYPE.

(Wilt Resistant Varieties.)

Plants 2 to 2 $\frac{1}{2}$ feet high; flowers similar to single Chrysanthemum or large-flowered Marguerite.

Dark Blue:

Lilac:

Marshal Joffre: Dark scarlet.

Pkts., 3d.; 1/9 oz.

ALONSOA. (Mask Flower.)

Small but numerous flowers and strikingly brilliant colors. Most continuous bloomers and very desirable annuals.

Grandiflora: Bright orange-scarlet. Pkts. 6d., $\frac{1}{4}$ oz. 9d.

Warscewiczii Compacta: Foliage dark green, racemes of bright scarlet flowers. Pkts. 6d., $\frac{1}{4}$ oz. 1/-.

Fragrant Alyssums Have Many Uses

ALYSSUM.

Pretty, very sweetly scented annual plants useful for borders, edging, window boxes, hanging baskets and rock work. They flower profusely all summer and are amongst the most successful also for winter flowering.

Procumbens: Creeping habit; suitable for hanging baskets; white flowers. Pkts. 6d., $\frac{1}{4}$ oz. 1/-.

Saxatile compactum: Yellow, valuable for early spring rock flowers; height 6 inches. Pkts. 6d., $\frac{1}{4}$ oz. 1/6.

Lilac Queen: Good compact habit and a very pretty deep lavender lilac in color. Pkts. 6d., $\frac{1}{4}$ oz. 2/9.

AMARANTHUS.

Whilst some are grown for their handsome plume-like flowers, the majority are cultivated for their gorgeous leaf coloring, which in late summer and autumn surpass everything for their grand effect.

Tricolor splendens: Foliage plant, leaves rich glowing colors, scarlet-crimson marked with yellow and bronze green. Height 18 inches. Pkts. 3d., $\frac{1}{4}$ oz. 1/-.

Choice Mixed: Beautiful orange, scarlet and bronze colorings. Pkts. 3d., $\frac{1}{4}$ oz. 6d.

ANEMONE.

For description see Bulb Section (pages 14 and 15).

Amethyst Beauty: Pkts. 2/6.

Blue Bonnet: Pkts., 2/6; $\frac{1}{4}$ oz., 10/-; 1 oz., 33/-.

Rose of Claremont: Pkt. 2/6.

Scarlet Emperor: Pkt., 2/6; $\frac{1}{4}$ oz., 8/-; 1 oz., 25/-.

Vivid Scarlet: Pkts., 2/6; $\frac{1}{4}$ oz., 13/-; 1 oz., 42/-.

St. Brigid Super Hybrids: Pkts., 2/6; $\frac{1}{4}$ oz., 8/-; 1 oz., 25/-.

"Coronaria" Choice Mixed: Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; 1 oz., 9/-.

AQUILEGIA OR COLUMBINE.

This elegant genus of plants can hardly be too highly praised. They are hardy perennials and are very useful either for the border or the rock garden. For all kinds of decorative work indoors they are perfection.

New Long-spurred Hybrids: All shades and colors. Grand long spurs. This strain stands unequalled. Pkts., 1/-; $\frac{1}{4}$ oz., 4/6.

Mrs. Scott Elliott's Long Spurred Hybrids: All the best and brightest colors; a splendid strain. Pkts., 1/-; $\frac{1}{4}$ oz., 6/3.

ARCTOTIS.

A free flowering annual of unusual merit producing a wealth of large daisy-like flowers on well branching bushy plants.

Grandis: Attractive annual covered with pearly white marguerite-like flowers with mauve centres. Pkts., 6d.; $\frac{1}{4}$ oz., 9d.

Scapigera Mixed: Brilliant golden and yellow flowers; heat loving plants. Pkts., 1/-; oz., 17/6.

AURICULA.

(Dusty Miller.)

Very old favorite perennial plants, much esteemed for their sweet-scented and exquisitely pretty trusses of flowers. They require a somewhat moist and shady situation and flower during the winter and spring months of the year.

Mixed Alpine Hybrids: Extra quality saved from the best named varieties. Pkts. 1/6.

Antirrhinum or Snapdragon

There are few flowers to equal the Antirrhinums as bedding plants for spring, summer and autumn use, for they make a magnificent show in beds or borders and thrive and bloom abundantly in almost any soil or situation. They are so easy to grow, and give a wealth of bloom of the most varied and charming colors, with the minimum of attention. Antirrhinums may be had in bloom from October to late autumn. The intermediate varieties are of excellent habit for bedding and are very free flowering. Those in the tall section are of taller habit, whilst in the Tom Thumb section the plants are dwarf and compact and wonderfully free flowering.

GIANT MAXIMUM VARIETIES.

This wonderful new group of Giant Snapdragons far surpasses anything yet introduced. The flowers closely packed on full spikes are of magnificent size—invaluable for garden decoration. They are also incomparable cut flowers of exceptional quality. Height 48 to 60 inches.

Apple Blossom: Clear pink. Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; 8/9 oz.

Apricot Queen: Apricot yellow lip. Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; 9/- oz.

Defiance: Orange scarlet. Pkts., 3d.; $\frac{1}{4}$ oz., 2/3; 7/6 oz.

Rosy Gem: Deep rose pink. Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; 7/6 oz.

Choice Mixed: From named varieties. Pkts., 3d.; $\frac{1}{4}$ oz., 1/6; 5/- oz.

MAJUS GRANDIFLORUM.

(Intermediate Section.)

Height 36 to 48 inches.

Monarch Reselected: Deep velvety crimson. Pkts., 3d.; $\frac{1}{4}$ oz., 4/3; oz., 14/6.

Moonlight: Golden apricot and old rose. Pkts., 3d.; $\frac{1}{4}$ oz., 2/3; oz., 7/6.

Peachblow: Delicate peach pink. Pkts., 3d.; $\frac{1}{4}$ oz., 2/3; oz., 7/6.

Prince of Orange: Brilliant ensemble, gold and orange. Pkts., 3d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-.

Princess Elizabeth: Soft pink. Pkts., 3d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-.

Rose Queen: Soft rose self. Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9.

Sentinel: Vivid orange scarlet, white throat. Pkt., 3d.; $\frac{1}{4}$ oz., 2/9; oz., 9/6.

Yellow King: Deepest yellow. Pkts., 3d.; $\frac{1}{4}$ oz., 2/9; oz., 9/6.

Choice Mixed: From named varieties. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9.

MAJUS NANUM GRANDIFLORUM.

(Semi-dwarf Section.)

Height 18 to 24 inches.

Defiance: Orange scarlet. Pkts., 3d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6.

Eclipse: Brilliant fiery crimson. Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9.

Golden Queen: Extra select bright golden yellow. Pkts., 3d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6.

His Excellency: Purest scarlet. Pkts., 3d.; $\frac{1}{4}$ oz., 4/3; oz., 14/6.

Majestic "Orange King": Terra cotta. Pkts., 3d.; $\frac{1}{4}$ oz., 5/3; oz., 17/6.

Malmaison: Pure deep silvery pink; dark foliage. Pkts., 3d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6.

Mauve Beauty: Rosy mauve. Pkts., 3d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6.

Orange Glow: Salmon orange with orange yellow lip. Pkts., 3d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-.

Rose Eclipse: Immense flowers, rose pink. Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9.

Victory: Rich terra cotta orange shading to yellow in centre. Pkts., 3d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-.

Welcome: Deep brilliant crimson, darkened foliage. Pkts., 1/-; $\frac{1}{4}$ oz., 6/9; oz., 22/6.

White Wonder: Largest flowered white variety. Pkts., 3d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-.

Choice Mixed: From named varieties. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9.

NANUM COMPACTUM.

(Tom Thumb Varieties.)

Height 12 to 15 inches.

Apricot Queen: Apricot suffused rose. Pkts., 3d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-.

Carmine King: Deep carmine. Pkts., 3d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-.

Crimson Queen: Dark crimson, dark foliage. Pkts., 3d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-.

Orange Queen: Glowing orange, pink throat. Pkts., 3d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-.

Rose Queen: Rose pink. Pkts., 3d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-.

Wild Rose: Brilliant pink. Pkts., 3d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-.

Choice Mixed: From named varieties. Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9.

ANCHUSA.

(Cape or Large-flowered Forget-me-Not.)

Very showy and easily grown biennial plants, producing in great profusion brilliant blue flowers. The plants are vigorous and form a splendid background for flower borders.

Capensis "Bluebird": Vivid indigo blue; an exceptionally rich shade. Pkts. 6d., $\frac{1}{4}$ oz. 1/-.

Capensis Dwarf Blue: Quite distinct and produces lovely cobalt blue flowers. Pkts., 3d.; $\frac{1}{4}$ oz., 6d.

Italica Dropmore Variety: Good sky blue; very robust and floriferous. Pkts., 6d.; $\frac{1}{4}$ oz., 1/-.

Italica Lissadel: Large-flowered, clear gentian blue; a charming variety. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6.

BEGONIA

No greenhouse flower has risen more rapidly in favor in modern times than the Begonia. For a considerable time its cultivation was confined to large growers, but now large numbers of amateur growers have turned their attention to it with characteristic vigor. We have found seedlings are quite satisfactory and in many instances are quite equal to the named varieties.

Stinton's Claremont Tuberous Rooted Double Mixed: This strain represents the acme of perfection in Double Begonias. The flowers are large and beautifully double, while the brilliance and diversity of the color are all that could be desired. Pkts. 2/6.

Stinton's Selected Singles: For richness of coloring, size, form and substance of petals, for habit and floriferousness, our strain is not excelled. Pkts. 2/6.

Stinton's Single Crested Varieties: The flowers are single with the petals beautifully crested, bearded and fringed. Pkts. 2/6.

Stinton's Pendulus Varieties: For hanging baskets. These Begonias are of light and graceful habit, and the flowers, which are borne in great profusion, are very varied in color and on well grown plants produce a fine effect. Pkts. 2/6.

Bedding Begonia "Vernon": This is the popular bright metallic red foliaged variety so much used for bedding and bordering in the garden. Quite easily raised from seed and extremely hardy. Pkts. 6d.

Begonia "Claremont" Exhibition.

Brachycome.

BRACHYCOME.

(Swan River Daisy.)

Iberidifolia: Brilliant free-flowering annual, blooming throughout the summer months, and suitable for beds or borders. The dainty flowers resemble small Cinerarias. Pkts., 3d.; ¼ oz., 1/-; oz., 3/9.

AUBRIETIA.

This lovely spring-flowering perennial makes the garden gay during the spring months of the year. Very suitable for rock work or marginal lines of small beds, or for window boxes. Grows well from seed.

Groeca: Large flowered; suitable for rock walls and walks; pale mauve; height 6 inches. Pkts., 6d.; ¼ oz., 2/9.

Large-flowered Mixed: A lovely spring flower for rock gardens. This mixture contains all the latest colorings in mauve and rose. Pkts., 6d.; ¼ oz., 4/3.

BALSAM.

An old favorite in the summer flower garden. The brightly colored double flowers are very freely produced. The plants are bushy with fleshy stems and shiny bright green leaves.

Camellia-flowered Choicest Mixed: Extraordinary size, form and colors. Pkts., 3d.; ¼ oz., 6d.

Giant Primrose Perfection: Another good strain. Pkts., 6d.

Double Mixed: Pkts., 3d.; ¼ oz., 6d.

BELLIS PERENNIS.

(English Daisy.)

Double Daisies are perennial, but flower the first season from seed. They attain a height of 6 inches, and are favorites everywhere for low edging.

Etna: Rich deep red, quilled giant flowered. Pkts., 1/-.

Longfellow: Extra large flowers, dark red in color. Pkts., 3d.; ¼ oz., 2/-; oz., 6/9.

Double Mixed: Numerous double flowers in bright mixture. Pkts., 3d.; ¼ oz., 1/9; oz., 6/-.

BROWALLIA.

(Amethyst.)

Elate Mixed: Favorite summer blooming annuals, 18 inches in height. The flowers of unique amethyst blue and white, are very freely produced. Pkts., 3d.; ¼ oz., 1/-; oz., 2/9.

CALCEOLARIA.

(Slipper Flower.)

Calceolarias are amongst the most useful plants for greenhouse decoration. They are not difficult to cultivate, and can be depended upon to produce a splendid display.

Stinton's Claremont Perfection: Flowers rich and varied in color, beautifully spotted and blotched and of fine form and substance; habit dwarf, compact and very free flowering. Pkts., 2/6.

CALLIOPSIS.

Handsome free-flowering annuals, succeeding in any soil or situation. They are very effective for bedding or massing, and if the spent flowers are cut, may be kept blooming until late autumn.

Dwarf Varieties.

Nana Beauty: Golden yellow, and crimson. Pkts., 3d.; ¼ oz., 1/-; oz., 2/9.

Nana Dazzler: Maroon edged yellow. Pkts., 3d.; ¼ oz., 2/3; oz., 7/3.

Nana Fire King: Deep scarlet. Pkts., 3d.; ¼ oz., 1/9; oz., 6/-.

Nana Golden Ray: Golden yellow. Pkts., 3d.; ¼ oz., 1/-; oz., 2/9.

Nana Lemon Queen: Rich clear yellow, red blotch. Pkts., 3d.

Nana The Sultan: Rich maroon crimson. Pkts., 3d.

Nana Choice Mixed: A mixture of dwarf varieties. Pkts., 3d.

Tinctoria Mixed Varieties: Tall varieties mixed. Pkts., 3d.; oz., 1/-.

Tinctoria Double Mixed: Tall double varieties mixed. Pkts., 3d.; oz., 1/-.

CAMPANULA.

(Bellflower or Harebell.)

Persicifolia Alba: Large flowered white. Pkts., 6d.; ¼ oz., 3/-; oz., 10/-.

Persicifolia Blue: Tall blue. Pkts., 6d.; ¼ oz., 3/-; oz., 10/-.

CANDYTUFT.

Should be one of the most popular annuals for furnishing beds and borders with masses of color during the spring and summer months. It is best to sow the seed where the plants are to bloom, thinning the seedlings to stand 8 to 10 inches apart. Height about one foot.

Giant White Hyacinth-Flowered: Bears large trusses of pure white flowers valuable for borders and rock gardens. Pkts., 3d.; oz., 1/6.

All Shades Mixed: A splendid mixture of bright, showy colors. Pkts., 3d.; oz., 1/-.

CANTERBURY BELLS.

One of the grandest of old-time favorites. These beautiful bi-annuals are covered with large bell-shaped flowers during the spring and summer.

Single Mixed: Bright showy strain. Pkts., 3d.; oz., 1/-.

Double Mixed: Attractive double-flowering mixture. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-.

Dean's Hybrids: The most distinctive collection of shades available. Pkts., 6d.; ¼ oz., 2/-; oz., 6/6.

Cup and Saucer Canterbury Bells: Perhaps the most beautiful type, distinct in form, with large bell or cup-shaped flowers surrounded at the base with a large calyx of similar color, the whole resembling a cup and saucer. Pkts., 6d.

Godfrey's Strain Mixed: A glorious mixture of distinct colors. Pkts., 6d.

Calliopsis Dwarf Varieties.

Calendula Double Art Shades.

Calendula or Winter Marigold

One of the best and showiest of free-flowering annuals and "an all year" flower in our climate. As a garden plant it is very effective in solid beds, borders, etc.

Dania: Extra select, deep orange, very double. Pkts., 3d.; oz., 2/3.

Gold Ball: Sulphur yellow; very fine. Pkts., 3d.; oz., 2/3.

Meteor: Golden striped on lemon yellow ground. Pkts., 3d.; oz., 1/-.

Monarch: Orange, very fine strain. Pkts., 3d.; oz., 2/3.

Orange Shaggy: The petals are long and very fringed, and each flower is formed in an irregular but very attractive manner, resembling the Chrysanthemum. Pkts., 1/-.

Radio: The double flowers are deep orange in color, excellent for indoor decoration. Pkts., 3d.; oz., 1/6.

Sulphur Crown: Improvement on Lemon Queen. Pkts., 3d.; oz., 1/-.

Choice Mixed: A choice mixture of many sorts. Pkts., 3d.; oz., 1/-.

Double Art Shades: This strain is entirely new in Calendulas. It contains many shades not previously obtained, ranging from almost pure white through creams and buff, to yellow and deep orange. Outstanding for massed bedding purposes and excellent for cut flowers. Pkts., 6d.; oz., 2/3.

CHEIRANTHUS.

An early flowering perennial with gorgeous orange flowers. Unusually showy and sweet scented.

Allioni: The Siberian Wallflower; splendid for front borders or massing, dwarf rich gold flowers. Pkts., 3d.; 1/4 oz., 6d.; oz., 1/6.

Kewensis: Winter-blooming Wallflowers, primrose shades passing to mauve. Pkts., 6d.; 1/4 oz., 4/3.

Linifolius: Pale lilac flowers borne in winter and spring. Pkts., 3d.; 1/4 oz., 2/-; oz., 6/9.

COBAEA.

A very rapid annual climber, quickly attaining a height of 30 feet or more. The flowers are large and bell-shaped.

Scandens: Deep blue flowered form. Pkts., 6d.; 1/4 oz., 1/6; oz., 5/3.

Scandens alba: A white flowered form. Pkts., 6d.; 1/4 oz., 1/9; oz., 6/-.

COCKSCOMB.

Showy, sun-loving annuals, perfectly at home in the Australian summer sunshine, where their large, highly colored crests add a gay note to innumerable gardens.

Stinton's Special Dwarf Mixed: Plants grow about 1 foot in height, bearing immense combs in many showy colors. Pkts., 3d.; 1/4 oz., 2/-; oz., 6/9.

Fine Mixed: Shades of red, pink and yellow; height 18 inches. Pkts., 3d.; 1/4 oz., 9d.; oz., 2/3.

EVERBLOOMING CARNATIONS.

Chaubaud's Extra Quality Mixed: A remarkably fine and vigorous strain of French origin. Blooms in about five months from seed. Produces nicely fringed flowers of very large size and perfectly double. The strain blooms indefinitely. Pkts., 6d.; 1/4 oz., 5/-.

Margarita Malmaison: An exceedingly popular type, blooming in a few weeks from the seed. They are of very good size and produce a large percentage of fully double flowers. A splendid mixture of colors. Pkts., 6d.; 1/4 oz., 4/3.

Margarita Finest Mixed: A good mixture of colors in free blooming types. Pkts., 3d.; 1/4 oz., 2/3.

PLUMED CELOSIA.

(Feathered Cockscomb.)

The Feathered Cockscombs are quite distinct in form, producing tall fluffy plumes 2 feet or more in height, and are excellent material for summer beds or borders. They may also be cut and dried for winter decoration in the home.

Childsii (Chinese Woolflower): Compact plants carrying large feathery plumes shading from pale rose and yellow to deepest crimson. Pkts., 3d.; 1/4 oz., 1/9; oz., 6/-.

Thompsoni Magnifica Mixed: Feathery plumes 3 feet in height and ranging in color from clear yellow to deepest blood red. Pkts., 3d.; 1/4 oz., 1/3; oz., 4/-.

CENTAUREA.

The Centaureas are among the most popular of garden annuals, both for bedding and cut flowers.

Montana Blue: Perennial Cornflower. Pkts., 3d.; 1/4 oz., 1/-; oz., 2/9.

Imperialis Mixed: A really fine strain. Pkts., 3d.; 1/4 oz., 1/9; oz., 2/3.

CHRYSANTHEMUM.

Annual Chrysanthemums are invaluable for summer gardening. They are extremely hardy and the colors are very varied.

Cascade: A new race of perennial Chrysanthemums which flower six months from sowing of seed. It is very easily grown, and forms an admirable subject with its pendulous habit and falling cascades of flowers. Pkts., 2/6.

Tricolor Fine Mixed: A splendid mixture of tricolor varieties. Pkts., 3d.; oz., 1/-.

CINERARIA.

It would be hard to find a flowering pot plant or bedding plant of more resplendent beauty than the Cineraria. It produces gorgeous spikes of large blooms in the most vivid shades during the late winter and early spring, and delights in a cool shady location away from frost.

"Claremont" Marvel Strain: Choice rich colors mixed. A first-class strain of sterling merit. The flowers are of perfect form, large size, and great substance, rendering it, without a doubt, one of the finest strains. Pkts., 2/6.

CLARKIA ELEGANS.

Very free-flowering annual of easy culture, producing handsome double flowers on leafy stems and valuable for bedding, for borders and for cutting.

Chieftain: Delicate mauve. Pkts., 3d.; oz., 1/9.

Enchantress: Orange, shading to pink; a delightful variety. Pkts., 3d.; oz., 2/3.

Illumination (New): Orange mingled with rose. The most beautiful of all varieties. Pkts., 6d.

La France (New): Salmon pink, paler edging to petals. Pkts., 3d.; oz., 2/3.

Orange King: Robust grower; orange scarlet. Pkts., 3d.; oz., 1/9.

Ruby King: Rich ruby red. Pkts., 3d.; oz., 1/9.

Double Mixed: Superb strain of double-flowered varieties. Pkts., 3d.; oz., 1/6.

COLEUS.

(Flame Nettle.)

Claremont Hybrids Mixed: Our strain of new large-leaved hybrids produces the most highly colored and novel foliage plants for summer bedding and also house culture. Pkts., 2/6.

COREOPSIS LANCEOLATA.

"Mayfield Giant": An easily grown perennial. Most useful for cutting. Bright yellow flowers, 3 inches in diameter. Pkts., 3d.; 1/4 oz., 1/6; oz., 5/3.

COSMEA BIPINNATA.

(Cosmos.)

Very graceful tall annuals with large long-stemmed flowers and finely cut foliage. Cosmos are invaluable in the summer and autumn garden. The plants are bushy, 5 to 8 feet high, and produce a wealth of flowers. They are very useful for backgrounds and screens, or wherever tall heavily-branched flowering plants are needed.

Lady Lennox: Large single-flowering, pink. Pkts., 3d.; 1/4 oz., 6d.; oz., 1/6.

Mammoth Mixed: Late, large-flowering; mixed colors. Pkts., 3d.; 1/4 oz., 6d.; oz., 1/6.

Orange Flare: In flower less than four months from time of planting. A mass of color all the season. Vivid orange, free-flowering. Provides exceptional cut flowers. We highly recommend this new early-flowering Cosmos. Pkts., 6d.; 1/4 oz., 1/6; oz., 4/9.

Double Early Crested: In mixture. Pkts., 6d.; 1/4 oz., 4/3.

Double Late Crested: In mixture. Pkts., 3d.; 1/4 oz., 2/6; oz., 8/6.

Dahlia Pompone.

DOUBLE CORNFLOWER.

An old favorite; one of the hardiest of annuals succeeding anywhere and responding quickly to what little care and cultivation may be bestowed upon it.

Emperor William: Blue, one of the finest blue annuals in cultivation. Pkts., 3d.; oz., 1/-.

Rose: Double flowers of beautiful clear rose pink color. Pkts., 3d.; $\frac{1}{4}$ oz., 9d.

Double Blue Re-selected: A splendid variety, clear bright blue. Pkts., 3d.; $\frac{1}{4}$ oz., 9d.

Double Mixed: Splendid mixture of colors. Pkts., 3d.; oz., 1/-.

CYCLAMEN.

Charming tuberous perennial plants for the glass-house or sheltered situation in the garden. Foliage deep rich green; flowers brilliantly colored and fragrant.

Persicum Giganteum "Claremont" Strain: A beautiful assortment of colors in large-flowering types. This strain of Cyclamen has now been brought to a state of high perfection. Pkts. 2/6.

CYNOGLOSSUM.

(Hound's Tongue.)

Amabile: A valuable bright blue Chinese plant for garden decoration, also suitable for herbaceous border. Pkts. 3d.

Blue Bird: A beautiful turquoise blue variety, which flowers freely during the summer months. Pkts. 3d.

DELPHINIUM

These graceful, easily grown perennials are worthy of a prominent place in every plant border. Their tall, handsome spikes command attention, and the statuesque beauty of the plant as a whole makes it eminently suitable for planting at the back of a herbaceous border in the shrubbery, etc. The colors include all shades of blue, from azure to deep indigo. The dwarf growing types are very charming and worthy of attention.

"Claremont" Hybrid Delphiniums: "Claremont" Delphiniums come to you acknowledging no peer. The clear-cut, massive, individual flowers are borne erect on long solid spikes often exceeding 3 feet length of massed flower heads. The color range is exceptionally fine, embracing all the best of Delphinium shades, ranging from delicate sky blue, rosy mauve, lustrous satin pink, cornflower blue, through dual tones and brilliant blue to rich rosy purple and dark navy blue. Either for general garden decoration or exhibition purposes the "Claremont" strain cannot be excelled. Pkts. 2/6.

Hollyhock Strain: The individual flowers are exceptionally large. The spikes are of extraordinary length, and the spike-like shape of them gives the appearance of a Hollyhock. They embrace a wide range of varied tints. Pkts. 1/-.

Belladonna Hybrids: Loosely branching sprays of pale blue flowers; height 3 feet. Pkts. 1/-.

DWARF VARIETIES.

Azure Fairy: Dwarf Habit, clear sky blue. Pkts. 6d.

Blue Butterfly: A brilliant blue variety of compact habit. Excellent for small beds and as an edging to taller plants. Pkts., 6d.; $\frac{1}{4}$ oz., 2/9.

DAHLIA

Cactus Re-selected: Saved from an extensive collection of the best varieties, which generally produce some handsome new flowers, many of which are perfect show types. Mixed colors. Pkts. 6d.

Charm Type Unwin's Re-selected: Invaluable for border work and garden decoration generally on account of their dwarf sturdy habit. Pkts. 6d.

Collarette Mixed: The large ray florets are charmingly set off by a second series of petals of contrasting color, such as crimson and white, yellow and red, etc., while some are beautifully striped. Pkts. 1/-.

Hornsveld Giant Re-selected: A fine mixture of striking varieties. Pkts. 6d.

Mignon Dwarf Single Mixed: These combine the wonderful dwarf habit and freedom of flowering of the single types, with the free-flowering propensities of the Charm Dahlia, and are a valuable acquisition to the late summer and autumn flowering plant section. Pkts. 6d.

Miniature Paeony Flowered: A small flowered type of the Paeony Dahlia. The flowers are well displayed and may be cut with foliage for decorative purposes. Pkts. 1/-.

Monarch Decorative: A new strain of the double Paeony type, producing truly gigantic blooms. The flowers are well displayed, and may be cut with foliage for bold decoration in large bowls. Mixed colors. Pkts. 6d.

Pompone Mixed: A distinct and pretty type. The brilliantly colored flowers are of perfect compact shape and are most decorative both in garden border and for vases. Pkts. 6d.

"Zulu": An outstanding dwarf-growing dark-foliaged type, very suited to making massed display and border planting. The dark metallic foliage and the rich bright flowers go to make this very desirable variety one of the most attractive of our summer-flowering plants. Pkts. 1/-.

DIANTHUS.

(Chinese or Indian Pink.)

Delightfully fragrant and brilliantly colored annual or biennial border and bedding plants. They are quite similar to the Carnation and the double sorts rival these in value as cut flowers for the home. Height 8 to 10 inches.

Heddewigii Double Mixed: Beautiful showy colors comprise this mixture. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/3.

Heddewigii Single Mixed: Flowers of good colors borne freely on dwarf plants. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-.

DIDISCUS COERULEUS.

(Blue Lace Flower.)

A most charming annual. Flowers are a beautiful sky blue; height 18 inches. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/3.

DIGITALIS.

(Foxglove.)

Foxgloves are tall showy hardy plants with green spikes of closely set flowers in many attractive shades.

The Shirley: A magnificent strain, colors ranging from pure white to deepest rose. Pkts., 3d.; $\frac{1}{4}$ oz., 1/6; oz., 4/6.

Purpurea: Ivory's spotted varieties. Handsome spotted Gloxinia-like flowers on long spikes. Mixed colors. Pkts., 3d.; oz., 2/9.

DIMORPHOTHECA.

(Star of the Veldt.)

The Dimorphotheca is one of the quickest of our annuals to bloom, and may often be had in perfection within six weeks from an open ground sowing made in September or October. The rich orange color of the type has become exceedingly popular wherever it is grown, as also have the new brilliant apricot, and lemon-colored varieties.

Aurantiaca Golden West: Vivid golden-yellow. Pkts., 3d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Aurantiaca Salmon Beauty: True salmon, delicate and attractive. Pkts., 3d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Aurantiaca Hybrida Mixed: Colors range from white, cream and salmon to deep orange. Pkts. 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9.

Eklonis (Perennial): Makes a spreading bushy plant covered with large white flowers with small deep blue centre. Pkts. 6d.

DOLICHOS.

Rapid climber flowering freely in erect racemes.

Lablab albus: White, quick-growing, climbing plant; suitable for covering ugly fences, etc. Pkts. 3d.; oz., 1/-.

Lablab purpureus: A bright rosy purple flowered form. Pkts., 3d.; oz., 1/-.

ESCHSCHOLTZIA.

(Californian Poppy.)

Only those who have used Eschscholtzias for summer bedding have any idea of the gorgeous effect produced by these plants. Although Eschscholtzias are strictly perennials, the modern practice is to grow them as annuals. From seed sown in the open ground in spring, the plants will produce a fine display of flowers during the summer months.

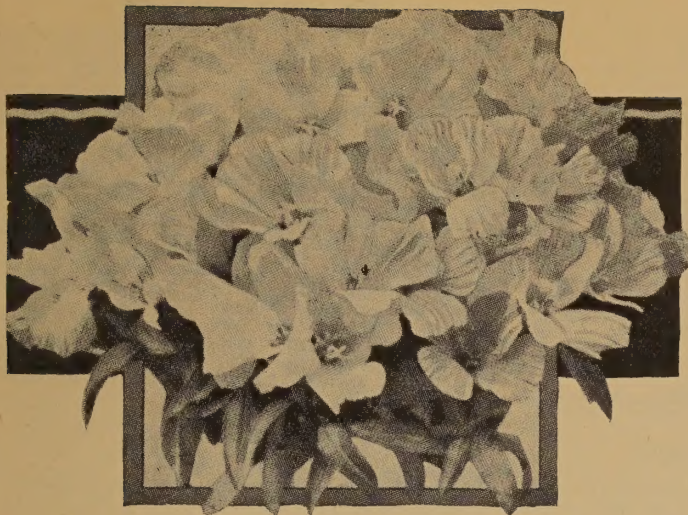

Special Mixed: A blending of all the latest novelties. Pkts. 6d.

FREESIA.

Freesias, although better known as bulbous plants, may easily be brought in flower from seed in one year.

Hybrida Mixed: The beautiful, scented flowers are tinted in the most varied shades of pink, rose, purple, blue, violet, orange, sulphur yellow and brown, often delicately spotted and veined. As cut flowers they retain their freshness for a long time. Pkts., 1/-; $\frac{1}{4}$ oz., 8/6.

Refracta Alba: White flowers, sweetly scented. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 4/-.

Godetia Single Mixed.

GAILLARDIA. (Blanket Flower.)

Few cut flowers are so dependable during the warm summer and autumn months as these showy, large-flowered Gaillardias. They are perennial but bloom the first season from seed.

Bremen: Large coppery-scarlet flowers. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9; oz., 9/-.

Dazzler: An intense orange-red which is exceedingly effective when cut. Plants are vigorous, stems long and wiry. Pkts., 6d.; $\frac{1}{2}$ oz., 2/-; oz., 7/-.

Hybrida Grandiflora Mixed: A mixture of all the large-flowered hybrids. Pkts., 3d.; $\frac{1}{2}$ oz., 6d.; oz., 2/-.

Lorenziana Double Mixed: Superb double-flowering strain. Pkts., 6d.; $\frac{1}{2}$ oz., 1/6.

Portola Hybrids: A vivid red shade tipped with gold, after the manner of the original type but the colors are brighter, clearer and the flowers immense in comparison. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9; oz., 9/-.

GEUM.

A hardy perennial border plant of great beauty and succeeding admirably in a hard, dry climate where it blossoms practically the entire year.

Lady Stratheden: Golden yellow, large full flowers of great beauty. Pkts., 6d.; $\frac{1}{2}$ oz., 4/6.

Mrs. Bradshaw: Dazzling orange-scarlet blooms of very large size and full; wonderfully free-flowering and blooms the first year from seed. Pkts., 6d.; $\frac{1}{2}$ oz., 3/6.

Orange Queen: Rich orange color; a sturdy plant and a most desirable variety. Pkts., 6d.; $\frac{1}{2}$ oz., 3/6.

GILIA.

A graceful annual with feathery foliage and globular heads, excellent for cutting.

Capitata: Attractive pale mauve flowers in globular heads gracefully poised on long stems. Pkts., 3d.; oz., 1/-.

GLOXINIA.

One of the most beautiful flowering pot plants for the greenhouse or conservatory. Gloxinias can be flowered in the most satisfactory manner within six months of the date of sowing of the seed.

Stinton's "Claremont" Strain: This handsome strain continues to hold its high position for hardy constitution, size, substance of flowers, great variety of superb colors and fine deep green foliage. Pkts. 2/6.

Gloxinia.

GODETIA

Very handsome annual plants especially suited for semi-shaded positions. The flowers are bright and colorful and the single sorts are not unlike the Azalea in form. Popular for cutting.

Charming: A glowing deep satiny-pink. Very even in habit and extremely free-flowering. Oz. 3/-.

Flamingo: Crimson scarlet of ideal habit; the best of the single dwarf Godetias. Oz. 6/-.

Tall Single Mixed: All colors in splendid mixture. Oz. 2/-.

Tall Double Mixed: All colors in splendid mixture. Oz. 2/-.

Dwarf Special Mixed: Well blended mixture of best colors. Oz. 3/9.

Tall Double Mauve: 2½ feet; a delicate coloring deep mauve; excellent for cutting. Oz. 3/9.

Pkts. 3d. and 6d.

GYPSOPHILA. (Baby's Breath.)

The Gypsophila in both the annual and perennial varieties are very popular for mixing with other flowers. The light feathery sprays of tiny flowers are exceedingly graceful.

Elegans Crimson: A brilliant type; excellent for garden or decorative use. Pkts., 3d.; oz., 1/-.

Elegans Covent Garden White: Very valuable for borders. Pkts., 3d.; oz., 1/-.

Elegans Rosea: A charming pink variety; well worth growing. Pkts., 3d.; oz., 1/-.

HELIANTHUS. (Sunflower.)

Tall, rapidly growing plants, producing an abundance of large showy flowers. They are effective for screens, backgrounds, among shrubbery and are useful for cutting.

Cucumerifolius (Miniature Sunflower): Bright yellow flowers. Pkts., 3d.; oz., 1/6.

Cucumerifolius Excelsior Hybrids: Mixture of dark-toned varieties. Pkts., 3d.; oz., 1/6.

HELLEBORUS NIGER. (Christmas Rose.)

An attractive herbaceous perennial which yields attractive flowers during the late winter months. Very useful for planting in full shade, or on cold but sheltered positions. Pkts., 2/6.

HEUCHERA. (Coral Bells.)

Charming hardy perennial for rock gardens and borders; foliage dwarf and compact, above which rise numerous panicles of flowers which are excellent for cutting. The plants make a remarkably fine show when massed in the border and allowed to become well established.

Micrantha Mixed Hybrids: A valuable hybrid strain which produces flowers freely in large panicles, and vary in color from pale pink to crimson. The plants are particularly robust and thrive in soils where most plants are difficult to grow. Height 2 feet. Pkts. 1/-.

HOLLYHOCK.

Indispensable wherever height and color are required in the garden. The giant stalks, with closely placed double, semi-double or single flowers are strikingly effective in groups.

Chaters Double: Extra select, an elegant and magnificent tall growing strain giving an abundance of gorgeous double blooms literally covering the tall plants. A brilliant mixture. Pkts. 1/-.

Double: Obtainable in separate shades as under:—Scarlet, Dark Purple, Bright Rose, Golden Yellow, Buff, Lilac. Pkts., 6d.

Exquisite Mixed: Extra, flowers beautifully toothed and curled. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9; oz., 9/-.

IBERIS. (Candytuft.)

One of the most popular annuals for furnishing beds and borders with masses of color during the spring and summer months.

Gibraltarica (Perennial Candytuft): Mauve, suitable for massing in borders. Pkts., 6d.; $\frac{1}{2}$ oz., 1/6; oz., 5/3.

IMPATIENS.

Charming free-flowering perennials for bedding, semi-shade or for pot culture.

Holsti Hybrids: A mixture of a wonderful range of colors. Pkts. 1/-.

IPOMEA. (Morning Glory.)

Leardi: Indispensable for covering fences, sheds, etc. A vigorous climbing plant bearing bright blue flowers. Pkts. 1/-.

IPOMOEA.

Graceful and very showy biennials, withstanding heat well, and only requiring to be better known and appreciated.

Elegans or Picta Mixed: Free-flowering annual plants; mixed colors; good for massing. Pkts., 3d.; $\frac{1}{2}$ oz., 1/6; oz., 5/3.

JACOBAEA.

Closely resembling a pompon Chrysanthemum in form, and also in range of colors, which includes rose, copper, magenta, red, etc. Flowers freely.

Elegans Double Choice Mixed: Pkts. 1/-.

LARKSPUR

Particularly hardy and attractive annuals. Seeds sown where it is to flower often give the best results.

Giant Imperial "Blue Bell": "Blue Bell" is a fine medium blue Larkspur deeper than "Sky Blue," a color up to this time lacking in the Giant Imperial type. The habit is decidedly upright, with long basal branched flowering spikes, well adapted for cutting. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9.

Hyacinth Flowered Dwarf Double: In separate colors—Dark blue, rose, flesh color, mixed extra choice, mauve. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9.

Stock Flowered "Rosamond": There are three points on which "Rosamond" is outstanding. The color is new and distinct,

a pure bright rose, which has been entirely lacking in Larkspurs up to this time. It is two weeks earlier than other Stock-flowered varieties, giving a good cut before other Larkspurs are available. It is exceptionally uniform in height, four feet tall, with numerous good spikes heavily covered with fully double flowers. Pkts., 3d.; $\frac{1}{4}$ oz., 1/6; oz., 4/6.

Stock Flowered Double Branching: In separate colors—Bright rose, lilac; dark blue, flesh color, art shades mixed, pkts., 3d.; oz., 2/9; mixed extra choice, pkts. 6d.

KOCHIA.

(Summer Cypress.)

Tricophylla: A rapid-growing annual of graceful habit with finely-cut green foliage which changes to a rich russet crimson in the autumn. Pkts. 3d.

LEPTOSIPHON.

Useful for rock gardens and for edgings.

French Hybrids: Plants thickly studded with charming flowers of various bright colors. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/-.

LEPTOSYNE.

Giant winter-flowering yellow Marguerite; excellent for cutting.

Maritima: Golden-yellow Marguerite-like flowers. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9.

LIMNANTHES.

Douglas: Free flowering and delicately fragrant hardy annual; valuable for showy borders and beds; height 6 inches. Pkts., 3d.; $\frac{1}{4}$ oz., 9d.; oz., 2/3.

LINARIA.

(Toadflax.)

Maroccana Hybrids: Excelsior reselected. A splendid mixture containing only the brightest colors. Pkts., 3d.; oz., 1/-.

Reticulata Aurea purpurea: Yellow and purple, one of the most showy annuals. Pkts., 3d.; oz., 2/-.

LINUM.

(Flax.)

Grandiflorum Rubrum: A brilliant and attractive annual of long duration. Sown in permanent location in autumn for early spring bloom, or in spring for summer blooming. Flowers scarlet abundantly produced. Pkts. 3d.

Perenne (Perennial Flax): Bright blue. Pkts., 3d.; oz., 2/-.

LOBELIA.

The varieties of Lobelia we offer are dwarf, compact plants 4 to 6 inches high, or trailing sorts used for baskets, urns, etc. They are remarkably free flowering, blooming continually from October to April.

Crystal Palace Compacta: Rich deep blue of erect bushy habit. Leaves deep bronzy-green. Ideal for edging, bedding and ribbon borders. Pkts., 6d.; $\frac{1}{4}$ oz., 4/-;

Hybrida Pendula "Sapphire": Sapphire blue, white eye. Particularly adapted for hanging baskets. Pkts. 1/-.

Mrs. Clibran Improved: Deep blue; clear white eye. Very compact. Pkts. 6d.; $\frac{1}{4}$ oz., 6/-.

LUPINUS

The annual Lupins are easily grown, free-flowering plants 2 to 3 feet high, useful for beds, borders or cutting. While they seem to prefer a little shade, they are very easy to grow in any ordinary soil or situation.

Hartweggi Giant Blue.
Hartweggi Giant Rose.
Hartweggi Giant Mixed.
Large blue.
Large rose.
Large mixed.

Pkts., 3d. oz., 1/-.

PERENNIAL VARIETIES.

"Claremont" Imperial Hybrids,
Finest Mixed.

This strain, without a doubt, is the finest yet offered, and will prove to be a decided acquisition to any garden. Tall growing and elegant in appearance, the plants show off their massive heads of flower to perfection. The extensive color range embraces red, purple, pink, buff, yellow, lavender, white, and various shades incidental to these colors, together with some very fine two-toned effects. Robust in growth, and sweetly perfumed. Pkts. 2/6.

Hybridus Atro Coccineus: Red, white tips. Pkts. 6d.

Blue Type: Attractive shade, bright blue, Pkts., 6d.; $\frac{1}{4}$ oz., 9d.; oz., 2/3.

Buff Shades: Uncommon colorings in buff and apricot shades. Pkts. 1/-.

Elegans: Blue and white. Pkts. 6d.

Hybrid "Regal Lupins" Art Shades Mixed: A superb mixture of every color in brightest mixture. Pkts., 1/-; $\frac{1}{4}$ oz., 3/6.

Laxton's Hybrids: Tall, elegant flowered strain. Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9.

Pink Pearl: Delightful rose pink. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Sunshine: Rich yellow. Pkts., 6d.; $\frac{1}{4}$ oz., 2/-; oz., 7/-.

MARIGOLD

The African and French Marigolds enjoy a well deserved popularity. They form excellent material for mixed borders, and offer an endless supply of splendid cut flowers. The diversity of orange and yellow shades in which they abound permits of most effective contrast in decoration if combined with blues and purples of Larkspur, Cornflower, etc.

African Type.

African Giant Show Lemon: Giant flowered clear lemon-yellow. Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/-.

African Giant Show Orange: Extra large, fully double bright orange. Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/-.

Choicest Double African Mixed: Contains many shades of orange and yellow. Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/-.

French Type.

French Tall Double "Royal Scot": Modern as the crack Scottish railway train, "The Royal Scot," from which it borrowed its name, this Marigold is the most striking yet introduced. The large, well-formed, double flowers are produced in abundance on plants from 24 to 30 inches in height. The color is a charming combination of mahogany and gold in symmetrical stripes which radiate from the centre of the flower. We feel sure "Royal Scot" will be welcomed by all flower lovers. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 4/9.

Giant Tree French (Australian Tree): This already well-known Marigold fills an important place in the garden. The plants are tall and graceful and the flowers are borne in profusion through the late autumn and winter months. **NOTE:** In order to obtain this subject for winter flowering it is necessary to delay planting the seedlings until January. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/3.

Gold Striped: A superb strain of Scotch origin. Double deep velvety flowers striped gold. Pkts. 6d.

Dwarf Double "Electric Light": Double form of Legion of Honor. Pkts. 6d.

French Dwarf Double "Golden Ball": Golden orange double flowers; makes a splendid border or bedding plant. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/3.

"Guinea Gold" (Re-selected): This is a very distinct type of Tagetes, of graceful pyramidal habit, growing 2½ to 3 feet high, and producing 30 to 40 flowers to the plant, 2 to 2½ inches across, of a brilliant shade of orange flushed with gold. Unlike the ordinary African Tagetes, this new variety produces no single flowers, but practically 100 per cent. semi-double and double flowers. Do not fail to make at least a nominal planting of this valuable novelty both for early and late summer bloom, as well as to recommend same to your home garden friends. Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 2/9.

MECONOPSIS BAILEYII.

(The Blue Poppy of Tibet.)

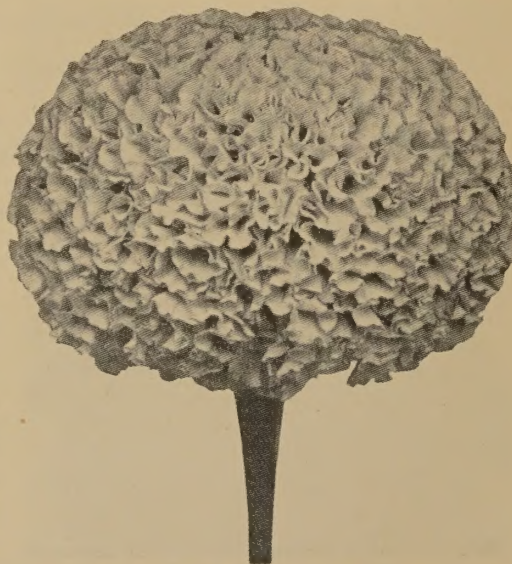

During the past few years many plants have been introduced into this country, but few have been so striking as this introduction. Under favorable conditions the plants grow easily and vigorously, and the charming flowers of an arresting shade of blue, are borne on stems 2 feet high. The blooms last for about 3 weeks when cut, and are excellent for indoor decoration. Cool conditions are necessary for the success of this subject. It will not thrive in an atmosphere which is hard and dry—and is best planted on a secluded position with a southerly aspect. It seems to do best where the air is calm and free from frost and draughts. Pkts. 2/6.

MESEMBRYANTHEMUM.

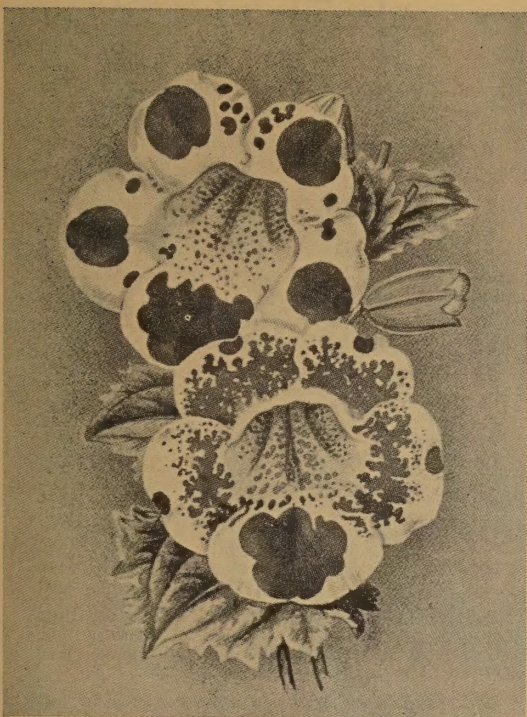

Criniflorum.

(Livingstone Daisy.)

Absolutely hardy and one of the most easily grown annuals. Plants, of slightly spreading habit, literally covered with flowers, measuring about one inch. There are pure whites tinted and edged with rose, crimson pink and buff, and self colors, including primrose, golden, buff, apricot, crimson and pink. Ideal carpet or rockery plant. Pkts. 1/-.

Marigold Giant Show Lemon.

Mimulus.

MIGNONETTE. (Reseda.)

Mignonette should be sown at intervals throughout the year. It thrives in ordinary garden soil and may be potted for house decoration. Through its exquisite fragrance this well-known favorite has maintained a universal popularity and no garden seems complete without it.

Stinton's Giant: One of the largest, most robust of all varieties, producing in great profusion the largest spikes of flowers. Good, deep rich color and extremely free-flowering. Pkts. 3d.

Red Monarch: Very large spikes of a pronounced red shade. Pkts. 3d.

Giant Orange Queen: A superb variety bearing innumerable large spikes of orange flowers. Pkts. 3d.

Sweet Mignonette (Reseda Odorata): The old-fashioned favorite; very sweetly scented. Pkts. 3d.

MIMULUS. (Monkey Flower.)

A class of magnificent dwarf hardy perennials which flower profusely and have a brilliant effect in beds and borders. The plants thrive in moist situations.

Tigrinus: Fine spotted and blotched flowers with yellow ground. Height 9 inches. Pkts. 6d.

Fine Mixed: A fine mixture of various colors. Pkts. 6d.

MINA LOBATA.

Beautiful annual climber. It produces freely long spikes of handsome bright red and yellow flowers. Pkts. 6d.

MYOSOTIS. (Forget-me-Not.)

Handsome spring-flowering perennial flowers well known and admired by everyone. They succeed best in a moist, shady location.

Alpestris Royal Blue: Rich blue, floriferous and effective. 9 inches; special selected stock. Pkts. 2/6.

Express: Masses of light blue flowers; the earliest variety of all. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9.

Victoria: Very bushy and compact, with large heads of clean, azure-blue flowers. Pkts. 1/-.

CRISP-LEAVED NASTURTIUMS

For color, length of bloom, ease of culture and general usefulness in the flower garden, the Nasturtium has no equal. Where winters are mild the Nasturtium can be sown practically any time and within a few weeks the brilliantly colored flowers begin to appear, continuing in bloom the entire season. They are usually sown where they are to bloom, and the seed is covered about 1 inch with soil.

Double Sweet Scented Varieties.

Golden Gleam: One of the most popular novelties introduced in recent years. The large golden-yellow double flowers are borne on erect stems 6 inches high. Pkts., 6d.; oz., 2/3.

Scarlet Gleam: Those who have seen Scarlet Gleam enthusiastically proclaim it even more dazzling in color than the showy Golden Gleam. The flowers are a fiery orange-scarlet of extraordinary brilliancy. The individual blooms are of an immense size, almost 3 inches across, much larger than any Nasturtium known. The sweet fragrance is more pronounced and the double flowers more uniformly well formed. The large, fiery scarlet flowers held well

above the cool restful green leaves present an arresting contrast, while the ease with which the plant is grown under almost any condition ensures a universal popularity. Pkts., 3d.; oz., 1/-.

Double Gleam Hybrids: This mixture is composed of an evenly balanced range of cheerful colors on dwarf, compact plants. The goodly-sized sweet-scented double flowers gaily cover the plants in an excellent color range which includes shades of yellow, orange, scarlet, crimson, salmon, cerise, cream, maroon and spotted varieties. While a majority of the plants have light foliage, there are a good many dark leaved plants as well. Pkts., 3d.; oz., 1/-.

Single Varieties.

Lilliput Mixed: A distinct race of Dwarf Nasturtium remarkable for its profusion of brilliant flowers which are thrown well above the small foliage. Neat, compact habit. Pkts., 3d.; oz., 1/-.

Tom Thumb Single Mixed: A combination of dwarf varieties; produces a grand display in a large bed. Pkts., 3d., oz., 1/-.

Tall or Climbing Mixed: A choice mixture of the very beautiful and popular tall-growing single flowering Nasturtium. Pkts., 3d.; oz., 1/-.

PANSY

Pansies from seed cannot be grown too freely in any garden. The beautiful and rich colors produced by these flowers are especially welcome after the dull winter days have passed. Our "Claremont" Exhibition Strains now enjoy wide popularity, and can always be relied upon to produce sturdy plants and flowers of exceptional beauty and size.

"Claremont" Special Exhibition Strain.

The wonderful strain has been selected from all the best and really immense flowers of all the new giant varieties we grow. The mixture is made up in such a way that it is a well balanced blending of red, yellow, blue, white and intermediate shades. The strain is unexcelled for size and beauty and stands without a peer. Pkts. 3/6.

Bugnot's Giant Spotted: Large flowered strain, flowers mostly dark in color and slightly frilled edges. Pkts., 6d.; $\frac{1}{2}$ oz., 4/-.

Finest Show Mixture: An outstanding strain; plants compact in form; flowers large and beautifully marked. Pkts. 1/-.

Masterpiece: A strong growing and free-flowering variety. The petals of the flowers are beautifully curled, giving them a unique appearance. Pkts. 1/6.

Non Plus Ultra: Superb large flowered strain, embracing mostly brown and yellow shades. Pkts. 1/-.

Roggli's Giants Mixed: One of the largest and most remarkable of European strains. The flowers as well as the plants develop to an immense size. Colors rich in red and dark shades, many flowers beautifully marked. Pkts. 2/-.

Special Prize Strain: Plants robust and flowers of exceptional size, borne on tall, sturdy stems and very freely produced. Pkts. 1/6.

Ullswater: For bedding display and garden decoration, blue flowers, no matter how short or tall, are always effective. The color of this beautiful Pansy is rich Wedgwood blue with slightly deeper markings; large flowers entirely cover the plants when in bloom. Pkts. 2/6.

Bedding Varieties.

Bismarck: Stout fiery crimson flowers margined with gold, which remain in full beauty for a very long period. Unusually compact habit. Pkts. 6d.

"Claremont" Blue: A deep bright blue, extremely vigorous and floriferous. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9.

"Claremont" Yellow: Rich golden yellow, good strong grower and free blooming. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9.

Emperor Frederick: Dark red, bordered with bright yellow. Pkts., 6d.; $\frac{1}{2}$ oz. 2/9.

Golden Glow: A monster golden yellow, clear color all through. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9.

Helios: A pure golden yellow, distinct and brilliant garden bedding variety. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9.

King of the Blacks: Pkts., 6d., $\frac{1}{2}$ oz., 2/9.

Lord Beaconsfield: Violet shading to white. One of the most robust and flori-

ferous of all the bedding Pansies. Pkts., 6d.; $\frac{1}{2}$ oz., 3/3.

Madame Perret: A splendid range of uncommon wine shades, unique and rich in effect. Flowers large in size and of good substance. Pkts., 6d.; $\frac{1}{2}$ oz., 4/-.

Mammoth Mauve Beauty: A distinct and pretty shade of pinkish mauve; a most effective variety for spring bedding. Pkts. 1/-.

Orange King: Lower petals vivid orange, upper petals shaded apricot. This strain is unexcelled for creating a brilliant bedding effect. Pkts., 6d.; $\frac{1}{2}$ oz., 2/9.

Polar Bear: Pure white. Pkts. 6d.

Sea Blue: The most beautiful shade of blue we have so far seen in Pansies. Pkts. 6d.

Volcano: Burgundy-red; long stemmed flowers. Pkts. 6d.

Fine Mixed: A full range of color. Pkts., 6d.; $\frac{1}{2}$ oz., 1/9.

NEMESIA.

This is one of the finest hardy annuals that has ever been introduced, and, with the minimum of attention gives a most brilliant display in the garden. Flowers of every shade are borne in profusion during the late winter and spring months of the year. They are particularly adapted for massing in small beds or bordering to paths, etc.

"Blue Gem": Grows about 9 inches high, and forms perfect little bushes. Smothered with *Myosotis* blue flowers. Pkts. 6d.

"Fire King": Compact growing variety which bears brilliant scarlet flowers. The plants are particularly neat in habit. Very attractive. Pkts. 6d.

"Orange Prince": A low growing compact form, bearing rich orange colored flowers. Pkts. 6d.

Strumosa Suttoni Grandiflorum Mixed: A splendid well balanced mixture of the large growing large flowered types, including white, pale yellow, pink, crimson, blue, and an almost endless diversity of intermediate shades. Pkts. 6d.

"White Gem": Large pure white flowers with deep golden eye, very attractive and useful for bedding and bordering. Pkts. 6d.

NEMOPHILA.

(Baby Blue Eyes.)

Pretty dwarf hardy annuals suitable for borders.

Insignis Blue: Pkts., 3d.; oz., 1/-.

Insignis Mixed: Pkts., 3d.; oz., 1/-.

NIGELLA.

(Love-in-the-Mist.)

Compact free-flowering annuals with finely cut foliage and curiously formed flowers and seed pods.

Miss Jekyll: Rich blue, fine foliage. Pkts., 3d.; oz., 1/-.

PENTSTEMON.

"Claremont" Monarch Strain: Visitors to our Nurseries during recent years have warmly appreciated the displays of our various lines in flower at different seasons of the year. Our "Claremont" Monarch Pentstemons have always had considerable attention drawn to them. The plants reach about 18 inches to 2 feet high and are covered with blooms, giving a riot of color, embracing every hue known to the Pentstemon to-day. Very hardy in growth and free flowering. Pkts. 2/6.

PHLOX DRUMMONDI GRANDIFLORA

Stinton's "Claremont" Strains.

Phlox are among the most charming of our summer and autumn flowering annuals, and they thrive best in a dry climate and a sunny situation. Large beds of Phlox make an amazing show of wonderful colors, and they cannot be grown too freely in any garden. We pay the greatest attention to our "Claremont" strain of Phlox and the displays seen at our "Claremont" Nurseries invariably call forth much comment and praise from visitors. The mixture includes only the brightest and most wanted shades, and the largest flowered varieties.

Stinton's Buff Beauty: A lovely color, quite distinct from the ordinary Phlox colors, being a unique shade of buff yellow self. Pkts., 6d.; 1/4 oz., 1/9; oz., 6/-.

Stinton's Crimson Bedder: It is the reddest and the most rich color Phlox we know. The flowers are large, of perfect form, and are marked with a conspicuous dark blotch in the throat. Pkts., 6d.; 1/4 oz., 1/9; oz., 6/-.

Stinton's Fire King: The color is vivid scarlet, and the large flowers make a brilliant show of color. Pkts., 6d.; 1/4 oz., 1/9; oz., 6/-.

Stinton's Mayfair: Well formed flowers produced in large heads; color, delicate rose pink. Pkts., 6d.; 1/4 oz., 1/9; oz., 6/-.

Stinton's Queen of the Roses: A very large flowered strain of Phlox, producing charming salmon pink flowers. Pkts., 6d.; 1/4 oz., 1/9; oz., 6/-.

Stinton's Purple Prince: Large handsome flowers of deep purple color. Pkts., 6d.; 1/4 oz., 1/9; oz., 6/-.

Stinton's "Claremont" Selection of Brightest Colors, Mixed: The largest flowered types and the most brilliant colors comprise this mixture. Pkts., 6d.; 1/4 oz., 1/9; oz., 6/-.

Stinton's Star Phlox: An improved strain of the fringed Phlox. Extremely useful for cutting and especially valuable for table decoration. Mixed colors. Pkts., 6d.; 1/4 oz., 1/6; oz., 4/6.

Grandiflora "Claremont" Dwarf Compact: Valuable class of annual Phlox. The colors are striking, the habit compact and dwarf, the plants frequently attaining only 4 to 6 inches in height, forming masses of flower heads from 9 to 10 inches across. Strongly recommended for beds, edgings or borders; available in the following colors or in mixture—

Apricot	Dark Blue
Chamois Rose	Deep Crimson
Cinnabar Scarlet	Salmon Rose
Choice Mixture.	

Pkts., 1/-; 1/4 oz., 4/3; oz., 14/6.

Massed Phlox in Border.

PETUNIA

The Petunias make a charming display in the garden. The colors are bright and varied, and the plants flower over a long period. Lovers of bright clear sunshine and dry atmospheric conditions, it naturally follows the plants yield of their best in the clear Australian sunlight.

Large Flowered Varieties.

Giants of California: A justly celebrated strain. Enormous ruffled and frilled blooms in a surprising range of brilliant colors. Pkts. 2/6.

Bedding Varieties.

Alderman: Rich violet color; excellent for small beds and borders. Pkts., 6d.; 1/4 oz., 4/3; oz., 14/-.

Lavender Queen: A pretty pale mauve. Pkts., 6d.; 1/4 oz., 4/3; oz., 14/-.

Rose of Heaven: Bright rose, a charming color for bedding and very free-flowering; one of the best. Pkts., 6d.; 1/4 oz., 2/9; oz., 9/-.

Border, Mixed: A well-blended mixture of the bedding type. Pkts., 3d.; 1/4 oz., 4/3.

Petunia Dwarf Striped: An excellent Petunia for massing in beds and borders, yielding a large number of brightly marked striped single flowers. Pkts. 6d.

Stinton's New Dwarf: The variety is extra compact in growth and is an admirable addition to the bedding and border plants. Plants flower over a long period, giving a profusion of brilliantly colored blooms. Pkts., 1/-; 1/4 oz., 4/3; oz., 14/-.

POLYANTHUS.

(Primula veris.)

Useful border plants which thrive in cool, damp situations.

Stinton's Superb Mixed: Our seed is saved only from the largest flowers of handsome form, and we take special pains to ensure as wide a range of color as possible including brilliant shades of red, orange, and bronze, as well as the richest maroons and yellows, and pure white. Pkts. 1/6.

Munstead Strain: A magnificent strain of Bunch Primroses or Polyanthus which has been brought to a high stage of perfection. The flowers show wonderful shade of yellow as well as pure white. Pkts. 1/6.

"Claremont" Blue Flowered: Very rich coloring. The shade is not fixed, but all the flowers are beautiful, especially when cut and placed in small vases. Pkts. 2/6.

PRIMROSE.

Splendid border and bedding plants which thrive under cool and moist conditions.

"Claremont" Blue Shades: A valuable and attractive Primrose. Many of the flowers are attractively laced with gold. Pkts. 2/6.

"Claremont" Mixed Hybrids: A splendid strain of Primrose saved from the finest flowers of the brightest shades only. Pkts. 1/6.

English Yellow: The true well-known English Primrose. Pkts., 6d.

PORTULACA.

(Sun Plant or Moss Rose.)

A well known and most useful plant for covering dry, barren soils. The plants are extremely bright and vary from white, pale-rose, and yellow, to dazzling scarlet, orange, purple and dark red.

Grandiflora Double Mixed: Pkts., 3d.; 1/4 oz., 3/3.

Grandiflora Single Mixed: Pkts., 3d.; 1/4 oz., 1/-.

Primula "Princess Mary."

SHIRLEY POPPIES.

Well known favorites of the easiest culture. Invaluable for the annual section of any flower garden. The plants grow 2 to 3 feet high, producing freely over a long period lovely, broad petalled flowers of delicate satiny texture, and in the most exquisite shades.

New Art Shades (Double): Confined to new shades such as cream, grey-blue, fawn, maroon, etc., unique and beautiful. Pkts., 3d.; oz., 3/-.

Rev. Wilk's Re-selected: This strain has been selected with great care and is saved only from flowers of the largest size, finish, form and most beautiful coloring. Pkts., 3d.; oz., 3/-.

PRIMULA.

All strains of this winter flowering subject are very beautiful. The plants make splendid subjects for green-house culture, being easy to grow and extremely free in flowering.

"Pink Pearl": The flowers are a true rose pink, and are more intense in color than any other Primula Malacoides we have yet seen. A splendid new variety and one we can, with every confidence, recommend. Pkts. 1/-.

"Princess Mary": Deep rose pink, great improvement on old Malacoides. Pkts. 1/-.

Obconica: A magnificent strain and will produce larger and better colors than any other. Pkts. 2/6.

Sinensis (Chinese Primrose): Stinton's "Claremont" Mixture:—A most attractive pot plant, easily grown from seed in the cool greenhouse. The plants bear massive flowers and handsome foliage. When well grown the plants prove very attractive even before the blooms appear. A splendid range of color from pure white, pale pink, rose pink to deep crimson and dark blue are included in our mixture. Pkts. 2/6.

PYRETHRUM.

Perennials — large Marguerite flowers and fine fern-like foliage. Graceful and long-lasting cut flowers.

Aureum (Exhibition Border): Suitable for small borders; golden foliage. Pkts., 3d.; 1/4 oz., 9d.; oz., 2/3.

Hybridum, Single Mixed: An excellent perennial for cutting; bright shades and large flowers. Height 2 feet. Pkts., 1/-; 1/4 oz., 2/6; oz., 8/3.

ICELAND POPPIES

Graceful hardy perennials with bright green fern-like foliage, formed in tufts, from which issue slender stalks about 18 inches high bearing brilliant flowers in endless profusion. Seed pods should be removed regularly to prolong the flowering period.

Stinton's "Claremont" Giants, Art Shades, Mixed: A large flowered and strong growing strain of Iceland Poppy, growing twice the height and yielding flowers twice the size of the original. The colors are very rich and embrace a wide range of bright selfs, dual tones and art shades. Pkts. 1/6.

Coonara Pinks: An excellent mixture of pink shadings, good exhibition strain for size and quality of color. Pkts., 6d.; 1/16 oz., 2/6; 1/4 oz., 4/-.

Sunbeam Strain: Much improved strain with excellent range of colors. Pkts., 6d.; 1/4 oz., 2/3; oz., 8/-.

"Gartford" Giants: A superb strain of giant flowered types embracing a wide and distinct range of art tonings not previously available in Iceland Poppies. Pkts. 1/-.

"Gartref": (In Raiser's sealed packets): The "Gartref" strains of Iceland Poppy now command a world-wide sale and are recognised as outstanding and unique amongst all Poppies. We have pleasure in offering the following varieties which we can, with every confidence, recommend to our friends and customers.

"Gartref" Dark Edge. Pkts. 1/-.

"Gartref" Dark Edge, Pink Shades. Pkts. 1/-.

"Gartref" Dark Edge, Bronze Shades. Pkts. 1/-.

"Gartref" Dark Edge, Yellow Shades. Pkts. 1/-.

"Gartref" Lustre. Pkts. 1/-.

RANUNCULUS.

(For descriptions, see Bulb section, pages 9 to 12.

Bonnie Lassie. Pkts., 2/6; 1/4 oz., 16/-; 1 oz., 52/-.

Golden Glory. Pkts., 2/6; 1/4 oz., 13/-; 1 oz., 42/-.

Huntsman. Pkts., 2/6; 1/4 oz., 13/-; 1 oz., 42/-.

Sunset. Pkts., 2/6; 1/4 oz., 16/-; 1 oz., 52/-.

Tango Mixture. Pkts. 2/6.

Super Hybrids No. 5. Pkts., 2/6; 1/4 oz., 5/6; 1 oz., 18/-.

Super Hybrids No. 9. Pkts., 2/6; 1/4 oz., 10/-; 1 oz., 33/-.

Garden Strain. Pkts., 6d.; 1/4 oz., 2/9; 1 oz., 9/-.

SALVIA.

Brilliant subjects for summer bedding and border plants, flowering freely throughout the season.

Bonfire: Brilliant scarlet; annual. Pkts., 6d.; 1/4 oz., 2/9.

Farinacea: Perennial; lovely spikes of pale blue flowers. Pkts., 6d.; 1/4 oz., 2/9; oz., 9/-.

Patens: Pure bright blue flowers; perennial. Pkts. 2/6.

SCABIOSA.

Sweet Scabious also known as "Pin-cushion Flower" is a well-known favorite and one of the best of the old-fashioned flowers. In its present-day form it ranks with our most valuable garden annuals.

Azure Fairy: Clear azure blue. Pkts., 3d.; oz., 2/3.

Dwarf Double: A delightful mixture of all the brightest shades. Pkts., 3d.; oz., 1/3.

Tall Double: Choicest mixture of good strong colors. Pkts., 3d.; oz., 1/-.

SALPIGLOSSIS.

Sun-loving, velvet petalled annual; 2 1/2 feet high. The richly colored, trumpet shaped flowers are produced in the greatest profusion; magnificent for summer bedding in sunny locations.

Superbissima Emperor: A wonderful strain, including all the largest, brightest flowers. Pkts. 6d.; 1/4 oz., 1/6; oz., 5/3.

Grandiflora, Fine Mixed: Gorgeous shaded flowers. Pkts., 6d.; 1/4 oz., 1/6; oz., 4/6.

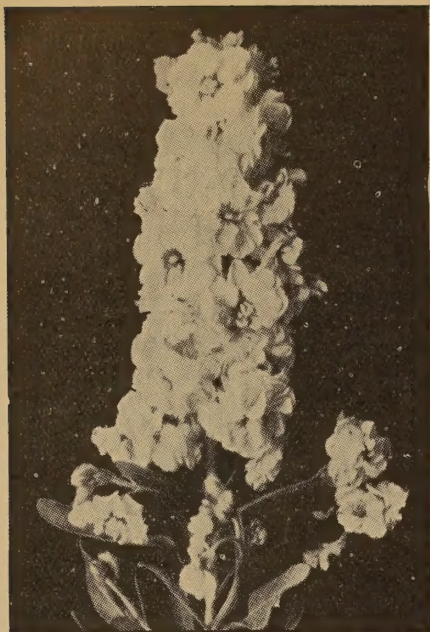

Ranunculus Super Hybrids.

STINTON'S GIANT DOUBLE STOCKS

Stocks are of inestimable value, both for garden and home decoration. For brilliancy and diversity of color, fragrance, profusion and duration of bloom, they are unequalled. The strains we offer can be depended upon to yield the utmost satisfaction, and we recommend them unreservedly, knowing they are superior in point of size, color and percentage of doubles.

Giant Winter-Flowering Type — Height 30 inches.

Stocks for fragrance.

Abundance: Rosy lilac. Pkts. 6d. and 1/-.
Almond Blossom: White, shaded carmine. Pkts. 6d. and 1/-.
Aurora: Buff, suffused rose. Pkts. 6d. and 1/-.
Beauty of Naples: Fine old rose. Pkts. 6d. and 1/-.
Beauty of Nice: A delicate flesh pink. Pkts. 6d. and 1/-.
Bianca: Purest white. Pkts. 6d. and 1/-.
Crimson King: Brilliant crimson. Pkts. 6d. and 1/-.
La Brillante: Crimson, very early. Pkts. 6d. and 1/-.
Light Violet: A lovely color. Pkts. 6d. and 1/-.
Lloyd George: Blood red. Pkts. 6d. and 1/-.
Nuit d'Ete: Dark blue. Pkts. 6d. and 1/-.
Parma Violet: Very choice and delicate. Pkts. 6d. and 1/-.
President Wilson: Dark lilac. Pkts. 6d. and 1/-.
Queen Alexandra: Rosy lilac. Pkts. 6d. and 1/-.
Rose of Nice: Carmine rose. Pkts., 6d. and 1/-.
Rose Queen: A lovely shade of rose. Pkts. 6d. and 1/-.
Salmon King: Bright salmon rose. Pkts. 6d. and 1/-.
Yellow of Nice: A fine vigorous yellow. Pkts. 6d. and 1/-.
Choice Mixed: A representative and well balanced mixture. Pkts. 6d. and 1/-.
"Claremont" Giant Perfection Mixed: Ever popular and always to be seen in bloom, this free-flowering annual has again been brought to a further stage of perfection. Our "Claremont" strain of Giant Perfection Stocks ranks high amongst all other strains in cultivation. Large full heads of bloom in every wanted coloring. Pkts. 2/6.
Brompton Varieties: Choice mixed extra. A biennial strain of branching habit; hardy and of sturdy growth. Pkts. 1/-.

SCHIZANTHUS MAXIMUS.

(Butterfly or Fringe Flower.)

This exquisite flower has long been admired as a pot plant, but it is gaining its great popularity as an outdoor plant.

Stinton's Large Flowered Hybrids: A remarkably fine strain, the flowers of which show an unusually wide range of colors, including shades of yellow, apricot pink, salmon, carmine, crimson, mauve and purple, in various markings and combinations. Pkts. 2/6.

Schizanthus Wisetoniensis: Excellent for cool greenhouses and indoor decoration. The varieties of markings and the combinations of color render this most useful plant one of the most beautiful for pot culture. Pkts. 1/-.

STATICE.

Everlasting flowers are greatly admired and highly prized for winter bouquets. They should be cut partially expanded and hung with the heads downwards until thoroughly dry.

Caspia: Pyramidal habit, graceful, lavender blue. Pkts. 1/-.

Dumosa: Silvery rose. Pkts. 1/-.

Incana Nana Mixed: (Perennial). This variety lasts a long time when cut. Pkts., 6d.; oz., 3/6.

Latifolia: (Perennial). Porcelain blue. Pkts., 6d.; 1/2 oz., 1/9; oz., 6/-.

Macrophylla Atrocoerulea: Rich deep blue. Pkts. 2/6.

Perenzii Multiflora: Deep blue. Pkts. 1/-.

Sinensis: White and yellow. Pkts., 6d.; 1/2 oz., 1/-; oz., 3/3.

Sinuata Blue: A pretty blue flowered everlasting type. Pkts., 3d.; oz., 1/-.

Sinuata Rosea: Another fine everlasting; flowers pink. Pkts., 3d.; oz., 1/-.

Suworowi: Dwarf and very dainty, rich rose pink shades, not everlasting. Pkts., 6d.; 1/2 oz., 1/-; oz., 3/9.

SWEET WILLIAM.

Vigorous free-flowering perennial with large showy flower heads in bright attractive colors abundantly produced in spring.

Crimson shades: Intense red shades. Pkts. 3d.

Pink Beauty: A beautiful variety of recent introduction. Flowers very large; salmon rose color. Pkts. 3d.

Scarlet Beauty: A fine companion variety to the foregoing; very large and showy scarlet red. Pkts. 3d.

Annual Mixed: A fine mixture, blooms first year from seed. Pkts. 3d.

Dwarf Mixed: Compact growing type, selection of good colors. Pkts., 3d.; oz., 3/3.

Finest Mixed: In choice shades. Pkts. 3d.

SUNFLOWER.

(See also Helianthus.)

Stinton's Large-flowered: In splendid mixture. Pkts. 6d.

TITHONIA SPECIOSA.

(Golden Flower of the Incas.)

Tall-growing hardy plant with rich orange-red flowers of a very telling color. Eminently suited for cutting purposes. Pkts. 1/-.

URSINIA ANETHOIDES.

(Jewels of the Veldt.)

Brilliant flowered daisy-like annual from the Cape. The dwarf plants are furnished with finely cut foliage, above which rise the brilliant flowers which are borne in profusion. The colors range from yellow to deep orange. The plants should be grown on a sunny position and when in flower will win a great deal of admiration. Pkts. 6d.

Sweet William.

VALERIAN.

Perennial herbs with strong smelling roots and heads of small variously-colored flowers.

Crimson. Pkts., 3d.; 1/2 oz., 9d.; oz., 3/-.

Mixed. Pkts., 3d.; 1/2 oz., 9d.; oz., 2/3.

VERBENA HYBRIDA.

Splendid selections with individual flowers of surprisingly large size and exquisite colors. The plants are unusually vigorous and the immense flower trusses very freely produced.

Auriculæflora: Mixed; large flowers, borne in fine trusses. Pkts. 1/-.

Compacta Erecta: Free-flowering neat plants, of compact habit. Mixed colors. Pkts. 1/-.

Dark Blue. Pkts. 1/-.

Fairy Queen: Rose pink. Pkts. 1/-.

Fireball: Brilliant crimson. Pkts. 1/-.

Dwarf Mixed: Dwarf growing types, mixed. Pkts. 1/-.

Hybrida Choice Mixed: A good well-balanced blend. Pkts. 1/-.

Mammoth American Mixed: Giant sorts, mixed. Pkts. 1/-.

VIOLA.

(Tufted Pansy.)

There are few bedding plants so dependable, colorful and persistent in blooming over a long period as the Tufted Pansies. While the individual flowers are smaller than the regular Pansy, they are produced in such profusion that the beds are a sheet of bloom throughout the entire season.

Admiration: A deep royal blue. Pkts., 6d.; 1/2 oz., 2/9.

Lutea Grandiflora: Bright golden yellow. Pkts., 6d.; 1/2 oz., 2/9.

Mauve Queen: Rich mauve. Pkts., 6d.; 1/2 oz., 2/9.

Papilio: Blue and white. Pkts., 6d.; 1/2 oz., 2/9.

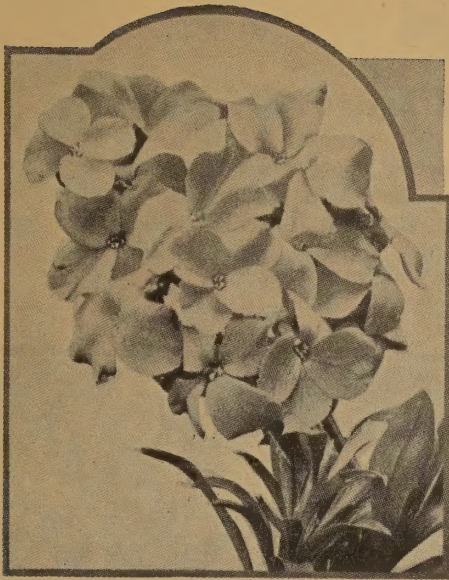

Perfection Blue: Clear light blue. Pkts., 6d.; 1/2 oz., 2/9.

Perfection White: Large pure white. Pkts., 6d.; 1/2 oz., 2/9.

Purple: Rich deep blue. Pkts., 6d.; 1/2 oz., 2/9.

Stinton's Apricot: This attractive Viola was introduced several seasons ago in a small way, and achieved instant success. The brilliant apricot-yellow flowers are slightly tinged with orange, and cover the plant with rich profusion. A perfect plant for bedding purposes. Pkts. 2/6.

Mixed: Bedding varieties in splendid mixture. Pkts., 3d.; 1/2 oz., 1/9; oz., 6/-.

Wallflowers will give winter blooms.

VIRGINIAN STOCK.

Pretty dwarf annual with sprays of numerous rose and white flowers.

Crimson Gem. Pkts., 3d.; oz., 1/-.

Crimson King: Richer in color and superior in every way to the common red variety. Pkts., 3d.; oz., 1/-.

Yellow. Pkts., 3d.; oz., 1/-.

Finest Mixed: An excellent bedding subject; sweetly scented; height 6-9 inches. Pkts., 3d.; oz., 1/-.

ZINNIA

The brilliant colors that have been evolved in the hardy free-flowering Zinnias during last few years have made them one of the most popular annuals.

Hitherto, Zinnias have been considered by some too stiff and formal for general bedding purposes, but this cannot be said of our Giant Dahlia-flowered strain, the massive heads of which are fairly loosely arranged. These immense double blooms make a gorgeous show when massed in a large bed, and as cut flowers are particularly attractive on account of their lasting qualities.

Stinton's Giant Dahlia-Flowered Varieties: Immense double flowers of gorgeous coloring, free blooming and lasting.

Canary Bird: Rich canary yellow. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Crimson Monarch: Deep crimson, flowers very large. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Desert Gold: This variety contains the light and deep hues of gold, each petal overlaid at the base with a deeper golden yellow, giving a charming bi-color combination. Those who appreciate the finest in Zinnias will welcome "Desert Gold." Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/-.

Dream: Deep lavender. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Exquisite: Light rose, deep rose centre. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Flashlight: We have had many inquiries recently for a pure golden yellow Zinnia, and now have pleasure in offering this shade in the new variety "Flashlight." A very bright colored and desirable variety, the flowers are of perfect shape and the color a very telling one for separate beds. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Meteor: Very brilliant crimson, the deepest of all reds. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Nightbird: A beautiful violet flowered Zinnia. The shade is one which has been lacking in the Zinnia and we have the utmost faith in its flowering qualities. The color deepens towards the centre of the

flower, which is fully up to 5 or 6 inches in diameter. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Old Gold: Deep and lighter shades of old gold. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Polar Bear: Large pure white. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Stinton's Brightness: In this remarkable variety, the flowers are deep rose, closely approaching crimson, and of a glistening brightness not seen in any other variety of the Zinnias; under artificial light, the blooms are a bright rosy scarlet, and are unsurpassed for decorative purposes. The plants are very robust and free flowering. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Stinton's Fireball: Another new variety of great merit, the color being a bright vivid scarlet. The flowers are of immense size and are produced in the greatest abundance. The plants grow freely, and although they attain large proportions, are graceful and beautiful. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Stinton's Giant Dahlia Flowered, Gold Medal Mixture. This mixture embraces all the most brilliant and largest flowered varieties of this magnificent type of Zinnia, and for either garden decoration or cut flower purposes, the strain stands without a peer. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Stinton's Fantasy Zinnias: This new Fantasy mixture meets this demand in all details; the rounded flowers are composed

WALLFLOWER

The velvety petals of this old-time favorite are rich in color in mellow tones; excellent for winter blooming.

Brilliant Blood Red: Bright blood red. Pkts., 3d.; $\frac{1}{4}$ oz., 6d.; oz., 2/-.

Cloth of Gold: Deep yellow. Pkts., 3d.; $\frac{1}{4}$ oz., 6d.; oz., 2/-.

Eastern Queen: Chamois, changing to rose. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/-.

Fire King: Brilliant orange. Pkts., 3d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

Orange Bedder: Rich orange shading to apricot; dwarf habit. Pkts., 3d.; $\frac{1}{4}$ oz., 1/6; oz., 2/3.

Phoenix: Very early; reddish brown. Pkts., 3d.; $\frac{1}{4}$ oz., 6d.; oz., 2/-.

Purple King: Deep purple. Pkts., 3d.; $\frac{1}{4}$ oz., 6d.; oz., 2/-.

White Dame: Large flowered creamy white. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/3.

Choicest Mixed: From named varieties. A splendid range of color. Pkts., 3d.; oz., 1/9.

Dwarf Double Mixed: Double flowering dwarf varieties in mixture. Pkts., 2/6.

VISCARIA.

Colorful and free-flowering annuals for borders, beds, etc.; 12 inches high. Make a beautiful display when planted in masses.

Candida: Solid white flowers. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/-.

Cardinalis: Scarlet. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/-.

Oculata: Delphinium blue, vivid colorings. Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/-.

Tom Thumb Fire King: Gorgeous scarlet flowers. Pkts., 1/-; $\frac{1}{4}$ oz., 3/3; oz., 10/6.

Tom Thumb Loyalty: A fine bright blue. Pkts., 1/-; $\frac{1}{4}$ oz., 3/3; oz., 10/6.

Mixed: Extremely pretty mixture. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/3.

WHITLAVIA.

A beautiful hardy annual with Gloxinia-like flowers.

Gloxinoides: Rich blue, white throat. Pkts., 6d.

Grandiflora: Violet blue; 1 foot. Pkts., 6d.

Zinnia Robusta Grandiflora.

of a mass of shaggy ray-like petals which give a delicate and refined appearance to the medium sized double flowers. The color range includes the brightest shades of reds and orange, as well as the popular pastel pinks and cream. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Stinton's Improved Lilliput Pompone or Baby Zinnias: Small round and compact flowers borne on strong stems. The striking strain is of great value for bedding purposes. Colors range from bright reds, orange, and yellow, through pink, rose and pastel shades. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Crown of Gold Mixture: This aristocrat among Zinnias retains its place as an outstanding novelty. Each petal of the flower is overlaid with deep golden yellow at the base, while carrying out the individual flower color at the tip. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Scabious-flowered: Plants 2 to 2½ feet high, bearing numerous medium sized flowers remarkably resembling the annual Scabiosa. Colors include crimson, scarlet, orange, yellow, pink and white.

Mixed Colors: Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/-.

Robusta Grandiflora Plenissima: In habit the plants are robust and compact, and the flowers are deep and very double, colors varied including many new shades. Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/-.

SWEET PEAS

Stinton's "Claremont" Winter Flowering

WINTER flowering Sweet Peas are quickly gaining favour with all garden lovers. They flower over a long period and at a time when there are few other flowers. They should be planted in well prepared soil from January to the middle of March. By doing this the plants are well established before the soil gets too cold. A north-eastern aspect, protected from strong winds, is most suitable, and they will stand a considerable amount of frost. We offer only the choicest and most vigorous varieties.

3d. Per Packet. Large Packets, 6d. Per Pkt.
All Varieties and Mixed, $\frac{1}{4}$ oz. 1/-, 1 oz. 3/-

SPECIAL COLLECTIONS.

6 Distinct Varieties . . . 1/3 per Collection
12 Distinct Varieties . . . 2/- per Collection

ALBURY BEAUTY—Large, orange-salmon self; always satisfactory.
ALBURY LAVENDER—Self colored flowers, lavender in color.
ASTA OHN—Lavender, suffused mauve; a beautiful variety.
AVIATOR—Crimson-scarlet, a fine deep color.
BLUE BIRD—A beautiful dark true blue.
BLUE RIBBON—Delicate shade of pale blue.
BURPEES ORANGE—See novelty pages 29 & 30.
CHARMEUSE—Bright rich shade of rose.
CONCORD COUNTESS IMPROVED—Lovely large clear pink.
CONCORD DEEP PINK—A wonderful Pea, of great substance and telling color; very vigorous.
CONCORD RADIANCE—Bright rich shade of rosy cerise.
EARLY CANARY BIRD—Rich deep cream or primrose.
EARLY MAUVE BEAUTY—A pleasing shade of rosy mauve.
FAIR MAID—Blush pink, suffused salmon.
FLAMINGO—Standard, bright orange; wings, orange-pink.
GENERAL JOFFRE—Dark maroon, nearly black.
LAURA—Purple maroon; fine large flowers.
LAVENDER KING—Deep heliotrope of wonderful texture.
LIBERTY—Bright glowing scarlet; lovely large flowers; extra.
MALAITIA—Beautiful bright scarlet, excellent sort.
MELROSE RUBY—Crimson scarlet; magnificent flowers.
MIRANDA—(First Class Certificate). Delicate pink, beautiful spray of flower.
MOTTES PLUM—Plum color; good for exhibition.
MRS. HAMILTON—Plum wings, centre purple.
MRS. MAY HASSET—Pink, suffused cream, free flowering and fine long stems.
NIAGARA—Pale pink; lovely large flowers.
PRINCE—Very deep blue; strong grower and large flowers.
RED PRINCE—A rich carmine scarlet, of good substance.
SNOWSTORM IMPROVED—Large pure white flowers, long stems giving plenty of fours.
SOMERLAYTON—Crimson, non-burner, large flowers.
SUNBURST IMPROVED—Rich salmon pink, with amber suffusion.
THALIA MOTTE—Glowing crimson; large flower and fine spike.
VERONIQUE—Rose-pink; large flowers and very prolific.
YARRAWA—Deep rose-pink, changing to light pink standards as blooms develop, with blush wings.
"CLAREMONT" NOVELTY MIXTURE—Containing the best of the newer varieties and comprising an excellent range of colors.

SWEET PEAS

Stinton's "Claremont" Spring and Summer Flowering

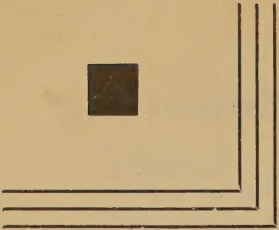

THE following lists of Sweet Peas we respectfully submit to our customers as comprising all of the most desirable varieties up to date. We believe the balance could be discarded to advantage, as the list is so large that it is confusing to the buyer.

3d. PER PACKET. LARGE PACKETS 6d.
ALL VARIETIES AND MIXED, 1/3 PER OZ.

Special Collections

6 DISTINCT VARIETIES . . . 1/3 PER COLLECTION
12 DISTINCT VARIETIES . . . 2/- PER COLLECTION

- BRITANNIA**—Soft rose on deep cream ground; very frilled flowers on long stems.
- CAMPFIRE**—Vivid scarlet; sunproof.
- CHARITY**—Rich deep crimson; very large.
- CHARMING**—Bright cerise; beautifully waved; large and vigorous.
- CHIEFTAIN**—The plant is most robust in growth, and produces in the greatest profusion very long flower stems bearing four to five immense yet perfectly formed blossoms of a rich pure satiny mauve color, entirely free of any purple shading.
- COLORADO**—The color is richer than orange, brighter than prawn red. The flower is equal in size to the best of Sweet Peas. Four and five flowers in excellent stems.
- CRUSADER**—Standard; rich orange salmon; wings salmon shaded rose; a robust grower, very free flowering, producing large flowers, often five on a stem.
- DELICE**—A pure pink self; enormous flowers on long stems; good exhibition variety.
- DELIGHTFUL**—A rich terra cotta cerise, suffused orange; vigorous habit; perfect placement and a preponderance of flowers.
- FLUFFY RUFFLES**—This marks the first of a new race of Sweet Peas. The flowers are so waved or ruffled to give it the appearance of an entirely different double flower. A beautiful shade of warm cream-pink, overlaid with soft light salmon. Of vigorous habit, it is an ideal variety for all purposes.
- FORTUNE**—Very rich dark blue. Its wings are real blue, bright and solid. The standards, which are of great size, beautifully waved, are real rich violet. Suitable for garden, decoration and exhibition.
- GLORIOUS**—This Pea is a decided improvement on any cerise yet offered. It has the habit of Charming, but the flowers are larger and richer in color. A perfectly glorious variety all growers must have.
- GOLD CREST**—Rich orange tinted salmon.
- GUINEA GOLD**—Deep golden orange of good form, giving fours and fives freely, and standing the sun and wind better than most varieties of that shade.
- HEBE**—Rich deep rose.
- IVORY PICTURE**—Rich cream on ivory; the form and build of the original Picture.
- MAGNET**—A brilliant pink, very heavily suffused on a rich cream ground. A wonderful grower under all conditions. Large flowers are borne on long stout stems, producing in abundance four or five flowered sprays. This variety should be in every grower's collection whether for garden or exhibition.
- MARY PICKFORD**—A dainty cream pink, faintly suffused with salmon. Flowers of perfect form, with both standards and wings decidedly waved; the individual flowers are well placed.
- MISS CALIFORNIA**—Rich salmon pink on cream; giving plenty of fours.
- MODEL**—A good solid white (tinted) producing four well placed flowers on long stems.
- MRS. A. SEARLES**—Both outdoors and under glass it is top quality. Rich pink merging into soft orient red self, it is the nearest definition to the very remarkable and glorious color.
- MRS. CHAS. W. J. UNWIN**—An outstanding variety, deep salmon pink in color; large well placed flowers.
- OLYMPIA**—The flowers, which are very large, are of perfect form and well placed on long stout stems. The color is a rich clear purple; one of the best in this section.
- ORANGE FLAME**—See novelty pages 29 and 30.
- ROYAL BLUE**—The brightest of all the dark blues, a true rich navy or royal blue, glowing and bright; great substance, vigorous habit, and exquisite form.
- ROYAL SALUTE**—Rich sun-proof scarlet-cerise; a strong robust grower; excellent for cutting and exhibition purposes.
- ROYAL SOVEREIGN**—Brilliant glowing orange; a decidedly distinct and superior variety; should be included in every garden.
- RUDDIGORE**—The largest brilliant blood scarlet Sweet Pea. The standard is erect, wide, and of great substance; the flower stems are long, strong, and invariably carry four or five well placed perfect blooms, which are absolutely sunproof.
- SKY**—Light silvery lavender blue. Though practically a self, the color is slightly intensified in the wings. Flowers are large and well frilled.
- SPLENDOUR**—Rich maroon red. This variety resembles Warrior in size and vigour, but is brighter and without a trace of purple; does not burn in the sun.
- SUNKIST**—For many years Sweet Pea enthusiasts have been looking for a really good picotee edge cream ground novelty. The ground is a clear rich cream, and the pink picotee edging is clearly and cleanly defined. The flowers are large and bold, well waved, and beautifully placed on good stout stems.
- SUSAN**—Dainty delicacy characterises the tints of this flower; the blush pink is laid on so lightly that a creamy ground color merges through, and the standards and the reverse of the wings carry most pink.
- SYBIL HENSHAW**—Deep rich crimson lake, with a bright metallic sheen overlaying the standard; very vigorous.
- THE PRINCE**—A first-class exhibition variety. The flowers are exceptionally large and of magnificent form. The standard extends far beyond the keel. The color is a rich clear crimson, overlaid with a beautiful metallic sheen.
- VENUS**—Cream pink, very vigorous; perfectly fixed.
- WARRIOR**—Very large shiny maroon.
- WHAT JOY**—Large, solid, well waved cream; vigorous grower, producing fours on wonderful stems.

SEED SOWING

The strongest and best rooted seedlings are grown in the open seed bed.

Select a bed that is sheltered and well drained. The loamy soil should be thoroughly and deeply worked and the surface should be brought to a fine tilth. Rake the beds level finishing with the edges slightly higher to hold the water.

Should the weather be dry the bed should be thoroughly saturated and allowed to drain out. Do not sow while the soil is saturated. Before sowing the seed rework the surface of the bed and firm the soil, distribute the seed thinly and evenly over the surface, very fine seeds require to be mixed with fine sand to ensure an even distribution. After the seeds are sown cover lightly with sifted, well-decayed manure to conserve the moisture and to keep the roots cool and then a layer of fine sand to hold manure in place. Seedlings in seed beds require to be watered regularly with a fine spray.

It is advisable to lightly cover the seed beds with dry brush wood to protect the surface until the seeds have germinated, this brush wood should be removed as soon as the plants show through the surface to prevent them becoming drawn.

Seeds such as Cornflowers, Marigolds, Zinnias, etc., should be covered with wire netting to protect them from the birds.

Seedlings in the seed beds should be kept growing and not checked.

Remember that the essentials of successful seedling raising are:—

1. To obtain reliable seeds.
2. To observe the correct planting season of the year.
3. The exercising of proper care in:—
 - (a) preparation of the seed bed.
 - (b) covering of the seed.
 - (c) regularity of attention until the plants have grown to a size to take care of themselves.

IMPORTANT.

Do not sow your seed out of season as you are inviting trouble to do so.

SEED SOWING CALENDAR

The times in this Calendar refer to Melbourne, and Districts having a similar climate; due allowance must be made for earlier or later districts as well as for seasonable conditions.

LAWN GRASSES

A vista of the lawns at "Claremont," showing Phoenix Canariensis in background.

LAWNS play an important part in beautifying the home grounds and deserve special attention. The lawn is a perennial feature, and once established, if properly cared for, lasts almost indefinitely. A well-kept lawn makes a perfect setting for the house and the garden. All preparation work for lawn-making should be very thorough, and deep trenching should be practised. We advocate trenching the soil two feet deep, especially if it be a clay soil. Into the clay should be worked some old manure, leafmould, or any humic matter available; and to feed the surface roots of the grasses a moderate amount of blood and bone manure should be well worked into the surface soil.

The lawn area must be well-drained, otherwise moss and other damp soil troubles will come. After drainage and trenching, the soil should be well-rolled to make a firm seed bed. While rolling, care should be taken to see that the surface is kept perfectly level.

Grass seed may be sown almost at any time of the year, except in extreme winter. Select a day free from wind for sowing, and lightly sow the seed (having first mixed it with soil in order to obtain a more even distribution). Never allow the surface to become dry. Roll the young seedlings quite early, and mow when the blades are growing a few inches in length.

Always keep the lawns cut short; mow them regularly and water well in summer. Top dress Buffalo and Couch lawns in Spring; all other lawns in Autumn.

Stinton's "Claremont" Finest Grass Seed Mixture

Stinton's "Claremont" Grass Seed—We pride ourselves on "Claremont" Finest Grass Mixture, which, from comparative trials at our "Claremont" Nurseries, we know is unsurpassed for first-class and permanent results. This is due to the fact that we use only the very finest varieties and most suitable grasses.

— 3/- PER LB. —

The following varieties of Grass Seed can also be supplied:—

CHEWINGS FESCUE,	ENGLISH RYE,
COUCH GRASS,	IRISH RYE,
CREEPING BENT,	KENTUCKY BLUE.
CRESTED DOGTAIL,	

All Grass Seeds are subject to market and currency fluctuations and prices will be forwarded on request.

Page Forty-eight

Buffalo Grass Roots

Buffalo Grass Lawns are eminently suited for light sandy soils.

Roots should be planted from September to December.

PRICE - - - 10/- Per Sack.

SEEDLING & BEDDING PLANTS

The varieties as listed on the following pages are ready as shown below. Those varieties marked Autumn are available from March onwards, and those marked Spring are available from September onwards. For description see Seed List.

PLEASE NOTE that by a SPECIAL PROCESS OF SEEDLING RAISING our open ground SEEDLINGS ARE STURDY, AND CARRY A STRONG SYSTEM OF FIBROUS ROOTS.

Special carriage paid rates for ANTIRRHINUMS, DIANTHUS, NEMESIA, LARKSPUR, and all others priced at 6d per dozen in Nursery—

One Dozen, 1/- Two Dozen, 1/9 Three Dozen, 2/6

Assortments of plants priced at 6d. per dozen in Nursery will be sent at above prices provided AT LEAST ONE DOZEN OF EACH VARIETY IS ORDERED. For example, a purchaser can have one dozen Antirrhinum, one dozen Violas, and one dozen Nemesis sent Post Free for 2/6.

LOTS OF 50 PLANTS WILL BE CHARGED AT HALF RATES PER 100.

	When Available.	Per Doz. in Nursery	Per Single Doz. Post Free.	Per 100 in Nursery.	Per 100 Carriage Paid.
AGERATUM—Swanley Blue. Dwarf useful for borders	Spring	6d.	1/-	3/6	4/9
ANTIRRHINUM—Seedlings of the varieties in the following list will be available. Named Varieties	Autumn and Spring	9d.	1/3	5/-	6/3
MAXIMUM. Defiance—Orange scarlet. Fordhook Rose—Rose pink with yellow. Rosy Gem—Deep rose pink. Sunnybrook—Golden yellow and salmon.

Robusta plenissima grandiflora mixed—A useful strain for cutting purposes	Spring	6d.	1/-	3/6	4/9

General List

... of ...

SELECTED VEGETABLE SEEDS

ARTICHOKE.

CULTURE: Sown any time except during the hottest weather, when all seed beds require special care. Soil should be a free, moist loam, and seeds should be planted in beds an inch deep. Plant out when six inches high in rows 4 feet apart each way. The Artichoke when once established produces for several years, and a few plants in your garden will amply repay you.

Large Green Globe: Fine globular green heads, rich flavor. Pkts., 6d.; oz., 3/3.

Purple Globe: Hardy and rich flavored. Pkts. 6d.

ASPARAGUS.

CULTURE: Soak seeds 24 hours before planting. Sow in August in beds broadcast or in rows, covering about 1 inch. The following July, transplant to rows three or four feet apart, and a foot apart in the row, with at least six inches of soil over the roots. Light sandy soils are preferable.

Conover's Colossal: The best known and most popular of the standard varieties. Very desirable variety for home and market gardeners' use. The sprouts are clean in growth and of delicious flavor. Pkts., 6d.; 1/- oz.

Erfurt Giant: Another good standard variety, prolific in production of very large and tender shoots. Of delicious flavor. Pkts., 6d.; 1/- oz.

BROCCOLI.

CULTURE: Broccoli should always be sown upon good seed beds and be planted out. The drills need not exceed half an inch in depth. The position chosen for plants should always be an open one, bearing in mind that the crop does not follow well upon Cabbage, Turnip or Cauliflower. Early planting and thinning is an important matter. Broccolis are grown for the sake of the head which is similar to Cauliflower though smaller. They are hardier than Cauliflowers, and valuable for providing a supply of vegetables in the autumn when Cauliflowers are usually unavailable.

Adam's Early White: Without doubt one of the best of the autumn and winter varieties. Heads solid, of the purest white and of splendid texture and quality. Pkts., 3d.; oz., 1/6.

Hurst's First of All: One of the earliest varieties. Well-formed heads of great purity and finest texture, which remain solid for a long time. Pkts., 3d.; oz., 1/6.

STINTON'S BEANS

CULTURE: Beans respond very readily to good soil and cultivation. A light, rich, well-drained loam is the most desirable. The use of manure is advisable, but should be used sparingly, as it might make the plant run too much to vine. There is no plant more sensitive to cold and wet than the Bean. We therefore advise not to plant until the ground has become dry and warm. The largest returns will result in planting in drills from 2 to 3 feet apart. Cover the seed one and one-half inches deep and thin the young plants 3 to 6 inches apart in the rows. If planted in hills, about 3 feet apart each way.

Beans—Dwarf or Bush.

Acme: The "Acme" Bean is very hardy, being absolutely disease and wilt proof. It has remarkable bearing qualities, the plants are dwarf in growth, but are extremely prolific. The long-podded, tender Beans have a fine flavor and good coloring. "Acme" is an early maturing variety. We can say without any hesitation that this variety is destined to become the leading market variety.

Packets 1/- each.
Packets 2/- each.
One (1) lb. lots 4/- per lb.
10 lb. lots 18/6 per 10 lbs.
60 lbs. 78/- per 60 lbs.

Stinton's Blue Wonder: An extremely heavy cropper and of dwarf bush type. Pods striking deep blue color, when boiled become a deep green color, and are of excellent flavor. Pkts., 6d.; 1/9 lb.

Brown Beauty: One of the finest varieties in cultivation; prolific, very large pods, excellent flavor, and practically immune from disease. 6d. packet; 2/- lb.

Canadian Wonder: This variety is strong in growth and bears heavy crops of broad handsome pods. 6d. packet; 1/6 lb.

Feltham Prolific: This excellent variety is fast becoming popular with gardeners. Pods are long and slender, and almost entirely stringless. One of the heaviest croppers. 6d. packet; 1/6 lb.

Pale Dun: An early Bean and extremely productive in heavy crops of well filled pods. 6d. packet; 1/6 lb.

Startler Waxpod: One of the best of the waxpods for home use. Plants medium size and very productive. 6d. packet; 1/6 lb.

Tall Climbing Beans.

Dairymaid: A lovely wax or yellow podded sort, often 15 inches long. If a wax podded bean is desired for home or market use, this is the best variety to plant. 6d. packet; 1/6 lb.

Epicure: An almost stringless variety of delicious flavor. The plant is vigorous and bears an abundance of large, tender pods. 6d. packet; 1/6 lb.

Scarlet Runner: Largely planted for its brilliant scarlet flowers, although it is also good as a soup bean when young. May also be used green when shelled. 6d. packet, 2/- lb.

The Czar: Enormous podded white Runner Bean, tender and of good quality. 6d. and 1/- packet.

Broad Beans.

Edible Pod: Similar to the original Broad Bean having the same flavor. The young pods may be picked and cooked whole, making an excellent table dish; ex-

ceptionally heavy cropper. 6d. packet; 1/6 lb.

Leviathan Long Pod: Broad large pods, large white seeds, strongly recommended. 6d. packet; 1/6 lb.

Beans "Stinton's" Blue Wonder.

STINTON'S BEETS

Table Beets.

CULTURE: This is one of the few vegetables that can be grown the year round. A Beet patch completes the garden. Seed planted at intervals of three weeks will keep Beets coming in rotation. The seed should be sown in drills 15 inches apart and 1½ inches deep, and covered by hand, unless following field culture. (The use of a rake for this purpose disturbs the seed and often draws the seed out of the ground. The result will be an irregular row.) Thin out then 4 to 6 inches apart in the row. These young Beet tops are excellent used as Spinach. Frequent cultivation is essential to produce a successful crop.

Coon King: Beet "Coon King" is dark red, being the deepest and richest color in Beet known to date. The variety matures rapidly, the roots are globular in shape, sweet, juicy and tender, well suited for home vegetable growers. The root stands well for some weeks and it is very handsome in appearance. Pkts., 3d.; oz., 1/-.

Crimson King: A selection developed for those who require a large globe Beet for

exhibition purposes. It has a short top with a small collar, and fine tap root. The flesh is deep blood crimson showing a minimum of growth rings. Pkts., 3d., oz., 1/-.

Crimson Globe: This Beet is most uniform stock we have seen in shape, foliage and color of flesh. The shape is globular, the top extra fine and the flesh is deep blood-red throughout. Pkts., 3d.; oz., 1/-.

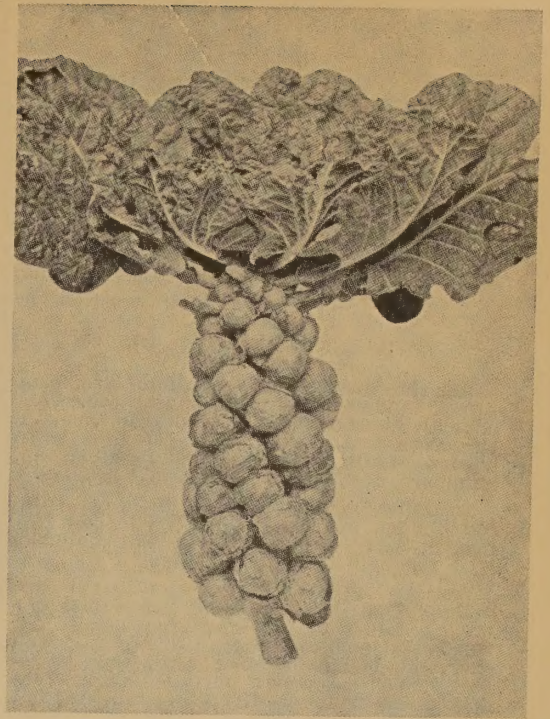

"Claremont" Deep Blood Red: This is a most refined and distinct strain. It has a short top, the roots are globular, with a very short neck and slender tap root. Blood red color with no light zoning makes it especially desirable either for home use or bunching for market. Pkts., 3d.; oz., 1/-.

Cheltenham Selected: This excellent long Beet increases in popularity. Roots clean, well shaped and the flavor all that can be desired. Roots of excellent color; very uniform in type. Green leaves. Pkts., 3d.; oz., 1/-.

Swiss Chard or Silver Beet.

Swiss Chard or Silver: Cultivated for its leaf stalks, which are served like Asparagus; and for its leaves cooked like Spinach. Cut often, as new stalks will be produced. Pkts., 3d.; oz., 1/-.

Swiss Chard Lucullus: Leaves very crinkled of an attractive green color and very thick and fleshy. Easily grown and furnishes a supply of good greens for a long period. Very desirable for poultry feed. Pkts., 3d.; oz., 1/-.

Brussels Sprouts Covent Garden.

BRUSSELS SPROUTS.

CULTURE: Brussels Sprouts are often poorly grown, because the first principle of success—a long growing season—is not recognised. For this reason the plants will not be successful in a hot, dry district, and the cultivation of the plants should be confined to a cool late district which will give them full opportunity to develop slowly and thoroughly. Seed should be sown early in the autumn and the plants subsequently set out on well-worked, fairly rich soil, on a position which is cool and protected from the harsh drying winds.

Covent Garden: A fine growing Sprout which we feel sure will meet with the approval of our many customers. It is very hardy, and the stalks are well clothed with medium sized solid Sprouts which remain a long time in condition. Pkts., 3d.; oz., 1/-.

Dobbie's Selected: Splendid dwarf-growing strain which gives a fine yield of hard and firm Sprouts of quality. We strongly recommend it to all who are desirous of having a hardy, productive and fine flavored Sprout. Pkts., 3d.; oz., 1/-.

CARROT

CULTURE: Sow at any time in deep, loose soil, preferably sandy loam, about ½ inch deep, in rows eighteen inches apart, and then plant to three inches apart. Water freely at all times. The Carrot is one of the most wholesome and nutritious of our garden roots, deserving to be more extensively used for culinary purposes, and we urge our customers to give some of the sorts a trial. Pkts., 3d.; oz., 1/-.

Altringham Large Red: A fine strain of Intermediate type, heavy cropper of first-rate quality, roots long and tender. Should be grown on deep soils. Pkts., 3d.; oz., 1/-.

Champion Scarlet Horn: A remarkably fine Carrot, cylindrical in shape and almost entirely free from core. Flesh deep red, tender and delicate in flavor. Pkts., 3d.; oz., 1/-.

Chantenay: The best of the early Carrots, about 6 inches long, stump-rooted, smooth, fine-grained and sweet. A fine sort for bunching, for market or for home gardens. This variety is deep orange in color, a heavy yielder and has a growing period of about 70 days. Pkts., 3d.; oz., 1/-.

James' Scarlet Intermediate: Large-sized Intermediate roots of good color. An old favorite which has always yielded good results. Pkts., 3d.; oz., 1/-.

New Red Intermediate: This superb type of Intermediate Carrot has quite superseded the ordinary variety in gardens where the finest vegetables are grown. Skin clear, bright in color and the flesh close in texture, with very small core. Large and good. Pkts., 3d.; oz., 1/-.

Stinton's Coreless: This is another selection we have made to obtain a "coreless" type of Champion Scarlet Horn. Color and flavor are excellent, and we thoroughly recommend it for private and market garden uses; 6 to 7 inches long, tender and sweet. Pkts., 3d.; oz., 1/-.

Stinton's New Red: Similar in type to the well-known James' Intermediate, but superior to that variety in color, form and quality. A capital cropper and most useful where longer Carrots cannot be grown. Pkts., 3d.; oz., 1/-.

Stinton's Scarlet Horn: An extremely popular Carrot, very tender, with delicate flavor and almost entire absence of core. Flesh deep red; highly recommended. Pkts., 3d.; oz., 1/-.

Carrot "Champion Scarlet Horn."

GARDEN CABBAGE

CULTURE: Knowing the first essential of successful Cabbage growing to be good seed, we have always obtained our seed from the best European growers, and therefore we have built up an enviable reputation for the quality of our seed. We advise the planting of seed in beds or land of light, rich texture, at a depth not to exceed $\frac{1}{2}$ inch, and the soil should be pressed firmly over the seed. The plants should not be allowed to crowd one another before they are transplanted, but as soon as they are large enough to be handled, should be lifted out of their permanent place. Sudden changes of temperature have a tendency to make Cabbage go to seed, and growers should watch them carefully to see their position is moist, but thoroughly drained.

All the Year Round: Medium size, deep green, and of compact habit, somewhat conical in shape; very rapid in growth, therefore tender and crisp. May be sown successively for crops throughout spring, summer and autumn. Pkts., 3d.; oz., 1/-.

Drumhead: First rate stock, with solid but tender hearts; extensively grown for market purposes. A large flat Cabbage with splendid holding qualities. Pkts., 3d.; oz., 1/-.

East Ham: This splendid Cabbage is one of the best for growing for home use. Heads of medium size, firm, tender, and excellent in flavor. Not altogether satisfactory for marketing purposes as the tender leaves bruise easily. Pkts., 3d.; oz., 1/-.

Enfield Market: Large early variety with a firm crisp heart; much grown for market purposes. Pkts., 3d.; oz., 1/-.

Flower of Spring: Plants compact, with few outer leaves, and the firm, full-sized hearts are exceedingly delicate in flavor. One of the best of all varieties. Pkts., 3d.; oz., 1/-.

Fly Resisting: This variety is invaluable for market growers, has large firm heads. A variety that is almost fly resisting. Pkts., 3d.; oz., 1/-.

Greyhound: One of the earliest varieties, being in heart and fit to cut weeks ahead

of all other sorts usually associated with earliness — all, of course, being sown at the same time. It is of an attractive glaucous appearance, has extremely few outer leaves, good sized hearts, somewhat pointed and broad-based, and is of such compact habit that it can be with advantage planted more closely than is usual with other sorts. Pkts., 3d.; oz., $\frac{1}{3}$.

Harbinger: One of the earliest varieties. The hearts are small but extremely delicious eating, and will be highly prized at a time when Cabbages are a delicacy. Pkts., 3d.; oz., 1/-.

Red Dutch or Pickling: Fine solid dark red heads, very desirable where a red Cabbage is wanted. Pkts., 3d.; oz., 1/-.

Savoy Ormskirk Late Green: A splendid Savoy producing good solid heads and finely curled leaves; extremely hardy, yet of delicious flavor. Pkts., 3d.; oz., 1/-.

St. John's Day: A large Drumhead variety, very early and firm hearting. Under favorable conditions it matures in three months. Pkts., 3d.; oz., 1/-.

Succession: A wonderful strain and variety for summer and autumn use. Excellent flavor of delicious creamy quality; heads often grow from 14 to 20 lbs. in weight. Pkts., 3d.; oz., 1/-.

CELERIAC.

CULTURE: It is grown in nearly the same way as common Celery, and like this vegetable requires good, rich, moist, mellow and well-manured soil. When about 4 to 6 inches high, the plants should be removed from seed bed and planted 6 inches in rows, and the rows should be about 24 inches apart. Plants require no further attention than frequent watering, and it is necessary to have the ground well cultivated and free from weeds.

Celeriac Large Smooth Prague: It is a turnip-rooted Celery of distinctive flavor similar to Celery. It makes a wonderful salad when cooked and cut cold. Pkts. 3d.

CELERY.

CULTURE: Sow in drills, one foot apart. Later transplant to rows three feet apart and six inches apart in row. Rows should be furrowed out so plants may be set 6 inches deep. Later soil should be banked against rows for blanching, even so-called self-blanching varieties needing the cool, moist soil to render the stalks crisp and tender; but this should not be done until a few weeks before harvesting.

Golden Self-Blanching: It produces rather a thick blocky head of finest quality, blanches easily to a beautiful golden yellow, especially on very rich land. Pkts., 3d.; oz., $\frac{1}{6}$.

Henderson's White Plume: A crisp, solid and fine flavored variety, requiring but little earthing up to blanch. Pkts., 3d.; oz., $\frac{1}{6}$.

Stinton's Reselected Red: We can with confidence recommend this Celery. It is a strong-growing sort, very crisp, solid, and well-flavored, and not liable to run to seed. Pkts., 3d.; oz., $\frac{1}{6}$.

Soup Celery: Seeds for flavoring soup, etc. 6d. per oz.; $\frac{1}{9}$ per $\frac{1}{4}$ lb.; 5/- per lb.

CHICORY.

CULTURE: Sow any time except in hottest weather, though early spring is preferable; in rows 30 inches apart and 3 to 8 inches apart in row. A deep rooting plant requiring little care if soil is moist.

Chicory Giant Rooted: This variety is grown for its roots, which are dried or roasted and ground as a substitute or adulterant for Coffee. The leaves can also be used, and should be cut when fresh. They make a splendid salad. To secure large roots, soil should be light, rich, and deeply worked. Pkts. 3d.

CRESS.

CULTURE: There are many kinds of Cress, all characterised by a more or less pungent taste. They are used in salads or for garnishing dishes.

Water Cress is grown in almost any ditch, shallow stream or moist earth, and also under benches in greenhouses. It is a perennial and is propagated by either seeds or freshly cut stems being scattered where the plants are wanted to grow.

Pepper Grass or Cress should be sown thickly in drills every few days if succession is wanted.

Extra Curled (Pepper Grass): Grown very quickly from seed sown in drills. Leaves are finely curled and very ornamental, but as the plant runs very quickly to seed, frequent plantings should be made. Pkts. 3d.; oz., $\frac{2}{-}$.

Water Cress: A heavy foliated plant adapted to water culture. It has a slightly pungent taste. Pkts., 3d.; oz., $\frac{2}{-}$.

Cabbage Drumhead.

Cauliflower Early Snowball.

CAULIFLOWER

CULTURE: Prepare the seed bed carefully, using only rich and thoroughly pulverised soil. Good results are obtained by keeping the plants in a healthy and rapidly-growing condition. Broadcast the seed in the bed prepared, when the plants are 40 days old they are ready for the field. Transplant to 24 inches apart in rows 30 to 36 inches apart. Do not leave the plants in the seed bed longer than 45 days as the stems become hard and poor results will follow. **Keep the plants vigorous and growing.**

"Claremont" Early Beauty: An extraordinarily early Cauliflower, medium-sized heads of the choicest quality. Pkts. 1/-.

Early London: It is a snow-white Cauliflower and its leaves have a tendency to overlap at the top of the flowers. In this way it protects from injury, exposure to frost, rain or heat; a good market variety. Pkts. 6d.

Early Snowball: This superb variety is one of the earliest Cauliflowers in cultivation; it produces choice medium-sized heads which are pure milky-white and exceptionally solid. A much esteemed variety. Pkts., 6d.; ¼ oz., 1/3.; oz., 4/3.

Eclipse: One of the largest and finest mid-season Cauliflowers in cultivation; admirably suited for either exhibition or culinary purposes. Pkts., 3d.; oz., 2/-.

Hurst's Late Autumn Giant: A first-class mid-season Cauliflower. Invaluable for amateur garden. Heads of good size, beautifully white, close and delicate in flavor. Pkts., 6d.; oz., 2/-.

Southern Cross: We are satisfied that this excellent new variety will become very popular among all growers, both in private and market gardens. If successive sowings are made, heads may be cut from December until September. The flowers are large in size and of a fine white color, being well protected from the sun and weather by the large leaves folding over the heads. This strain is undoubtedly a distinct improvement on some of the older types. Pkts. 6d.

Veitch's Autumn Giant: One of the best-known and most popular Cauliflowers; produces large white heads of good quality. Pkts. 6d.; oz., 2/-.

CUCUMBER.

CULTURE: Cucumbers should not be planted until all danger of frost is over and the ground is warm, because like all vine crops the seed is likely to rot unless proper conditions prevail. Sow 6 to 10 seeds in hills 4 to 6 feet apart. After the danger of frosts is removed, and you are sure of your plants, thin, leaving the three strongest. Cucumbers enjoy a light, sandy, rich soil. The seeds should be planted 1 inch deep.

Apple Shaped: Very sweet and tender fleshed; one of the best eating Cucumbers (round). Pkts., 3d.; oz., 1/6.

Long Prickly: A fine garden variety, very prolific and vigorous grower. Pkts., 3d.; oz., 1/6.

Short Prickly: A short thick variety, producing early a great number of fruits of excellent flavor. Pkts., 3d.; oz., 1/6.

West India Gherkin: Quite distinct from other Cucumbers; vine resembles Water Melon, fruits small (2 inches long, 1 inch diameter) oval, used only for pickles when very small; very prolific. Pkts., 3d.; oz., 1/6.

EGG PLANT.

CULTURE: The plants should be started under glass if wanted early. If later results are desired, seed should be planted in cold frames or in boxes where special care can be given.

Egg Plant seed is very delicate and will not grow unless special care can be given to it. It is easily affected by cold weather. Seed should be barely covered, and particular attention should be given to have well-pulverised soil of rich composition. Moisture is an important factor, and care should be taken to have the soil in beds or boxes moist, as any check to growth is exceedingly difficult to overcome, and invites failure. Plants should not be set out permanently until all danger of frost is over, using plants 6 to 8 inches tall of vigorous growth for setting out. Space plants 3 inches apart, and cultivate thoroughly throughout season.

New York Giant Purple: An early variety, large, oval-shaped, and the deep purple kind that tastes surprisingly like oysters when fried. It has an indescribably delicate and delicious flavor when stewed. Pkts., 3d.; oz., 1/6.

ENDIVE.

CULTURE: Same as for Lettuce.

Green Curled: Green ribbed, curly leaves. Heart very crisp and bleaches to creamy white. A favorite variety which makes a splendid salad. Pkts., 3d.; oz., 1/-.

Imperial Batavian: Makes an excellent winter salad grown like Lettuce and heads tied loosely for blanching; regarded by some as the best of the Endives. Pkts., 3d.; oz., 1/-.

White Curled: Makes a fine salad; when ready for use outer leaves are green with centre of the head blanched to creamy-white. Pkts., 3d.; oz., 1/-.

HERBS—SWEET—POT AND MEDICINAL.

CULTURE: The seed should be sown in October and November on a sheltered position, and the plants set out in permanent quarters during the autumn months. Herbs will do best on well-drained, deeply-cultivated, liberally-manured soil. Do not be afraid to thin out the plants, as only by giving plenty of room can they be expected to develop and give the greatest satisfaction. When gathering herbs to preserve in a dry state, they should be cut when in flower and on a dry day, tied up in small bunches and hung in the shade. A—Annual; B—Biennial; P—Perennial.

Angelica, B: The mid-rib can be eaten like Celery. The stalks and flowers are used in confectionery.

Balm, P: An aromatic plant, the leaves of which are used for making Balm Tea and Balm Wine.

Basil (Sweet), A: For highly seasoned dishes.

Borage, A: Splendid for Bees. The young leaves make excellent salad.

Coriander, A: Cultivated principally for garnishing.

Dill, B: The leaves are used in pickles and sauce.

Henbane, P: Used for medicinal purposes.

Horehound, P: Useful for its tonic properties, and for cough remedies.

Hyssop, P: The leaves are used for making Hyssop tea, and other medicinal purposes.

Lavender, P: A well-known aromatic herb, the leaves of which are preserved for wardrobes.

Marjoram (Sweet), P: Used in soups and stuffing.

Rosemary, P: An aromatic herb, sometimes used for making hairwashes.

Rue, P: Used for poultry and garnishing.

Sage, P: Used for stuffings, sauces and other culinary purposes.

Savory (Summer), A: Used for flavoring and seasoning.

Savory (Winter), P: Used for flavoring and seasoning.

Taragon, P: Used in salads and pickles.

Thyme (English), P: Used for soups and seasoning, also grown for Bees.

Wormwood, P: Used for medicinal purposes, also beneficial to poultry. Should be planted in all poultry grounds. Pkts. 3d.

KALE OR BORECOLE.

CULTURE: This is a very popular boiling green, and resembles Cabbage in flavor. It is a hardy plant, and can be easily grown from seed. Plants are usually cut off when the leaves are 6 inches or more in length, but with the fine curled varieties the leaves can be gathered for use when of good size. Seed should be sown thinly in drills and plants re-set 18 inches apart in rows 3 feet apart.

Dwarf Green Curled: Very hardy. This variety grows more close to the ground. The leaves are finely curled and are deep green in color. Pkts. 3d.

Lily White: A delicate and tender variety, recommended as a first-class grower. Pkts. 3d.

KOHL RABI.

CULTURE: This vegetable is a cross between a Cabbage and a Turnip. The edible portion is the large bulb which forms on the stem above the soil. We advise successive sowing in order to obtain tender bulbs, which have a mild, delicate Cabbage-like flavor. It is a hardy plant and seed may be sown practically all the year round. Plant it like Turnip and thin to 6 inches apart in row.

Early Purple Vienna: Bright purple in color; large and good. Pkts., 3d.; oz., 1/-.

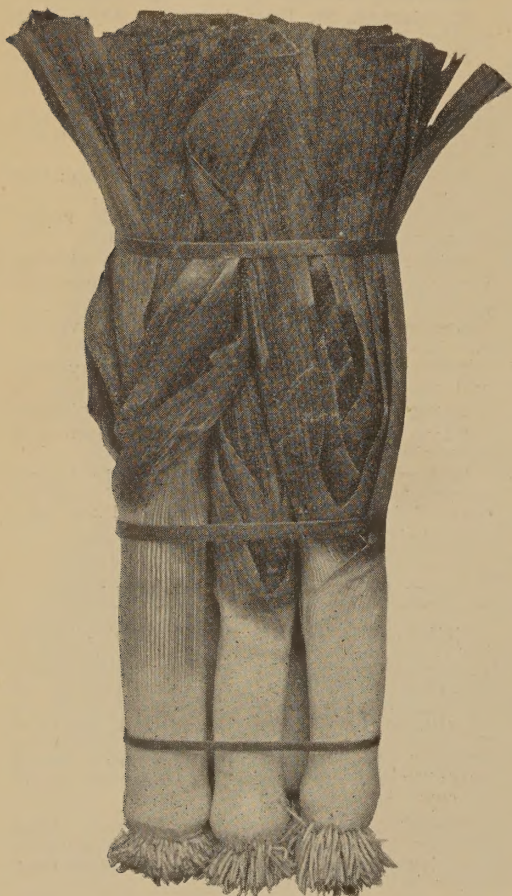

Sander's Short Top: Flesh white and tender. Medium size. Pkts., 3d.; oz., 1/-.

LEEK.

CULTURE: Leek is a hardy plant with a sweet, Onion-like flavor. It resembles the young Onion growth in the spring, but it does not bulb. The necks or stems are blanched by drawing the earth up about them as the plant grows in size, or they can be transplanted to trenches and the trench gradually filled as the plant grows. They should be planted in drills or rows 24 inches apart, and the plants 6 inches apart. Plant seed in seed bed, broadcast to a depth of $\frac{1}{2}$ inch and when plants are about as thick as good-sized goose quill, they should be transplanted.

Broad London Flag: An early, good and useful variety of quick growth. Pkts., 3d.; oz., 1/-.

Dobbie's Champion: The champion grows very solid, with a moderate length of blanch, and is popular with all growers. Splendid for general crops. Pkts., 3d.; oz., 1/3.

Leek Dobbie's Champion.

LETTUCE

CULTURE: A world-wide grown vegetable because it can be quickly and easily grown. Lettuce needs considerable moisture applied often, but not too heavily, and plenty of cultivation to obtain best results. The plants are gross feeders, and the soil should be liberally manured when in course of preparation.

N.B.—Lettuce seed is frequently taken from the soil by birds; the seed bed should therefore be covered with wire netting until the plants are through the soil.

All the Year Round: Stands a considerable time before running to seed. A good Lettuce for all seasons, as its name implies. Pkts., 3d.; oz., 1/-.

Cool and Crisp: A variety of super quality. Remarkably firm head, which stands well after maturity and carries splendidly to market. Fresh appearance, heart fine, clear white, of first class quality, having very few outer leaves. We strongly recommend this variety as an outstanding selection for both market gardeners and private growers' use. Pkts., 3d.; oz., 1/-.

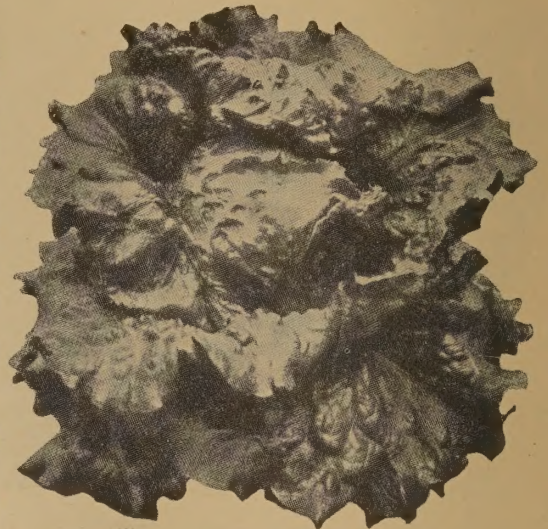

Iceberg: An excellent summer Lettuce producing a solid light green head with leaves tinged with red. The head is very large, white inside, crisp and sweet. Pkts., 3d.; oz., 1/-.

Neapolitan: A large compact variety, good for summer use. Pkts., 3d.; oz., 1/-.

New York: An early variety that does well in mid-summer. Hardy, crisp and medium sized. Good in warm climates. Pkts., 3d.; oz., 1/-.

Sutton's Favorite: A superior Cabbage Lettuce. Leaves attractively curled; hearts crisp and tender. Although a fairly early variety, it is among the last to run to seed. Stands well through dry weather. One of the best Lettuces for spring sowing, and on account of its hardy constitution it does well in autumn. Pkts., 3d.; oz., 1/-.

Webb's Wonderful: The average size of this Lettuce, with ordinary cultivation is from 2 lbs. to 3 lbs. in weight. The heart is very solid, of a pale green color, very tender and very crisp. Pkts., 3d.; oz., 1/-.

Lettuce Iceberg.

ONION.

CULTURE: Sow in April, May and June in drills of fine soil. When large enough plant out in rows one foot apart, and about 6 inches from plant to plant. The soil best adapted for them is of a very heavy nature, possessing plenty of good rotten manure.

Brown Globe: Very hardy, and a good keeper. Pkts., 3d.; oz., 1/-.

Brown Spanish: A standard variety whose merits are well known. The best for general crop. Pkts., 3d.; oz., 1/-.

Cranston's Excelsior: Handsome globe shape, large, solid, with small neck, straw color; extra large bulbs are produced by this strain. Pkts., 6d.; oz., 2/6.

Giant White Italian: The largest of the White Tripoli Onions, often measuring 20 inches in circumference. Pkts., 3d.; oz., 1/-.

Goldmine: We recommend this superb variety for its excellent productive qualities. Bulbs are very handsome, of large size, having a golden brown skin. They are perfectly globular in shape and mild in flavor. Excellent for show or table. Pkts., 6d.

Monarch "Claremont" Improved: One of the finest Onions in cultivation. A perfectly golden and globular ball. Pkts., 6d.; oz., 2/3.

Odorless: A most valuable addition. The large, handsome bulbs with a golden yellow skin are almost, if not entirely, free from the usual pungent odor and taste. Bulbs should be allowed to ripen before use. Mild, tender and fine quality. Pkts., 6d.

Pompeii: The smallest and the earliest pickling variety. Pkts., 3d.; oz., 1/-.

Silver Skinned Pickling: Large sized pickling Onion. Pkts., 3d.; oz., 1/-.

Up-to-Date "Claremont" Selected: A splendid solid Onion of good size, perfect shape and mild flavor. An extra good keeper, the bulb remaining solid for an unusual length of time. The skin is a pleasing shade of dark brown. Pkts., 3d.

White Spanish: Useful and mild flavor. Pkts., 3d.; oz., 1/-.

MUSTARD.

CULTURE: Sow any time in the year, though autumn sowing brings best greens for Mustard likes cool weather conditions. Not particular as to soil, though a medium heavy one is best. Seed should be planted in rows 18 inches apart, and plants thinned to 6 inches apart. Leaves are tender and have delicious flavor.

Chinese White: A hardy large-leaved variety, very mild and in great favor. Pkts., 3d.; oz., 1/-.

Finest White: A large fancy leaved Mustard of finest quality. Pkts., 3d.; oz., 1/-.

PARSLEY.

CULTURE: Sow in April, May and June in good soil in rows a foot apart, and thin out to 8 inches apart in rows. Every garden should include Parsley as its demands and uses are constant by the housewife. Being ornamental, it makes a very attractive border plant for the flower garden. It may be planted as such if you have no room in the vegetable garden.

"Claremont" Triple Curled: Beautifully curled, and specially adapted for garnishing. One of the best varieties for general cultivation. Pkts., 3d.

Green Gem: Of a consistently rich deep green. Most exquisitely and closely curled and compact habit. Pkts., 3d.

Superb Dwarf Perfection (Improved Moss-curved): A new selection of dwarf compact Parsley, of a pleasing green color and exquisitely curled. The hardness of this variety enhances its value. Suitable for pot culture. Pkts., 3d.

PARSNIP.

CULTURE: Sow any month in the year in drills in rich soil $\frac{1}{2}$ inch deep and 30 inches apart, and cultivate the same as Carrots; thin to 4 inches apart.

Dobbie's Select: From its large size it is well fitted for competition purposes and is generally recognised as the best for exhibition. No other can compare with it for appearance, being of a beautiful pearly white color. Pkts., 3d.; $\frac{1}{4}$ lb., 1/-.

Hollow Crown: One of the best Parsnips producing very long smooth pure white roots of the finest quality. Pkts., 3d.; $\frac{1}{4}$ lb., 1/-.

Oxheart: A distinct and valuable type. This variety is one which we consider will be of great assistance to many growers. The roots do not grow as long as some of the older types, but are much fatter, and shorter in growth, therefore being easier to dig. Roots are about 8 inches long, being ready for use two to three weeks earlier than such varieties as "Hollow Crown," etc. "Oxheart" will thrive on much inferior soil to the older variety "Hollow Crown." Pkts., 3d.; $\frac{1}{4}$ lb., 1/-.

Tender and True: An admirable Parsnip which increases in popularity every year. Not quite so large as some of the other varieties, but superb quality, with a clear and smooth skin. Pkts., 3d.; $\frac{1}{4}$ lb., 1/-.

GARDEN PEAS

CULTURE: Peas may be planted in almost any kind of soil. In light soil during the warmer months they should be planted about 3 inches deep so as to be near moisture. In heavier soil or in autumn months plant about one inch deep that warmth may penetrate and help germinate the seed. Rows should be about 2 $\frac{1}{2}$ feet to 3 feet apart. Excessive moisture will rot the seed, so do not irrigate after seed is planted until the plants are well out of the ground. Cultivate after each irrigation.

Alpha: A heavy cropper, dwarf in growth, producing dark green pods well filled with deliciously flavored Peas. Unusually robust in growth and striking in appearance. A splendid early variety. Pkts., 6d.; $\frac{1}{6}$ lb.

English Wonder: The plants grow about 12 inches high and bear an abundance of beautiful green pods, with from 8 to 10 Peas in each which are of excellent quality and flavor. We have every confidence in recommending this as the best **Early Dwarf Pea**. Pkts., 6d.; $\frac{1}{6}$ lb.

Greenfeast: Good heavy cropper, reliable early dwarf variety. 12 to 15 inches high. Pkts., 6d.; $\frac{1}{6}$ lb.

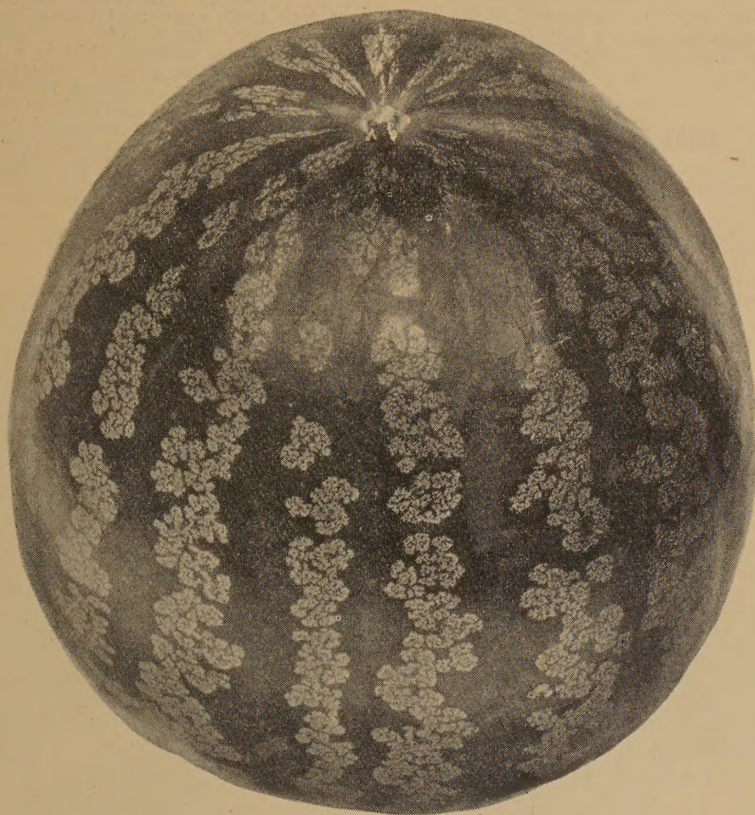

Little Marvel: A heavy cropping dwarf Pea. Pods dark green, usually produced in pairs. Medium in size and well filled. Flavor excellent. A grand Pea for small gardens. Pkts., 6d.; $\frac{1}{6}$ lb.

Luscious: A fine improvement on the well-known variety "Stratagem." Plants will grow three feet high if staked, the pods are 20 per cent. larger and contain from 8 to 10 Peas to a pod. Excellent deep green in color and fine flavor. Heavy cropper. Pkts., 6d.; $\frac{1}{6}$ lb.

Prizetaker: For exhibition purposes it is impossible to find a variety more admirably suited than "Prizetaker." It is one of the most prolific varieties, the plants may be staked to 4 or 5 feet, but even if left unstaked it is a very heavy cropper. The flavor is sweet, delicious, melting and juicy. We strongly recommend it as being a type of superior quality for home and exhibition requirements. Pkts., 6d.; $\frac{1}{6}$ lb.

Stratagem: A dwarf variety, producing large and well filled pods of excellent Peas. Wrinkled; an enormous cropper; height 2 feet. Pkts., 6d.; $\frac{1}{3}$ lb.

Yorkshire Hero: One of the best wrinkled Marrows, a heavy cropper and fine flavor; an excellent market variety; height 3 feet. Pkts., 6d.; $\frac{1}{6}$ lb.

Citron Melon Red Seeded.

MELON

CULTURE: Sow in October and November in a rich piece of land. Plant the seeds in hills 4 or 5 feet apart. Sow 6 or 8 seeds in each hill, and when the plants are in the rough leaf, thin out to three plants. The land requires to be rich, well drained and well cultivated.

MUSK OR ROCK MELONS.

Early Hackensack (Cantalope): Very early, a beautiful Melon, globular in shape and perfectly netted. Excellent flavor. Pkts., 6d.; oz., 1/-.

Skillman's Netted (Cantalope): Roundish oval; flesh deep green, very productive. Early, melting and delicious flavor. Pkts., 6d.; oz., 1/-.

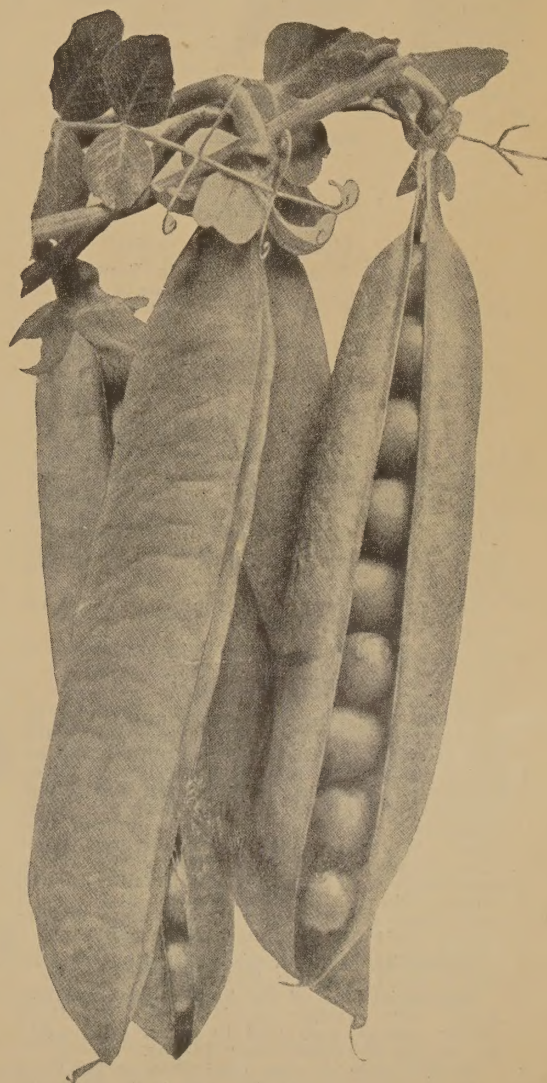

WATER MELONS.

Cuban Queen: Flesh bright red; crisp, sugary and excellent flavor; very prolific. Pkts., 6d.; oz., 1/-.

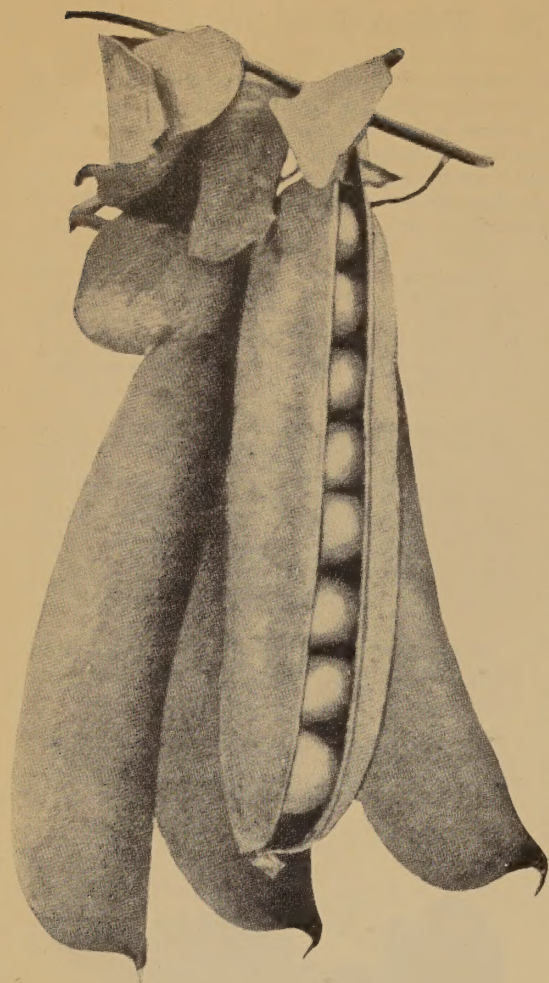

Phinneys Early: Very early, sweet and well flavored. Pkts., 6d.; oz., 1/-.

PIE OR PRESERVING MELONS.

Citron: For jams or preserves. Pkts., 6d.; oz., 1/-.

Pea "Alpha."

Pea "Luscious."

PEPPER.

(Capsicum.)

CULTURE: Sow in frame in September and October, and when the plants are of proper size and the danger of frost is past, they should be planted in the open field or garden, or the plants may be planted direct in the open ground before the frost period is over if they are given proper protection.

Bell or Bull Nose: The earliest of the sweet bell shaped Peppers, medium size, long a favorite among gardeners. Pkts. 6d.

Elephant's Trunk: This is a handsome variety, the fruit being a beautiful glossy scarlet, measuring from 8 to 10 inches in length by 2 to 2½ inches in breadth, resembling in shape the trunk of an elephant; flavor mild, and valuable for use in green state. Pkts. 6d.

Long Red: Bright red; fruit 3 to 4 inches in length. Pkts. 6d.

PUMPKIN.

CULTURE: Pumpkins grow and thrive in almost any soil. A well drained soil subject to irrigation is best. Pumpkins, like other vine crops, should be irrigated carefully, not allowing the water too close to the main stock. As the roots are long, irrigation can be made at the end of the vine. When the fields are covered with vine, irrigate midway between the rows. Too much water is very detrimental to the vines. Plant hills 8 to 10 feet apart each way, four seeds to a hill, and after established, pull out all but the best plant.

Ironbark: Medium size, excellent flavor, and a good keeper. Pkts., 6d.; 1/- oz.

Triamble: One of the best table varieties. Very dry eating variety of excellent flavor; keeps well and is a splendid market variety. Pkts., 6d.; 1/- oz.

Turk's Cap: A very desirable sort. It is a good cropper and dry and well flavored. Flesh orange-yellow, thick, fine grained. Pkts., 6d.; 1/- oz.

RADISH.

CULTURE: Sow any month of the year. Will succeed in any good garden soil not over moist or too heavy. For early and late crop, a warm, sheltered situation should be chosen; for those sown in summer a rather shady spot is best. For a succession sow every two weeks. The ground where the sowing is to be made should be dug deep and raked fine. The seed is generally sown thinly broadcast in beds 4 or 5 feet wide, with 1 foot alleys in between.

Black Spanish Long: A hardy large rather pungent variety for winter use. Keeps unusually well, is 8 to 9 inches long and 2 inches thick. The skin is black and the flesh white and crisp. Pkts. 6d.

French Breakfast (Turnip Rooted): A splendid variety for home use; oblong, bright scarlet, white tip. Grows about 1½ inches long and ½ inch thick. Pkts., 3d.; ¼ lb., 1/-.

Long Scarlet: A well known popular variety. Very attractive color and fine quality. Grows to a length of about 6 inches. Pkts., 3d.; ¼ lb., 1/-.

Long White Icicle: The leader among the white Radishes; pure white, very crisp and brittle. Grows 6 inches long and about 2 inches out of the ground. Being unusually mild, it is an extremely popular variety amongst home gardeners. Pkts., 3d.; ¼ lb., 1/-.

Scarlet Gem (Turnip Rooted): Globe-shaped rich bright scarlet in color. Is growing in popularity and promises to become a leading variety. Pkts., 3d.; ¼ lb., 1/-.

Turnip-rooted Mixed: A mixture of the red and white turnip-rooted varieties. Pkts., 3d.; ¼ lb., 1/-.

RHUBARB.

CULTURE: Sow in drills in April and May, and transplant the following season in rows 3 feet apart and 2 feet apart in the rows, keeping the crown about 2 inches under the surface. The soil cannot be too rich as on this depends the vigor of the plant. Should flower stems appear they should be at once removed.

Linnaeus: A large early variety, crisp and finely flavored. Sticks can be pulled six months after sowing of seed. Pkts. 6d.

Victoria: Large variety and one of the best for general use. Good red color. Pkts. 6d.

SALSIFY.

(Oyster Plant.)

CULTURE: Similar to that of Parsnip. Roots are boiled till tender and served up with melted butter. They have a distinct oyster flavor.

Sandwich Island Salsify: An improved type and the largest and most delicious Salsify in cultivation, with long, white tapering roots. Pkts., 6d.; 1/6 oz.

SCORZONERA OR BLACK VEGETABLE OYSTER.

CULTURE: The same as for Salsify, to which in some respects it is similar. It is cultivated exclusively for the roots, which may be boiled and served plain like Parsnips. It should be soaked in water for a few hours before boiling to extract the bitter flavor. Pkts., 6d.; 1/6 oz.

SPINACH.

CULTURE: Sow prickly varieties in March, April and May, and round varieties in August and September, in drills about 15 inches apart, and when ready thin out to about 6 inches in the rows.

Long Standing Prickly: The best for winter use. Pkts., 3d.; ¼ lb., 1/-.

Long Standing Round: The best for summer use. Pkts., 3d.; ¼ lb., 1/-.

New Zealand: This variety is also used as a salad; should be sown in September. Pkts., 3d.; ¼ lb., 1/-.

Viroflay: The leading smooth seeded variety. Leaves large, smooth, thick and tender. Pkts., 3d.; ¼ lb., 1/-.

SQUASH.

CULTURE: Same as for Pumpkin, only less room required.

White Custard: An excellent variety of Squash, very productive and of good flavor. Pkts. 6d.

SWEET CORN.

CULTURE: Sweet Corn should not be planted until the Spring, when the danger of frost is past. The soil required is one rich and moist. Corn is not a lazy man's crop, as continued cultivation is necessary. Plant in hills 18 inches apart, with rows 3 feet apart; 3 or 4 seeds may be planted in each hill, but not more than two allowed to stand. As "suckers" or excess roots appear they should be removed or they take strength from the mother plant. Whenever soil presents an appearance of drying, irrigate.

Country Gentleman: Produces small white cobs densely covered with irregular rows of white grains of excellent quality. One of the best late varieties. Pkts. 6d.

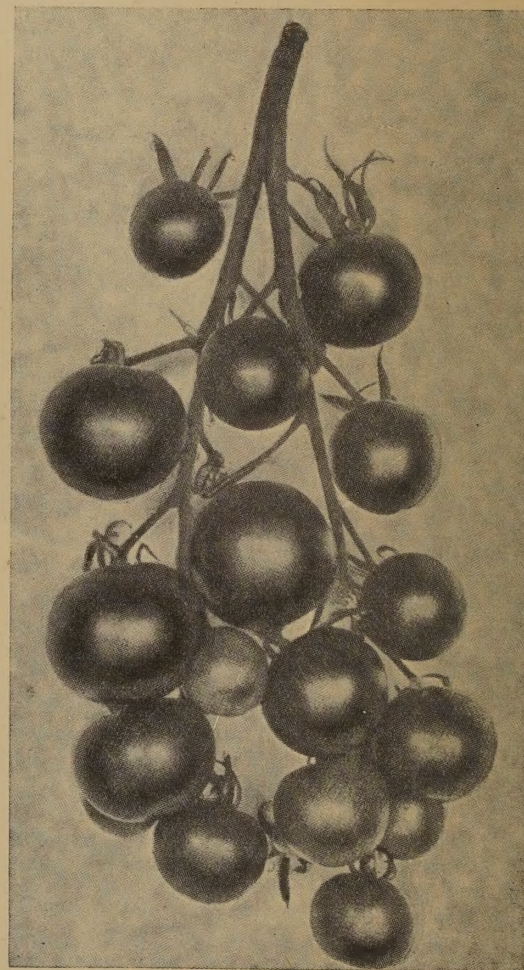

Crosby's Early: A most desirable mid-season variety. When of proper size the kernels are sweet and tender. Pkts. 6d.

Early Adams: Used largely for early corn as it is very hardy and matures quickly. It is tender and of good quality. Can be grown successfully in hot situations. Pkts. 6d.

Early Minnesota: One of the largest eared extra early varieties, of good flavor, and has both ears and cob of pure white; very tender. Pkts. 6d.

Early White Glory: This is a very popular variety. The grains, of good size, are long and slender, entirely free from glaze or flintiness. The variety is well known and widely grown on account of its sweetness and good canning properties. Pkts. 6d.

Golden Bantam: This golden colored corn is the leading variety for early home garden planting. Ears, though small, are numerous and of finest quality. Very sweet and tender. Pkts. 6d.

Tomato "Bide's Recruit."

TOMATOES

CULTURE: Sow in August, September and October, in seed pans or boxes of fine, rich soil. When the seedlings are about 3 inches high, transplant into rows 2 feet apart each way. If the shoots grow too long, stop them. They do best in well manured soil with plenty of water. Weak liquid manure occasionally is beneficial to this crop.

Ailsa Craig: The smooth skin and rich color of the medium sized fruits give them a handsome appearance on the table, and they will be found equally fine in quality. The plant is very short jointed, thus ensuring a heavy crop. Pkts. 6d.

Best of All: Sets freely and is an immense cropper, yielding large bunches at frequent intervals all over the plant. Fruit smooth, of good form and size, and so solid that little seed is produced. Color deep scarlet. The name amply covers the value of this splendid Tomato. Pkts. 6d.

Bide's Recruit: A distinct and fine Tomato which ripens early. Fruits almost round, smooth, medium in size, growing in clusters; color, bright crimson. First-class table variety. Pkts. 6d.

Early Harbinger: An extremely early variety giving a quick crop of good size fruits which are good color and splendid flavor. While generally fairly smooth, under adverse conditions a fair proportion of the fruits are likely to be misshapen. Pkts. 6d.

Golden Triumph: Medium sized fruits are smooth, of a fine golden color, good flavor; ripens early. Pkts. 6d.

Kondine Red: Smooth, firm, medium sized fruits, prolific and fairly early. Pkts. 6d.

Large Red: A variety grown largely in Victoria and South Australia. The fruit is inclined to be ribbed with large empty seed cavities, but it has the ability to set fruits under much cooler conditions than most other sorts. Pkts., 6d.; 1/- oz.

Market King: This is a specially selected stock of a particularly fine Tomato. Fruit firm, smooth, of good form and size, color deep scarlet. It is an immense cropper, yielding large bunches of fruit at short intervals all over the plant. Pkts. 6d.

Perfection: A splendid Tomato, combining productiveness with admirable form, high quality and large size. Fruits smooth, color rich bright red; flesh solid, almost free from seeds, and of an agreeable piquant flavor. Pkts. 6d.

Sunrise: This Tomato combines productiveness, utility, size, rich color, and the choicest flavor. A combination unequalled in any other variety. Pkts. 6d.

CLAREMONT TOMATO PLANTS.

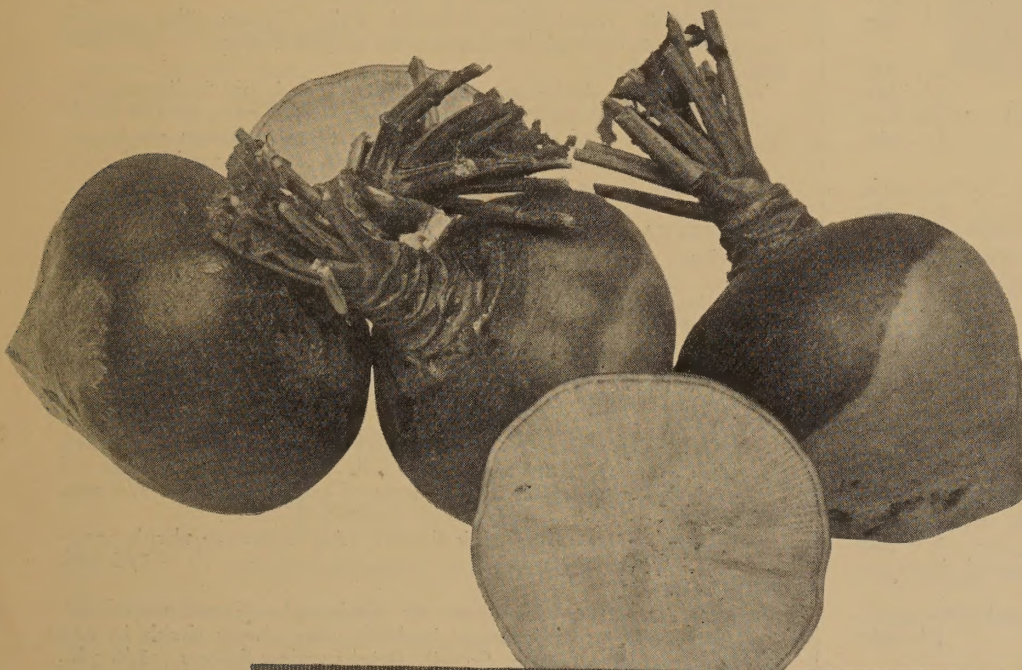

For the convenience of our clients who desire to obtain plants of the more choice dessert varieties of Tomatoes, we offer during the months of September, October and November, the following varieties:—

Ailsa Craig
Best of All
Bide's Recruit

Early Harbinger
Market King
Perfection

1/- per dozen; 7/- per hundred.

The plants are raised in limited quantities only, and it is imperative that orders be placed early that delivery can be assured.

Swede Laing's Purple Garden.

TURNIP

CULTURE: Sow in succession from March till June in light rich soil, in drills 12 inches apart. Cover the seed lightly unless the season be very dry. The seed should be sown as thinly as possible, the plants thinned early to 6 or 8 inches apart, and the soil kept well stirred round them. It is essential to grow this crop very quickly if tender Turnips are desired.

Early White Snowball Improved: An early and perfectly formed white Turnip, splendid for exhibition. Pkts., 3d.; 1/4 lb., 1/-.

Early White Stone: One of the most popular varieties for general use. Flesh white and tender. Pkts., 3d.; 1/4 lb., 1/-.

Golden Ball: A handsome variety with smooth skin. Flesh, bright orange-yellow, firm and of excellent flavor. Pkts., 3d.; 1/4 lb., 1/3.

Laing's Garden Swede: A large globe-shaped variety which gives wonderful returns and is the standard sort for growing for market. Pkts., 3d.; 1/4 lb., 1/3.

Manchester Market: A good green-topped market variety, very quick in growth and of delicious flavor. Pkts., 3d.; 1/4 lb., 1/-.

Stinton's Globe: This may be sown all the year round, and is of specially good use for winter and spring. Very good for table use. White in color with a glowing purple top. Stands and keeps in good quality far better than older sorts. Pkts. 6d.

Stinton's Perfect Model: The earliest and most perfectly formed round white Turnip for garden use. Our stock has been continuously selected for many years, resulting in a beautiful shape, with short top and a single tap root. Flesh snowy white, solid and mild in flavor. Pkts., 3d.; 1/4 lb., 1/-.

VEGETABLE MARROW.

CULTURE: The same as for Pumpkin.

Long Green Fruited Bush: Of similar habit to above, but fruit is dark green, changing to green striped yellow as it ripens. Good flavor. Pkts., 6d.; 1/- oz.

Long White Fruited Bush: White or cream fruit of the typical Marrow shape and size, but borne on plants of non-running bush habit. Heavy cropper; splendid sort. Pkts., 6d.; 1/- oz.

Long Cream Running Marrow: Up to 15 inches or more long. Cream color and of splendid flavor; heavy yielder. This is of vining or running habit. Pkts., 6d.; 1/- oz.

Long Green Running Marrow: A vining or running Marrow. The fruit is green with light markings. A "dry" Marrow, excellent flavor. Pkts., 6d.; 1/- oz.

Long Striped Running Marrow: Good strong grower and heavy cropper. The fruits are large, of pale green color striped dark green. Pkts., 6d.; 1/- oz.

SPECIAL NOTICE

WE DO NOT EMPLOY CANVASSERS OR DOOR TO DOOR SALESMEN.

It has come to our knowledge that bulbs and seed are being offered to the public as being our products which are not of our growing. For your protection, we pack only in our printed packets, sealed with our registered trademark.

SEEDS OF AUSTRALIAN TREES & SHRUBS

Stinton's "Claremont"

ACTINOTUS.

Helianthi (Australian Edelweiss or Flannel Flower)—An attractive herbaceous perennial bearing masses of pure white flannel-like flowers 1/- pkt.

BANKSIA.

ericifolia (Heath-leaved Honeysuckle Tree)—12-14 feet. Flowers reddish 1/- pkt.

serrata (Australian Red-wood Honeysuckle)—15-20 feet. Yellow flowers 1/- pkt.

BLANDFORDIA.

nobilis (Christmas Bells or Thimble Lily)—Small shrub 15-24 inches high. Flowers brownish, red and yellow. Very attractive 1/6 pkt.

BORONIA.

elatio (Tall Boronia)—Forms a splendid dense shrub 3-4 feet high; flowers bright carmine 1/- pkt.

floribunda (Many-flowered Boronia)—Small compact variety bearing masses of pink flowers 1/- pkt.

Fraseri (Fraser's Boronia)—3-4 feet high. Rare and one of the best pink-flowering sorts 1/6 pkt.

ledifolia (Ledum-leaved Boronia)—1-2 feet high. Brilliant red flowers; splendid variety 1/- pkt.

lutea (Yellow-flowered Boronia)—An outstanding variety both in perfume and color, the bright yellow flowers being more intense in scent than any other variety 2/- pkt.

pinnata (Feather-leaved Boronia)—A large growing variety 4-10 feet high. Pink flowers 1/- pkt.

serrulata (Port Jackson Fairy Rose)—A real gem, bearing deep rose flowers in profusion. This variety is now extremely scarce and is almost extinct. 3-4 feet high 2/6 pkt.

CALLISTEMON.

lanceolatus (Pointed-leaf Bottle Brush)—A vivid scarlet flowering shrub. Extremely hardy and most attractive 1/- pkt.

CERATOPETALUM.

apetalum (Coachwood of New South Wales)—30-40 feet. Red flowers 1/- pkt.

gummif-rum (New South Wales Christmas Bush)—30-40 feet. Red flowers; attractive tree 1/- pkt.

CROWEA.

saligna (Pink Buttons)—A most attractive shrub 2-3 feet high. Bears masses of pink flowers 1/- pkt.

DILLWYNIA.

brunoides—Grows to 4 feet high; hardy and likes free soil which must be well drained. Clear orange-red flowers. 1/- pkt.

ericifolia (Heath-leaved Dillwynia)—Attractive shrub growing to 4 feet high. Flowers yellow and reddish brown 1/- pkt.

floribunda (Many-flowered Dillwynia)—A beautiful shrub growing 4-6 feet high. Bears masses of yellow and brown flowers 1/- pkt.

juniperina (Juniper-like Dillwynia)—Grows 3-4 feet. Flowers yellow and brown 1/- pkt.

suaveolens (Sweet-scented Dillwynia)—An extremely beautiful shrub growing from 4-6 feet high. Deep rich purple flowers 1/- pkt.

NOTE.—All the Dillwynias require free soil and good drainage.

DODONAEA.

triquetra (Three-cornered Hop-seed Bush)—Shapely tree growing to 20 feet high 1/- pkt.

ERIOSTEMON.

crowea—Small shrub growing to 4 feet high. Attractive pale pink star-shaped blossoms borne in the spring 1/6 pkt.

EUCALYPTUS.

calophylla rosea (Port Gregory Pink-flowered Gum)—A fast growing tree, attractive and beautiful. Flowers, rose pink in color, are borne in profusion 1/- pkt.

ficifolia (The Scarlet Flowered Gum of Western Australia)—The most beautiful of all flowering gums. Grows 30 feet high and bears masses of bright scarlet flowers 1/- pkt.

GOMPHOLOBIUM.

grandiflorum (Large-flowered Golden Pea Bush)—A most attractive garden shrub bearing masses of golden-yellow flowers. 1-3 feet high 1/- pkt.

latifolium (Broad-leaved Golden Pea Bush)—Grows to 6 feet. Of compact growth; most showy shrub; light green foliage; flowers deep gold. Commonly called the Golden Native Pea and one of the best varieties 1/- pkt.

NOTE.—The above two varieties are reputed to be poisonous to stock.

GOODIA.

lotofolia (Salisbury or Yellow Pea)—Beautiful shrub 4-8 feet high. Golden-yellow pea-shaped flowers, borne in profusion 1/- pkt.

GREVILLEA.

acanthifolia—Pretty shrub growing 3-4 feet high. Flowers pink 1/6 pkt.

buxifolia—Commonly called Grey Spider Plant. Very attractive; grows to 6 feet high. Grey flowers fringed with pink 1/6 pkt.

leucopeteris (White-plumed Grevillea)—A magnificent species growing to 8 feet high. Long plumes of creamy-white flowers cover the bush in the Spring. Extremely unique and very rare 2/- pkt.

montana—Commonly called the Bird Bush Flower. The bronze, green and red flowers resemble a bird and the shrub grows to about 5 feet high 1/6 pkt.

punicea (Crimson-flowered Grevillea)—A very choice shrub bearing deep crimson flowers. Grows 3-4 feet 1/6 pkt.

robusta (Silky Oak)—A splendid tree growing 80-100 feet high. The flowers are bright orange in color and cover the tree in profusion 1/- pkt.

HAKEA.

laurina (Pin-cushion Flower)—A shapely shrub or small tree growing to 15 feet high. Large ball-like flowers crimson and white in color 1/- pkt.

HARDENBERGIA.

Comptoniana (West Australian Climbing Lilac)—A beautiful evergreen twining plant which bears masses of deep purple flowers in the Spring 1/- pkt.

monophylla alba (White-flowered False Sarsaparilla)—3-4 feet high. Abundant flowers of pure white 1/- pkt.

monophylla rosea (Rose-flowered False Sarsaparilla)—Small shrub 3-4 feet high bearing masses of pink flowers 1/- pkt.

JACARANDA.

mimosaefolia—Although this beautiful tree is not indigenous to Australia, it is now quite established in our country and seeds freely. One of the most attractive flowering trees we know. Bears masses of light purple flowers, which, combined with the light ferny foliage make a splendid specimen tree. 1/- pkt.

KENNEDYA.

nigricans (Black Cockatoo Flower)—An extremely rapid growing climbing plant. Large attractive foliage and unique yellow and black flowers 1/- pkt.

LAMBERTIA.

formosa (Port Jackson Honey Shrub)—This is a beautiful flowering shrub, very hardy and most attractive. Large bell-shaped flowers bright scarlet in color 2/6 pkt.

LOMATIA.

salaifolia (Samphire-leaved Lomatia)—Very pretty shrub which will grow in practically any soil. Deep green foliage of fern-like appearance. Big clusters of cream flowers 1/- pkt.

MIRBELIA.

reticulata—Large lilac pink flowers. An attractive shrub growing 5-6 feet high 1/6 pkt.

PERSOONIA.

nutans (Nodding Persoonia or Geebung)—Grows to 6 feet. Grey looking appearance in leaf; very showy shrub in any garden; likes free sandy soil. Bright yellow flowers 1/6 pkt.

SCAEVOLA.

suaveolens (Fan Flower)—Grows to 8 feet high. Most attractive when in bloom. Flowers pink in color 1/- pkt.

STYLIDIUM.

graminifolium (Trigger Plant or Jack-in-the-Box)—A pink-flowered herbaceous perennial very suitable for rock garden planting 1/- pkt.

NEW SOUTH WALES WARATAH

(*Telopea speciosissima*)

This variety is the largest of the Waratahs. Trees grow 12 feet high and flowers are 14 inches in diameter. The flowers are bright red in color and are most attractive and unique in appearance. A most desirable shrub or small tree for any garden purpose.

2/6 PACKET.

UNCOMMON ROOTS and TUBERS

Stinton's "Claremont" Grown

RICHARDIAS

(CALLA OR ARUM LILIES)

HARDY perennial herbaceous plants having thick, fleshy, bulbous roots. They all have very handsome, dark green foliage striped with white. Plant in a rich loam to which some well decayed manure has been added. Richardias like plenty of moisture at the roots when in full growth and are found to give best results when facing east or south.

ELLIOTIANA (Golden Yellow Calla Lily)—A wonderful flowering, bulbous rooted plant admirably suited for all purposes. Grouped in the herbaceous border, the magnificent golden yellow flowers and uncommon foliage give a brilliant and lasting effect rarely obtained by many other flowering plants. The leaves are rich green spotted white, standing erect and neat about the flowers. We have every confidence in recommending this attractive subject 2/- each

REHMANNI Pink—This is a beautiful pink flowered variety of recent introduction. It is equal in all respects to the above variety; the color is rich pink suffused buff at throat of flower, slim green leaves cluster round the long graceful flower stems 1/6 each

JOAN—A delightful variety, buff gold edged deep pink which suffuses down the entire flower when fully out . . . 2/6 each

OTAHUHU—An exquisite variety, pale buff tinged with pink 2/6 each

REHMANNI GIGANTEA—A new tall variety, creamy pink tinged rose at edges 2/6 each

REHMANNI HYBRIDS—These include some beautiful unnamed sorts in shades of dark rose, pink, etc. . . . 2/6 each

JACOBEOAN LILY

(SPREKELIA FORMOSISSIMA)

A hardy, free-flowering bulb which will thrive in any garden soil. Rich dazzling crimson flowers held on long stems. Blooms resemble an orchid in appearance. Do not plant your bulbs too deeply.

1/6 EACH.

TUBEROSE

(POLIANTHES TUBEROSA)

Bulbous plants growing 24 to 36 inches high. Plant in a sandy loam to which some well-rotted manure has been added. Double white flowers, sweetly perfumed. Keep soil moist during flowering period.

9d. EACH; 7/6 PER DOZEN.

SCARBOROUGH LILY

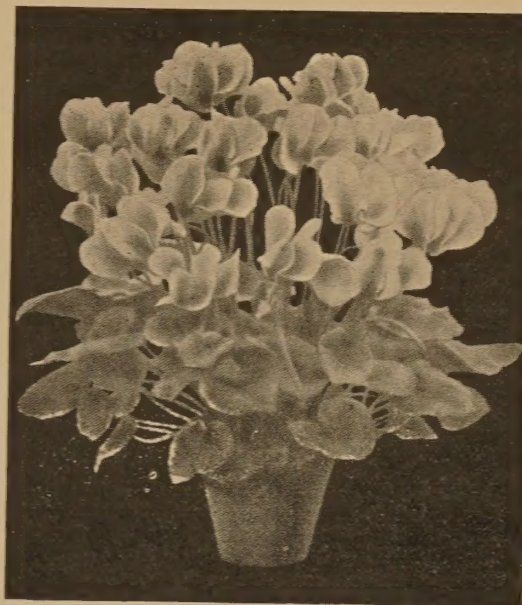

(VALOTTA PURPUREA)

Rich scarlet blooms, with paler throat, held in sprays of three or more large funnel shaped blooms to a stem. Give this subject a well-drained sunny position, taking care not to have the bulbs planted down too deeply. Give plenty of water during the growing and flowering season.

2/6 EACH.

CYCLAMEN

CYCLAMEN are particularly adapted to culture in pots, or for growing in Rock-gardens and on sloping banks where they will be sheltered from the sun. The plants flower very freely and with ordinary attention will yield a profusion of blooms for several months. As a cut flower the Cyclamen is unsurpassable. The blooms last for three weeks and are a valuable addition to the supply of late winter and spring flowers.

A Well-flowered Specimen
of Cyclamen.

CHERRY RIPE—An almost pure scarlet.

CRIMSON KING—Brilliant crimson.

DUKE OF FIFE—Deep lilac-rose.

EXCELSIOR—White with dark base.

MAUVE QUEEN—

MRS. L. M. GRAVES—Deep salmon.

PINK PEARL—Lovely pale salmon.

WHITE WONDER—The best of all Whites.

"CLAREMONT" MIXED—A brilliant mixture of all the most wanted shades.

"CLAREMONT" NAMED VARIETIES:

1st SIZE 1/6 EACH; 15/- PER DOZEN.

2nd SIZE 1/- EACH; 10/- PER DOZEN.

"CLAREMONT" MIXED:

1st SIZE 1/- EACH; 10/- PER DOZEN.

2nd SIZE 9d. EACH; 7/6 PER DOZEN.

HIPPEASTRUM

(AMARYLLIS)

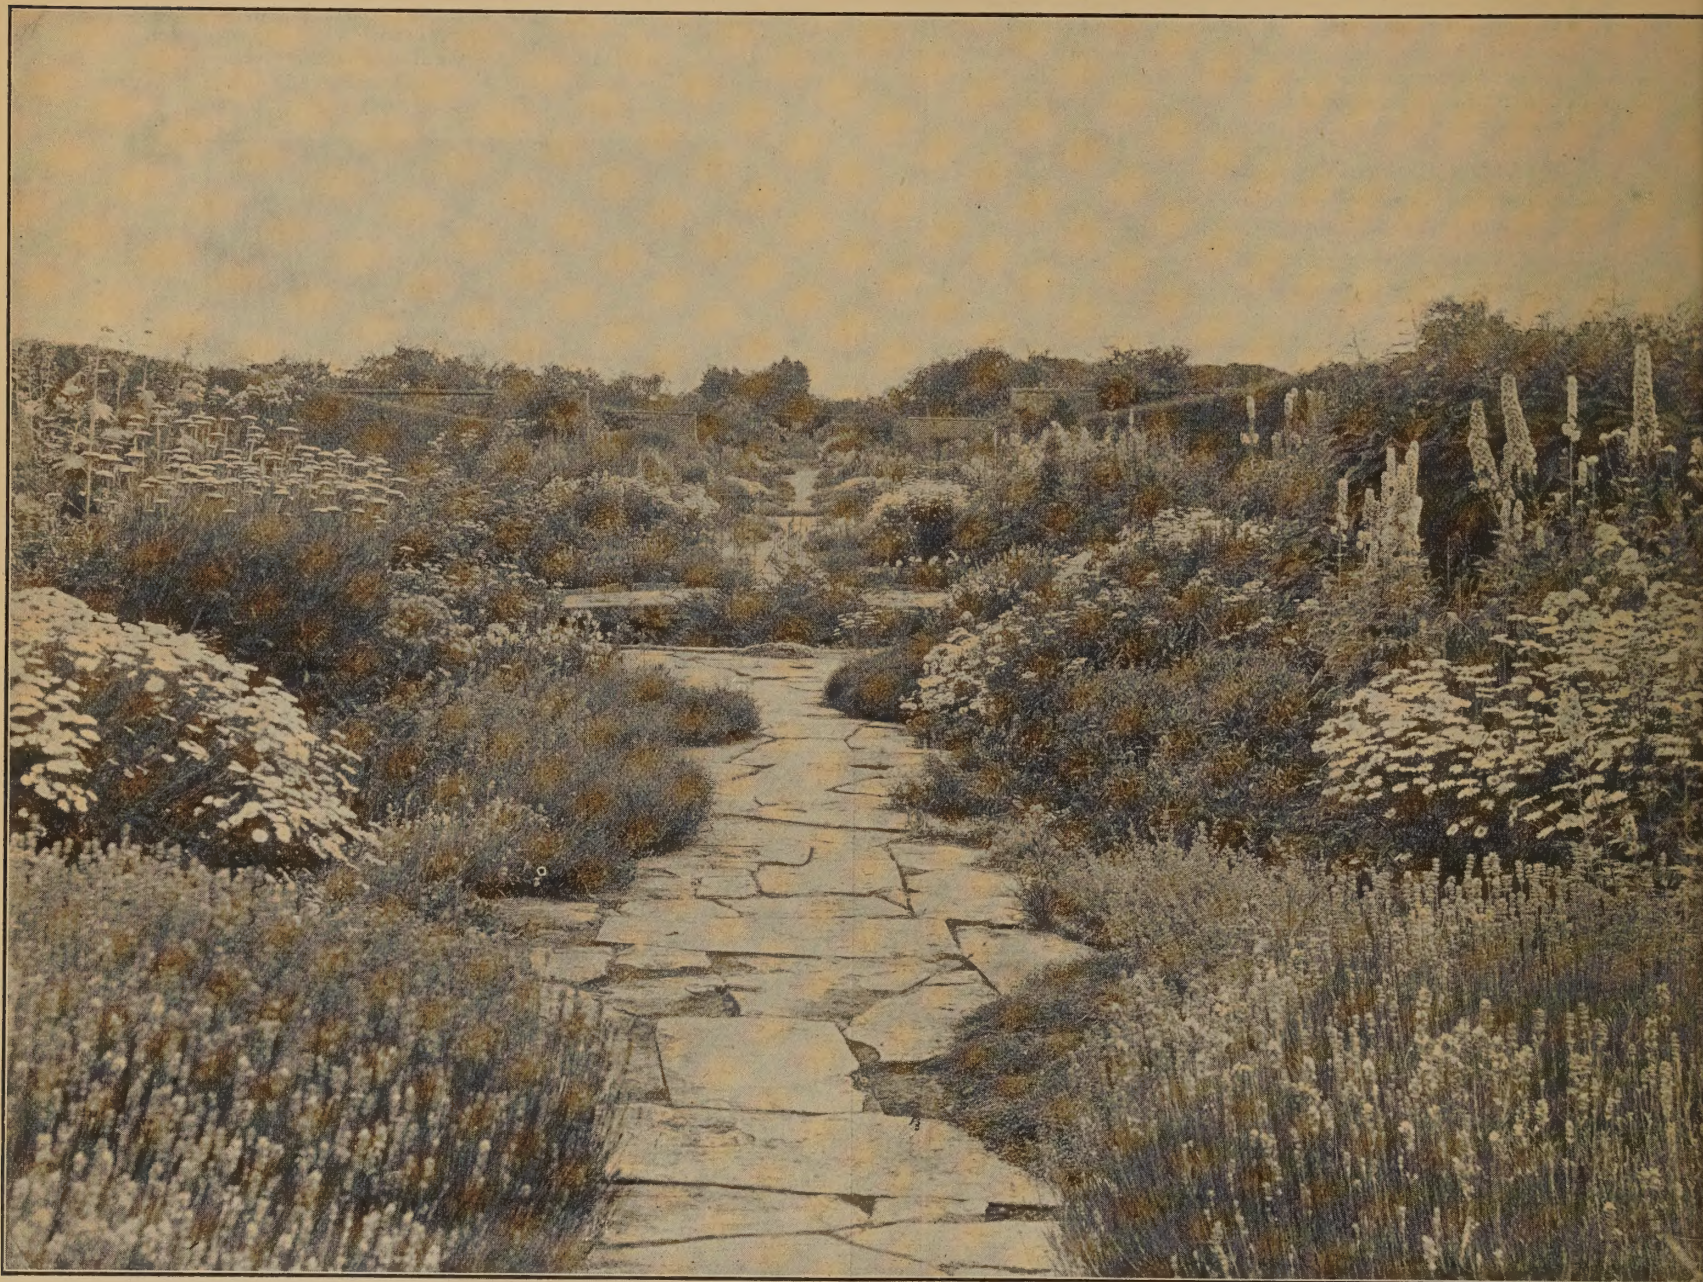

These handsome plants surpass many others in color. The shades range white and red, crimson-red, orange-red, etc.; some varieties being self colored, whilst others have striped or feathered markings. The soil should be fairly rich, leaf-mould and rotted cow manure are beneficial to them.

2/6 EACH.

HERBACEOUS PERENNIALS

Stinton's "Claremont" Grown

EVERY garden should have a corner devoted entirely to herbaceous plants, and a number of these perennials planted throughout the garden. Most of the plants thrive better if left undisturbed in the ground for a number of years, and, in addition to the magnificent garden display of blooms usually obtained from this source, large quantities of cut flowers are available for picking during the spring and summer months.

Plant Herbaceous Perennials for an Old World Effect.

ACHILLEA.

filipendula, Cloth of Gold—Tall spreading perennial. Rich golden-yellow flowers 1/- each

ACONITUM.

Napellus (Monk's Hood)—A variety bearing rich blue flowers 1/- each

ALSTROEMERIA (Peruvian Lilies).

Aurantiaca—Showy, free flowering, tuberous plant; orange, spotted brown and crimson. Flowers in summer 1/- each

ANEMONE (Japanese Windflower).

Japonica—A hardy, free flowering perennial, blooming from February to May. The rosy-pink flowers are borne on stems about two or three feet long. This subject thrives in a rich soil and with partial shade 1/- each

Japonica Alba—Similar to the above, the coloring being pure white 1/- each

BUPTHALMUM.

Salicifolium—Free flowering showy perennial. Bright golden-yellow daisy-like flowers 1/- each

CAMPANULA (The Bellflower)—Summer-flowering Perennials with foliage clusters to the ground. Flower spikes rise about two to four feet bearing pendulous, bell-like flowers.

Alliariaefolia—Large white flowers 1/- each

Persicifolia—Beautiful blue flowers 1/- each

Persicifolia Alba—Pure white 1/- each

Persicifolia, *Mauve Beauty* — White, suffused mauve, double 1/- each

Persicifolia, *Telham Beauty* — Clear sky-blue, large flowers 1/- each

HERBACEOUS PERENNIALS

Stinton's "Claremont" Grown

CATANANCHE.

Coerulea—Sky-blue perennial, excellent for cutting. 1/- each

CENTAUREA.

Dealbata—One of the useful rock plants, growing about 18 inches high; mauve-pink flowers 1/- each

CEPHALARIA.

Tartarica—Belonging to the Scabiosa family; plants produce large heads of golden-yellow flowers 1/- each

CHELONE.

Barbata—Light, scarlet-flowered perennial, similar in growth to the Pentstemon 1/- each

Barbata coccinea—Beautiful crimson-flowered variety, tall. 1/- each

Barbata Salmonea—A beautiful pink-flowered form. 1/- each

CYPERUS (Umbrella Grass).

Alternifolius—Useful for rock-work, pond or pot culture. 1/- each

DICENTRA (Dielytra) (Bleeding Heart).

exima—Greyish, ferny foliage, carmine pink flowers. 1/6 each
spectabilis (Bleeding Heart)—Particularly attractive perennial, deep rose colored flowers borne in long racemes, fine cut foliage 2/6 each

DORONICUM (Leopard's Bane).

Plantagineum—An early spring-flowering perennial with low-growing foliage; sends up flower stems about eighteen inches in height. The yellow daisy-like flowers are very attractive and useful for decorative purposes 1/- each

ECHINOPS.

Bannaticus—Tall, spiny-foliaged plant. Grey blue flowers. 1/- each

Ritro—Strong heads of rich blue color 1/- each

ERIGERON.

Quakeress—Free-flowering, rich rosy-lilac 1/- each
speciosus—Beautiful deep mauve 1/- each

ERYNGIUM (Alpine Sea Holly)—Grows to two or three feet in height, large flower heads of splendid steel blue set off by bracts which look like steel or burnished silver 1/- each

Planum—Prichard's Blue. A fine blue-flowered form. 1/- each

GAILLARDIA—Sun-loving plants, very hardy and decorative, they may be used in the perennial border with advantage.

Portola hybrids—A special strain introducing all shades. 2/6 doz.

Sanguinea—Blood red 2/6 doz.

GEUM.

Coccineum, Mr. J. Bradshaw—A showy scarlet-flowered, hardy perennial 1/- doz.

Gray's Seedling—Orange Scarlet 1/- each

Orange Queen—Showy orange flowers 1/6 doz.

HELENIUM.

Cupreum, Crimson Beauty—A strong growing perennial, flowers coppery red. Plants grow to about eighteen inches in height 1/- each

HEMEROCALLIS (Day Lily).

Fulva—Beautiful orange-flowered perennial, very hardy and will thrive in almost any position 1/6 each

HEUCHERA—Attractive perennials giving masses of pink and rose colored flowers, borne on long stems. Excellent for indoor decoration.

Carleen — Very tall. Good heads of lovely carmine flowers 1/- each

Prichard's White—Pure white 1/- each

Scoresby Pink—An excellent variety. Attractive shade of pink 1/- each

IRIS.

Stylosa—This winter-flowering Iris is perhaps one of the most useful plants we have. The pretty china-blue flowers are unsurpassed for decorative purposes . . 6d. each, 5/- doz.

KNIPHOFIA (Tritoma or Red Hot Poker)—An attractive race of red, orange and yellow-flowered perennial plants.

Aloides—Orange, yellow and red; six feet 1/- each

Chloris—Greenish-yellow and red; three feet 1/- each

Ensifolia—Rich yellow; flowers in winter; three feet 1/- each

Ideale—Rich crimson; three feet 1/- each

Leichtlini—Vermilion and yellow; four feet 1/- each

Longicollis—Yellow, red and green; six feet 1/- each

Metackii—Crimson and yellow; three feet 1/- each

Pauciflora—Yellow; two feet 1/- each

Soldier's Tunic—Clear orange scarlet, decorative type. 1/- each

Stella—Yellow and orange; four feet 1/- each

Tuckii—Yellow and red; three feet 1/- each

Victor Lemoine—Red and yellow; strong spike, four feet. 1/- each

Uvaria—The old red hot poker plant. Red & yellow. 1/- each

LIATRIS.

Spicata—Uncommon plant about 2 feet high, attractive purple flowers 1/- each

LYCHNIS (Rose Campion).

Chalcedonica—Brilliant scarlet-flowered perennial, very easy to cultivate. The growth is erect and the large flowers are borne on stems two feet high 1/- each

MESEMBRYANTHEMUM (Ice Plant)—Succulent plants from South Africa, thrive well in any dry, sunny position. We stock varieties ranging in colors from pale pink, apricot, yellow to bright red 6d. each, 5/- doz.

MONARDA (Horsemint).

Didyma rosea—Handsome perennial plant; pink flowers useful for indoor purposes 1/- each

Purpurea—A purple flowered form 1/- each

NEPETA (Cat Mint).

Ochranica—Tall growing, violet-flowered variety . . 1/- each

PHYSOSTEGIA.

Virgiana—Tall growing perennial useful for cutting. The mauve-pink flowers are borne on stems about 2 feet long. Very hardy 1/- each

POTENTILLA (Cinquefoil).

Fruiticosa—A shrubby, evergreen plant bearing golden-yellow flowers 1/- each

POTERIUM.

Obtusatum—Useful, free-flowering plant producing beautiful feathery plumes of rose-pink flowers 1/- each

SCHIZOSTYLIS (Kaffir Lily).

Coccinea—Bulbous plant, bearing erect heads of flag-like blooms of a rich scarlet color 1/6 each

Mrs. Heggarty—Clear salmon-pink, a good autumn flower. 1/6 each

SIDALCEA (Greek Mallow).

Rose Queen—Hardy herbaceous plant requiring a well-drained soil. Pink 1/- each

STOKESIA (Cornflower Aster).

Cyanea—Large flowered blue perennial; very hardy and extremely showy; excellent for the herbaceous border. 1/- each

VERBENA.

Bonariensis—A distinct variety of this family, tall growing. Beautiful lavender flowers borne on long slender stems. 1/- each

VERONICA (Herbaceous Speedwell).

Maritima Rosea—Pink flowered variety, shrubby habit. 1/- each

THALICTRUM

(MEADOW RUE OR FEATHERED COLUMBINE.)

Few mauve flowered perennials give such an effective show as Thalictrum. The plants reach the height of about six feet, the foliage is of light ferny appearance and is very useful as a substitute for maiden hair fern. Masses of lavender mauve flowers entirely cover the upper portion of the plants and remain in bloom for a considerable time. This is a very hardy perennial and one which we have every faith in recommending.

1/- EACH.

HERBACEOUS PERENNIALS

Stinton's "Claremont" Grown

SOMETHING NEW! Dwarf Michaelmas Daisies—

ASTER—New Dwarf Hybrids

It is our pleasure to introduce a race of NEW DWARF HYBRID ASTERS. They are similar in habit to the Novi-Belgii Section except for their height, and produce innumerable flowering shoots covering the plant in blossom for a considerable time. They are especially valuable for edging or for grouping in the front of borders, and are also charming in the ROCK GARDEN, where they will provide a display of Bloom in March and April equal to that given by the AUBRIETIA in Spring. The plants are of strong and vigorous growth and of the easiest cultivation.

- COUNTESS OF DUDLEY—Charming clear pink flowers with yellow eye, of bushy habit and free-flowering. 1 ft. 1/6 each; 16/- doz.
DAPHNE—Clear pink flowers, slightly tinged lilac on opening, of good habit and free-flowering. 14 inches 2/6 each; 27/6 doz.
LADY HENRY MADDOCKS—Clear pale pink flowers, very free-flowering and of dwarf compact habit. 7 inches. 2/- each; 21/- doz.
MARJORIE—A charming plant of compact habit, bearing large flowers of a bright rose-pink. 9 inches 1/6 each; 16/- doz.
NANCY—Of dwarf bushy habit and very free-flowering, the plants being covered with pale flesh-pink flowers. 9 in. 1/6 each; 16/- doz.
REMEMBRANCE—A late variety of excellent habit, and producing large stiff flowers with a double row of petals, of a clear pale lilac with golden centre. 14 inches 1/6 each; 16/- doz.
RONALD—Forming a dwarf bush covered with flowers of a pleasing bright shade of lilac-pink with rose-pink buds, very showy. 12 inches 1/6 each; 16/- doz.
VENUS—An extremely bright, showy variety forming a dense bush covered with large, bright clear pink flowers. 1 ft. 2/6 each; 27/6 doz.
VICTOR—The dwarfiest of all and very pretty. The flowers are of good size and of a beautiful clear pale lavender-blue, a charming rock plant. 6 inches 1/6 each; 16/- doz.

SPECIAL COLLECTION—One plant each of above nine varieties for 12/6

Capture An Old English Atmosphere in the Garden
Plant Your Lavender Borders This Season!

ENGLISH LAVENDER

(LAVANDULA VERA)

Picture the old world charm of an English cottage garden with its winding paths edged here and there with English Lavender; the abundance of flowers filling the air with their delicious perfume.

Capture this atmosphere for yourself, commence on the more permanent features by planting your Lavender borders this season.

3/6 PER DOZEN; 20/- PER HUNDRED.

VIOLETS

Violet Lutea

A beautiful single flowered variety giving attractive orange-yellow flowers. The uncommon coloring and robust habit go to make this a most desirable variety.

6d. EACH;
5/- PER DOZEN.

- COMPTE DE BRAZZA—This is the best double white Violet we have and is a great favourite 3/6 doz.
LA FRANCE—Single, large, round petals; color metallic blue; flowers carried on long, stiff stems and extremely large, a glorious flower 2/6 doz.
LADY HUME CAMPBELL—One of the finest double varieties in cultivation; color similar to Marie Louise; very strong constitution; the foliage is taller and does not suffer in the hot summer months as do some varieties 3/6 doz.
MARIE LOUISE—Flowers large and full, delicate blue shading towards the centre; highly scented 3/6 doz.
MRS. D. LLOYD GEORGE—Extra long stems measuring nine to ten inches; color rich, deep violet-blue; broad stiff petals, small rosette in the centre of each flower which is white, tinted red. Flowers are of enormous size 3/6 doz.
NEAPOLITAN—Lavender with white centre; very double. 3/6 doz.
PRINCESS MARY—Beautiful semi-double flowers, rich violet-blue; a distinct variety 3/6 doz.
PRINCESS OF WALES—One of the finest single varieties in cultivation; blooms almost like a Viola; stalks six to eight inches long and standing erect; habit vigorous; color decided bright blue; sweet perfume 2/6 doz.

"Claremont" Special Collection

VIOLETS (Our Selection, except variety Lutea).

We have every confidence that most flower lovers will enjoy the delicious fragrance of these fine double and single Violets.

24 STRONG ROOTED PLANTS IN SIX (6) VARIETIES, for . . 6/6.

HERBACEOUS PERENNIALS

Stinton's "Claremont" Grown

FOR COOL CORNERS OF THE GARDEN.

LILY OF THE VALLEY.

(CONVALLARIA MAJALIS)

One of the most beautiful and admired spring-flowering plants, universally sought for its neat and chaste outline and delicate perfume. The growth is close, dwarf and compact, and the plant is hardy and permanent. Lily of the Valley delights in a cool, moist, and shady spot having a southerly aspect. Trench the soil thoroughly and work in some well-rotted manure or leaf mould, be particularly careful that the plants do not come into direct contact with the manure until they have had time to make sufficient root to absorb the food as required.

STRONG CROWNS - - - 3/6 PER DOZEN

Stinton's "Claremont" CHRISTMAS ROSE.

(HELLEBORUS NIGER)

Strong growing perennials thriving in cool moist positions. Colors range through pastel shades of white, green, pink to purplish rose. Free flowering and an excellent cut flower for winter and early spring use. They love manure and shade.

1/6 EACH;
15/- PER DOZEN.

STINTON'S "CLAREMONT" POLYANTHUS PRIMROSE.

(PRIMULA POLYANTHA HYBRIDS)

Lovers of partial shade, these useful plants thrive in rich, deep loam and appreciate the admixture of leaf mould and grit to the soil. They are all moisture lovers but must have a well-drained soil.

"Claremont" Blue Shades—A lovely hybrid strain of these useful plants, vigorous growth . . 6d. each; 5/- doz.

Giant Munstead Strain—Large-flowered strain; the colors ranging from pale yellow to clear orange . . . 3/6 doz.

Polyanthus Primrose Hybrids—A bright colored mixture, very choice. 3/6 doz.

STINTON'S "CLAREMONT" PAEONIES.

(HERBACEOUS DOUBLE-
FLOWERED TYPES)

The Herbaceous Paeony is one of the most valuable of all hardy perennial plants. In it we have luxuriant foliage and immense flowers of brilliant color produced in late spring and early summer. The plants start early and are ornamental almost from the first because of the rich color of the leaf stems. Nor must perfume be forgotten. Our stocks include some of the best double-flowered type in shades of Deep Red, Rich Pink, Rose Pink, Pale Pink, and White.

2/6 EACH.

STINTON'S "CLAREMONT" ENGLISH PRIMROSES.

(PRIMULA VULGARIS AND HYBRIDS)

Belonging to the same genus as the Polyanthus, the Primroses are also lovers of partial shade. The soil should be similarly made up as that required by the Polyanthus. Primroses make an admirable edging for borders and paths.

"Claremont" Blue Hybrids—Mixture of blue shades ranging from soft slate blues to vivid indigo shades.

6d. each; 5/- per dozen

English Primrose—The common yellow Primrose, very free flowering . . . 2/6 per dozen

Finest Mixed Hybrids—Extra choice mixture, embracing all colors . . . 3/6 per dozen

CACTI AND SUCCULENTS

UNDER this heading are to be found some beautiful flowering plants, and all are more or less ornamental, at the same time possessing peculiar advantages over any other class of plants, because of their tenacity of life, which renders them suitable for planting in nooks and corners or under trees where little or nothing else would live.

The grouping of a collection of these plants together provides a very singular and interesting feature and the attention required is almost negligible.

SPECIAL CONCESSION OFFER

We will be pleased to supply collections of CACTI AND SUCCULENTS in distinct varieties (our selection) as follows:—

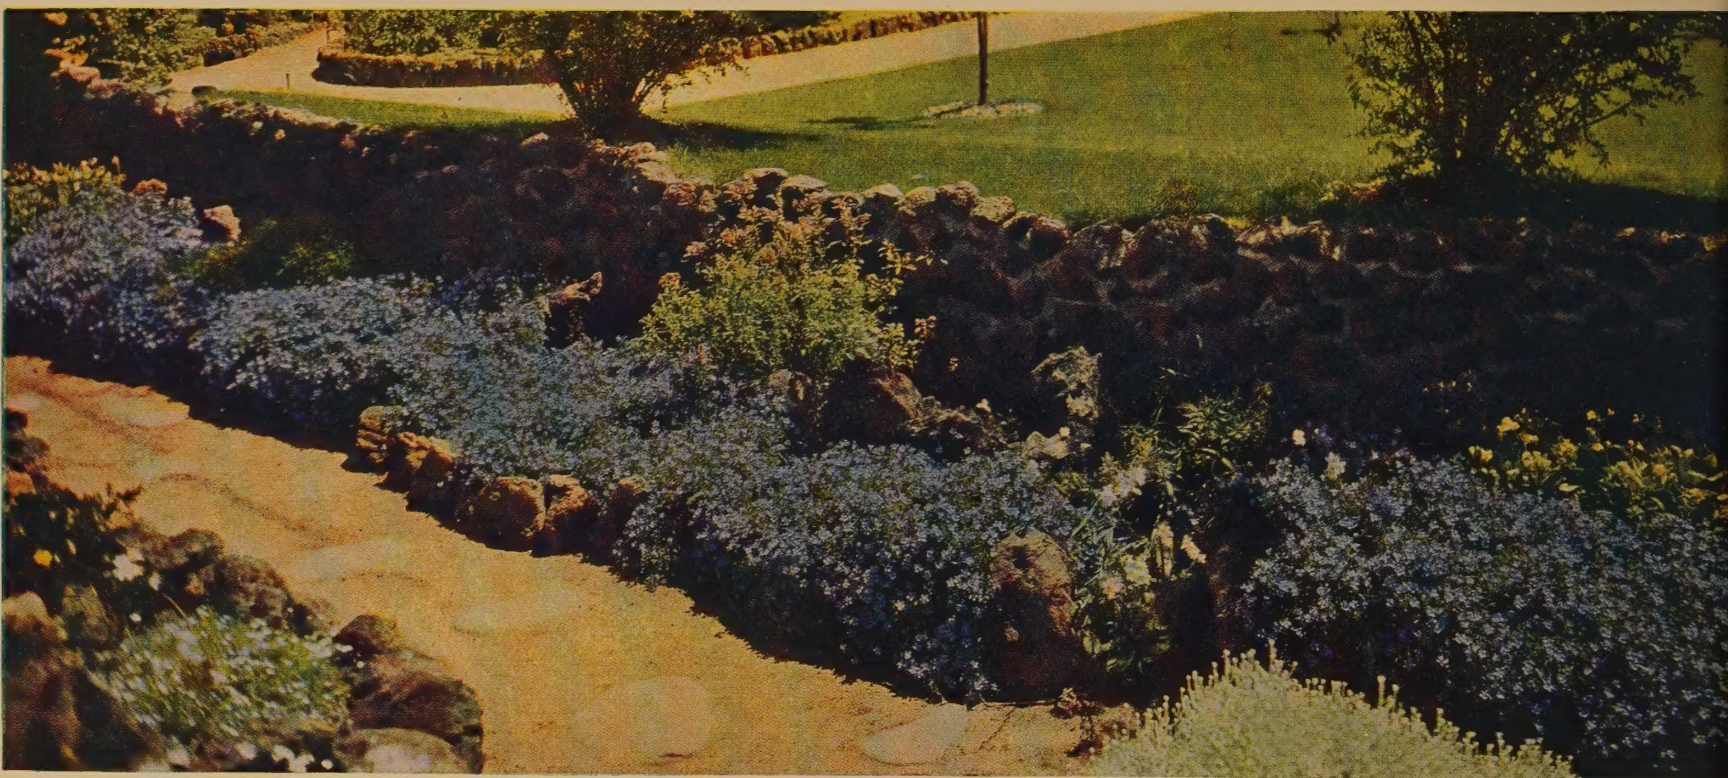

Twelve 15/— Fifty 48/— Hundred 90/—

We would point out to our clients that in compiling the above collections a full range will be included regardless of prices of individual varieties shown in our Catalogue. Our collections therefore offer a definite monetary saving to our clients, and satisfaction is assured.

ROCK PERENNIALS

Stinton's "Claremont" Grown

ROCK GARDENING is now receiving considerable attention, and the following list contains many interesting and quaint plants suitable for planting on rock walls, paved walks, and rock pockets. The plants can be seen growing under natural conditions at our Claremont Nurseries, but, for our clients who cannot visit the Nurseries to select the varieties desired, we shall be pleased to make up collections to any required value. Almost all the plants we offer are grown in pots and are extremely hardy, but, for convenience of packing and reduction of freight charges, the plants are delivered out of pots and packed in moss.

Border of *Campanula Muralis* in our "Claremont" Rock Gardens.

(Reproduced from natural color photograph.)

ACAENA.

- Adsurgens*—Hardy trailing shrubby plants. Attractive greyish-brown foliage. Nine inches 1/- each
- Buchananii*—A variety from New Zealand, very good for rock garden purposes. Nine inches 1/- each
- Microphylla*—More prostrate in growth than the above varieties. Green foliage turning in autumn. Six inches 1/- each

AJUGA (Bugle).

- Reptans purpurea*—Charming dwarf plant, giving an abundance of blue purple flowers. Extremely hardy . . 1/- each

ANCHUSA.

- Myosotidiflora*—A fine plant growing about eighteen inches high. Sprays of pale blue flowers 1/- each

ARABIS (Rock Cress).

- Alpina rosea*—Hardy perennial, useful for bedding. 1/- each
- Aubrietoides*—Well suited for rock edges, pink . . 1/- each

ARENARIA (Sandwort).

- Balearica*—Mossy plant bearing white flowers, useful for trailing on rocks 1/- each

ARMERIA (Giant Thrift).

- Bees Ruby*—Hardy perennials, low growing foliage, sending up flower heads eighteen inches high. Deep rose-pink in color 1/- each

- Gigantea*—Glistening pink shade 1/- each

- Mauritanica*—Rich pink, showy plants, excellent for border purposes 1/- each

- Vindictine*—A variety of striking appearance, the flower stems rise from nine inches from the foliage bearing glorious, crimson-purple blooms 1/- each

ASPERULA (Woodruff).

- Cynanchica*—A shaded position would be the best for this subject, pink flowers, plants about nine inches high 1/- each
- Odorata*—White flowered variety, suitable for shady situation 1/- each

ASTER (Starwort).

- Alpinus*—Dwarf growing variety, clear lavender blooms borne profusely in Spring 1/- each
- Alpinus Subcoeruleus*—A delightful mauve flowered variety 1/- each

AUBRIETIA—Hardy creeping border plant, excellent for rockeries, giving a brilliant show in Spring and Summer.

- Leichtlini*—Rosy lilac 1/- each
- Rosea Splendens*—Pretty trailing plant, attractive pink flowers 1/- each
- Russell's Crimson*—A new hybrid, large crimson flowers. 1/- each

- Twilight*—A hybrid with pale pink heads of flower. 1/- each

AURICULA (Dusty Miller)—This race of shade-loving plants is remarkable for the wonderful range of colors obtainable. The colors embrace many odd shades of purple, pink, buff and green.

- Hybrida*—Mixed varieties, flowering from Winter to early Spring. The dwarf plants are very similar to *Primula* in growth 1/- each

BETONICA.

- Grandiflora rosea*—Hardy little plant growing to about eighteen inches, pink flowers 1/- each

BLETIA.

- Hyacinthina*—Hardy, tuberous rooted plants flowering in September. Rich violet purple flowers frilled white. More commonly known as *Ground Orchid*. Thrives in well manured situation 3/6 each

BORAGO.

- Laxiflora*—Loose, blue flowered trailing rock plant; a lover of half shade 1/- each

CALECEPHUS.

- Browni*—Uncommon looking plant growing about nine inches high; silvery grey foliage, sparse appearance . . 1/- each

ROCK PERENNIALS

Stinton's "Claremont" Grown

CAMPANULA—Spreading plants, long flowering, most varieties thriving best in moist situations 1/- each

Bellardi—Beautiful clear blue.

Carpatica Alba—Pure white.

Collina—One of the best deep blues.

Excisa—Small foliated variety, blue.

Garganica, C. W. Payne—This variety is perhaps the best of the trailing species. The plants bear a profusion of blue and white star shaped flowers over a long period.

Garganica Hirsuta—Somewhat taller in growth than other varieties; one of the best blues.

Hosti—Good blue flowering harebell.

Hosti alba—A lovely white form of the above.

Isophylla alba—White open flowers. Fresh green trailing foliage.

Isophylla Mayii—Clear powder blue, flat open flowers, silvery grey foliage.

Istriaca—Prostrate species, profusion of expanded blue bells with protruding stamens. Six inches.

Loreyi—Very floriferous variety. Beautiful lavender blue flowers.

Muralis—Trailing species, lovely blue-purple flowers.

Pulla—A purple-flowered variety growing about 12 inches high.

Pumila Alba—Charming white bells, six inches.

Pumila, Miss Willmott—Lovely light blue.

Rotundiflora (English Harebell)—An effective dwarf growing variety. Pale blue.

Turbinata—Dwarf growing variety. Dark purple-blue.

CERATOSTIGMA.

Plumbagenoides—Low growing, trailing plant, about 12 inches high. Rich indigo-blue flowers. Autumn foliage 1/- each

CONVOLVULUS.

Mauritanicus—Blue flowered plant for rock work purposes. Low-growing, sending long sprays all over the rocks. 1/- each

COTONEASTER.

Buxifolia—Low growing, small-leaved shrub; red berries. 1/6 each

Horizontalis—Prostrate habit, good autumn foliage, red berries; one of the best varieties for rock work 1/6 each

Microphylla—This variety is particularly handsome; the rich pink berries remain on the shrubs for a long time 1/6 each

COTULA.

Hastii—Dwarf creeping herb. Excellent carpeting plant, finely cut foliage 1/- each

Pyrethrifolia—Fern-like foliage, a variety from New Zealand. A good carpeting variety 1/- each

CYNOGLOSSUM.

Nervosum—A good, hardy perennial with deep blue flowers 1/- each

DIANTHUS (Pinks).

Alpinus—A lovely Alpine Pink, thriving best in semi-shade. Large carmine flowers spotted crimson. A striking variety 1/- each

Bellina—Hybrid Dianthus forming a prostrate clump, large rosy pink flowers with a crimson centre. Free blooming 1/- each

Caesius (Cheddar Pink)—Six inches high, glaucous green foliage, fragrant pale pink flowers; likes an old wall or gritty chink, excellent for rock garden 1/- each

Deltoides (Maiden Pink)—Nine inches high, prefers dry position, but will thrive almost anywhere; color bright pink 1/- each

Neglectus—Deep pink. Lime should not be given to this variety 1/- each

Pernett—Clear rose, large single flowers borne profusely through Spring and Summer. 1/- each

Rosemond—Hybrid alpine pink; semi-double, salmon pink blooms, nine inches 1/- each

Squarrosus—Dwarf white flowered species, fragrant and showy 1/- each

DIASCEA.

Barbarae—A delightful flower, salmon pink coloring, easy to cultivate 1/- each

EPILOBIUM (Willow Herb).

Nummularifolium—A tiny creeping plant, grows tight to the ground. Minute white flowers 1/- each

EPIMEDIUM (Barrenwort).

Versicolor—A plant of outstanding qualities. The flowers change color from yellow to red and are borne on stems about twelve inches long 1/- each

ERICA.

Alporti (English Heath)—Alpine shrubby plant bearing lilac-mauve flowers 1/6 each

ERINUS.

Alpinus—Easy rock plant to grow, of very neat habit, lilac 1/- each

Alpinus Carmineus—Compact alpine evergreen giving small spikes of carmine flowers, six inches 1/- each

FESTUCA (Fescue Grass).

Glaucal—An ornamental grey foliage grass, about six inches high 1/- each

FUCHSIA.

Procumbens—One of the most attractive subjects for walls. The trailing plant bears quaint brown and yellow flowers followed by purple red berries in winter 1/6 each

GALIUM (Bed Straw).

Rubrum—A useful plant for covering rocks or rock work. The reddish purple flowers make a bright show in Spring. 1/- each

GERANIUM* (Crane's Bill)—Well-known plant that will thrive in any position.

Grandiflorum—Dwarf growth, large blue flowers 1/- each

Hybridum, R. V. Prichard—An excellent hybrid producing magenta flowers for months, trailing habit 1/- each

Lancastriense—Prostrate species, pale pink flowers 1/- each

Sanguineum compactum—Very compact, with dark rosy pink flowers, nine inches 1/- each

Traversi—Fine foliage, soft lavender pink flowers 1/- each

Wallichianum—Pale purple flowers, very attractive 1/- each

GEUM.

Borisii—A plant that should be in every rock garden. The beautiful orange-red flowers are borne in profusion throughout late Spring and Autumn 1/- each

GYPSOPHILA—Attractive little perennial for bordering purposes, light foliage and masses of small flowers. Plant in sunny position.

Paniculata—Small white flowers borne on thin stems in gauzy masses 1/- each

Repens—Charming rock perennial producing masses of pale rose colored flowers, three inches in height 1/- each

Gypsophila Repens.

ROCK PERENNIALS

Stinton's "Claremont" Grown

HELIANTHEMUM (Sun Roses)—Excellent plants for wall, thrive in dry situation.

Attraction—One of the showiest of the rock roses, deep orange, scarlet eye 1/- each

Croceum—Brilliant yellow 1/- each

Fireball—Attractive orange scarlet flowers, freely produced. 1/- each

Majus—Compact, showy rock perennial. Brilliant show of bloom, small golden yellow flowers 1/- each

Red Dragon—Double flowers, intense glowing scarlet. 1/- each

HERNIARIA.

Glabra—Smooth leaved evergreen herb. One of the best carpeting plants 1/- each

HEUCHERA.

Pink Fairy—A small type of attractive appearance 1/- each

HIERACIUM (Hawkweed).

Aurantiacum—Hardy, orange flowered perennial. Will thrive in light rich soil 1/- each

HYPERICUM (St. John's Wort)

Fragile—Prostrate variety of fine merit. Bright yellow flowers 1/- each

Olympicum—An admirable edging plant, yellow flowers borne in profusion 1/- each

Rodantum—Spreading, grey foliated plant bearing masses of rich yellow flowers 1/- each

IBERIS (Perennial Candytuft).

Gibraltarica—Beautiful species, producing large heads of pale mauve flowers 1/- each

IRIS.

Sintenisii—Delightful miniature flowered Iris, deep royal blue flowers borne in Spring 1/6 each

Stylosa superba—A small variety of Stylosa with grass-like foliage. Pretty lilac-blue flowers, six inches 1/6 each

LANTANA.

Sellowiana—A mauve-purple flowered form of trailing habit, very suited for rock work 1/6 each

LAVANDULA.

Alpina—Dwarf compact subject. Deep lavender flowers sweetly scented, early, twelve inches 1/- each

LINARIA (Toad Flax).

Cymbalaria alba—Useful trailing plant for rocks, masses of white flowers 1/- each

LINUM (Flax).

Narbonense—Ornamental free flowering perennial, deep blue flowers, one of our best perennial plants 1/- each

Perenne—A beautiful free flowering pale blue flax, good rock plant, twelve inches 1/- each

LITHOSPERNUM.

Prostratum—An excellent plant for rock edgings, giving masses of deep gentian-blue flowers 1/6 each

LOLIUM.

Perenne Variegata—This is one of the hardiest and most attractive ornamental grasses we have for rock garden purposes. The green and white foliage gives a striking note of color to the rockwork 1/- each

LOTUS.

Peliorhynchus—Grey foliated, trailing plant useful for rock work, gives a brilliant show of scarlet and brown flowers in Spring and Summer 1/- each

LYCHNIS.

Alpina—Small tufts of foliage. Heads of rose colored flowers, very attractive rock garden subject 1/- each

Pyrenaica—Dwarf growing species producing pretty clusters of pink flowers 1/- each

Viscaria Splendens—Neat rock garden or border plants, spikes of deep pink flowers 1/- each

Viscaria Splendens plena—Close tufts of reddish foliage, rigid stems closely set with double crimson purple flowers, very effective 1/- each

MARGYRICARPUS.

Setosus—(Pearl Berry)—A shrubby trailing plant with attractive white berries. 1/- each

MENTHA (Mint or Pennyroyal).

Alpina—Very dwarf plant trailing in dense masses close to the ground. The foliage has a very sweet perfume 1/- each

MIMULUS (Monkey Flower).

Cardinalis—Beautiful, orange-red flowered musk. Plant in semi-shaded position 1/- each

Moschatus—Dwarf musk plant, pure yellow flowers 1/- each

Red Emperor—Rich, red flowered, robust growing variety well worth having. 1/- each

NEPETA (Cat Mint).

Mussini—A dwarf border or rock plant, giving a dense carpet of lavender-blue flowers in Spring and Summer 1/- each

Nervosa—Different growth to N. Mussini. Light blue spikes of bloom, nine inches 1/- each

NETERA.

Depressa (Coral Berried Duckweed)—Prefers a leafy mould and shaded position, plants trail in dense masses, bearing quantities of small coral berries in Autumn 1/- each

OENOTHERA (Evening Primrose).

Fraseri—Yellow flowered perennial of long-flowered quality, twelve inches. 1/- each

Macrocarpa—Large leaved variety, one of the best yellow flowers 1/- each

Rosea—Dwarf species, long-flowering; deep rose flowers, nine inches 1/- each

OXALIS.

Lobata—Green tufts of foliage, pure yellow flowers in autumn 1/- each

PHLOX.

Stellaria, G. F. Wilson—Handsome trailer. Pretty shade of mauve 1/- each

Subulata alba—A pretty white-flowered form of rosea 1/- each

Subulata rosea—Moss pink, very dwarf, prostrate plant giving masses of rose-pink flowers. An excellent rock subject 1/- each

PINK.

Carminoes—Large single, free flowering garden Pink. Rose with deep carmine disc 1/- each

J. Manning—Single, crimson and black 1/- each

Joyce Henning Hybrid—Garden Pink. Free flowering, double crimson, clove scented, growth about six inches high 1/- each

Mrs. Ethel Prichard—Free flowering, double, crimson, maroon centre 1/- each

Aubrietia growing on wall.

ROCK PERENNIALS

Stinton's "Claremont" Grown

POTENTILLA (Cinquefoil).

Miss Willmott—Lovely rock or border plant. Gives a profusion of cherry-red flowers 1/- each

Recta Macrantha—A beautiful, free flowering rock subject bearing golden yellow flowers 1/- each

PRATIA.

Angulata—Hardy creeping plant from New Zealand. Bears an abundance of white flowers 1/- each

PRIMULA.

Denticulata—A really beautiful lilac-flowered variety. The round heads of flower come early in the Spring 1/- each

Julia—An exceptionally fine variety producing bright crimson flowers profusely in Spring 1/- each

Lilacina plena—The old double, lilac-flowered variety of Acaulis type, 1/- each

Littoniana—A fine violet-purple flowered variety 1/- each

PRUNELLA (Self Heal).

Grandiflora—Well suited for a shaded part of rock garden. Violet colored flowers borne during Summer months 1/- each

Grandiflora rosea—A subject preferring a semi-shaded position. Deep rose-pink flowers 1/- each

RAOULIA.

Tenuicaulis—A compact, grey-foliaged carpeting plant. A native of New Zealand 1/- each

ROSMARINUS (Rosemary).

Officinalis Prostratus—Hardy evergreen shrub of prostrate nature. The flowers are light purple. Excellent for planting among rocks. 1/6 each

SAGINEA.

Humilis—Very dwarf, moss-like, vivid green plant with small white flowers 1/- each

SAPONARIA (Soapwort).

Oxymoides—Pretty little trailing plants, useful for rock garden purposes. Produces delicate pink flowers 1/- each

SAXIFRAGA (Saxifrage)—These are one of our most interesting rock subjects. The quaint rosettes of foliage and delicate colorings of the flowers give continual interest to the rock gardener 1/- each

Aizoon—An easy variety to cultivate, pure white flowers.

Aizoon lutea—Soft yellow, paling to cream.

Ceratophylla—Mossy type, strong grower, white flowers.

Cochlearis minor—Rosettes of leaves, very small white flowers.

Hostii—A rare species, very flat leaves, white flowers spotted purple.

Mrs. Piper—Dense, low-growing, bears masses of rich rose colored flowers.

Muscoides—Excellent for carpeting, mosslike growth, creamy white flowers.

Umbrosa (London Pride)—Rapidly spreading foliage. Flesh pink shaded flowers, prefers shade.

Umbrosa (London Pride)—Rapidly spreading foliage. Flesh pink shaded flowers, prefers shade.

SCUTELLARIA (Skullcap).

Coelestina—New perennial from Siberia giving racemes of light blue flowers; suitable for rock garden 1/- each

Indica Japonica—Small growing rock plant, easy to cultivate; grey foliage, purple flowers 1/- each

SEDUM (Stonecrop)—Low-growing, spreading plants suitable for rock gardens and dry situations; the flowers are, in most cases, white or bluish-white 1/- each

Acre—Forms a dense mat of growth covered in midsummer by bright yellow flowers.

Album—Suitable for rockeries, spreading habit, very fast growing.

Auriculatum—Attractive little plants with rosettes of glaucous leaves, pink stems.

Compressum—Strong green foliage, leaves flat; yellow flowers.

Elegans—Fine trailer. Foliage dark green turning to brilliant scarlet in autumn.

Glandulosum—Grey foliage, spreading habit, keeping close to ground.

Glaucum—Dwarf spreading foliage, pinkish white flowers.

Kamtschaticum—Dark green leaves, yellow flowers.

Lineri—Dwarf neat habit, green and white foliage; plant against rock face.

Obtusatum—An excellent type, compact rosettes of foliage, yellow flowers.

Rupestre—Strong grower; fine blue grey foliage.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Sieboldi—One of the best. Attractive fan-shaped leaves alternated grey leaves, edged pink; bright pink flowers in Spring.

Campanula Loreyi.

Spathulatum—Neat spreading habit; silvery grey foliage.

Spathulatum Rubrum—More strong in appearance than Spathulatum; foliage red, turning deeper shade in autumn.

Spectabile—Bold effective plant; grows about fifteen inches high and gives round heads of rose colored flowers, plants die down after flowering.

Spectabile Atropurpurea—Rich purple-flowered form of the above.

Spurium—This variety is about six inches high, rose-colored flowers.

Spurium roseum—Rich red colored foliage, robust spreading growth.

Variegatum—A variegated form with rather dense foliage.

Variegatum—A variegated form with rather dense foliage.

SILENE.

Maritima—An excellent wall subject. Good grey foliage. White 1/- each

Pusilla—Very dwarf species, pure white 1/- each

Schafta—Beautiful rose-pink flowers. Attractive foliage. 1/- each

SISYRINCHIUM.

Bellum—Pretty blue-flowered rock plant that should be in every collection. Each flower is held erect on stems about six inches long. Golden yellow centre to each flower. 1/6 each

Californicum—Beautiful yellow flowers held erect among grass-like foliage 1/6 each

STATICE (Sea Lavender).

Caspia—A dwarf form of latifolia; neat habit; blue. 1/- each

Latifolia—Broad leaved, blue flowered plant, nine inches high 1/- each

Minuta—One of the smallest varieties; bright red 1/- each

Perezii multiflora—Plants reach a height of eighteen inches. Large heads of mauve-blue flowers, strong foliage 1/- each

ROCK PERENNIALS

Stinton's "Claremont" Grown

THYMUS (Thyme)—Dwarf spreading plants; excellent for walls 1/- each

Citriodorus (Lemon Thyme)—Yellow and green foliage with sweet lemon scent, pale mauvy pink flowers.

Herba barona (Caraway scented Thyme)—Dark green prostrate foliage.

Nitidus—Rare variety, purple flowers, greyish foliage.

Nummularifolius—Large round leaves, pale lavender flowers.

Pauciflorus—Very highly perfumed foliage.

Serphyllum Major—Fairly rapid grower; mauve.

Serphyllum Minor—Small leaved variety, excellent grown over rocks.

Variegatus—This is a pretty variegated form with true Thyme scent.

TUNICA.

Saxifraga—Low growing plant suitable for rockeries, the flowers are delicate blush-pink shade 1/- each

TWEEDIA.

Coerulea—Charming blue flowered rock plant. Foliage light green and somewhat silvery, well worth having in your collection 1/6 each

VERBENA.

Chamaedryoides—A trailing species from Chile. Plants grow flat on the ground; brilliant scarlet flowers . . 1/- each

VERONICA (Speedwell) Rock Species.

Bidwilli—Dwarf foliaged plant, large blue flowers . . 1/- each

Carnosula—Shrubby plant; bright blue, dwarf . . 1/6 each

Glaucia—Dwarf shrubby; grey foliage; compact growing habit 1/6 each

Lyalli—Dwarf; white flowers veined lilac 1/- each

Prostrata—Dwarf trailing species bearing masses of rich royal blue flowers 1/- each

Reptans—One of the best; royal blue 1/- each

VIOLA.

Bosniaca—Very small form of bedding Viola. A lovely addition to the rock garden, rose mauve 1/- each

Gracilis—The beautiful rock violet. Dwarf tufted foliage; very free flowering 1/- each

Sylvestris Rosea—Very compact, low growing, rose flowered variety, one of the best 1/- each

ZAUSCHNERIA.

Californica (Californian Fuchsia)—The brilliant scarlet flowers of this rock subject make it worthy of attention; it thrives in a hot situation 1/- each

We offer the following suggestions as to suitable subjects for:

WALL PLANTING.

Achillea	Alyssum	Arabis
Campanula Muralis	Helianthemum	Dianthus
Erinus	Lychnis	Gypsophila repens
Iberis	Saxifraga	Phlox
Saponaria	Tunica	Silene
Thymes	Viola	Veronica

We offer 12 suitable Wall subjects, one each variety, for 10/6

PAVED WALKS.

Armeria	Aubretia	Arabis
Campanula	Dianthus deltoides	Veronica
Crassula	Festuca	Herniaria
Sedum	Saxifraga	Nepeta
Thymes	Verbena	Sempervivum

We offer 12 suitable subjects for Paved Walks, one of each variety, for . . . 10/6

SMALL BULB SUBJECTS FOR THE ROCK GARDEN.

Many of the smaller types of flowering bulbs are admirably suited for the rock garden. (Descriptions will be found in the Bulb Section of this catalogue).

ANEMONE	MORPHIXIA
ANOMATHECA Cruenta	MUSCARI
BABIANA	NARCISSUS (Small Flowered Varieties)
CROCUS	NERINES
FREESIA (Colored Hybrids)	SCILLA Campanulatum
IRIS Pavonia	SPARAXIS
IRIS Tuberosa	STERNBERGIA Lutea
IXIAS	TRITONIA
LACHENALIAS

We will be pleased to supply collections of **ROCK PLANTS** in distinct varieties (Our Selection) as follows:—

12. 7/6; 50. 24/-; 100. 45/-

We would point out to our clients that in compiling the above collections a full color range will be included regardless of prices of individual varieties shown in our catalogue. Our collections therefore offer a definite monetary saving to our clients and satisfaction is assured.

Veronica Bidwilli.

CANNAS

(INDIAN SHOT)

HARDY herbaceous plants from India, having bold decorative foliage, somewhat succulent, and usually with very brilliant flowers, flowering from December to May. Cannas delight in a good, well-fed soil, and in ample moisture. They love a sunny position, somewhat protected from winds. As the stems finish flowering, they should individually be cut down to make room for new ones. The plant dies down with the frost, remaining dormant in the winter. It is to the advantage of the plant to lift it early in spring and manure the soil before replanting. The garden varieties are all hybrids. All foliage is green unless otherwise stated.

A beautiful show of Cannas in massed effect.

- ALICE GUILFOYLE—Red flowers, foliage dark red.
- AMI JULES CHRETIEN—Deep salmon pink.
- AMY COSTA—Flowers dazzling scarlet, centre spotted with yellow.
- ANDRE NAGRE—Glowing scarlet, centre spotted gold.
- CRIMSON BEDDER—Deep crimson.
- DIRECTOR M. HOLTZE—Deep yellow, spotted carmine.
- DR. H. DOHRN—Bright crimson, large trusses.
- ELIZABETH HOSS—Beautiful canary yellow, spotted deep red.
- EUREKA—Pale yellow, opening cream.
- EXPLORATOR CAMPBELL—Bright scarlet.
- FIREFLY—Scarlet petals, faintly mottled, orange in centre; foliage bronze.
- FLAVISCUS PALLIDA STRIATA—Pale yellow, mottled crimson.
- FLORAL PARK—Dwarf, orange faintly mottled cerise, throat spotted yellow.
- FLORENCE VAUGHAN—Yellow, spotted scarlet.
- FRAU GARTENBAUDIE—Deep yellow, flushed and striped red at base.
- FURST WEID—Fiery crimson scarlet, dwarf.
- GABRIEL VIAND—Orange scarlet, splashed yellow.
- GROSSHERZOG E. L. van HESSEN—Scarlet, slightly mottled, bronze foliage.
- HUNGARIA—Lovely satiny pink, very large.
- ITALIA—Yellow, heavily spotted orange red.
- J. B. van der SCHOOT—Yellow, heavily spotted crimson.
- JOHN LACHNER—Clear salmon, foliage bronze.
- JUPITER—Red with gold edge.
- KING HUMBERT—Orange scarlet; foliage bronze.
- M. J. GLOSS—Scarlet spotted yellow in throat.
- MRS. GEORGE STROGLEIM—Crimson, yellow, foliage bronze.
- MUSAEFOLIA SANGUINEA—Dark green leaves, fine bronze tinted.
- ORANGE BEDDER—Golden orange, rich and striking.
- OSCAR DANNECKER—Bright orange, deeper margins, foliage bronze green.
- PENNSYLVANIA—Immense flowers, bright crimson shaded orange.
- PRINCESS LAETITIA—Deep rose pink spotted yellow in throat.
- QUEEN CHARLOTTE—Bright red, gold edge, dwarf.
- RICHARD WALLACE—Yellow, splashed red.
- SOUV. de ROBERT OWEN—Deep lemon heavily blotched burnt orange.
- UNCLE SAM—Orange scarlet, yellow throat.
- WILLIAM BEARY—Bright crimson, slightly spotted.

1/6 EACH; 15/- PER DOZEN.

DELIVERY, JULY-AUGUST

PERENNIAL PHLOX

Stinton's Giant "Claremont" Strain

A NEW large-flowered race, with flowers of perfect form, borne on stout but graceful stems, at least twice as large as the previously best known types. The colors cover a diversity of shades peculiar to this family of plants.

NOTE.—These plants require a well cultivated rich soil and prove more successful if planted on a partially shaded site.

Plants in Pots 1/6 each; 15/- per dozen.

BOOK EARLY FOR
OCTOBER-NOVEMBER DELIVERY.

- CELESTE—Rich oriental blue, splendid large flowers, held in immense trusses. Tall growing.
- CHALLENGER—Extra large flowered variety of striking appearance. Rich bordeaux red, suffused saffron orange. A gem.
- CHARM—Clear rich lavender pink, attractive flower trusses.
- DAINTINESS—Soft lavender pink, deeper blotch on each petal in centre; large truss.
- DAYBREAK—White, flushed pale pink, radiating from a distinct eye of deeper tone; most attractive.
- DELICE—Medium growing habit, main color rose pink, with beautiful cerise eye. Delicate white markings on petals.
- DIADEM—Rose pink self deepening towards centre forming a brilliant eye. Well-formed flower trusses.
- DREAM—Deep heliotrope with brilliant carmine eye. Tall growing.
- EVENSONG—One of the finest varieties we have. Tall, strong growth, palest pink, with brilliant carmine eye.
- EXQUISITE—An unusual combination of blue and white; tall elegantly formed trusses; well worth inclusion in your collection.
- GAIETY—One of the best pinks to date; flowers attractively marked with a rich lavender zone in centre.
- ILLUMINATOR—Large loosely formed flower; trusses; clear pink illumined with large carmine eye.
- JOCELYN—Clear lavender rose with deep carmine eye. Similar to "Evensong" but color more intense.
- MAGNET—Beautiful large flowered rose pink; a variety that stands out; large well-formed trusses.
- MYSTERY—Dwarf growing clear sky blue; well filled trusses of perfect shape.
- NERO—Rich reddish purple with distinct carmine eye. Well formed truss.
- PEACE—Large-flowered pure white; superb form.
- PINK SATIN—As its name indicates, deep satiny pink; extra large flowers, distinct.
- ROSAMOND—Large pink, prettily marked white; distinct lavender spots in centre.
- SCINTILLANT—Rich glowing salmon orange, with deep crimson eye. Tall, a brilliant flower.

ROSES

THE full beauty of any garden scheme lacks all sense of original charm if the Rose—the Queen of Flowers—is not included. Few garden features give such a wealth of color as this well-known and beautiful subject. The list of varieties we offer is not a large one and we have been careful to exclude from the list of varieties any which we consider for some reason or other should not be included. In each case it has been our object to select what we consider to be the finest varieties in each of the different color sections. We realise the tremendous disadvantage our clients have to overcome in selecting their requirements from a large list of varieties, many of which are totally unknown to them. It has, therefore, been our object to delete from our Rose list any varieties but those which we can fully recommend. Our Plants are all well grown and are young vigorous stock. They are well rooted and have fully developed heads. All orders are executed in rotation as received, and we suggest you lodge your requirements with us as early as possible after the receipt of this Catalogue.

Charmingly arranged beds of Dwarf Polyantha Roses.

Outstanding Roses of Recent Introduction

- MERV. G. A. VAN ROSSEM** (H.T.)—Climbing sport from the popular dwarf variety.
- PRESIDENT H. HOOVER** (H.T.)—Climbing sport from the popular dwarf variety.
- ELLI KNAB** (H.T.)—Ovoid and pointed bud opening into a very large bloom with wide petals, flesh-cream ground, with sheen of bright rose, deeply impregnated and washed vermillion; vigorous.
- FRAZER ANNESLEY** (H.T.)—Inside of petals cochineal carmine with golden yellow at the base; outside saffron yellow. The blooms are long, pointed, full, of medium size.
- FRED WALKER** (H.T.)—Coral red buds opening into a flower of glowing pink with coppery orange base. Large, full blooms of good shape. Free habit of growth.
- KATHERINE PECHTOLD** (H.T.)—Pointed buds of old gold and bronzy orange, opening to full, shapely flowers of a lovely coppery orange flushed with rose and gold. Bushy habit.
- KURT SCHOLZ** (H.T.)—Long and pointed bud, opening into a large bloom with high pointed centre, of uniform scarlet-crimson; upright growth; healthy foliage.

- LUIS BRINAS** (H.T.)—Pointed buds, opening slowly to a full double, starry, orange copper flower with high centre. Vigorous.
- MAD. J. PERRAUD** (Pernt.)—Nasturtium orange in the bud, changing to nasturtium buff with a shading of shell pink at edges of petals. Long buds, opening into large, full flowers. Good habit of growth.
- MAISON PERNET-DUCHER** (Pernt.)—Clear orange, more pronounced in the centre and shaded copper. The bud is elongated and opens into a flower of perfect form and fully double. Extra good.
- MARJORIE PALMER** (H.W.)—An ideal bedding rose of sturdy compact growth; flowers of rich rosy pink, sweetly scented.
- PHYLLIS GOLD** (H.T.)—Pure yellow, with no tendency to bleach; petals of great substance. Vigorous and upright.
- WARRAWEE** (H.T.)—Long, pointed buds of clear rosy salmon, which, when open, disclose an inner face of silvery pink, fading to lighter tones. Vigorous.
- WILLIAM MOORE** (H.T.)—Large blooms of perfect shape, with high, pointed centre and sweetly scented. Color is a beautiful soft, even-toned carmine pink, shading to a deeper pink. Vigorous.

SEDUCTION—Peach blossom pink; large double flowers.

SUPERBA—Fine bright crimson.

TIP TOP—Orange yellow, edged carmine.

Artistic layout of an Old World Rose garden.

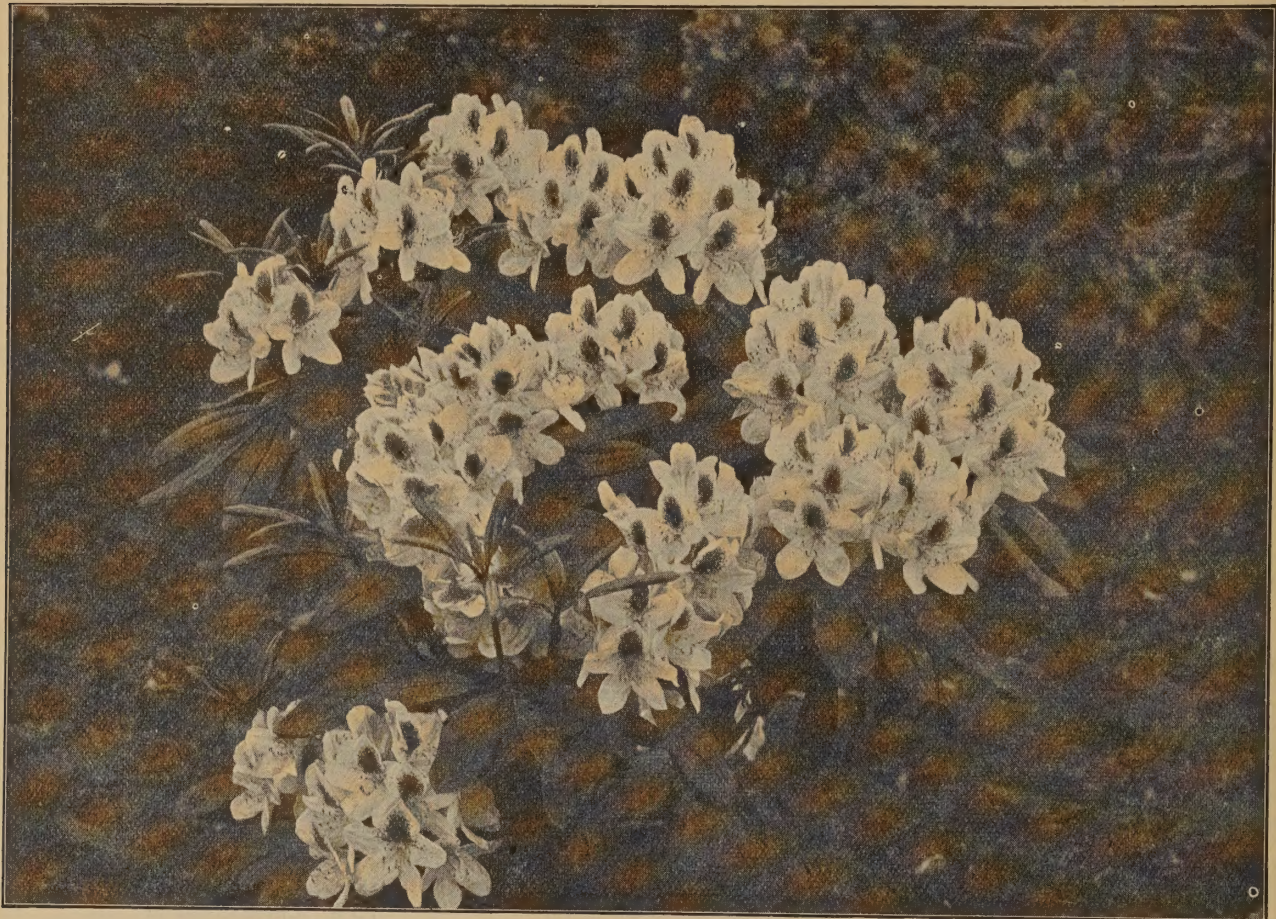

Dwarf Polyantha
 1/6 each; 15/- dozen.

RHODODENDRONS

Stinton's "Claremont" Grown

A RACE of hard-wooded shrubs giving large trusses of brightly colored flowers. They are one of our most brilliant and effective spring flowering shrubs. Lovers of a cool moist situation, they thrive well in most districts. No cultivation is required as they are surface rooters. Top dress the soil with well-rotted sheep or cow manure, and leaf mould, each season. They require an ample supply of water during summer months.

NOTE.—These plants hate lime and care should be taken lime is never applied to the soil upon which they grow.

Rhododendrons revel in a cool moist soil.

BRITANNIA—Brilliant scarlet crimson. One of the finest varieties grown	12/6 each
CHEVALIER FELIX de SAUVAGE—Rich scarlet, most attractive	10/6 each
CORRY KOSTER—Light pink heavily spotted crimson.	10/6 each
C. S. SARGENT—Bright scarlet	10/6 each
EARL OF SHANNON—Rich dark crimson	10/6 each
EVERESTIANUM—Light lavender pink with distinct brown blotch	10/6 each
FASTUOSUM FL. PL.—Beautiful light lilac, semi-double blooms	7/6 each
F. D. GODMAN—Tall growing habit; crimson	7/6 each
MONSIEUR THIERS—Robust habit, compact growth, brilliant rose	10/6 each

MRS. C. S. SARGENT—Beautiful rose pink; excellent habit.	10/6 each
MRS. R. S. HOLFORD—Rich pink. One of the best	7/6 each
PETER KOSTER—One of the finest crimson varieties in commerce, fine form, brilliant color	10/6 each
PINK PEARL—Fine delicate clear pink; one of the best pink varieties	7/6 each
PINK PERFECTION—Fine large flowering variety of a much deeper pink than Pink Pearl; flowers do not fade.	10/6 each
PROF. HUGO de VRIES—Deep pink; strong grower	10/6 each
STRATEGIST—Large grower, handsome foliage, beautiful delicate pink flowers	10/6 each
UNKNOWN WARRIOR—Large fine rosy red flowers	12/6 each

The above varieties represent the best of the recent introductions, and the plants are strong and well grown.

DAPHNE

INDICA RUBRA—A familiar favorite with all flower lovers. The bushes grow to about two feet in height bearing a profusion of sweetly perfumed pink flowers. Prune plants sparingly in the spring as the flowers are borne on the previous year's wood.

EXTRA STRONG PLANTS	5/- EACH
SMALLER PLANTS	3/6 EACH

CAMELLIAS

These plants will do quite well set in an open garden provided they are planted on a position with a southerly aspect, and one which is protected from the heavy winds. In the vicinity of the sea coast, great care should be taken that this very desirable shrub is set at an angle where it will be completely protected from the harsh winds which blow in from the sea. The Camellia revels in a deep, rich and very cool soil, and the land should be well drained to ensure success.

- ASPASIA—White, pink spots 12/6 each
 BLANDA—Clear cerise.
 BONOMIANA—Pure white, petals imbricated; one of the best.
 CHANDLERI—Rich red.
 GREAT EASTERN—Semi-double red; a fine variety. 12/6 each
 GRUNELLI—White.
 ISABELLA—Pure white; perfect form; late flowering.
 LADY DUNCE—Deep rose.
 MARCHIONESS OF EXETER—Clear pink; exquisite formation 12/6 each
 PRINCE FREDERICK WILLIAM—Rose reflexed.
 REINE des BEAUTES—Delicate clear rose.
 SACCOI NOVA—Pale pink blotched white.
 STOREYII—Bright rose.
 TRIUMPHANS—Red; strong and floriferous . . . 12/6 each
 VALTEVERADO—Vivid rose; a striking flower.
 VIRGINIA FRANCO—Rose, changing to soft pink; flesh margin.

5/- EACH, EXCEPTING SOME VARIETIES WHICH ARE OFFERED IN EXTRA LARGE PLANTS 3 FEET HIGH AT 12/6 EACH.

FUCHSIAS

These old time favourites are now definitely returning to popularity. The varieties we offer have all been carefully tested, and we would confidently recommend them for planting in the outside garden. For a number of years these plants were treated almost wholly as pot growing subjects, but we find they are quite hardy when set on a fully open aspect in the ordinary garden. They are also most adaptable subjects for planting in wire baskets, usually bearing a wealth of bloom and a small amount of foliage. When too much water is available to these plants they invariably make too foliage, and very few flowers are obtained.

- BALACLAVA—Rich heliotrope, carmine and white. Tall.
 BEAUTY OF CLIFF HALL—Rich rose and white.
 BEAUTY OF STANLEY—Carmine, pink and white.
 BEAUTY OF SWANLEY—Large, free-flowering, double, pink and white.
 BLACK PRINCE—Clear lavender rose and carmine.
 CHARMING—Purple and red, single, strong grower.
 DEFIANCE—Rich crimson, single.
 DELVINO—Very double, rich purple, purple and crimson.
 DOLLAR PRINCESS—Crimson and dark blue, very double.
 DUCHESS OF EDINBURGH—Free-flowering, pink and white, double.
 EARL OF BEACONSFIELD—Rich, clear salmon self.
 EDOUARD DE PERRODIT—Double, purple and crimson.
 LUNA—Royal purple and rich rose red, double.
 MDE. JULES CHRIETIEN—Crimson and white veined, very large.
 MURIEL—Extra large-flowered, single. Long tubular flowers.
 PALLIDA BEAUTY—Palest pink and white.
 PHENOMENAL—Crimson and violet, double. One of the best.
 POMPESIA—Rich red and blue and carmine, double-flowered.
 PROGRESS—Single purple blue and red.
 ROSE OF DENMARK—Light pink and rose; very distinct.
 ROSE PHENOMENAL—Bright rose and blue, mauve, very large and double.
 R. U. NICHOLLS—Free-flowering, single, deep rose.
 SCARCITY—Small-flowered, violet and red; free blooming.
 ST. HILLIARE—Carmine, purple and white, single.
 SUNRAY—Hybrid, leaves rich white, crimson, bronze and green.
 SYLVIA—Maroon, purple and crimson; double.

STRONG POT GROWN PLANTS
 1/6 EACH, 15/- PER DOZEN.

SPECIAL COLLECTION OF 12 DISTINCT VARIETIES
 (OUR SELECTION), FOR 12/6.

STINTON'S "CLAREMONT" LILACS [Syringa]

THIS race of plants has been very much improved and the modern varieties are most attractive. The flower heads are extremely large and are borne in profusion on well shaped shrubs. The Lilac is a very hardy subject and, although it requires some water during the hot period of the year, it is not wise to over-water the plants on account of the lightness of the crop of flowers usually received from plants which receive too much water during the summer months.

- ALPHONSE LAVALLE—Violet blue, double.
 BELLE de NANCY—Satin pink, double, good.
 CHARLES JOLY—Dark red, double.
 CHARLES SARGENT—Azure lilac mauve, double.
 CONDORCET—Blue, double, very showy.
 GEORGES BELLAIR—Light vinous red.
 LEON GAMBETTA—Lilac rose.
 MADAME LEMOINE—Pure white, double, large truss.
 MARECHAL BASSOMPIERRE—Carmine red, double.
 MARIE LEGRAVE—Single white.
 MICHAEL BUCHNER—Rosy lilac, double.

- MIRABEAU—Deep mauve.
 PRESIDENT CARNOT—Light lilac.
 PRESIDENT GREVY—Blue, large truss, double.

The foregoing Lilacs are 2/6 each.

They are all guaranteed grafted, early-flowering plants.

- PERSICA (Persian Lilac)—Pale blue, free bloomer, fine erect spikes 2/- each
 VULGARIS (Common Lilac)—Hardy and free blooming, lavender 2/- each
 VULGARIS ALBA—White-flowered form 2/- each

MODERN HYDRANGEAS

Stinton's "Claremont" Grown

THE Hydrangeas are semi-deciduous hardy shrubs and thrive best when grown in a position having a partly shaded, southerly aspect. The modern varieties are far in advance of the old "hortensis" type and the list we offer comprises all the best of the latest introductions.

Beautiful Hydrangeas in a woodland setting.

SPECIAL CONCESSION OFFER

We will be pleased to supply collections of HYDRANGEAS in distinct varieties (Our selection) as follows:—

Twelve . . 15/—; Fifty . . 48/—; Hundred . . 90/—

- NIEDERSACHEN**—Very large truss, beautiful mauve-pink flowers 1/6 each
- NIXE**—A distinct shade of carmine red, very deep color, good habit 2/6 each
- OTASKA**—An uncommon variety. Clusters of small flowers surrounded by large blooms. Strong grower 1/6 each
- PARIS**—Fine shaded pink, strong habit, a good variety for blueing 2/- each
- PARSIVAL**—Beautiful deep carmine red, deeply fringed and well formed petals 2/6 each
- PEER GYNT**—Strong and heavy growing, large and free heads, beautiful deep rosy red 2/- each
- PINK LILAC**—Pale pink, clusters small flowers with waxy appearance 1/6 each
- PRINCESS ELIZABETH**—Brilliant pink; strong, well formed truss of good size. 2/- each
- PROFESSOR de BOIS**—Large round flowers, carmine rose; strong grower 2/6 each
- QUEEN EMMA**—Salmon rose color. A vigorous but compact grower 2/- each
- RADIANT**—Vigorous and free flowering, abundant medium-sized trusses, of rich radiant blue 2/- each
- RHINEGOLD**—Bushy and strong grower, large trusses, free flowering, apple blossom pink 2/- each
- ROCHAMBEAU**—Color intense shade of rose pink; extra large trusses. Flowers a little later than most varieties 2/6 each
- ROUGET de LISLE**—Pure carmine red, waxy petals, strong dwarf growth 2/6 each
- SATINETTE**—Satiny carmine red, good grower, large flower truss 2/6 each
- SCHONE DRESDERIN**—Pleasing shade of pink; compact habit 1/6 each
- SENSATION**—Color rosy mauve; a strong vigorous grower bearing large trusses of bloom 2/6 each
- SPATSOMMER**—Fine deep pink; strong habit 2/6 each
- SPLENDOR**—Large trusses of "Begonia" salmon pink, free flowering 2/6 each
- TRIUMPH**—Very deep rosy red; good 2/6 each
- TROPHY**—Deep carmine flowers, well shaped trusses 2/- each
- VICOMTE de VIBRAYE**—Bushy growing, medium sized trusses in abundance; the truest blue of all 1/6 each
- VULCAN**—A fine variety of bright deep carmine color. Large trusses of well shaped petals 2/6 each
- W. PFITZER**—Masses of flower heads, compact and well formed; free flowering deep violet-blue color 2/- each
- YVONNE CAYEAUX**—Deep pink, very large flowers. 2/6 each

Introduce a New Charm and Beauty to that Dull Shrubbery or Woodland

MASS MODERN HYDRANGEAS FOR BRILLIANT EFFECT.

Give to those large empty spaces in the woodland or shrubbery a new individuality and charm. We have this season some particularly fine stocks of modern unnamed Hydrangeas which we are offering for this useful purpose. All the best shades are included, some being equal to the latest novelty introductions. A selection of these attractive plants by us will give you an immediate wealth of color and permanent garden feature.

PLACE YOUR ORDERS AT ONCE.

TUBEROUS BEGONIAS

Stinton's "Claremont"

A fine display of Tuberous Begonias in the glasshouse of one of our clients.

"CLAREMONT" EXHIBITION TUBEROUS BEGONIAS. NOVELTIES.

- EVEREST**—Purest white flowers, often 8 inches in diameter, excellent form . . . 30/- each
- GLADYS KELL**—White margined bright rose; the flowers resemble Camellias and are carried erect . . . 21/- each
- J. PENWARDEN**—Carmine-purple. Large flowers of splendid Camellia type, well displayed on stout rigid stems. Strong free growth . . . 21/- each
- LA BOHEME**—Bright aureoline-yellow of splendid form; free-blooming . . . 10/6 each
- LADY DE BLAQUIERE**—Beautiful lemon-yellow flowers, form excellent; flowers 6 inches in diameter . . . 25/6 each
- LADY LILFORD**—Primrose-yellow, deeper towards the centre. The incurved form is quite distinct. Very robust . . . 35/- each
- LUCY DARE**—A bright clear rose-pink. Large flowers of perfect shape . . . 35/- each
- MOLLIE ANDERSON**—Delightful primrose-yellow, with deeper lemon shades in the base. Flowers are large, and plant vigorous . . . 25/6 each
- SAPHRONIA**—Yellow, shading to deeper saffron-yellow in centre . . . 9/- each
- VIOLET JACKMAN**—Charming salmon-pink; habit excellent; robust grower, very free . . . 35/- each

THE Tuberous Begonias are, without a doubt, one of our finest glasshouse subjects. They are easy to cultivate provided that they are attended to correctly. Tuberous Begonias require a good rich fibrous loam to which a little charcoal has been added. Good drainage is essential. Many failures are due to the plants being forced into growth too early after potting.

When the tubers are potted they should be put into a frame over which there is a hessian roller, and allowed to come into growth gradually. We found it to be an advantage not to move the plants into the glasshouse until near the flowering stage.

Begonias will do no good in a badly ventilated house. They require a maximum amount of light and air in order to obtain the most satisfactory results. Begonias grown in a closed glasshouse will become tall and weak, producing only small blooms.

The ideal house for Begonia culture is one with a fairly low roof, having the windows along the sides to open outwards. Ventilators in the roof and under the benches are necessary to ensure an even flow of fresh air round the plants. The glass in the roof should be lightly whitewashed on the inside. The best results can be obtained if the windows are left open night and day. When the flowering season is finished and the foliage has died down, the pots should be laid on their sides underneath the benches and left without water until the growth commences again about October.

Our list includes many of the latest introductions, together with some very excellent mixed lines. Tubers are obtainable from August until October. As we always have a large demand for our Tuberous Begonias, we advise our clients to place their orders early and so avoid disappointment.

- A. C. GRIEVE**—Distinct rosy-crimson; splendid form and habit; makes a fine specimen plant . . . 12/6 each
- ALBATROSS**—White, enormous flower; vigorous and free . . . 9/- each
- ALLAN CLARKE**—Deep cardinal-red, flowers of perfect rose formation, great depth and fullness, and are often 8 inches across. It is one of our most robust Begonias. Whenever exhibited during the past year or two, it has been universally admired . . . 30/- each
- BETTY HAMPTON**—Coppery, old-rose with yellow sheen. Flowers are well formed, splendid habit . . . 9/- each
- C. E. PEARSON**—Orange-scarlet, beautifully waved petals. An enormous flower, often 6 to 7 inches across . . . 17/6 each
- CORIENTIA**—Delightful old rose, while the flower is of very deep Camellia form, and frequently reaches 7 inches in diameter; growth robust . . . 17/6 each
- DAYBREAK**—Bright salmon, shaded buff and yellow. Vigorous . . . 6/6 each
- DORA HAY**—Yellow shaded and suffused rose, deeper at edge . . . 6/6 each
- E. J. HENDERSON**—Bright rich crimson, waved petals; dwarf habit . . . 6/6 each

TUBEROUS BEGONIAS

Stinton's "Claremont"

FLORENCE BIGLAND—Apricot, deeper on edges of petals. Flowers full, vigorous 9/- each

H. FRANKLING—Massive, deep rich vermilion. A glorious variety that is always greatly admired; most vigorous 12/6 each

HILDA LANGDON—Full deep flowers, 6in. to 7in. across, with extra large petals; lovely rose-pink 9/- each

LADY ANN—Pale rose of large size and perfect form. Very robust 9/- each

LADY DARESBURY—Enormous salmon-orange, often 7 inches across. Extra vigorous, good habit 12/6 each

LORD LAMBOURNE—Deep salmon-orange, lighter in centre. Flowers about 5in. across, possess great lasting qualities free and vigorous 6/6 each

LOUISE ARNOLD—Lovely, unusual blush. Blooms of 8in. diameter are often produced on a plant in a 6in. pot. Habit dwarf and neat 12/6 each

MADAME LOUISE LARQUE—Cream prettily margined with a wire edge of rose; vigorous and free 6/6 each

MARJORIE PORTON—Pure white; very large flowers of perfect formation; petals beautifully waved; vigorous, and splendid habit 9/- each

MILDRED BUTLER—Robust plant bearing an abundance of large blooms, with undulating petals. Useful for show purposes. Color is cream shading to primrose 12/6 each

MRS. E. RAMSDEN—Lovely shade of reddish old rose. Flower resembles a loosely formed tea rose; growth free; habit excellent 9/- each

MRS. J. B. BUTLER—Beautiful light salmon; large, perfectly shaped flowers; petals of unusual substance. Excellent for conservatory and exhibition 10/6 each

MRS. J. RAEBURN MANN—Deep, bright rose. The form is perfect with broad smooth petals. Splendid habit 9/- each

MRS. T. N. WALDRON—Lovely salmon-cerise. Flowers resemble a rose with perfect centre; vigorous 9/- each

MRS. W. DODD—Very unusual color, verging between orange and orange-scarlet; flowers are well-formed, habit splendid. Very beautiful foliage—vivid green with shades of bronze 21/- each

QUEEN OF THE BELGIANS—Enormous flowers of splendid form and substance; delightful rich pink; free habit 12/6 each

RUTH WARD—Deep rose-pink, large flowers of splendid form. The beautifully waved petals and dwarf, branching habit greatly enhance its appearance; an excellent variety 17/6 each

SALOME BLACKMORE—Light salmon-pink, petals slightly cupped. Growth free, rather tall habit 6/6 each

SIR PHILIP SASSOON—Deep carmine-red flowers resemble a rose in form and depth; edges of petals slightly waved. Tall and vigorous 12/6 each

T. CASE MORRIS—Glorious rich crimson of wonderful size, splendid form and remarkable substance; habit erect 35/- each

VIOLET BLACKMORE—Delightful sulphur-yellow, perfectly formed flowers, deep and of good substance; vigorous plant 12/6 each

Double Tuberous Begonias "Claremont" Imperial Strain

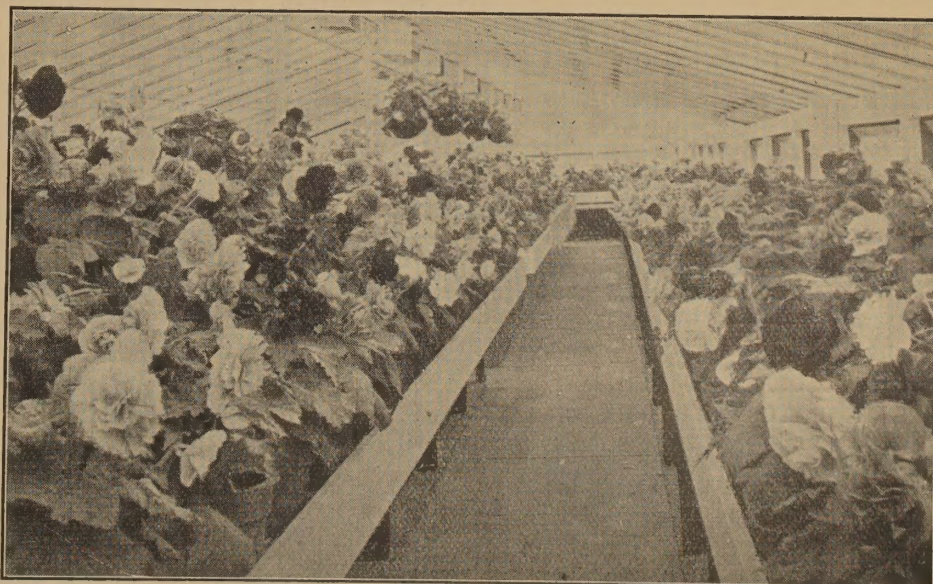

This superb strain of seedling unnamed Begonias has been carefully re-selected to a high degree of perfection. The flowers are fully double and are well up to exhibition standard. Available in separate shades of CRIMSON, ROSE, PINK, ORANGE, YELLOW and WHITE; also available in a splendid mixture.

Separate Colors 2/6 each; 24/- per dozen.
Mixture . . . 2/- each; 20/- per dozen.

Basket Begonias

This is the drooping Begonia and is particularly suited to growing in greenhouses or conservatories, being very light and graceful in appearance. The plants are vigorous in growth and flower profusely.

Separate Colors 3/6 each; 35/- per dozen.
Mixture . . . 2/6 each; 24/- per dozen.

Begonias in bloom at our "Claremont" Nurseries.

WATER PLANTS

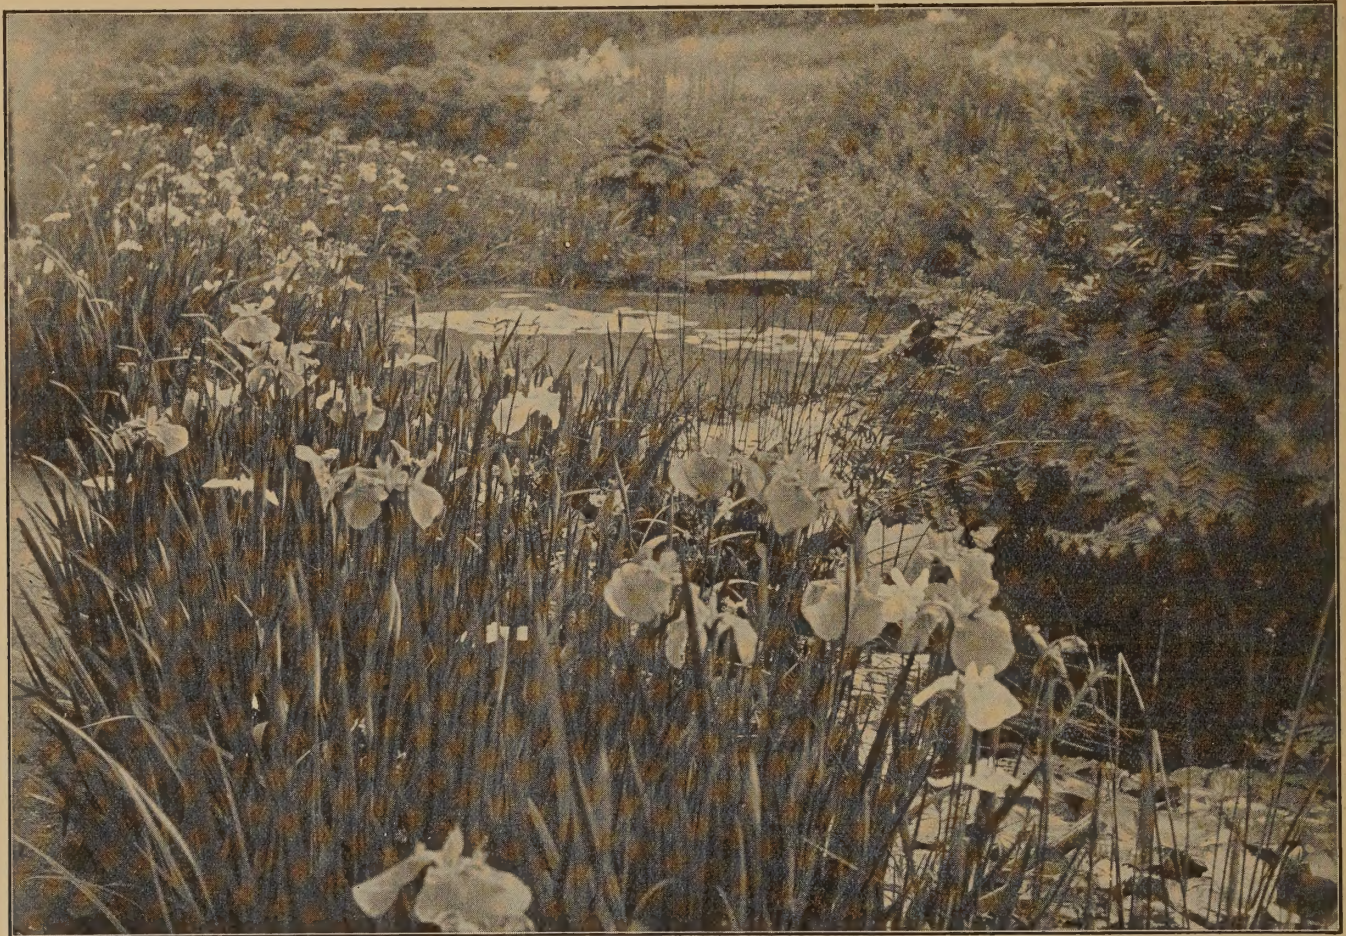

Stinton's "Claremont"

THE addition of a small pond in the garden greatly adds to the artistic charm and restfulness of the home. In selecting the position for your pond, be careful to see that when placing it there you will receive the utmost benefit, both artistically and for the production of blooms.

The choice of plants suited for the Water Garden is large and varied. We have some very fine subjects and make it our business to add to our stock those varieties which we consider are most suited to our Australian conditions.

We are listing this season some excellent varieties of Nymphae which we feel sure will be of particular interest to our clients.

Should you be in doubt as to the culture of subjects for the Water Garden, ask us and we will be pleased to advise you as to the correct method of planting.

Iris "Kaempferi" in full bloom around pond.

JAPANESE WATER IRIS.

IRIS KAEMPFERI—Elegant showy plants for grouping around the pond. Large open flowers in vivid blue and heliotrope shadings; give a striking effect 1/6 each

NYMPHAE.

- A—Water area covered, 10 feet; depth to plant, 3 feet.
- B—Water area covered, 7 feet; depth to plant, 2 feet.
- C—Water area covered, 4 feet; depth to plant, 1 foot.
- D—Water area covered, 18-24 inches; depth to plant, 6-12 inches.

ALBA CARNEA—Medium-sized flowers, color a delightful shade of shell pink paling to blush towards tip (B) . . . 7/6 each

ALBATROSS—Young foliage purple, passing to dark green, large star-shaped flowers, distinct narrow petals, snow white with a conspicuous mass of golden yellow anthers (C) . . . 8/6 each

ANDREYANA—A very distinct colored variety, medium-sized flowers, coppery red shaded ochre, on rigid stems standing 5 inches above water level, dark green foliage heavily spotted maroon (C) 8/6 each

ATROPURPUREA—Intense shade of brilliant dark crimson with conspicuous golden-yellow stamens; flowers 7 inches across (B) 15/- each

CANDIDISSIMA—Large foliage, flowers lying flat on water, 3 to 4 inches in diameter, color snow white (B) . . . 5/- each

CAROLINEANA NIVEA—Large well-formed flowers, snow white, with a delightful fragrance (C) 10/6 each

DARWINII—Pale pink, rich green foliage, robust growth, free flowering (B) 7/6 each

FORMOSA—Large open flowers with rounded petals, charming shade of soft rose, passing to deep rose as the flower ages, bluish white sepals, rich golden-yellow stamens, attractive pale green foliage (B) 9/6 each

GALATEE—This pretty variety produces its medium-sized flowers in great profusion; soft rose, spotted and splashed white, outer petals pink, maroon mottled foliage (B) 9/- each

GLADSTONIANA—It is a most remarkable hybrid and one of the finest whites yet introduced; exceptionally large Paeony-shaped flowers of the finest white imaginable, with a few touches of green on the sepals adding to its beauty, the centre of the flower filled with golden-yellow stamens, delightfully fragrant. A.M., R.H.S. Must have plenty of room; only adapted for pond or lake cultivation (A) 6/- each

WATER PLANTS

Stinton's "Claremont"

- GOLIATH**—A vigorous-growing variety of outstanding merit; enormous Tulip-shaped flowers with unusually long petals, white tinged pink (A) 12/6 each
- HARRISIANA**—A charming species with pale green foliage, medium-sized cup-shaped snow-white flowers (B) . . 7/6 each
- HERMINE**—The star-shaped flowers of this pretty variety are borne on stiff stems standing several inches above the water level reminiscent of the Tropical species; the flowers are snow white, outer sepals stained green (B) 7/6 each
- JAMES BRYDON**—A charming free-flowering variety of easy cultivation in large tanks or pools; large cup-shaped flowers of uniform shade of rich rose-crimson. The variety we consider one of the most satisfactory providing it has plenty of room (B) 9/6 each
- LIVINGSTONIANA**—Rich rose pink, attractive foliage, deep brownish green (B) 7/6 each
- LUCIDA**—A strong-growing variety with star-shaped flowers of immense size, rich pink, deepening to vermilion-scarlet, with conspicuous orange-colored stamens; large olive-green foliage, marbled bronze-maroon (B) 9/- each
- MARLIACEA CHROMATELLA**—Large well-shaped flowers, delightful shade of soft glistening yellow, over 7 inches diameter; attractive dark green foliage, conspicuously mottled and spotted reddish-brown. Very free flowering (B) . . 7/6 each
- MARLIACEA ROSEA**—This beautiful variety is apt to disappoint the impatient grower; when established the flowers are large and well formed, a pretty shade of glowing rose. The first year the flowers are frequently white shaded pink; the color will deepen as the plants become firmly established (B) . 5/- each
- MASANIELLO**—Exceptionally large Paeony-shaped flowers, delightful shade of rich carmine-rose, minutely spotted carmine. The flowers are borne on stiff stems standing several inches above the water level (B) 8/6 each
- METEOR**—Large star-shaped flowers floating gracefully on the water, crimson, faintly streaked white (B) . . . 9/- each
- MOOREI**—Large flowers, soft canary-yellow; bright green foliage. Extremely robust and free flowering variety (B) . . . 10/- each
- ODALISQUE**—A very beautiful variety, producing its medium-sized flowers in great profusion 5 to 7 inches above the water. Soft pink, changing to deep pink as the flower ages (C) . . . 10/6 each
- ODORATA JESSIANA**—Medium-sized star-shaped flowers, standing above water, delightful shades of shell pink, shaded blush, sweetly scented (B) 8/- each
- ODORATA SULPHUREA**—Foliage dark olive-green heavily mottled reddish-brown, forming a very charming setting for its numerous soft sulphur-yellow flowers (C) 8/- each
- ODORATA WM. B. SHAW**—Large cup-shaped flowers standing well above the water level, narrow pointed petals, a delightful shade of shell-pink; during hot weather the young flowers are heavily flushed apricot; deliciously perfumed, pale green foliage (C) . . 9/6 each
- PHOEBUS**—The foliage of this pretty variety is very attractive; large, rich green, heavily mottled brown-maroon, medium-sized flowers, yellow, striped red, passing to copper-red, fiery orange stamens (C) 7/6 each
- PICCOLA**—Deep rose-crimson, outer petals deep rose, large globular flowers (B) . . 9/- each
- SEIGNOURETI**—Flowers of medium size, pretty shade of buff yellow, shaded pink and orange-red, the stiff stems standing 5 to 6 inches above the water, dark green mottled foliage (D) . . . 7/6 each
- SIoux**—Bold olive-green foliage, flowers on first opening rich chrome-yellow, suffused reddish-bronze, passing to a delightful shade of reddish-orange-copper. A curious but attractive combination (C) 8/6 each

- STELLATA**—A beautiful species, but will not be successful in extremely cold districts. Clear bright blue flowers borne on stiff stems 12 inches above foliage. Plant in warm position (D) 15/- each
- VENUSTA**—Large open flowers, uniform shade of rich pink, illuminated with a conspicuous bunch of saffron stamens (C) 10/6 each
- WM. FALCONER**—Flowers of medium size, dark maroon-crimson, young foliage red, passing to dark green with age (B) 12/6 each

WATER HYACINTH.

- PONTEDERIA CRASSIPES**—One of the most beautiful and remarkably curious plants ever grown. Instead of growing in soil it floats on the water; this it is enabled to do by means of its curiously inflated leaf stalks, which resemble inflated air balloons. A large mass of feathery blue roots grow downwards, their ends entering the soil. It forms a lovely rosette of its curious shining green leaves, and throws up spikes of the most exquisite flowers imaginable, color of which is a beautiful soft lilac 1/6 each

GIANT NILE REED.

- PAPYRUS ANTIQUORUM**—Tall and effective, making an excellent background for the beautiful Nymphae . . 3/6 each

PHORMIUM.

(NEW ZEALAND FLAX)

- TENAX VARIEGATA**—Strong growing variety about six feet high; attractive variegated foliage that lends itself admirably for background setting. 2/6 Each. Large Plants, 5/- Each.

DAY LILY.

- HEMEROCALLIS FULVA FL. PL.**—A splendid subject for planting at edge of Lily pond or stream. Bright orange flowers borne on long stems; very hardy 1/6 each

A section of a garden showing the beautiful Nymphae—Water Lily.

Stinton's "Claremont"

WELL GROWN PLANTS IN POTS.
BOOK EARLY FOR OCTOBER DELIVERY.

Japanese Chrysanthemums.

D—Denotes suitable for Decorative or Garden variety.
E.—Denotes Exhibition variety.

ALF. FORBES—E. Amaranth.
ALICE BENSON—E. White.
AMY A. PURCELL—E. & D. Pale pink.
ANADINATH GHOSH—E. Lovely heliotrope color.
A. STAPLES—E. Dark chestnut, reflexing.
AUTUMN TINTS—E. & D. Salmon buff.
BARBARA PHILLIPS—E. A large, early pure yellow, flowering during March and early April.
B. C. WEARE—E. Indian red, with old gold reverse.
BESSIE COOK—E. & D. Amaranth pink.
BRONZE TURNER—E. & D. Another sport of the popular family.
BUTTERCUP—E. Bright yellow.
CANADA—E. Light silvery pink, drooping florets.
CARRIE WHITE—E. & D. White, reflexed petals.
DAME SARAH LEES—E. A fine deep pink of true reflexing type.
DOREEN—E. Indian red.
EDITH CAVELL—E. & D. Orange bronze.
E. L. CAHILL—E. Old rose.
ELVA MILNE—E. & D. Popular bronze, late.
E. N. WARD—E. & D. Orange bronze with broad petals.
FIRST DAWN—E. & D. Pale pink with waxy gold tips.
GLEN PHILLIPS—E. Golden bronze; very large, distinct exhibition variety.
GOLDEN CHAMPION—E. Golden yellow.
GOLD TIPS—E. Bright chestnut crimson with gold reverse.
HAROLD ALSTON—E. Old rose with silvery reverse.
HARRY CLEMENTS—E. Golden buff.
H. VIANA—E. Mauve pink of reflecting type.
IMPROVED YELLOW LOUISA POCKETT—E. Rich yellow.
JOSEPH BRADFORD—E. A much-needed plum color.
J. S. LLOYD—E. Lemon.
LADY EDWARD MILLER—E. Yellow.
LADY FRANK CLARKE—E. A glorious rich yellow Japanese Large.
LADY HODGES—E. Light pink with silvery reverse.
LADY HUNTINGFIELD—E. Plum crimson with silvery reverse.
LADY SOMERS—E. & D. Old gold shaded salmon.
LADY SPENCER—E. & D. Salmon buff with old gold reverse.
LILIAN J. RENSHAW—E. Salmon, with buff reverse.
LORD SOMERS—E. & D. Beautiful golden amber, incurved.
LOUISA POCKETT—E. White, late flowers.
MAJESTIC—E. Golden amber.
MARJORIE GOULD—E. Yellow, incurved.
MAROONDAH—E. & D. Reddish maroon with silvery reverse.

MDE. MAGGIE STIRLING—E. Deep crimson.
MEUDON—E. Large pink.
MISS E. M. GRASSICK—E. & D. Large yellow, centre marked bronze.
MISS HILDA VEAL—E. & D. White, large incurved.
MISS M. GRIFFIN—E. & D. Terra-cotta red with gold reverse.
MONDA—E. & D. Vieux-rose, with silvery reverse.
MRS. A. J. WELLER—E. Chestnut with gold.
MRS. A. J. WHITCHER—E. Heliotrope.
MRS. E. ALSTON—E. & D. Pure yellow.
MRS. G. LLOYD-WIGG—E. Pale yellow.
MRS. H. HABGOOD—E. Salmon, shaded apricot, suffused strawberry red.
MRS. J. L. REUTER—E. White.
MRS. JOHN WOOLMAN—E. & D. Bright rose pink.
MRS. R. C. PULLING—E. Ochre yellow.
MRS. ROGER THOMPSON—E. Buttercup yellow.
MRS. RUPERT WILKS—E. & D. Golden bronze.
MRS. RUSSELL CLARKE—E. & D. Golden amber, incurved.

MRS. WM. BUCKINGHAM—Pink.
PINK MENSA—Rose pink.

9d. EACH; 7/6 PER DOZEN.

ZONALE PELARGONIUMS

GERANIUMS

FOR the hard country garden and also for the garden which can receive the minimum of attention, these plants are recommended. All the varieties as listed by us have been carefully selected after being thoroughly tried out in our Nursery fields. All are of the large flowering type, and are good bright vivid colors. This section of the Pelargonium family requires soil which is not very rich in organic manures. The land must be well drained and a sandy loam seems to suit it best.

ADRIANE BAMBURY—White, flushed pink, deepening to rich cherry pink on edges of petals.
A. MARIZANA—Rose pink, slightly veined on upper petals.
APHRODITE—Large-flowered, pure white.
BEROLINA—Very similar in color to James Kitson, foliage having distinct zones.
BRIEUX—Extra large flowers; lower petals deep cherry red, upper petals white in centre, shaded deeper to outer edges.
CARL WITHIG—A striking variety, rich lavender rose. Pale centre, blotched darker shade.
DUBLIN—A fine variety bearing large trusses of rich cerise colored blooms.
DUCHESS OF MARLBOROUGH—Rich deep pink, flushed orange; distinct markings in throat.
DUCHESS OF ROXBURGH—Salmon orange, large flower trusses.
ELLEN, COUNTESS OF RADNOR—Deep rosy lavender, shaded salmon in centre.
HARRY—Clear salmon pink; large trusses.
HARRY VARDEN—Deep pure red; most striking.
IONA—A delightful shade of flesh pink similar to Rowland May.
JAMES KELWAY—Scarlet, upper petals veined darker shade in centre.
JAMES KITSON—Pure scarlet.
LADY CURZON—A variety giving large heads of flesh pink flowers shading lighter in centre.
LADY OF FOLKESTONE—Clear rose pink.
LADY ROSCOE—Large-flowered shell pink, most attractive.
LADY WARWICK—White, heavily flushed with rose cerise on margin.
LUCRECE—Rose pink shaded lavender in centre; a striking variety with distinct zonale foliage.
MAURETANIA—White, delicately margined rose.
MEG. JAMES—Scarlet, large well-formed flower trusses, attractive, zonale foliage.
MERCURY—Vivid orange red, white marking in centre of flower.
MISS CALVAL—Deep maroon with distinct orange blotch on the lower petals.

MRS. FRED. GREEN—Clear salmon red.
MRS. SANDER—Pink, marked deep vermilion in centre of flower.
PANDORA—Large flowered orange scarlet, deeply veined in centre.
PHENUA—Deep purplish maroon, blotched orange on upper petals.
PRESIDENT LOUBET—Double flowered, rich rose pink; foliage, very well marked.
PRINCESS ALEX—Upper petals white deepening to pink on edges; lower petals, rich fiery salmon.
PRINCESS OF WALES—Warm salmon pink; a very distinct shade.
QUEEN OF ITALY—Large-flowered, clear salmon.
RASPAIL IMPROVED—Double scarlet, large full head.
SATURN—Bright rosy carmine, pale towards centre.
SAXONIA—Clear orange, very large individual flowers.
SIR JOSHUA REYNOLDS—A fine large-flowered scarlet; attractive foliage, clearly zoned.
SOCRATES—Dull red, flowers faintly suffused orange, when first open.
SWANLEY GEM—Flowers open deep cerise, suffused orange in centre fading to clear cerise when fully open.
TOM WHITE—A beautiful type, pure scarlet, large trusses.
UNIVERSAILE—Cherry maroon, upper petals blotched orange.
WARLEY JONES—Bright rose pink, shading to centre. Clear markings on upper petals.
WILL—Large-flowered, pure scarlet.
WINSTON CHURCHILL—Rich purplish rose, shading to white in centre.

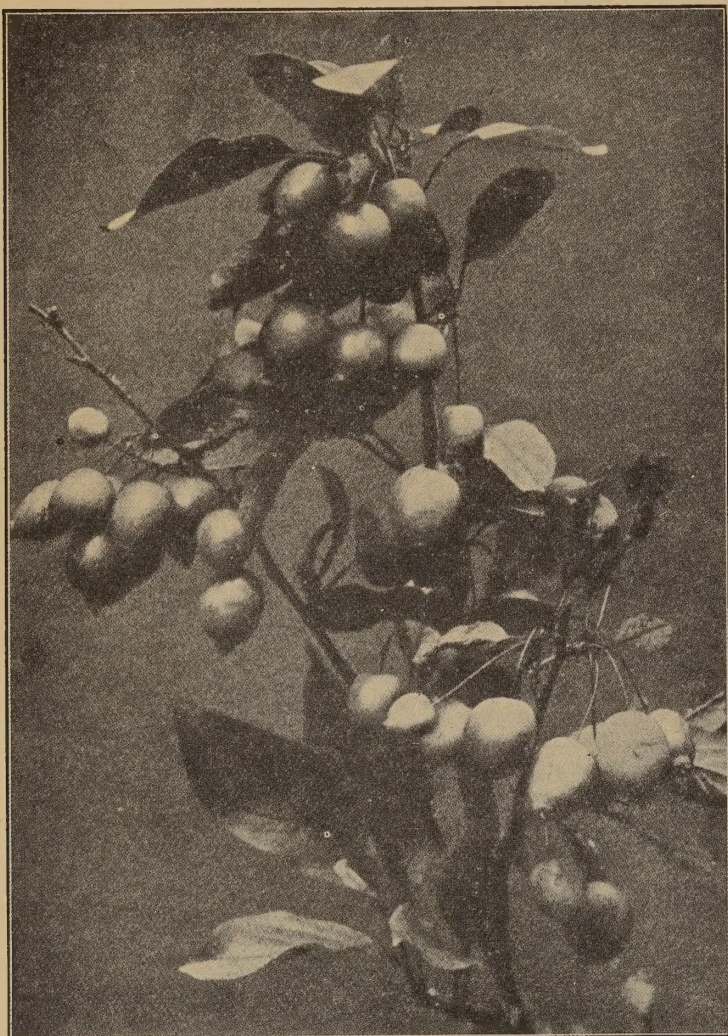

1/- EACH; 10/- PER DOZEN.

Special Collection of 18 Distinct Named Varieties
(Our selection) for . . . 12/6

ORNAMENTAL FLOWERING FRUITS

Stinton's "Claremont" Grown

THESE delightful trees should be planted freely in the garden as they provide a profusion of bloom at a very dull period of the year. They really herald the awakening of the spring, and provide a very good show when few other flowers are in the garden. The flowering Apples are particularly desirable on account of the masses of small attractive fruits which are borne on the plants during the summer and autumn months. A planting of naturalised Daffodils beneath *Prunus Pollardii* will provide a never to be forgotten sight. In the bulb section of our Catalogue will be introduced very liberal offers of bulbs for naturalisation purposes, and to those offers we would earnestly direct the attention of those clients who are contemplating the formation of a new garden such as this.

A good Autumn colorer, *Pyrus*,
Spectabilis Atropurpurea.

ALMOND.

Lady Lyle—A beautiful early flowering species. Clear pink. 2/- each

CYDONIA (Japanese Quince).

Japonica (*Pyrus Japonica*)—A thorny shrub of scrambling habit; winter flowers, bright scarlet, rose pink or white. 2/- each

PRUNUS (Flowering Apricots, Plums, Peaches, etc., deciduous).

Blireana—Purple foliage, rich double pink flowers. 15 feet. 2/- each

Nigra (Flowering Plum)—Dark foliage almost black, small pale pink flowers produced in masses. 10 feet . . . 2/- each

Persica (Flowering Peaches)—Attractive double flowering varieties in shades of crimson, pink, white, pink and white. 10 feet . . . 2/- each

Pollardi (*Amygdalus Pollardi*)—This beautiful flowering Almond is one of the earliest, following closely on "P. Mume." Huge single pink flowers. 15 feet . . . 2/- each

Sinensis alba fl. pl.; and Sinensis rosea fl. pl. (Double-flowering Chinese Plums)—Dwarf habit, very floriferous. 4 feet . . . 2/- each

Vesuvius—Bronze foliated plum; white flowers; one of the finest dark foliated varieties. 10 feet . . . 2/- each

SPECIAL COLLECTION OF THESE ATTRACTIVE FLOWERING FRUITS.

Six Distinctive Varieties (Our selection)
for 10/-

PYRUS—Ornamental flowering Apples, Crab Apples and Quinces. All deciduous.

Aucuparia—Scotch Mountain Ash. Straight growing tree, pinnate foliage which turns to rich orange and red in autumn. Scarlet berries are also borne during the autumn. 15 feet . . . 5/- each

Elyei—Rich vinaceous rose colored flowers, followed by purplish crimson fruits; bronze foliage. 10 feet . . . 2/6 each

floribunda—A fine variety of Japanese Flowering Apple; pale pink; rich yellow fruit . . . 2/6 each

Sargentii—A free flowering small tree; white flowers borne in large clusters. 6 feet . . . 2/6 each

Spectabilis atropurpurea—Undoubtedly one of the finest varieties: rich rose-colored flowers followed by dark red fruits. Foliage bronze. 15 feet . . . 2/6 each

Ornamental Shrubs, Conifers, etc.

Advanced Sizes.

Often when planning a garden it is desirable to plant several large shrubs to obtain an immediate effect.

Although the outlay may, at first, appear to be more than the shrubs warrant, the pleasure of seeing your new or old garden taking definite shape readily compensates the purchaser for all the trouble and expense they may have incurred.

We have a number of attractive subjects suitable for all purposes available in advanced sizes. We would point out to purchasers that these shrubs are potted into large pots and the freight will be more heavy than on the usual size supplied. If it is preferred that the trees be knocked out of the pots and balled in

hessian, we would esteem it a favor if, when ordering, our clients will inform us of their requirements.

CRYPTOMERIA JAPONICA ELEGANS.

EUONYMUS JAPONICUS VARIEGATUS.

EUONYMUS OVATA.

JUNIPERUS COMMUNIS.

PHORMIUM TENAX VARIEGATA (variegated New Zealand Flax).

LARGE, WELL-ROOTED, POT-GROWN TREES, 7/6 EACH.

ORNAMENTAL TREES AND FLOWERING SHRUBS

Stinton's "Claremont" Grown

THESE plants fulfil a very definite requirement in the average garden, whether it be large or small. In our opinion, an informal planting of attractive flowering or berry bearing shrubs on the boundary of even a small property enhances the appearance and provides the seclusion so very necessary to the home, without the harsh formality of a trimmed hedge or the ugliness of a high fence. Various positions in the garden are also eminently suited to the planting of small trees and attractive shrubs.

(NOTE.—E denotes Evergreen; D denotes Deciduous.)

ABUTILON.

Sawitzii—Attractive variegated foliage E. 3ft. 1/6
We also supply varieties in shades of pink, red, yellow, etc 1/6

ACER (Maple).

campestre (Common Maple)—Foliage red in autumn D. 20ft. 2/-
monspessulanum (Montpellier Maple) D. 15ft. 2/-
palmatum (Japanese Maple)—Autumn foliage D. 12ft. 2/6
platanoides (Norway Maple)—Tall and hardy, quick growing D. 20ft. 2/6
tartaricum (Tartarian Maple)—Autumn foliage D. 20ft. 2/6

AESCULUS.

hippocastanum (Horse Chestnut)—Deciduous, white D. 30ft. 2/6

AGATHOEIA (Blue Marguerite).

coelestis—Blue, yellow centre E. 4ft. 1/-

ALNUS (The Alder).

glutinosa—Light growing and decorative, hardy for damp situations D. 60ft. 1/6
incana—Excellent tree, hardy D. 20ft. 1/6

AMELANCHIER.

vulgaris (Snowy Mespilus)—White flowers followed by dark purple berries D. 8ft. 2/-

ARAUCARIA.

Bidwilli (Bunya Pine)—Tall growing Queensland tree; thrives well in this State if situated in sheltered spot away from high winds E. 80-100ft. 2/6
excelsa (Norfolk Island Pine)—Tall stately tree E. 100ft. 2/-

ARBUTUS.

Unedo (Irish Strawberry Tree)—A splendid shrub or small tree. The flowers are white and wax-like in appearance. Fruits very closely resemble the Strawberry and are bright scarlet in color E. 15ft. 2/-

ARDUINA (Cape Plum).

grandiflora—Beautiful flowering shrub with sweetly scented white flowers. Edible fruits E. 5ft. 2/6

AUCUBA.

Japonica picta E. 4ft. 2/-
Japonica variegata E. 4ft. 2/6
Both fine evergreen shrubs for cool shady situations.

BENTHAMIA.

fragifera—Yellow red, scarlet fruits similar to Strawberry E. 12ft. 1/6

BERBERIS.

Darwinii—An attractive evergreen variety. Rich orange flowers followed by orange berries. Foliage bronze in autumn E. 5ft. 1/6
Thunbergii—Small-leaved variety, yellow flowers, beautiful red autumn foliage D. 5ft. 1/6
Thunbergii atropurpurea—A purple foliaged form. Leaves richly colored the entire year. Red berries D. 5ft. 1/6

BRUGMANSIA.

Knightii—Handsome flowering shrub, large white pendulous flowers. Strong perfume E. 6ft. 1/6
lutea—An uncommon variety bearing clear yellow flowers E. 5ft. 2/6
sanguinea—Red E. 4ft. 2/-

BUDDLEIA.

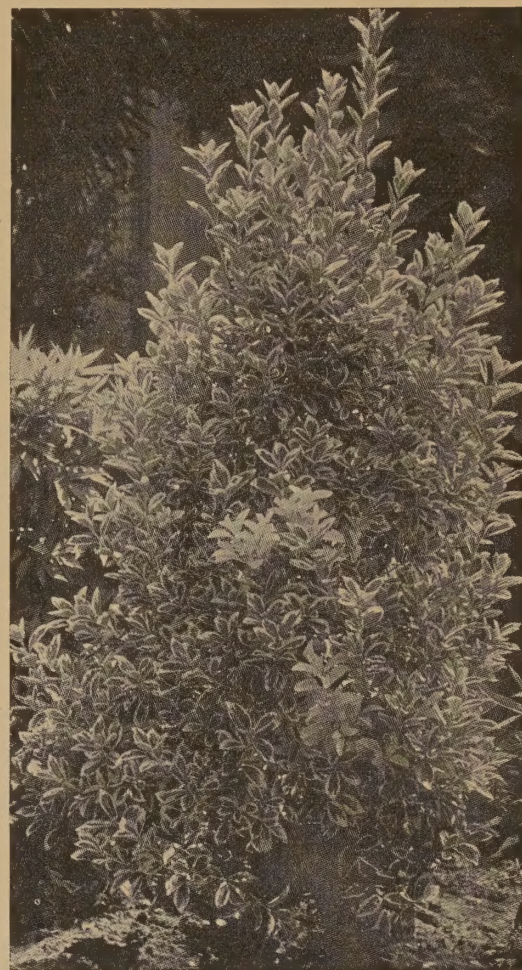

globosa—Attractive sprays of globular orange flowers E. 8ft. 1/6
Salvifolia—Very free grower, delicate lavender flowers E. 8ft. 1/6
Veitchiana—Bright malvo-violet flowers. Free flowering E. 12ft. 1/6

CAMPHORA (Camphor Laurel).

officinalis—Strong evergreen, suitable warm districts; fragrant young red leaves in Spring E. 20ft. 1/6

CANTUA.

dependens—Graceful pendulous rose colored flowers E. 5ft. 1/6
dependens elegans—Similar habit to the former, color buff orange tipped white E. 5ft. 1/6

Euonymus Japonicus Variegata.

CEDRUS.

atlantica—Tall, evergreen, glaucous foliage E. 60ft. 2/6
Deodara—Tall, spreading, dark green, young shoots pendulous E. 60ft. 2/6

CERASUS (Cherry).

Serotina—White, deciduous 30ft. 2/6

CERATONIA (Locust Bean Tree).

siliqua—Yellow, fine tree for hot climates E. 15ft. 2/-

CERCIS (Judas Tree).

siliquastrum—Purple flowers before foliage in Spring D. 15ft. 2/-

CHOISYA.

ternata—White, sweetly scented E. 6ft. 1/6

CHRISTIA.

grandiflora—Compact growing shrub, yellow and red E. 5ft. 2/6

CHRYSOCEPHALUM.

Behri—A large, free-growing shrub with good foliage. Does well in a cold climate E. 1/6

CLIANTHUS.

Puniceus (Glory Pea)—Bright scarlet, very showy E. 5ft. 1/6

ORNAMENTAL TREES AND FLOWERING SHRUBS

Stinton's "Claremont" Grown

COPROSMA.

Baueri—Glossy green foliage; excellent hedge plant E. 6ft. 1/-

Baueri picturata—Handsomeness variegated foliage; green leaves with yellow blotch in centre E. 6ft. 1/6

Baueri variegata—A variegated form; yellow and green foliage E. 6ft. 1/6

CORNUS (Dogwood).

mas—Deciduous, yellow 10ft. 1/6

CORYNOCARPUS.

laevigatus (New Zealand Laurel)—Fine hardy evergreen shrub; glossy green foliage E. 20ft. 1/6

COTONEASTER.

A race of shrubs ranging from 2 to 10 feet in height, and producing clusters and bunches of red or orange berries in Autumn.

augustifolia—Bright orange berries E. 6ft. 1/6

buxifolia—Red berries E. 3ft. 1/6

crenulata—Bright scarlet berries E. 8ft. 1/6

Franchetti—Semi weeping growth. Orange berries E. 6ft. 1/6

frigida—Bright red berries E. 12ft. 1/6

Henryana—Crimson berries E. 8ft. 1/6

microphylla—Red berries E. 3ft. 1/6

moupinensis—Large red berries. Leaves develop splendid Autumn colors D. 4ft. 1/6

pannosa—Strong grower. Rosy red berries E. 6ft. 1/6

praecox—A prostrate species suitable for rock work. Red berries E. 2ft. 1/6

pyracantha—Brilliant orange berries E. 5ft. 1/6

salicifolia—Long, narrow leaves; red berries E. 5ft. 1/6

Serotina—Strong, free growing; abundance or rich scarlet berries 6ft. 1/6

Simonsii—An excellent species bearing bright orange berries E. 4ft. 1/6

CRATAEGUS (Hawthorn May).

Carrieri—Good autumn foliage, white flowers; large red ornamental fruits D. 12ft. 2/-

coccinea (oxyacantha coccinea)—Crimson flowers D. 12ft. 2/-

Crus-Galli—Large white flowers, yellow fruits D. 10ft. 2/-

CRYPTOMERIA (Japanese Cedar).

Japonica elegans—Dense bushy tree; autumn coloring E. 20ft. 3/6

CUPRESSUS.

Arizonica (Arizona Cypress)—A hardy variety with grey green foliage; spreading habit. Suitable for dry climatic conditions 2/6

funbris (Funeral Cypress)—Erect strong growing tree 40ft. 2/6

lusitanica (Cedar of Goa)—A large tree of fine appearance 50ft. 1/6

Sempervirens (Roman Cypress)—Tall, upright habit; dark green foliage 40ft. 3/6

CYTISUS (Broom).

canariensis—Dwarf branched shrub; yellow. E. 5ft. 1/6

DEUTZIA.

gracilis—Masses of white flowers; dwarf habit; a popular variety D. 2ft. 1/6

Scabra—Taller in growth, white D. 5ft. 1/6

DIOSMA.

alba (ericoides)—White, scented foliage E. 2ft. 1/6

DURANTA.

Plumieri—Very handsome blue flowers; summer and autumn blooming E. 12ft. 1/6

ERICA (Heath).

Charlesiana—Blush pink E. 4ft. 1/6

cruenta—Scarlet E. 3ft. 1/6

Dawn—Small flowers; pink E. 4ft. 1/6

intermedia—White; long spikes E. 5ft. 1/6

Jubilee—Deep pink E. 4ft. 1/6

Mackinnoniana—Purplish-rose; large bells E. 4ft. 1/6

melanthera—Lavender-purple, black stamens; abundant flowers in winter E. 5ft. 1/6

vulgaris (Scotch Heather)—Small purple flowers E. 3ft. 1/6

ERYTHRINA (Coral Tree).

crista Galli (compacta)—Rich crimson flowers. Cut back to stump in winter D. 8ft. 1/6

ESCALLONIA.

macrantha—Crimson red; fine evergreen E. 4ft. 1/6

montevidensis—Long flower sprays E. 6ft. 1/6

rubra—Red E. 4ft. 1/6

EUGENIA.

Ugni—Small white-flowered shrub, bearing edible berries after flowers E. 3ft. 1/6

EUONYMOUS (Spindle Tree).

Japonicus—Green-foliaged shrub; scarlet berries E. 8-10ft. 1/6

Japonicus aurea—Yellow and green foliage E. 8ft. 1/6

Japonicus variegatus—Excellent variegated form E. 10ft. 1/6

ovata—Silver and green foliage E. 4ft. 1/6

FICUS (Fig).

elastica (Indiarubber Tree)—Strong evergreen. 70ft. 1/6

FORSYTHIA (Golden Bell Shrub).

suspensa—Long trailing branches covered with yellow bell-shaped flowers in Spring. Excellent for training over a pergola D. 2/-

viridissima—Erect habit, shrubby; free flowering, coppery autumn foliage; yellow D. 4ft. 2/-

FRAXINUS (The Ash).

ornus—The Flowering Ash; small tree; dense panicles of white flowers D. 20ft. 1/6

GENISTA.

Aetnensis (Mt. Etna Broom)—Pendulous habit; yellow E. 8ft. 1/6

Andreana—Crimson and yellow; very handsome E. 5ft. 1/6

Monosperma pendula (Weeping Broom)—Grey-green pendulous foliage; white E. 8ft. 1/6

GINKGO (Maiden Hair Tree).

biloba—Large maiden-hair leaflets. Rich yellow autumn foliage D. 10-40ft. 1/6

GLEDITSCHIA.

triacanthos (Honey Locust)—Decorative tree D. 30ft. 1/6

HIBISCUS.

Syriacus purpurea—Rich rosy-purple, double D. 6ft. 1/6

HIPPOPHAE (Sea Buckthorn).

rhamnoides—Silver foliage; yellow flowers and berries, suited for seaside cultivation D. 6ft. 2/-

ILEX.

Milkmaid—A fine variegated form E. 10ft. 2/6

IOCHROMA (Tobacco Tree).

coccinea—Scarlet tubular flowers E. 6ft. 2/-

KERRIA.

Japonica—Yellow D. 3ft. 1/6

LAGERSTROEMIA (The Crape Myrtle).

Indica—Attractive rose pink flowers. Autumn foliage, cut back during winter D. 10ft. 2/6

LANTANA (Wayfaring Tree).

Chelsea Gem—Rich scarlet and orange D. 2ft. 1/6

Le Patriote—Red and yellow D. 4ft. 1/6

Lutea superba—Clear yellow D. 4ft. 1/6

Minnie Basle—Lilac and white D. 4ft. 1/6

Princess Louise—Crimson, orange centre E. 4ft. 1/6

Sellowiana—Purple, very dwarf D. 1ft. 1/6

LASIANDRA.

Edwardsii—Deep violet-purple E. 5ft. 2/-

macrantha—Deep violet; free flowering E. 6ft. 1/6

LAURUS.

nobilis (Sweet Bay)—Fine old shrub with scented leaves E. 5ft. 1/6

LEONOTIS (Lion's Ear).

Leonorus—Orange-scarlet E. 6ft. 1/6

LONICERA.

nitida—Small compact shrub E. 4ft. 1/6

MYRICA (Candleberry Myrtle).

Cerifera—Hardy shrub. Red E. 5ft. 1/6

SHELTER TREES

Stinton's "Claremont" Grown

Cupressus Lambertiana Horizontalis

This is one of the finest trees we have for hedgemaking, wind-break purposes and avenue planting. The trees are perfect in growth, they branch from the ground upwards and form a perfect wall of rich green foliage.

When going through the country one can see the results of wise planting on many properties by the owners having selected this variety of Cupressus for their breakwinds. It is a long lived tree of perfect appearance, though when obtaining your young trees it is as well to be sure you are supplied with trees grown from cuttings. Many people are content to plant inferior varieties which are apt to die out after several years.

The Cupressus Lambertiana Horizontalis should be more widely planted than it is. It will grow in any district, provided it has the best soil preparation to begin with. The best method for preparing the soil when planting is the following:—Holes should be opened for not less than 3 feet in diameter. Remove the upper layers of soil and work up the lower soil well to a depth of about two feet. The addition of a little decayed manure will be beneficial in poor soils. The upper soils should then be replaced in the same order as that in which they were removed, care being taken that none of the subsoil becomes brought to the surface as this will be certain to hamper the growth.

Stakes should be driven into the holes before the trees are planted, then as the young trees grow they can be tied up. Do not prune the top of the plant until it has reached the required height of the hedge. The sides of the hedge can be kept cut back to allow the trees to bush well.

When planting this Cupressus for hedge work, the trees should be placed no closer than four feet apart, while for wind-break and avenue purposes anything from fifteen up to twenty, or even thirty and fifty, feet apart may be taken as a suitable distance for planting.

It is really left to the purchaser what distance apart the trees should be planted as the varying qualities of soil govern, to a large extent, this feature of tree planting. It is not necessary to plant a double row of this variety as the horizontal branching of the trees, interlocked as it were with each other, form a dense wall of green.

ALL OUR TREES OF CUPRESSUS LAMBERTIANA HORIZONTALIS ARE GROWN FROM CUTTINGS, TAKEN FROM SELECTED STOCK, AND ARE STRONG POT-GROWN TREES.

30/- Dozen; £10 per Hundred

A Magnificent Avenue of Cupressus Lambertiana Horizontalis on the Property of Captain J. H. Steele, Bundarra, Buckley, showing 15 years' growth.

SHELTER TREES

Stinton's "Claremont" Grown

A Perfect Specimen of *Cupressus Lambertiana Horizontalis Aurea*.

The Beautiful Golden Cypress

Cupressus Lambertiana Horizontalis Aurea

THIS beautiful Cypress ranks high as one of our finest ornamental trees. The perfect form and intense golden color are fully shown in the illustration above. We would like to point out that it is possible to obtain this Cypress at much cheaper rates than we quote ourselves, but we have proved that the trees are of an inferior nature in habit and coloring.

ALL OUR STOCKS ARE RAISED BY CUTTINGS FROM A SELECTED TREE, thus enabling us to produce our trees knowing that they will give a uniformity of growth and color.

We feel it is incumbent upon us to make perfectly clear to our clients the necessity of obtaining trees of reliable stocks. Years of work and attention are wasted if inferior trees are obtained for planting.

Cupressus Lambertiana Horizontalis Aurea is suitable for hedge making, windbreak or specimen purposes. The trees branch horizontally from the ground level upwards, making a perfect wall of foliage, and are long lived. When planting give the trees ample space and obtain the full glory of this magnificent subject.

WE OFFER STRONG, BUSHY, POT-GROWN TREES AT THE FOLLOWING RATES:—

18 inches	—	24 inches in height	—	—	—	3/- each;	36/- per dozen
24 inches	—	30 inches in height	—	—	—	4/- each;	48/- per dozen
30 inches	—	36 inches in height	—	—	—	5/- each;	60/- per dozen

SHELTER TREES

Stinton's "Claremont" Grown

PINUS INSIGNIS

(THE MONTEREY PINE)

This tree is well-known and is to be seen throughout Australia, being largely used for shelter and windbreak purposes.

PROTECT YOUR HOMES AND STOCK FROM THE RAVAGES OF WIND AND STORM.

Make arrangements for the planting of your windbreaks this year. What is more soothing than the restful singing and sighing of this strong hardy tree?

Pinus Insignis when fully grown reach a height of about 50 feet. The trees furnish branches from the ground level upwards and are admirable for a strong windbreak. When planting, trees should be spaced about 10 feet apart.

Consult us as to your requirements for this season.

Trees ready for distribution from June to end of August.

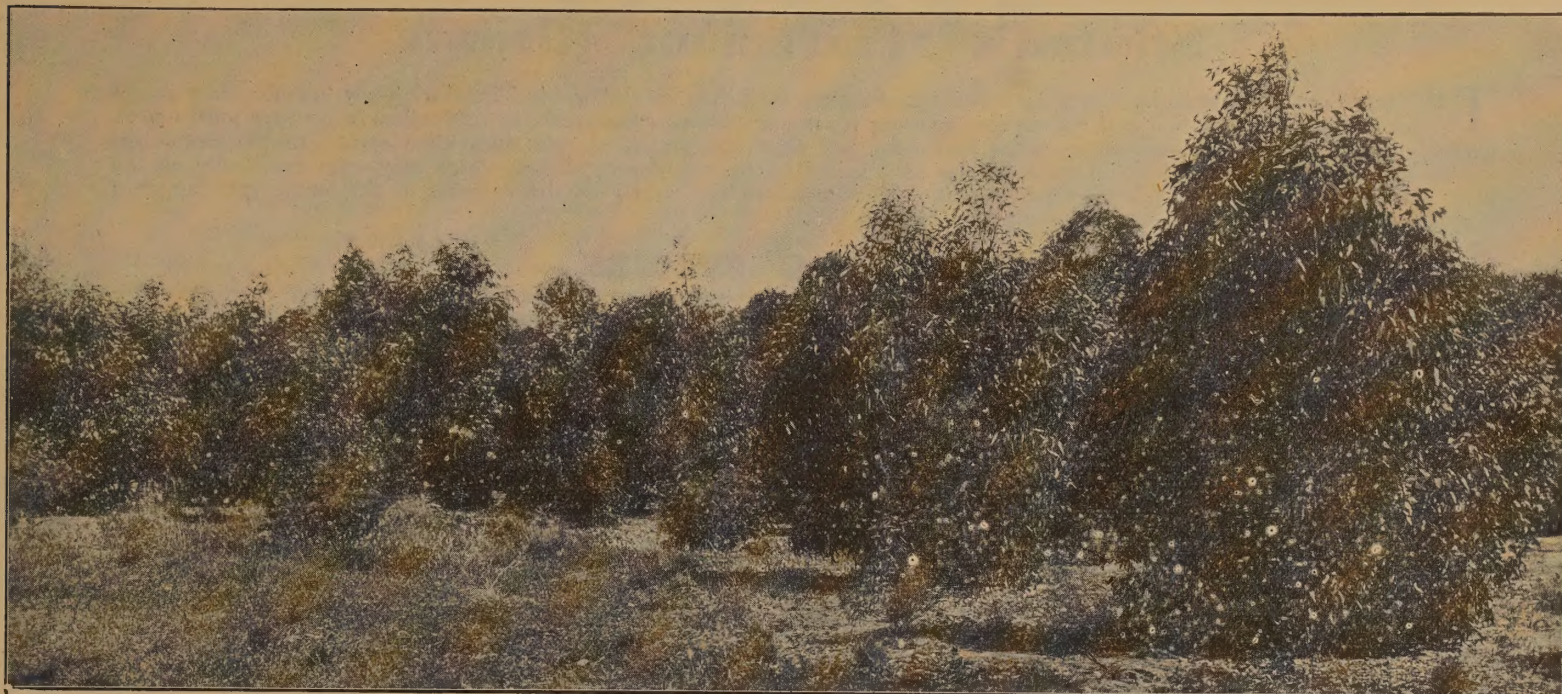

Balled Trees 6/- per dozen; 40/- per hundred

Trees supplied loose roots (25 trees per bundle) . . . 25/- per hundred

Pinus Insignis used for Avenue planting.

STINTON'S "CLAREMONT" SHELTER TREES

EUCALYPTUS GOMPHOCEPHALA (Tooart Gum).

The "Tooart" Gum is a native of Western Australia, growing in the wheat belt soils of the south-west. Under plantation conditions it has proved very hardy and is a complete success wherever planted. Rapid in growth, it makes a splendid breakwind in two or three years. Unlike many varieties of the Eucalyptus it furnishes with foliage right from the ground level, and the thoroughly compact nature of the plant makes it one of the most desirable of the Eucalyptus species for plantation purposes.

TREES IN POTS, 9/- PER DOZEN; 60/- PER HUNDRED.

SEED, 3/6 OZ.; 40/- LB.

EUCALYPTUS CLADOCALYX (var. NANA)

(DWARF BUSHY SUGAR GUM)

The Sugar Gum is one of the most vigorous and quick growing shelter trees we have. The dwarf bushy type as offered by us combines all the hardiness and virtue of the tall growing Sugar Gum, without having the tremendous disadvantage of the long bare trunks. Our photograph shows the compact bushy habit of these trees, which form their branches right from the ground level, giving a perfect rampart of foliage which renders the utmost protection to stock.

TREES IN POTS, 7/6 PER DOZEN; 50/- PER HUNDRED.

SEED, 3/- OZ.; 30/- LB.

EUCALYPTUS CLADOCALYX

(TALL GROWING SUGAR GUM)

Will grow on almost any kind of soil but does best on granite or red loam. It is drought resistant and most suitable for low rainfall areas. Apart from being useful as a wind break tree it is extremely valuable on account of the firewood which is provided after the periodic loppings which are necessary as the tree becomes too tall.

TREES IN POTS, 7/6 PER DOZEN; 50/- PER 100.

SEED, 2/6 PER OZ.; 25/- PER LB.

AUSTRALIAN EUCALYPTS

Stinton's "Claremont" Grown

THE Eucalypts are particularly recommended for planting as shelter breaks or wind breaks. They are also very useful for planting in avenues, and the smaller growing types are extremely adaptable to cultivation in country gardens. A perusal of the list of the varieties we offer hereunder will show the merits of each individual sort. In the Eucalypts, we have a race of trees which is undoubtedly the most suited to the hot, dry conditions which exist over practically all the great Continent of Australia. In addition to this particular advantage, nearly all the varieties of the larger growing trees are very handsome in appearance and extremely long in life.

FLOWERING SPECIES

TWO MAGNIFICENT FLOWERING VARIETIES

The Scarlet Flowered Gum of Western Australia

(EUCALYPTUS FICIFOLIA)

This variety is without a doubt the best of all the flowering Gums. When in flower the masses of brilliant red blooms yield a never-to-be-forgotten sight. Plant this tree for every purpose, whether it be as a specimen, avenue planting or wind-break, it will fill the bill with every satisfaction. For planting an avenue or ornamental plantation work, this splendid tree cannot be overlooked. 15 to 20 feet.

Our stocks of sturdy pot-grown trees are available at—

1/6 EACH; 15/- PER DOZEN; 100/- PER HUNDRED.

Port Gregory Pink Flowered Gum

(EUCALYPTUS CALOPHYLLA ROSEA)

Although not as brightly colored as its brilliant brother (Eucalyptus Ficifolia), this variety is one of the most valuable flowering Gums and can quite safely be used for all plantation work and avenue planting. As a specimen tree it acknowledges no peer, and will fill any position with an air of gracefulness and dignity. It is a fast growing tree attaining a height of 30 feet, and bears masses of rose-pink flowers.

1/6 EACH; 15/- PER DOZEN; 100/- PER HUNDRED.

OTHER FLOWERING VARIETIES

crucis (Southern Cross Silver Gum)—Silver foliage; golden yellow flowers. 15 feet.

grossa (Phillip's River Gum)—Good dense foliage; yellow flowers. 10 feet.

leucoxydon rosea (Pink-flowered Ironbark)—An extremely hardy tree of symmetrical outline; bears masses of rose-pink flowers during winter months. 20 feet.

Steedmannii (Steedman's Gum)—A new species bearing golden flowers; beautiful foliage. 20 feet.

tetraptera—Small shrubby tree 8 feet high. Beautiful foliage; crimson flowers.

1/6 EACH; 15/- DOZEN.

SHELTER SPECIES

aggregata (Black Gum of New South Wales)—A splendid large branching tree 60 feet in height. Gives fine shade and does best on moist soil.

alpina (Alpine Gum)—A small dense growing tree. Planted in rows it forms a dense windbreak of extremely ornate appearance.

albans (White Box)—A large symmetrical tree 40 to 80 feet in height. Hard durable timber.

botryoides (Mahogany Gum)—A large umbrageous tree 40 to 80 feet high. Prefers the subsaline deltas of the coast and very moist alluvial valleys.

camphora (Broad-leaved Sally)—A tree 30 to 65 feet. Occurs in very cold and always damp situations.

citriodora (Lemon-scented Gum)—A tall graceful tree with beautiful white bark and lemon-scented foliage. 40 feet.

cladocalyx (Sugar Gum). (See Page 41).

cornuta (Yate Gum)—A fine bushy tree of very ornate appearance. Fast growing and provides splendid shade.

cosmophylla (Cup Gum)—A small to medium-sized tree, 10 to 50 feet high. An ornate variety which does well under dry conditions.

dumosa (Congoo Mallee)—A small dense growing tree. A useful sandbinder for coastal districts.

globulus (Blue Gum)—A splendid large growing tree which does well in cool, deep soil. 100 feet.

gomphocephala (Tooart Gum). (See Page 41).

hemiphloia (Grey Box)—Magnificent large growing tree. Well suited for specimen or avenue planting; yields excellent timber. 40 to 100 feet.

kondininensis (Stocking Tree)—A slender tree 40-65 feet high. An ornate variety which is also useful for forest conservation in moderately dry districts.

Lehmanni (Bushy Yate or Lehmann's Gum)—A shrubby compact pyramidal tree up to 30 feet high. Forms a splendid breakwind and should be largely grown for ornamental purposes.

macrandra (Long-flowered Marlock)—A very graceful tree of compact growth and most valuable for wind-break planting. 20 to 30 feet.

maculata (Spotted Gum)—A stately tree of most attractive appearance. Long clean limbs and beautifully spotted bark. 100 feet. Makes a magnificent specimen tree.

Maidenii—A fine forest tree particularly suited for high altitudes. White limbs. 50 to 100 feet.

microtheca (Coolabah)—Splendid shade tree of spreading habit. A tree of the black soil plains of the interior. 80 to 100 feet.

occidentalis (Mallet Wood)—A clean growing tree 50 to 80 feet high. Does well on clayey loam soils.

polyanthemos (Brown Box)—Greyish foliage. Good for dry districts. 40 feet.

populifolia (Poplar-leaved Gum)—A small to medium sized round headed tree. An ideal species for the hot, dry districts with a 14-17 inch rainfall and of heavy soil formation. It is specially adapted as a shade and ornamental tree, and should find favor with farmers and pastoralists. 50 to 60 feet.

robusta (Swamp Mahogany)—A medium sized umbrageous tree. A magnificent species for rich subsaline areas near the coast. 50 to 80 feet.

rostrata (Red Gum)—A medium sized and large wide spreading tree. Splendid subject for planting on low-lying land which is subject to flooding.

salmonophloia (Salmon Gum)—A slender graceful tree growing from 40 to 100 feet high. An excellent subject for planting in regions of low rainfall.

sideroxydon (Black Iron Bark)—Fine foliage which gives the tree a weeping effect. 50 to 100 feet.

Staigeriana (Lemon-scented Ironbark)—A medium sized tree noted for its fragrant lemon-scented leaves and is a fine ornamental subject. 50 feet.

viminalis (Manna Gum)—Drooping light green foliage, growing well in any soil. 100 feet.

1/- EACH; 10/- DOZEN.

ACACIAS

Stinton's "Claremont" Grown

WHILST all the members of the Acacia family are not altogether desirable as garden subjects, a large number of the sorts are very beautiful, and the varieties as listed hereunder are offered by us in well grown plants. They are all very beautiful and will fill a position in the garden to the best advantage. A number of the varieties are low growing, whilst others will develop into fair sized trees. The Acacia is particularly recommended for planting in a country garden where it is not possible to apply unlimited supplies of water during the summer months. In fact, it is far better to allow all Acacias to exist without water during the summer months. Not only does this ensure a more prolific crop of bloom at the correct season of the year, but it also means the plants will have a much longer life than would otherwise be the case.

ACACIA

THE WATTLE

*"Lightly the breath of the Spring wind blows
Though laden with faint perfume;
'Tis the fragrance rare that the bushman knows,
The scent of the wattle in bloom."*

—Gordon

accola—Very showy tree, excellent for lawns and specimen use; golden flowers.
acuminata (Raspberry-scented Wattle)—An attractive variety growing from 20 to 30 feet high. Native to Western Australia and does well under dry conditions.

Baileyana (Cootamundra Wattle)—The widely known Cootamundra Wattle is probably the most popular of all varieties. Small silvery-blue foliage which is almost hidden under the masses of bright golden-yellow flowers borne in the spring. 15 to 20 feet.

buxifolia (Box-leaved Wattle)—A very useful dwarf growing variety. 4 feet high.

cultriformis (Knife-leaved Wattle)—A small ornamental tree which should be extensively cultivated in parks and gardens. Grows 10 feet high and bears bright golden yellow flowers.

decora—Fine fern-like foliage; a very pretty small tree, which grows 12 feet high. Orange flowers.

discolor (Sunshine Wattle)—Shrubby growing variety 6 feet high. Both the foliage and the flowers are very attractive.

Drummondii (Drummond's Wattle)—Bushy habit, 5 feet high, bright yellow flowers.

elata (Cedar Wattle)—A splendid large growing tree up to 80 feet high. Large mimosa foliage. The flowers are strongly perfumed and it is altogether one of the best of the species.

elongata (Long-podded Wattle)—Grows 10-15 feet high. Good form and habit and bears masses of golden-yellow flowers.

Farnesiana (The Farnesian Wattle)—This might be called the Cosmopolitan Wattle for it has the unique distinction of a world-wide distribution. Large golden balls and a most useful tree. 10-20 feet.

fimbriata (Fringe Wattle)—Very hardy tree with deep golden flowers. 12 feet.

glaucescens (Mountain Brigalow)—Medium sized tree which bears long golden flowers. Slow growing but good. 12 feet.

gnidium—Shrubby variety 6 feet high. Golden yellow flowers, sweetly scented.

Havilandi (Needle Wattle)—Pale yellow flowers. 5 feet high.

linearis (Narrow-leaved Wattle)—Grows 5 to 8 feet high. Good attractive variety.

linifolia (Flax-leaved Wattle)—An elegant large shrub or small tree. Requires sheltered spot to do well. 10 feet.

Longifolia (Long-leaf Golden Wattle)—Produces flowers in long cylindrical spikes instead of globular heads. A most attractive and popular variety. 15-30 feet.

longifolia-floribunda (The Many-flowered Wattle)—A variety of the above but with much narrower leaves. Makes an attractive specimen tree. 12-20 feet.

myrtifolia (Light of the Glen Wattle)—Dwarf growing variety with most attractive coppery foliage and bright yellow flowers; very sweetly scented. 4 feet.

Acacia Longifolia.

normalis (Queen Wattle of New South Wales)—A splendid shapely tree very suited to planting in park lands or for specimen purposes. Large golden flowers borne in profusion. 30 feet.

obtusata (Blunt-leaf Wattle)—A dwarf shrubby species. 5 feet.

podalyriaefolia (Queensland Silver Wattle)—A most graceful small growing tree. Silvery foliage and bright golden flowers. 12 feet.

polybotrya (Bunch-flowered Wattle)—Large shrub or small tree. 10 feet.

prominens (Golden Rain Wattle)—A very handsome variety which makes a first class hedge if kept well trimmed. Grows 15 to 20 feet high.

pruinosa (Mealy-stemmed Wattle)—Clean growing tree with large ferny foliage. Makes a nice specimen. 20-30 feet.

pycnantha (Golden Wattle)—Free flowering and heavily scented, 20-30 feet.

rubida (Red Stemmed Wattle)—Compact growth, attractive reddish foliage, golden flowers. 6 feet.

Saligna (Golden Wreath Wattle)—Makes a fine tree and is particularly suited to windbreak purposes or specimen planting. 15-20 feet.

spectabilis (Mudgee Wattle)—Small growing tree. 8-10 feet.

suaveolens (Sweetly-scented Wattle)—Small growing and does well planted under fairly open trees. 6 feet.

1/6 EACH; 15/- PER DOZEN.

AUSTRALIAN TREES and SHRUBS

Stinton's "Claremont" Grown

BANKSIA.

- ericifolia* (Heath-leaved Honeysuckle Tree)—12-14 feet. Flowers reddish. E. 2/- each
serrata (Australian Red-wood Honeysuckle)—15-20 feet. Yellow flowers. E. 2/- each

BORONIA.

- Evergreen dwarf flowering shrubs. They prefer a sunny, open situation. Ample water should be given during summer months 1/6 each
floribunda—Pink flowers, borne abundantly. 3 feet.
megastigma—Brown and yellow flowers, very fragrant. 2 feet.
lutea (Yellow-flowered Boronia)—An outstanding variety both in perfume and color, the bright yellow flowers being more intense in scent than any other variety. E. 2/- each

BRACHYCHITON (Sterculia). Currajong.

- acerifolium*—Flame tree, large leaves, flaming masses red flowers. 100 feet 2/- each
diversifolia—Victorian bottle tree, an evergreen. Yellowish white flowers. 50 feet 2/- each
populneum (Currajong)—Slow growing shapely tree, flowers red and yellow 2/- each

CALLITRIS. Cypress Pines.

- cupressiformis* (Port Jackson Cypress Pine)—A tall-growing tree suitable for wind protection in open situations. 45 feet 1/6 each
Muelleri—A dense growing tree; dark green foliage . 1/6 each
robusta (Great Murray Pine)—Tall evergreen tree, suited for warm places. 60 feet 1/6 each

CALOTHAMNUS (Net Bush).

- Gilliesii*—Handsome free-flowering shrub, producing an abundance of rich orange flowers. 6 feet 2/6 each
homalophyllus—Bright crimson flowers. 4 feet 2/6 each
sanguineus (*Conothamnus eriocarpus*)—Flower cones marked deep red, flowers lavender grey. 6 feet 2/6 each

CASUARINA (She Oaks).

- Cunninghamiana* (Scrub She Oak)—A tall tree suitable for coastal areas and dry situations. 30 feet 1/6 each
quadrivalvis (*Stricta*). (Coast She Oak)—A beautiful tree of pendulous habit. 50 feet 1/6 each

CHORIZEMA.

- cordatum*—Evergreen, with orange and red flowers in spring. 3 feet 1/6 each

DILLWYNIA.

- juniperina* (Juniper-like Dillwynia)—Grows 3-4 feet. Flowers yellow and brown.

DODONAEA.

- triquetra* (Three-cornered Hop-seed Bush)—Shapely tree growing to 20 feet high 2/6 each

DORYANTHES (Spear Lily).

- Palmeri*—Tall long leaved plant with bold foliage about 6 feet high. Flowers are red, held in large clusters on stems 6-8 feet high, suitable for a large garden 2/6 each

EUGENIA (Australian Myrtle).

- myrtifolia* (Brush Cherry)—Evergreen foliage. Young shoots red. White flowers, red fruits. 50 feet 1/6 each
Smithii (Victorian Lillypilly)—An evergreen tree of good appearance. White flowers followed by purple berries, a fine tree for a tall hedge. 30 feet 1/6 each

FAGUS (Australian Beech).

- Cunninghamii*—A handsome evergreen tree, small foliage, bronze in spring, suited for cool climates. 30 feet 2/6 each

GOODIA.

- latifolia* (Salisbury or Yellow Pea)—Beautiful shrub 4-8 feet high. Golden-yellow pea-shaped flowers, borne in profusion 2/6 each

GREVILLEA.

- acanthifolia*—Pretty shrub growing 3-4 feet high. Flowers pink. E. 2/6 each
buxifolia—Commonly called Grey Spider plant. Very attractive; grows to 6 feet high. Grey flowers fringed with pink 2/6 each
leucoptervis—An attractive shrub of neat shape. Tall flower head produced in spring, white. 6 feet 2/6 each

- montana*—Commonly called the Bird Bush Flower. The bronze, green and red flowers resemble a bird and the shrub grows to about 5 feet high 2/6 each
punicea (Crimson-flowered Grevillea)—A very choice shrub bearing deep crimson flowers. Grows 3-4 feet. E. 2/6 each
robusta (Silky Oak)—Tall, hardy tree well suited for streets and plantations; orange flowers in December. 50 feet 1/6 each

- rosemarinifolia*—4 feet; red flowers, rosemary-like foliage. E. 1/6 each

- Thelmanniana* (Spider's Net Bush)—This beautiful shrub from West Australia is a decided acquisition to any garden. It is evergreen, giving a fine show of deep red and yellowish flowers. 4 feet 2/6 each

HAKEA.

- laurina* (Pin-cushion Flower)—A shapely shrub or small tree growing to 15 feet high. Large ball-like flowers crimson and white in color. E. 1/6 each
suaveolens—An erect shrub, bunches of small white flowers. 6 feet. E. 1/6 each

LAMBERTIA.

- formosa* (Port Jackson Honey Shrub)—This is a beautiful flowering shrub, very hardy and most attractive. Large bell-shaped flowers bright scarlet in color 2/6 each

LEPTOSPERMUM (Tea Tree).

- Chapmanni*—A New Zealand form of our shrub with blush pink flowers. 5 feet 1/6 each
erubescens—A graceful ornamental shrub about 3 feet high. Orange flowers 2/- each
grandiflorum—Bushy shrub of neat habit. Creamy white flowers. 5 feet 1/6 each
grandiflorum roseum—A variety with very attractive foliage, the young shoots being tinted bronze, rose pink flowers. 5 feet 2/- each
Nichollii—The New Zealand form of one of our shrubs. Crimson flowers. 5 feet 1/6 each

MELALEUCA (Bottle Brush Tea Tree).

- Baxteri*—Evergreen shrub, dwarf habit, rich red flowers. 4 feet 2/- each
elliptica (Oval-leaved Tea Tree)—An evergreen reaching about 10 feet in height. Crimson flowers 2/- each
Huegelii—Small tree or shrub, white flowers. 10 feet 1/6 each
longicoma—Small shrub, making a fine show when in bloom. Bright pink. 6 feet 2/- each
priessiana—Hardy tree suitable for coastal districts, white flowers. 20 feet 1/6 each
radula—Free flowering, pink variety growing about six feet high 2/- each
rhaphephylla—Beautiful spreading tree giving splendid shade. 30 feet 2/- each
Steedmanni—A new variety bearing masses of rich red flowers. 3 feet 2/- each
thymifolia ("Thyme-leaved Tea Tree Myrtle")—Very dwarf habit, purple flowers. 2 feet 1/6 each
Wilsonii (Crimson Honey Myrtle)—A free growing shrub with red flowers borne along the stems. 6 feet 1/6 each

MICROMYRTUS (Fringed Heath Myrtle).

- plicata*—A low growing shrub which prefers a sandy soil. Bears masses of pink and white flowers, lasting on the bush for a long period. 4 feet 2/- each

PETROPHILA. *speciosa rosea* 2/- each

REGELIA.

- grandiflora*—This is one of our most handsome shrubs from West Australia. It is very free flowering and of neat habit; crimson. 6 feet 2/6 each

SCAEVOLA.

- suaveolens* (Fan Flower)—Grows to 8 feet high. Most attractive when in bloom. Flowers pink in color. E. 2/- each

TRISTANIA (Queensland Box).

- conferta*—Hardy and decorative Australian tree. Bold foliage with shining white flowers. Well suited for street and shade plantations, a fine evergreen. 50 feet 1/6 each

HEDGE SUBJECTS

Stinton's "Claremont" Grown

Illustrating the desirability of *Muehlenbeckia Complexa* for Hedging purposes.

MUEHLENBECKIA COMPLEXA.

A perfect hedge plant of climbing habit (as illustrated). For a light protection and minimum of root spread no plant is more suitable for a garden hedge than this attractive plant.

It is necessary to provide a wire net frame-work to train the creeper on. Quick growing in habit, the twining growth rapidly forms into a dense hedge. Very easy to trim and the attractive bronze colored foliage makes it a valuable adjunct to the garden scheme.

1/6 EACH; 15/- PER DOZEN.

PRIVET.

(LIGUSTRUM)

Common green Privet (*Ligustrum vulgaris*)—Fine for a small garden hedge. Dense compact growth; plant 1 ft. 6 inches apart 2/6 per dozen; 15/- per hundred

Golden Privet (*Ligustrum vulgaris aurea*)—A beautiful golden-leaved form. Foliage turns slightly green during winter months but is an intense glowing yellow during spring, summer and autumn. Plant 1 ft. 6 inches apart

3/6 per dozen; 22/6 per hundred

Golden variegated Privet (*Ligustrum elegantissimum variegata*)—One of the finest varieties for a small garden hedge. Bright variegated foliage retains its color throughout the entire year. An excellent compact habit.

5/- per dozen; 35/- per hundred

PLUMBAGO CAPENSIS.

A neat hardy hedge plant growing from 4 to 6 feet high. Dainty clusters of pale blue flowers borne in profusion throughout the Summer months make this subject one of the most beautiful we have for hedge-making purposes.

1/6 each; 15/- per dozen

COPROSMA.

Baueri (lucida)—Shining green foliage, very hardy, suitable for near sea coast. 3 feet apart . . . 1/- each; 10/- per doz.

Baueri picturata—Another variegated type. Dark green leaves with golden blotch in centre. 3 feet apart.

1/6 each; 15/- per doz.

Baueri variegata—A fine golden variegated form. 3 feet apart.

1/6 each; 15/- per doz.

COTONEASTER.

Simonsii—For an informal hedge we have perfect faith in recommending this attractive berry-bearing shrub. The flowers come in the spring and are followed in autumn and winter by an abundance of orange-scarlet berries which remain on the shrub for a considerable period. Bushy upright habit, 6 feet high. Plant 2 feet apart 1/6 each; 15/- per doz.

Cupressus Lambertiana Horizontalis and

Cupressus Lambertiana Horizontalis Aurea.

These are the green and golden forms of the well-known Cupressus. Our stocks are all raised by cuttings and are strong healthy, pot-grown trees. We regard 5 feet between trees a minimum space for planting.

For prices see shelter tree section, pages 92, 93.

CUPRESSUS TORULOSA.

(THE NEPAUL CYPRESS)

Tall and upright in habit, this variety is an admirable subject for a small garden hedge. The short branches and neat habit go to make it a perfect tree for specimen use. Plant trees 3 feet apart 2/6 each; 27/6 per doz.

CLIMBING and TWINING PLANTS

Stinton's "Claremont" Grown

OFTENTIMES an odd corner of the garden requires to be divided off from another section, and under this condition the various climbing plants manifest their full value. These plants are also useful for hiding unsightly buildings and old fences. Whilst we do not recommend climbing plants to be planted in a lavish way, we certainly do consider these plants are invaluable under certain conditions; but, it is wholly desirable that those varieties which are hardy and attractive not only in their flowers but in their foliage also, should be used for any planting which is undertaken.

(NOTE.—E denotes Evergreen; D denotes Deciduous.)

ALOE.

Ciliaris—Useful for training against walls. Bright orange, scarlet flowers E. 2/-

AMPELOPSIS (Virginian Creeper).

Henryana—Silvery veined leaves turning red in autumn D. 2/-

heterophylla var. *humifolia*—Long trailing habit, good autumn coloring D. 1/6

quinquefolia (Common Virginian Creeper)—Strong-growing, large foliage, red in autumn D. 1/6

Veitchii—Small leaves, clings strongly to wood and brickwork D. 1/6

ASPARGUS.

Plumosus nanus—Fine fern-like foliage; robust growth E. 2/-

Sprengeri—Fine green foliage; white flowers followed by red berries. Suitable for hanging basket E. 1/6

BIGNONIA (Tecoma).

Australis—Rapid growing creeper, creamy white flowers E. 1/6

Excelsa—Very distinct climber, yellow and white E. 1/6

grandiflora—Large trumpet-shaped orange flowers D. 2/-

Guilfoylei—Orange scarlet flowers D. 1/6

Jasminoides—Glossy foliage, pure white flowers E. 1/6

Lindleyana—Lilac, large leaves E. 1/6

Mackeni—Deep rose, an excellent variety E. 1/6

radicans—Deep maroon red; narrow trumpet-shaped flowers D. 1/6

rosea—Handsome climber, long racemes of pink flowers; fresh green foliage D. 1/6

BOUGAINVILLEA.

glabra variegata—Attractive silver and green foliage E. 1/6

magnifica Traillii—Bright rich purple, the best variety; evergreen E. 1/6

CLEMATIS.

montana rosea—Deep rose color starry flowers in large sprays D. 1/6

FICUS (Climbing Fig).

stipulata—Small leaves, dark in color; clings strongly on wood or brickwork E. 1/6

HARDENBERGIA (Australian Sarsaparilla).

Comptoniana—Rich purple flowers, strong grower E. 1/6

HEDERA (Ivy).

Helix var. *Madagascarensis*—Evergreen, strong grower E. 1/6

Also variegated form E. 1/6

HOYA (Wax Plant).

carnosa—Waxy foliage and rich pink flowers. Plant in warm situation E. 2/6

JASMINUM (Jasmine).

Officinale—Common Jasmine, white E. 1/6

primulinum—Large semi-double yellow flowers, trailing habit E. 1/6

Sambac—White, free-flowering E. 1/6

KENNEDYA.

nigricans—Very strong growing; large foliage; black flowers with yellow spot E. 1/6

rubicunda—Rich scarlet E. 1/6

LAPAGERIA.

rosea—One of the most beautiful climbers in cultivation, producing numerous carmine bell-shaped flowers, more or less spotted internally E. 10/6

LATHYRUS (Perennial Pea).

pubescens—Almost perpetual; free-flowering, large spikes of lavender-blue flowers E. 1/6

LONICERA (Honeysuckle).

chinensis—Yellow and red, fragrant E. 1/6

confusa—Yellow and white, strongly perfumed E. 1/6

MANDEVILLEA.

suaveolens—Sweetly scented, pure white flowers in clusters D. 1/6

MUEHLENBECKIA.

complexa—Fine wiry foliage, small leaves resembling maiden hair fern. Will make an admirable hedge if trained on trellis work. Will stand trimming E. 1/6

PASSIFLORA (Passion Flower).

coerulea—Attractive blue flowers E. 1/6

Constance Elliot—Strong habit. Pure white E. 1/6

Empress Eugenie—Blue and white E. 1/6

PHYSIANTHUS.

Albens—Very quick grower, white E. 1/6

RHYNCHOSPERMUM.

Jasminoides—Evergreen glossy foliage, white. Jasmine-like flower, very fragrant E. 2/-

TACSONIA (Tube Passion Flower).

Mollissima (Banana Passion)—Flowers mauve pink; fruits, large yellow and edible E. 1/6

Morti—Magenta flowers, large fruits E. 1/6

tomentosa speciosa—Carmine red flowers E. 1/6

Van Volxemii—Flowers scarlet E. 1/6

VITIS (Autumn Foliaged Vine).

Alicante Bouchet—Strong growing vine, giving magnificent autumn foliage D. 1/6

WISTARIA.

Sinensis—Beautiful lavender flowers, before foliage D. 1/6

Informal Hedges — Berry Bearing Shrubs

A modern home of to-day placed behind a stiff formal hedge of yesterday loses all its charm and homelike appearance. We cannot actually give you "new lamps for old" but in a sense we can suggest to you several attractive shrubs suitable for an informal hedge and equal to the trend of modern times. Perhaps some of the most useful of our decorative shrubs are the *Crataegus Pyracantha*. Neat in habit, free flowering in spring and an abundance of brightly colored berries in the autumn and winter months furnish the home with a wealth of color in the dull months of the year.

We strongly recommend the planting of the following varieties during the coming planting season.

CRATAEGUS.

pyracantha—A strong evergreen. Creamy flowers in spring followed by large bright orange berries in autumn and winter.

pyracantha augustifolia—Light green leaves with silvery underneath. Rich orange berries which last longer on the bushes than most varieties.

pyracantha crenulata—An admirable hedge shrub, dark glossy evergreen foliage; rich crimson berries.

Plant trees 3 feet apart and allow them to grow as naturally as possible and so obtain the most satisfactory results.

STRONG POT-GROWN TREES . . . 1/6 EACH; 15/- PER DOZEN.

GARDEN PEST REMEDIES

Whether you are a commercial grower or an enthusiastic amateur the control of Insect pests and Fungous diseases is a matter of essential importance and one which cannot be successfully carried out with materials of doubtful value. Hereunder we list a range of standardised horticultural remedies which have been produced under exacting analytical control, thus ensuring uniform chemical composition.

Fungous Diseases

BORDINETTE (Ready prepared Copper Fungicide).

Bordinette is an improved type of copper fungicide which is far ahead of the usual home-made preparations because of its uniform composition, keeping qualities, great strength and the ease with which it is prepared for use, it being only necessary to mix it with cold water as required.

Bordinette is used for the prevention and control of Fungous diseases for which copper in any form is the recognised remedy, such as Black Spot, Leaf Curl, Shot Hole, Downy Mildew, Melanose and Scab, Irish Blight, etc.

8 oz. tins, 1/9 each; 1 lb. tins, 3/- each.

COLLOIDAL SULPHUR.

This is an entirely new form of sulphur, specially prepared in semi-paste form for wet spraying, having remarkable fungicidal properties, due mainly to the fine state of division of the sulphur particles, many of which are so minute as to be beyond the limits of accurate measurement.

Colloidal Sulphur supersedes all other forms of sulphur and will be found the most economical and efficient spray for the control of those fungous diseases for which sulphur in any form is the recognised remedy. In addition to the control of disease it exercises a tonic effect on foliage, producing large healthy leaves and assisting materially in producing strong buds for the following season.

4 oz. jars, 1/9 each; 8 oz. jars, 2/9 each.

Leaf Eating Insects

ARSINETTE (Specially prepared Arsenate of Lead powder).

Arsenate of Lead is a stomach poison used for the control of chewing insects and grubs, such as Codlin Moth, Vine Moth, Leaf-eating Beetles, Caterpillars, etc., and is probably the most widely used Insecticide in all branches of horticulture.

In the selection of an Arsenate of Lead the user should keep in mind the following four points:—

1. Maximum toxic properties.
2. Safety.
3. Fineness of particles.
4. Covering qualities.

Arsinette is specially prepared with due regard to the above four points, and represents the highest grade of Arsenate of Lead it is possible to obtain.

4 oz. tins, 1/3 each; 8 oz. tins, 1/9 each; 1 lb. tins, 3/- each.

NICOTINE SULPHATE (Guaranteed 40% Nicotine).

This material is so well known as to need little description. Nicotine Sulphate is a contact spray used for the control of all classes of sucking insects and pests, being very rapid in its action. It can be used with safety on all classes of fruit, flowers and vegetables. It is also most useful for painting fowl roosts for the destruction of lice and other vermin.

1 oz. tin., 1/3; 2 oz. tin, 2/-; 4 oz. tin, 3/6; 8 oz. tin, 6/6.

DERRIS PREPARATIONS.

During the last couple of years Derris preparations, both for wet spraying or dry dusting, have come into prominence, and are rapidly displacing many of the older types of Contact Insecticides. Derris preparations are non-poisonous and are thus extremely valuable for use in the vegetable and flower garden.

DRYMAC (Non-poisonous Derris Dust).

This is a standardised Derris powder for the dry dusting of plants. It is particularly valuable for the control of Cabbage Grub, Aphis, Caterpillars, etc. Drymac is non-poisonous and quite harmless to human beings, and so can be freely used without fear of contamination.

2 lb. cartons, 2/3; 7 lb. bags, 6/6.

KATAKILLA (Non-poisonous Contact Insecticides).

This is a non-poisonous Derris Insecticide for wet spraying and is an ideal Insecticide for general garden use, more particularly for the control of sucking insects such as Aphis, Thrips, etc. Being non-poisonous, Katakilla can, like Drymac, be used without fear of contamination on fruit, flowers and vegetables.

Large packets, sufficient to make 50 gals., 5/3.

Small packets, sufficient to make 10 gals., 2/6.

Soil Steriliser

(For the Sterilisation of Greenhouse and Garden Soil.)

Briefly stated, this Soil Steriliser kills fungous and insect pests, many of which cannot be reached in any other way, cleanses the soil, pots and other utensils and thus enables the young plant to develop healthily and naturally. Furthermore by destroying the enemies of the beneficial soil organisms, it increases the valuable plant food, and therefore the crop yield.

This soil steriliser can be used for winter work under glass, for sterilising soil heaps, cleansing pots, and in fact for any sterilisation which is necessary in the garden. It will effectively kill soil pests at a dilution of 1—400, which makes it the most economical soil steriliser available.

1 gallon drums, 15/-; 2 gallon drums, 28/-.

Snail and Slug Killers

ARSENATE OF CALCIUM POWDER.

For the destruction of Garden snails, slugs, woodlice and all leaf-eating insects. A heaped tablespoonful of this powder mixed into 1 lb. of bran and distributed in the form of baits in snail infested places quickly clears out these pests.

1 lb. tins, 1/9.

"IDEAL."

A ready prepared poison for the eradication of slugs and snails, also reliable destructor of grubs, beetles, woodlice, etc. This preparation is not affected by rain or water and remains good for a long time.

1/- per packet.

PESTEND.

Composed of finely ground tobacco dust; a good quick-acting snail and slug killer, but soon deteriorates when exposed to water.

Per lb., 6d.; 7 lbs., 1/6; 28 lbs., 4/-.

Scale Pests

ALBOLEUM.

Alboleum is primarily designed for the control of scale pests on trees and shrubs and is particularly valuable for use on citrus. Alboleum is also useful for the control of Red Spider (Bryobia), Aphis, Thrips, Mealy Bug, etc., and in addition it acts as a tonic to the tree or shrub and assists in the prevention of mildews.

$\frac{1}{2}$ pint tins, 1/9 each; 1 pint tins, 2/9 each.

LIME SULPHUR.

A valuable scalecide and fungicide. Destroys Black Spot, San Jose and Mussel Scale, Shot Hole, spores of the Curl Leaf, etc.

$\frac{1}{2}$ pint tins, 9d.; 1 pint tins, 1/3.

Weedkiller

COOPER'S WEEDICIDE.

This is a highly concentrated arsenical preparation for the destruction of weeds, blackberries, green timber and other noxious growth. "Weedicide" is most economical in use, it being only necessary to mix it with cold water in the proportion of 1 gallon Weedicide to 100 gallons water, and apply to the surface which is to be treated, by means of a sprayer or watering can.

Surface rooting weeds can be effectively killed at a dilution of 1—100 and in this regard Weedicide will be found particularly valuable for treating hard tennis courts, drives, paths, etc., as the weeds are killed quickly without disturbing the surface.

1 pint tins, 2/6; 1 quart tins, 4/6; 1 gallon drums, 10/6.

Manures, Fertilisers and Plant Foods

(Prices here quoted are Nett Cash, and do not include Carriage or Cartage, which will be charged for.)

BLOOD MANURE.

7 lbs., 1/6; 14 lbs., 2/9; 28 lbs., 4/6; 56 lbs., 7/6; 12/6 cwt.

BONE AND SUPER PHOSPHATE.

5 lbs., 1/-; 7 lbs., 1/6; 14 lbs., 2/6; 28 lbs., 3/6; 56 lbs., 6/-; 11/6 cwt.

BONE DUST.

For Bulbs, Gladioli, Chrysanthemums and Roses.

7 lbs., 1/6; 14 lbs., 2/9; 28 lbs., 4/6; 56 lbs., 8/6; 15/- cwt.

NITRATE OF SODA.

Tins—1/- each; 7 lbs., 2/-; 14 lbs., 3/9; 28 lbs., 7/6; 56 lbs., 14/6; 1 cwt., 27/6.

FLORAPHOS.

A wonderful fertiliser for producing quick growth.

Makes a clean and odourless liquid manure.

Packets, 4d. (posted 7d.); Cartons, 1/9; 7 lbs., 5/3;

14 lbs. lots or more, 8d. lb.

FLORETTES (Food Tablets for Plants).

Makes them grow to perfection. Keeps Ferns, Palms, etc., in excellent condition.

9d. Carton (posted 10d.). Each carton contains approximately 50 tablets.

SULPHATE OF AMMONIA.

Tins, 1/- each; 5 lbs., 1/3; 7 lbs., 1/6; 14 lbs., 3/-; 28 lbs., 5/9; 56 lbs., 11/-; 1 cwt., 21/-.

FRUIT TREES

Stinton's "Claremont"

ALL the fruit trees as offered in our list have been raised from stock of proven high grade quality. It is quite useless to waste time planting trees which have not been grown from dependable stock, and we have paid particular attention to selecting high grade stock for the propagation of young trees. All the plants are well formed and well rooted, and we have every confidence in recommending our fruit trees to our clients.

Berries and Small Fruits

BLACKBERRIES, Etc.

LOGAN BERRY, BLACK—The fruit of this variety when ripe is black, otherwise it is similar in size and quality to the Red Logan; strong grower.

6/- per dozen; 35/- per 100.

CURRANTS.

BLACK NAPLES. RED VERSAILLES.

6/- per dozen; 35/- per 100.

GOOSEBERRIES.

BILLY DEAN (Red). LORD CREWE (Yellow)
CROWN BOB (Red). ROARING LION (Red).
FARMERS GLORY (Amber). WHITE LION (White).
GREEN OAK (Green).

6/- per dozen; 35/- per 100.

RASPBERRIES.

NORTHUMBERLAND FILL BASKET—The best of all Raspberries for all purposes; fruit very large, and heavy bearer.

10/- per 100.

STRAWBERRIES.

MELBA—This is without exception the best Strawberry. The fruit is large, brilliant red, and of the best flavor. We would strongly recommend this variety to Strawberry growers.

SUNBEAM—A strong grower, large fruit, of good color, and a heavy bearer.

WILSON'S PRIDE—A well-colored Strawberry, flesh tender and nicely flavored, an abundant bearer of large fruit, similar to the old well-known variety "Edith Christie."

2/- per 25; 5/- per 100; 30/- per 1,000.

ALMONDS.

BRANDES JORDAN—A well-known variety of strong growth, very tender shell.

BURBANK—A variety from Luther Burbank; tree extremely hard, and a great bearer; recommended as one of the best for this climate, and flowers much later than other sorts.

PAPER SHELL—Very good, easily broken between fingers.

WHITE NONPAREIL—The tree is a strong grower, of spreading habit, nuts very large, with white shell; a far heavier bearer than "Brandes Jordan."

1/6 each; 15/- per dozen; £5 per 100.

APPLES.

DELICIOUS—A most beautiful and delicious Apple from Iowa. Tree a strong grower, hardy and most prolific bearer, fine colors, like "Jonathan," and most exquisite flavor. One of the best late-keeping Apples.

FIVE CROWN—Superior for cooking or dessert. Round, clear waxen yellow.

GRANNY SMITH—Large and juicy, of a greenish yellow color, will do well in almost any district, excellent variety for export, late.

GRAVENSTEIN—A splendid Apple, good flavor and color; early.

JONATHAN—A well-known variety, highly colored, first-class for dessert, and one of the best for market and export; medium.

MUNROE'S FAVOURITE—One of the best for all purposes; late.

POMME de NEIGE—Flesh white, a fine market apple; medium.

Page One Hundred and Two

Citrus Fruits

LEMONS.

EUREKA—Very like the "Lisbon" but trees almost thornless.

LISBON—A well-known variety, and probably the best of all.

ORANGES.

VALENCIA LATE—Large, oblong and firm. Very late in ripening, and valuable on that account, as it would be marketable when other varieties are done.

WASHINGTON NAVEL—Fruit very large and entirely seedless, very even, of perfect shape and color, pulp melting very juicy, and finely flavored, very prolific bearer. The best variety of all.

GRAPE FRUIT.

MARSH SEEDLESS—Fruit of medium size, thin rind, with about half the usual bitter; almost seedless. Keeps and packs well.

TRIUMPH—Medium size; peel smooth, clear, thin, and fine grained; few seeds; very heavy, juicy, and well flavoured.

MANDARINS.

BEAUTY OF GLEN RETREAT—For extreme beauty, high flavor, and productiveness it is not surpassed by any other variety, and cannot be too highly recommended.

EMPEROR—The largest of the Mandarins; skin almost red, and loosely attached; flesh very juicy, the most profitable for market.

All Citrus are offered in acclimatized trees only; well-grown and carefully balled roots.

5/- and 7/6 each.

REINETTE du CANADA—A large popular Apple, combining many good qualities; late.

ROME BEAUTY—A beautiful late Apple and heavy bearer; one of the best.

STEWART'S SEEDLING—A first-class culinary Apple, large, green, and yellow, with red cheek; late.

1/6 each; 15/- per dozen; £5 per 100.

APRICOTS.

BLENHEIM—A good early variety; large, deep yellow, juicy, and rich flesh; tree regular and heavy bearer.

HEMSKIRKE—Bright orange, tender, rich and juicy, an excellent bearer; medium.

MANSFIELD SEEDLING—Very large, one of the best grown; late.

MOORPARK—A well-known Apricot of great excellence; medium.

OULLIN'S EARLY PEACH—A large fruit of most delicious flavor; one of the best early Apricots.

TILTON—Fruit very large, rich apricot color, high flavor, uniform ripening, productive, with frost-resisting qualities and vigorous growth, which easily place it far in advance of all other varieties; for drying and canning it is much superior to any of the other sorts.

1/6 each; 15/- per dozen; £5 per 100.

FRUIT TREES

Stinton's "Claremont"

CHERRIES.

EARLY LYONS—Black, firm flesh, and large; early.
FLORENCE—Large, very firm, a heavy bearer, late, and first-class market variety.
ST. MARGUERITE—Very large, black, firm, one of the best market varieties, late.

2/- each; 21/- per dozen; £6 per 100.

FIGS.

BROWN TURKEY.
SMYRNA.

LARGE BLACK GENOA.
WHITE GENOA.

1/6 each; 15/- per dozen.

MULBERRIES.

BLACK, ENGLISH—A well-known variety; the best of all.
 2/6 each; 30/- per dozen.

NECTARINES.

EARLY RIVERS—Fruit of largest size, skin rich crimson on sunny side, light yellow, marked with red on shaded side; flesh, tender, juicy and very rich; very early.
GOLDMINE—Fruit of enormous size. A perfect freestone, the pit or stone being extremely small for so large a fruit. Flesh beautiful cream color, tender, juicy, melting, and sugary, and of most delicious flavor; color, bright bronzy red; ripens early in February.

NEW BOY—Fruit of largest size and extremely handsome, covered all over with brilliant crimson; flesh white, juicy, sugary, and of exquisite flavor; tree very hardy and a profuse cropper; one of the best.

1/6 each; 15/- per dozen; £5 per 100.

PEACHES.

BRIGGS' RED MAY—Very early, highly colored, rich and juicy.
ELBERTA—A splendid mid-season Peach, large and handsome, well colored by the sun, yields heavy crops, and carries well.

FOSTER—This is considered one of the best Peaches for drying and canning; large deep orange red, with rich color on the exposed side; flesh, yellow, rich and juicy, freestone; a few days earlier than Early Crawford.

HALE'S EARLY—A really first-class Peach in every way, and always brings the top price in the market.

HIGH'S EARLY CANADA—A very early Peach of greatest excellence, ripening same time as "Briggs' Red May," but a better bearer.

LADY PALMERSTON—Very large, yellow flesh, a fine canning Peach, late.

ROYAL GEORGE—A well-known variety, one of the best; medium.

1/6 each; 15/- per dozen; £5 per 100.

PEARS.

BEURRE BOSCH—A large dessert Pear of first rate quality; medium.

CLAPP'S FAVOURITE—An American Pear of highest excellence, ripens just before "Williams' Bon Chretien"; early.

GANSELL'S BERGAMOT—One of the finest dessert Pears; medium.

KEIFFER'S HYBRID—A very hardy and prolific variety, with a distinct Pineapple flavor; late.

PACKHAM'S TRIUMPH—Beautiful shape, large, and of the most perfect flavor; a good grower, early, and prolific bearer, ripe in April.

VICAR OF WINKFIELD—Large, melting, and very juicy; a very heavy bearer, and a good market pear; late.

WILLIAMS' BON CHRETIEN—Large, buttery, and melting, one of the finest summer Pears grown; early.

1/6 each; 15/- per dozen; £5 per 100.

PLUMS.

ANGELINA BURDETT—Juicy, rich and highly flavored, purple, early.

COE'S GOLDEN DROP—A splendid variety, large yellow; medium.

DIAMOND—Very large dark purple, splendid for preserving and a heavy bearer; medium.

EARLY ORLEANS—A fine early cooking plum.

GRAND DUKE—Very large purple, richly flavored, very productive; considered the best late Plum grown.

GREENGAGE—A well-known delicious Plum; medium.

JEFFERSON—Large golden yellow, juicy and highly flavored, one of the best, medium.

MAGNUM BONUM YELLOW—One of the best culinary Plums, and a heavy and regular bearer; large yellow; late.

POND'S SEEDLING—Large red, a good bearer; first-class for market; late.

RED CHERRY—A well-known early Plum.

1/6 each; 15/- per dozen; £5 per 100.

DAMSONS.

ENGLISH—The good old English variety.

1/6 each; 15/- per dozen; £5 per 100.

PRUNES.

SPLENDOR—As a combined drying, shipping, market and table variety it has no rival. A perfect freestone, and ripens two weeks earlier than the "French Prune."

1/6 each; 15/- per dozen; £5 per 100.

JAPANESE PLUMS.

BURBANK—Large size, nearly globular shape, color clear Cherry red, with a thin lilac bloom, flesh deep yellow, very sweet, with a peculiar and agreeable flavor; strong grower and most wonderful bearer.

SANTA ROSA—Very large, purplish crimson, of first quality for dessert. This is by far the best blood Plum ever introduced. Strong grower, good habit, and regular bearer.

SATSUMA OR BLOOD PLUM—Large and almost globular; the color is dark red from skin to stone; flesh firm, juicy and of a rich spicy flavor; a first-class variety.

WICKSON—The stone is very small; and the flesh of a fine texture, firm, sugary, and delicious; one of the best.

1/6 each; 15/- per dozen; £5 per 100.

QUINCES.

APPLE—Medium size, very prolific.

MANNING'S SEEDLING—One of the best. Tree is a strong grower, and a very heavy cropper.

MISSOURI MAMMOTH—The fruit grows to enormous size, with smooth skin and even outline, quite free from undulations about the eye, of a mild, pleasant flavor, and unsurpassed for cooking. The tree is a luxuriant grower and bears enormously; a first class variety.

PORTUGAL—A very large late Quince.

1/6 each; 15/- per dozen; £5 per 100.

WALNUTS.

WALNUT WILSON'S WONDER—A superb strong growing variety; prolific early-bearing qualities. Early fruiting stock 7/6 each

WALNUT COMMON ENGLISH—A well-known variety.
 2/- each.

GRAPE VINES.

BLACK PRINCE.

DORADILLA.

GOLDEN CHASSELAS.

LADY'S FINGER.

MUSCAT HAMBURG.

RED PRINCE.

SULTANA.

9/- per dozen.

To the Gardening Public

VISITORS are always welcome at our Claremont Nurseries, where all of our products may be inspected in season. We would be pleased to receive notice of intended visits so as to be sure that visitors receive due attention.

Our Moolap Bulb Fields are only open to visitors at certain periods of the year, and permits to visit must be obtained from our Head Office, at Claremont Nurseries, Fairview Street, Newtown.

Dependable Merchandise

True to an Ideal

AT no time have we receded from our *high standard of excellence*. Even when economic conditions were most difficult, *we avoided reducing the price of our products at the expense of quality*. By rigidly upholding our traditional prestige for supplying only the best in *Bulbs, Seeds and Plants*, we have retained the confidence of our many Customers. By virtue of these facts, we are widely recognised for the *dependable quality of our offerings*.

We fully realize the importance of keeping our prices as low as practicable without reducing grades, and our quotations will, we believe, be found to conform with the existing economic situation which confronts the trade generally.

"We can and will supply you to your advantage"

QUALITY MEANS MUCH TO-DAY

Yours faithfully,
STINTON'S "CLAREMONT" NURSERIES
